**THE CANADIAN BACON TRADE IN GREAT BRITAIN IN DANGER.**

A great many undesirable hogs are being marketed by the farmers throughout the Province of Ontario. These are being converted into export bacon, and forwarded to Great Britain, and because of their quality, are sold there at a loss. This loss must ultimately be borne by the farmers, although the packers at the present moment, are being severely punished.

As an example we quote the condition of the trade at the Geo. Matthews Company's factory, Ottawa, for the months of November and December, 1901, and the first week of January, 1902. In November, 1901, a total of 8970 pigs were received at this factory. Of these 5703 were "Selects," 1602 were "Lights," 1244 were "Light fats," 86 were "heavy fats," 97 were "sows," 5 were "stags," 13 were "cripples," and 220 were "Stores," these latter being lean pigs, unfit for any purpose. Of 515 hogs received at the factory in December, 1901, the "Selects" numbered 2875, the "Lights" 1173, the "Light fats" 720, the "Heavy fats" 51, the "Sows" 74, the "Stags" 7, the "Cripples" 35 and the "Stores" 217. From the 2nd to the 4th of January 1902, 1069 hogs were received. Of these 276 were "Selects," 608 were "Lights," 166 were "Light fats," 10 "Heavy fats," 14 "Sows," 6 "Stags," 7 "Cripples" and 92 "Stores." This makes a total for the nine weeks of 8854 "Selects," 3282 "Lights," 2120 "Light fats," 147 "Heavy fats," 185 "Sows," 18 "Stags," 55 "Cripples," and 529 "Stores," Total 15190.

Pigs termed "Selects" are those that can be made into the best class of Wiltshire bacon, and are the sort that have made Canadian Bacon famous on the English market. In order to keep up the price of hogs, the packers must receive the sort of hogs that will make the finest Wiltshire sides. To make this the packers must have smooth, deep well fed pigs, with a large amount of lean meat in the carcasses, in proportion to the amount of fat. They must be well finished, and weigh on reaching the packing house from one hundred and eighty (180) to two hundred (200) pounds. On the pigs termed "Lights" the packers lose at least one dollar per head. The "Light fats" can be cut up and put into the retail trade, but too large a number of these light pigs, would at any time, glut the local market. The "Heavy fats" can be worked up, when not too numerous, but will sell for at least one half dollar per hundred, live weight, less than "selects." "Sows" and "Stags" are very poor property, and can only be used in supplying a very inferior trade. In order to be of any value to the packers, "Sows" and "Stags" should be made as fat as possible. "Cripples" are of little or no value to the packers, and are always fed at a loss to the farmers. "Stores" should never reach the pork packers, yet thousands of them are sent every week to the market by the farmers.

If the Farmers continue to market such a large number of undesirable pigs, it will seriously injure the Canadian Bacon trade in Great Britain, and will bring about greatly reduced prices for hogs throughout Canada.

**AN EXCEPTIONALLY STRONG NUMBER.**

The excellence and variety of the features presented by the February number of THE DELINEATOR are typical of the progressiveness of this favorite woman's magazine. The fashion matter is as timely as special correspondents at the world's most important fashion centres can make it. Ira D. Sankey continues the story of his tour, and his description of the Holy Land is even more interesting than his story of the journey through Egypt. Prof. Anthony Baker, contributes the first series on Athletics for women, the article dealing with Physical Culture at Home. Dr. Grace Peckham Murray introduces a series of articles on Child Training by describing the disposition and tendencies of every-day children. In the series of Notable Women Dr. S. R. Elliott gives some interesting glimpses of Charlotte Cushman. A finely illustrated article on The Treasures of Jewish Ceremonial is contributed by Waldon Fawcett. The story by Helen Choate Prince, Reflected Lights, has all the delicate charm of that author's work, and The End of a Resolve, by Margaret Whillans Beardsley, is full of dramatic interest. A Disappearing Race is a profusely illustrated article treating of Poor Lo's squaw and the papoose. In the household department Alice M. Kellogg deals in a practical way with floor coverings; and Annie W. Morrison illustrates a table attractively set for a Washington Lunch. The children's pages maintain their high standard. The other departments of the magazine have their usual interest.

If a child eats ravenously, grinds the teeth at night and picks its nose, you may almost be certain it has worms and should administer without delay Dr. Low's Pleasant Worm Syrup, this remedy contains its own cathartic.

**AN AGED MAN'S SUICIDE.**

NEW YORK, Jan. 10.—Christopher Miller, 90 years of age hanged himself in the bath room of his son's home early to-day. A week ago the old man was much grieved by the death of his sister-in-law at the age of 81 years and his mind was further upset by reading of the accident in the New York Central tunnel on Wednesday.

ADDRESS: **ARNOLD MEDICINE CO., Dept. W. 4 E Tor nto.**

MONTREAL, Jan. 11.—Within the last month or two enquiries have been made regarding large blocks of land in the east end of Montreal. Since the announcement of S. R. Calloway, president of a big American locomotive company with a capital of \$40,000,000, that his company would like to and probably would establish a branch of their works in this city, many real estate men and people well posted on railway matters, believe these enquiries are being made in connection with the proposed works, and considerable interest is being taken in the story. The fact that the Canadian locomotive works at Kingston declined an offer of half a million dollars from Mr. W. J. Arkell, who was largely instrumental in bringing about the consolidation of the American companies, and asked double that figure for their property, is proof enough that a great improvement has taken place in the industry in Canada recently. The Canadian works are said to be full of orders, and sold ahead for months. Since April last, when the works first began to turn out locomotives under the new management, thirty engines of different varieties have been delivered, and still Canadian railways are ordering from American companies. The Quebec and Lake St. John Railway have been unable to secure locomotives in Canada, and have just placed an order for thirteen with the Baldwin locomotive works, delivery to begin in February, while the Midland, of Nova Scotia, the Canadian Northern, Intercolonial, Grand Trunk and Canadian Pacific are forced to import a large part of their motive power, so that it is not surprising the big American trust should be anxious to establish works in the Dominion.

**THE AGONY OF SLEEPLESSNESS.**

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

OTTAWA, Jan. 11.—J. M. McDougall, K. C., has raised a point that Parliament was not legally called last year on account of the proclamation summoning it being issued in the name of Queen Victoria. Before it met the Queen died and King Edward VII reigned. Mr. McDougall is of the opinion that a new proclamation should have been issued under the King's name.

Hon. David Mills, than whom there is probably no higher constitutional authority in this country, says that parliament was summoned under the great seal and therefore no new proclamation was necessary. After the death of King William IV, Queen Victoria used the King's great seal for twelve months. As a matter of fact, Queen Victoria's great seal is still being used in Canada and if there was anything in the point raised, then all orders and appointments under it would be illegal. Mr. Mills therefore does not see that there need be any fear that the summoning of parliament was unconstitutional.

British Troop Oil Liniment is unsurpassed by any liniment on the market today. It is composed of healing, soothing and cleansing vegetable oils and extracts. It is put up in large bottles for the small price of 25 cents.

**TEETHING BABIES.**

**A Trying Time for Mothers When Great Care and Watchfulness is Necessary.**

There is scarcely any period in baby's early life requiring greater watchfulness on the part of the mother than when baby is teething. Almost invariably the little one suffers much pain, is cross, restless day and night, requiring so much care that the mother is worn out looking after it. But there are other real dangers frequently accompanying this period that threaten baby's life itself. Among these are diarrhoea, indigestion, colic, constipation and convulsions. The prudent mother will anticipate and prevent these troubles by keeping baby's stomach and bowels in a natural and healthy condition by the use of Baby's Own Tablets, a medicine readily taken by all children and which, dissolved in water, may be given with perfect safety to even a new born infant. In every home where these Tablets are used baby is bright and healthy and the mother has real comfort with it, and does not hesitate to tell her neighbors. Mrs. C. J. Delaney, Brockville, says:—"I have been giving my fifteen-months' old baby Baby's Own Tablets, whenever necessary, for some months past. She was teething and was cross and restless. Her gums were hard and inflamed. After using the Tablets she grew quiet, the inflammation of the gums was reduced, and her teeth did not seem to bother her any more. An improvement in baby's condition was noticeable almost at once, and I think there is no better medicine for teething babies." Baby's Own Tablets can be procured from druggists or will be sent post paid at 25 cents a box, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

**A GUARANTEE**—"I hereby certify that I have made a careful chemical analysis of Baby's Own Tablets, which I personally purchased in a drug store in Montreal. My analysis has proved that the Tablets contain absolutely no opiate or narcotic that they can be given with perfect safety to the youngest infant; that they are a safe and efficient medicine for the troubles they are indicated to relieve and cure."

**FOR BAD BLOOD.**

Blotched sallow, unwholesome and muddy skin with its consequent mortification, often leading to torrid seclusion, shows that your blood is bad. The only way to clear the complexion and restore it to its normal healthy condition is to clean out the entire system by removing the cause of the impure blood. "Herbine Bitters does it," working gently and painlessly and at the same time acting as a tonic for the whole system, building it up, not weakening and irritating it as other medicines do. At all druggists or of J. Brayley Sons & Co. Montreal. Large size 25 cents, double size 50 cents.
