

WORDS OF HOPE.

TO ALL WHO SUFFER FROM A RUM DOW'S SYSTEM.

Mrs. Harriet A. Farr, Fenwick, Ont., Tells How She Obtained a Cure After Suffering for Two Years.

Thousands throughout this country suffer seriously from general debility—the result of impoverished blood and shattered nerves. To all such the story of Mrs. Harriet Farr, widow of the late Rev. Richard Farr, Fenwick Ont., a lady well known throughout the Niagara district, will point the means of renewed health.

When your blood is poor and watery, when your nerves are unstrung, when you suffer from headaches and dizziness, when you are pale, languid and completely run down, Dr. Williams' Pink Pills will promptly restore your health by renewing and enriching the blood.

Governor Jefferson Davis, of Little Rock, Ark., pardoned a negro on condition that he go to Massachusetts within 30 days with the intention of becoming a citizen of that state.

PLEASE MR. DRUGGIST give me what I ask for—the one Painkiller, Perry Davis, I know it is the best thing on earth for summer-complaints. So do you. Thank you. There is your money.

STEEL IS KING.

NEW YORK, May 13.—President Schwab of the United States Steel Corporation reports that for the past year there were 13,326,705 tons of ore mined; 9,079,142 tons of coke manufactured and 7,152,121 tons furnace product, or 45 per cent. of the total production of the United States.

The manufacturing cost of the steel properties of the corporation's transportation properties, selling value, was \$29,511,012; operating expenses, and taxes, and manufacturing cost, \$16,431,006. The outlay for repairs, maintenance and extraordinary renewals during the year was: Steel making properties, \$19,208,335; coke making properties, \$861,763; transportation properties, \$4,451,590; total, \$24,521,688.

Two men were arrested at New York yesterday charged with stealing the original plans of the Holland submarine boat.

Twitching of The Nerves

Mrs. Drinkwater, 4 Water Street, Galt, Ont., states—My great trouble has been with my nerves. I was very nervous, had twitching of the nerves and could not get to sleep at night.

In Dr. Chase's Nerve Food is found the ideal tonic for blood and nerves, and through these two mediums every organ in the human system is benefited.

PET DOG WASHERS.

The Queer Trade That Flourishes in the French Capital.

As you walk along certain parts of Paris your attention is sometimes attracted by the barking of a dog, and on such an occasion one of the queerest of the outdoor trades of Paris is seen. Near the water's edge, his black coat flecked thickly with soapsuds, stands the dog, and over him, energetically shamprosing the soap into the long, hairy coat, stands one of the professional dog washers who haunt the banks of the Seine at stated spots from the Pont d'Iena to the Pont Neuf.

Sometimes the pet will swim straight out, while the fair owner is in agonies of fear lest some swiftly passing steamer should strike it and end its bathing and swimming days forever. On more than one occasion the dog washer has been driven to plunge in and rescue the bewildered animal lest the infuriated owner should claim compensation for his carelessness.

A fee of 5 francs cannot be considered excessive for a "toilet" including a clipping during which Miff or Nero is held firmly by the lady proprietress of the etablissement des bains, while her assistant uses the patent shears. When all has been completed, the victim, wagging his tail with conscious pride, proceeds to the carriage with his proud and happy mistress and drives away in state, yelping at dogs less aristocratic than he.

FLOWER AND TREE.

Heavy pruning of growing trees will check growth.

Flowering plants should never be watered with cold water. It chills the plants.

The Madeira vine is one of the best climbers, having a wreath of leaves equalled by few other plants.

Repotting of plants becomes necessary at intervals for two reasons. The plant uses up the available fertility in the soil and fills the pots with roots.

The ink plant of New Granada is a curiosity. The juice of it can be used as ink without any preparation. At first the writing is red, but after a few hours it changes to black.

In watering the primrose observe this: Water should not be poured upon the crown of the plant nor the pot filled so full that the water flows over the top. This is fatal to the health of the plant.

To destroy aphides or plant lice dip the ends of the twigs into a strong tea made by steeping tobacco stems in hot water or syringe with whale oil soapsuds, repeating the operation in six or seven days.

Not at All Excited.

In a certain Wisconsin city lives an old German, now past eighty, who has for years been in the hotel business. The old gentleman is very fond of card playing, and pitch is his favorite game.

One day a couple of years ago a party was sitting about a table playing, and just as the cards had been dealt and sorted and it was up to the old gentleman to bid for the trump a boy rushed into the office and in great excitement said the barn was on fire.

Without showing the least perturbation the old gentleman turned to him, and the following conversation took place:

"Did you get out the horse?" "Yes." "Did you the buggy get out?" "Yes." "Well," turning to the players, "I bid three."

The Wrong Way.

Fathers and mothers who do not know how and where their sons and especially their young daughters spend their evenings are guilty of a negligence that is little short of criminal and that, too, often leads to sad consequences. The American habit of letting the young folks "have their own way" in choosing their associates and methods of recreation is responsible in every city for a good deal of evil that might be prevented by parental firmness judiciously exercised.

Anticipated.

Stern Parent—I suppose you are aware, young man, that I cease to provide for my daughter when she leaves my roof?

Suitor—Oh, yes! We have settled about that—Bertha and I. We have decided to make our home with you.

The Very Best.

Mrs. Nurich—I want some terrapin. Dealer—Yes'm. Diamondbacks? Mrs. Nurich—Yes, and see that the diamonds are of the first water.—Ohio State Journal.

Silk Cotton Tree. Although the silk cotton tree is a native of South America, there is one specimen of it in Nassau, Bahama islands, that has flourished wonderfully and is one of the greatest curiosities on the island.

The roots seem to be unable to find their way down after the manner of ordinary roots and so swell up like great buttresses radiating round the trunk of the tree, rising from the ground to a height of from six to twelve feet. They reach out to irregular distances, gnarled and twisted in the most curious fashion.

The great seed pods are filled with a fine, soft fleece of silk, which the natives use for filling their pillows and mattresses. There are several specimens of the tree on the island of New Providence, but this one is monarch of them all.

A Fly That Kills Horses. All white men who visit regions in Africa infested by the tsetse fly have much to say about it. There is now evidence that the tsetse is moving gradually to more northern regions, and the cause is supposed to be that South Africa is depleted of its large game, much of which is moving northward to get away from hunters, and the tsetse fly is going with it.

To Promote Marriages. It is a superstition in some parts of England that after a young couple have departed for their honeymoon hot water should be poured on the threshold in order that other marriages may follow.

In Iceland another plan is in vogue. The bride, on reaching her husband's house, has to give a dinner cooked with her own hands to show how well she has been instructed in the parental home.

A Menace to Vessels. The fiction of the mysterious loadstone mountain which drew the hulls out of ships that approached near enough has a certain foundation in fact, says the Siecle.

Lavoisier's Death. Without the contrasted patience of moral and physical pain there are men of high intellect for whom the latter has no terrors.

Page Metal Ornamental Fence. We now make ornamental very showy and surprisingly cheap fence that is wanted for dog yards, division fences in lawns, grave yards, orchards, etc.
