

Woman's Fortitude

SEVERELY TRIED BY AFFLICTIONS PECULIAR TO THE SEX.

Ordinary Medicine Will Not Cure Because it Merely Touches the Symptoms—How to Get at the Root of the Trouble.

Behind the veil of her womanly modesty and fortitude, nearly every woman suffers indescribably from time to time, and continues to suffer in spite of all her efforts, because ordinary medicine is powerless to do good in such cases. Ordinary medicine may give temporary relief—even a purgative may do that—but the one great medical discovery capable of permanently curing and preventing a return of the ailment is Dr. Williams' Pink Pills. These pills are not an ordinary medicine; they are not a patent medicine, but the prescription of a regularly practicing physician who used them in his private practice for years, before they were given to the public under the name of Dr. Williams' Pills. They are the best medicine for man; the only medicine for woman. Mrs. John McKerr, Chichester, N. W. T., says: "Dr. Williams' Pink Pills have saved me many a dollar in doctor's bills. For some years I was greatly afflicted with ailments that make the life of so many of my sex miserable. I tried many medicines but found no relief until I began the use of Dr. Williams' Pink Pills. These pills have made me feel like a new person; the almost continuous suffering I endured has passed away and life no longer seems a burden. I know of other women who have been similarly benefited and I think Dr. Williams' Pink Pills worth their weight in gold to those who suffer from female complaints or general prostration."

The happiness of health for both men and women lies in the timely use of Dr. Williams' Pink Pills, which act as a nerve tonic and supply new blood to enfeebled systems. They have cured many thousands of cases of anaemia, "decline" consumption, pains in the back, neuralgia, depression of spirits, heart palpitation, indigestion, rheumatism, sciatica, St. Vitus dance and partial paralysis. But substitutes should be avoided if you value your health; see that the full name "Dr. Williams' Pink Pills for Pale People," is on every box. Sold by all dealers or sent post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

WHAT IS LIFE TO YOU?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

Hon. M. H. Herbert, nominal secretary to the British embassy at Paris will probably be appointed British ambassador to United States.

The Cause of Woman's Ills

In almost every case where woman suffers from ill's peculiarly feminine the cause is to be found in a weakened and exhausted condition of the system. The nerves are depleted and the blood thin and watery. If medicines have failed to cure, it is because the wrong treatment has been used.

Mrs. Henry Clark, Fort Hope, Ont., states: "I have used seven boxes of Dr. Chase's Nerve Food for nervousness and a completely run down system, and can heartily recommend it as a wonderfully effective treatment. Before using this remedy I had been in very poor health for some months. I seemed to have no energy or ambition, felt tired and listless most of the time, and could scarcely drag myself about the house. I was weak, irritable and nervous, could not sleep well, and felt discouraged about my health. Dr. Chase's Nerve Food has taken away these symptoms and given back my usual health and vigor, consequently I endorse it fully."

Weight Pains.

A young woman teacher in one of the grammar schools in Brooklyn was speaking of her work the other day. She said that unless a person had some experience in teaching he could scarcely understand how marvelously stupid some children were and what peculiar mistakes ordinarily bright children sometimes make. To illustrate her point she told three stories from her own personal experiences. One day, on a language examination, the following was one of the topics: "Name three kinds of sentences and give examples." This is the way one of the children met the problem. He wrote: "Declarative, interrogative, imperative. 3+2=4. 9x2=18. 13-6=7."

On another day one of the questions in a grammar examination read: "I cannot see it." Complete this sentence by using the words plainly or plainly. Give your reason."

One bright youth wrote this answer: "I cannot see it plain." Reason: Because it is too far away."

Another scholar answered the question as to why the Dutch settled on the Hudson river by saying, "Sothey could have a place to wash."

Evils of Excessive Smoking.

While a good cigar, used temperately two or three times a day, may be smoked by the average adult man to good advantage, excessive indulgence in smoking is very harmful. It is only necessary to recall one's first cigar and the profound effect it produced to realize that the smoking of tobacco in large quantities is trifling with a dangerous agent, says the Baltimore Sun.

The chief effects of smoking are from the nicotine and emphyreumatic oil, the first being an active poison—an infinitesimal quantity will destroy life—and the latter, which is the rank accumulation in the stem of the pipe, is also a potent poison, one drop on the tongue of a cat having been fatal. The nicotine and the oil both act on the nervous system, though differently, the nicotine paralyzing the heart by its action on the brain, while the oil confines itself chiefly to the spinal cord and the motor nerves.

It will thus be seen that no part of the victim's equipment escapes the deadly effect of tobacco in excess.

Railroading Terms.

Railroading terms in England and America differ very widely. The English would speak of shunting a train. We call it switching. Freight trains they call goods trains, coaches are carriages, conductors are guards, engineers are drivers, trucks are boggies and freight cars are wagons. The British always say station instead of depot, and in that they have the better of us. Rails they call metals and tracks permanent ways. They do not get their tickets at a ticket office, but at a booking office, and the smokestack of the locomotive is to them the chimney. A railroad man going from one country to the other finds that he has to learn an entirely new set of phrases about his business.

A Chameleon's Bite.

The bite even of the largest chameleon does not fetch blood, though the teeth leave indentations. I often, says a naturalist, provoke them to bite me in order to observe their habits, and only once, when one caught me between the fingers where the skin is tender, was I really hurt. On this occasion the thing held on so persistently and firmly that I could not for some time free my finger. At last I was obliged to call some one to get it off by forcibly opening its mouth. Even then it did not pierce the skin. Its teeth are too fine and regular, but the dotted triangular impression of the little teeth was very red and distinct for some minutes.

Do Your Work Well.

Possibly you think your employer does not notice you or know about your work. The writer of this was talking the other evening to an extensive employer of labor, and he talked most of the evening about his workmen. He knew all about every one of them, from the head man to the laborers, and noted their good and bad points. Don't forget that your employer knows all about you. When he needs a new foreman or superintendent, he knows the one to select.

To Little Profit.

"Don't you think I preached a very poor sermon this morning?" asked the new preacher of the deacon, from whom he expected a compliment. "Yaas, I do," drawled the honest deacon, "but it runs in my mind that I've heard worse, of I cud only rickollect wher' it wuz."

The Trouble.

Wicks—There should be a law to restrain the theaters from printing those mossy jokes in their programmes. Hicks—You don't have to read them. Wicks—No, but you usually have to listen to some idiot behind you reading and explaining them.

Determination.

"I am afraid that your boy lacks determination," said the neighbor. "That's where you wrong him," answered Farmer Cornstessel. "I never saw anybody as determined not to work as Josh is."

The Same Air.

Mrs. Homer—Jane, open that window and let a little fresh air into the house. Jane—It isn't fresh air at all, mem; it's the same air that's been about here all the morning.

The Wear and Tear of It. "You must find it wearing to be the wife of a genius." "Yes; so many fools want to know how I am able to get along with him." —Chicago Record-Herald.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

Then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

Page Woven Wire Fence. Owing to the variations of the Canadian climate, considerable allowance must be made in all fences for contraction and expansion, which makes an ordinary wire fence unserviceable, as when it expands it becomes so loose as to prove of little value. Note this makes it elastic and self-regulating. The Page Wire Fence is made of "Page" wire, which is twice as strong as ordinary wire. Prices are particularly low this season. 50,000 miles of Page fences now in use. We also make Gates, Ornamental Fences and Poultry Netting. The Page Wire Fence Co., Limited, Walkerville, Ont.
