Best Advertising Medium in North ern New Brunswick.

Subscription \$1.00 per annum: if not paid within three months, \$1.50. Advertising Rates: \$1.00 per inch 1st insertion. 50 cents per inch each continuation. Yearly rates made known on application. Professional Cards \$5.00 per year. Yearly advertising payable quarterly. Transient advertising payable in advance. Notices of Births, Marriages and Deaths inserted free. Verses accompanying death notices will be charged for at regular rates. Correspondence or any subject of general interest invited. Items of news from any place will be thankfully received. We do not hold ourselves responsible for opinions expressed by our correspondents. All communications must be accompanied by the writer's name in confidence to ensure insertion.

LEGAL NEWSPAPER DECISIONS.

1. Any person who takes a paper regularly from the Post Office—whether directed to his address or another, or whether he has subscribed or not—is responsible for the paper. 2. If any person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until payment is made and collect the whole amount, whether it is taken from the office or not.

RICHIBUCTO, N. B. MAR. 13, 1902

REPORT ON AGRICULTURE

The report of the Commissioner of Agriculture which has been laid before the provincial legislature will be of interest to the farmers of the province. Mr. Farris congratulates the province on an era of prosperity among farmers unequalled since Confederation. The market for all kinds of farm produce he declares has never been better, and the prices never more satisfactory. The trade in hay and horses has been largely increased owing to the war in South Africa and to the successful season enjoyed by lumbermen who are large consumers of hay, oats and other agricultural products. The growing and cultivation of fruit trees has also, he declares, received much more attention than in former years and he is of the opinion that the soil and climate of this province is well adapted for the raising of apples, plums and other fruits. The Commissioner also believes that our farmers should pay more attention to the production of bacon which is such an important article of commerce, and advocates the establishment of a large pork-packing house at a convenient point affording facilities for shipping the product. Reterring to the raising of poultry he strongly urges farmers to pay more attention to and engage more extensively in this branch. A market for our poultry is always open in the western provinces and liberal prices can be secured if the supply is sufficient to open up a trade between this province and the west. Speaking of the result of the government's policy of granting aid in the erection of roller flour mills, he reports that there are now twenty-one roller mills in operation in the province with a capacity of from twenty-five to fifty barrels of flour per day each. The growing of wheat has in consequence been greatly stimulated and he anticipates great results from this policy. Mr. Farris is evidently of the opinion that the parish Agricultural Associations are not doing as effective work as could be desired. He says, "The plan we think most effective would be to abandon the small shows, and hold County exhibitions by the Agricultural Societies uniting together and putting forth one grand effort to make the show a success, after first having got a suitable location, with proper buildings, etc., erected for the purpose, then make selections of the prize animals and other articles with a view of sending all to a central point, where a provincial or international exhibition may be held."

The Commissioners in the St. John Hospital matter evidently intend to make a thorough and exhaustive inquiry into the affairs of the institution and its management. Chief Justice Tuck, the chairman, left last week for Montreal. He will inspect the hospitals in that city and will then proceed to other Canadian and American cities on the same errand. On his return further sittings of the Commission will be held.

THE STATUTES.

It is to be regretted that the revision of the statutes of this province will not be completed this year. The last consolidation was in 1877. Every year, since amendments and additions have been made and in many cases it is now impossible to know what the law really is without searching through every one of the Acts of Assembly since published. Whole chapters have been repealed and new provisions substituted, while other parts have been so frequently amended that the original statute only tends to mislead. Lawyers may perhaps be able to spell out the law by wading through more than twenty volumes of these Acts of Assembly, but magistrates and others whose duties compel them to seek information from the statute law of the province, are often puzzled to know where to look for the information required. Very often this leads to great confusion and sometimes to great injustice. When, therefore, the government decided to revise and consolidate the statutes there was a general feeling of satisfaction. It was expected that the work would be completed and passed during the present session of the legislature, but it has doubtless proved a heavier undertaking than was expected. We may however expect to have the work completed before the next session.

KIPLING'S CRITICISM.

In a letter recently published in the London papers, Rudyard Kipling compares the American method of conducting operations in the Philippines with British methods in South Africa. He says:

"All you say about the Philippines, the conflict between the Americans, military and civil, and the pig-headedness of the military and their habit of setting 'bulldogs to catch rabbits,' is immensely cheering to me, because it is precisely what we are doing in South Africa. You cannot persuade a big country full of prosperity that it does not know everything. When it has lost a few thousand sons and a few millions sterling it may, if unusually enlightened, begin to understand that it has taken hold of the wrong end of the stick. But that is a great deal to hope for, and probably will not come in our time. I am very glad to learn on your showing, that the American seems to be 'constitutionally incapable of admitting himself wrong and frankly putting himself in the right,' because I do not like to think of the Americans as more logical than ourselves. Of course, what a new country wants is a high-toned despot of unlimited powers and absolute integrity. But as America and England are both free countries we must just muddle along in the expensive, wasteful, butcherly fashion that attends our methods."

The Commissioners in the St. John Hospital matter evidently intend to make a thorough and exhaustive inquiry into the affairs of the institution and its management. Chief Justice Tuck, the chairman, left last week for Montreal. He will inspect the hospitals in that city and will then proceed to other Canadian and American cities on the same errand. On his return further sittings of the Commission will be held.

Bentley's Liniment relieves Neuralgia.

This is the Page Standard II Bar Fence, made of "Page" wire which is twice as strong as common wire. The continuous coil, note wavy appearance, allows for expansion and contraction which is important owing to Canadian climate. Our upright wires are in one piece and have strength of about 900 pounds. If made of pieces spliced at each horizontal, they would have a strength of only about 300 pounds. We also make gates, ornamental fences, poultry netting, nails and staples. The Page Wire Fence Co., Limited, Walkerville, Ont.

The measure projected by the provincial government for the reservation of a park in some locality in the interior of the province is one that should meet with the approval of everybody. Both as regards the protection of game and the preservation of our forest, it will be of the greatest value.

CAREFUL MOTHERS.

Should Always be Prepared to Promptly Treat the Minor Ailments of Their Little Ones.

No mother can hope that her children will escape all the minor ailments that afflict little ones, and she should be prepared to treat these ills instantly when the emergency arises. At the same time mothers cannot be too careful what they give their little ones in the way of medicine. Doctors have long protested against the use of the so-called "soothing" preparations and they are still used and with alarming frequency by mothers. These preparations invariably contain opiates which drug and stupefy the little one into temporary quiet or sleep. For all the minor ills of little ones there is no medicine acts so speedily as Baby's Own Tablets and they are sold under a guarantee to contain no opiate or other harmful drug. Thousands of mothers now use no other medicine for their little ones, and all who have tested it speak of its prompt and safe action in the warmest terms. Mrs. Geo. B. Kilgour, Wellwood, Ont., says: "I have used Baby's Own Tablets in my house for some time and I can sincerely say that they were the best medicine I have ever used for my little ones. They act promptly and the results are always beneficial. I think mothers should keep these Tablets constantly in the house."

Baby's Own Tablets are a positive cure for such troubles as colic, sour stomach, indigestion, constipation, simple fevers, diarrhoea and worms. They break up colds, prevent croup, and allay the irritation accompanying the cutting of teeth. Sold by druggists at 25 cents a box, or sent post paid on receipt of price by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

NEW RAILWAY TO KENT JUNCTION.

CHIPMAN, IN KINGS COUNTY, TO BE CONNECTED WITH RICHIBUCTO.

The Fredericton Gleaner says: A new railway project is in the air. It will get a hearing and exploitation before the Legislature. Mr. Gilmer Brown, C. E., is promoting the new scheme, and will ask the Legislature for a charter and a subsidy. The immediate project is for a line of railway from Chipman, Queens County, to Kent Junction, Kent County, a distance of forty miles. It is claimed that this will open up a section of country at present practically unknown and will give an outlet to the products of the coast and Kent county; but a much larger scheme than that is involved. Chipman is about half way between Fredericton and Kent Junction, and the new line will connect with the line now under construction from Chipman to Fredericton, and by connection with Kent Northern will give a direct route from the provincial capital to Richibucto. It is proposed to run a steamer from Richibucto to Prince Edward Island, a very short distance, and on the Island to build a six mile section of railway to connect with the Island via the projected line the most direct and shortest route, through Fredericton, with the United States and the West. The new line, as can be seen (on paper), will afford a generous feeder to the line now under construction from Chipman, the immediate object of which is to give an outlet for the Queens county coal.

Sad Drowning at Cocagne.

COCAGNE, March 13—Mr. Joseph J. Williams, of Notre Dame, returned from Shediac last night, and took the ice at Cocagne, with the intention of following the North Shore. Having gone a short distance he became confused and (owing to the dense fog), drove into open water near the south shore. His cries for help attracted the attention of some men at the Bay View, who with all possible haste hurried to the rescue, but reached there only in time to see the horse and the unfortunate man disappear in the channel. The body was recovered this morning lying in the sleigh, and by many sorrowing friends conveyed to his home. Mr. Williams was fifty-five years of age and leaves a wife and grown family.

TO THE YUKON AGAIN.

GEO. AMEREAUX, OF RICHIBUCTO GOES TO LOOK AFTER HIS PROPERTY. HAS ELEVEN CLAIMS, SOME OF WHICH HAVE PROVEN RICH IN GOLD.

Messrs George and James Ameraux, of Richibucto, who spent a few days in Fredericton the first of the week and left on Wednesday afternoon for the Yukon, start out with every prospect of success in that country, in which Geohas spent the best part of four years. He was one of the members of the original George Black party which went from here in the spring of 1898 and he spent two years with that company, locating its claims and assisting in the work of opening them up. In the summer of 1901 he started out to locate claims for himself and has eleven claims on Lake Martin and Summit creeks, tributaries of the Big Salmon, which flows into the Yukon.

Two of these claims he worked sufficiently last summer to prove that they contain valuable pay streaks and a considerable quantity of the yellow matter was taken out. He then built four cabins on his property and provisioned them for two years. In September last he came home to spend the winter and to make arrangements for spending another two years in the Yukon. He has had four men at work taking out dirt on his claims all winter, and while he has not heard anything from them as to the results of the winter's work—and will not until the clean up in July—he confidently anticipates substantial returns.

The claim that is being worked this winter is located on low swampy ground and can only be worked when the ground is frozen. As soon as the surface of the ground thaws in the summer the flow of water puts a stop to mining operations, and then the dirt taken out in winter is washed, the streams affording an abundant supply of water for sluicing. Mr. Ameraux has other claims located where they can be worked in summer, so that he does not expect to be idle at any time of the year.

Big Salmon is the name of the mining camp where he is located and is a place of considerable importance. It is one hundred and forty miles from Dawson. The claims of the Fredericton Mining and Development Company (the Geo. Black Co.) are located in the Big Salmon district and not far from those of Mr. Ameraux.—Gleaner.

BIRTHS.

STEVENSON.—At Readville, Mass., on Sunday, March 9th, to Mr. and Mrs. J. D. Stevenson, a daughter.

Pleuritic Pains a Dangerous Signal.

Prompt treatment is essential. Bathe the region of pain immediately with Polson's Nerviline and quickly bind on a hot bandage sprinkled with Nerviline. Never known to fail. Cures almost instantly. Neuralgia, toothache, rheumatism and lumbago are cured by Nerviline just as readily. Polson's Nerviline cures all pain and is the best household liniment known. Large bottles 25c. For sale at R. O'Leary's General Store, Richibucto.

Light Without Sight.

We can "perceive" light without the smallest aid from the retina. If the optic nerve is sufficiently excited to reach the sensorium and create a disturbance at that center of the brain where the optic nerve terminates, we shall then see light and sparks. If, moreover, the optic nerve is cut or mutilated in any way, we should see a brilliant flash of light, though without any sensation of pain. And so it is with the other nerves. The auditory nerve has only to be excited, not necessarily by sound, so as to reach its center, the brain, and we shall hear a sound. How many ghosts might not be destroyed in this way?

The Danish Mascot.

The chimney sweeper is the Danish mascot. You see him in gold or silver, suspended on a lady's watch chain, instead of the "lucky pig" or horseshoe, which is the English symbol of good luck. He also appears on note paper and postcards, implying that your correspondent wishes you a rise in life. It is the old fashioned sweep that is thus depicted—he who had actually to climb the chimney, his implements being a four foot ladder, a short broom and a pea.

Three Operations Failed to Cure Itching Piles.

News of a Marvellous Cure Files Across the Continent—Father and Son Unite in Praising Dr. Chase's Ointment.

Some cures effected by Dr. Chase's Ointment seem like miracles. Here is a case where doctors labored in vain and operations failed to cure. Mr. Donald McLeod, Tarbotvale, U. E. writes:—

I received the sample box of Dr. Chase's Ointment, shortly has done me a considerable amount of good. I am now enclosing payment for a large box of Dr. Chase's Ointment, which you will please send to my address. I have had itching piles for four years and did not know of any medicine that would relieve me until last fall, when I received a letter from my son in Winnipeg, who said that three doctors treated him and operated for piles, but failed to cure him. He now thanks God and Dr. Chase's Ointment for a perfect cure. He had piles in the worst form, and suffered terribly. He is now working hard every day, and does not feel any symptoms of piles returning. You are at liberty to use this letter for the benefit of others. There is little use trying to cure piles unless you use Dr. Chase's Ointment. It is certain to afford quick relief and ultimately through cure. Write for a box, at all dealers or Edman and Bates & Co., Toronto.

THE TURQUOISE.

The turquoise, the birthstone for December, signifies prosperity.

The turquoise was a familiar and favorite gem among the ancient Mexicans and Indians of the west.

The turquoise fades when its owner is ill, and dies when the wearer is attacked by an incurable malady—so they say.

The Germans claim that by its varying shades the turquoise turns telltale on the caprices and moods of its wearer.

Shakespeare gives these words to Shylock: "He would not have lost his turquoise ring for a whole wilderness of monkeys."

The turquoise derives its name from a word meaning Turkish and is so called because the first turquoises were found in Turkey.

If your birthday comes in December and you wear a turquoise, you need never be afraid of falling off a high place. One of the powers of the azure hued gem is to preserve its wearer from this catastrophe.

It is also said that it has the power of protecting its wearer against contagion. A turquoise would certainly be an ornamental substitute for vaccination. Its efficiency would probably depend upon the "faith" of the wearer.

Rabbits at Play.

Rabbits play in this way: Two of them—I have not seen it played with more—run quickly toward each other, and when on the point of contact each leaps into the air, but one higher than the other, clearing him completely. They come down with their tails toward each other, but instantly, with an "as it were," "Excuse my tail!" both turn and run and leap again, and this they will do from two or three to half a dozen times, always leaping up at the exact moment when they would otherwise come into collision and one always taking the higher leap—sometimes an astonishingly high one—right over his companion. They never meet in the air, nor can I see how this can be avoided except by a plan or figure being mutually followed by them, as with ourselves in a game or dance. I believe that each clears the other alternately, but I have not yet convinced myself of this.

The Quick Craze.

The quick craze is by no means new, but seems just now to be more intrusive than ever before. Here is a young woman practicing fourteen hours a day to cultivate her voice. Result, lost voice. Nearly all the pugilists, active and retired, are writing volumes on "How to Get Strong Quick," and the readers are exercising two or three hours a day, when ten minutes are quite enough. Result, lost health. The get rich quick fellows, in jail and out, are hiring able lawyers to help them devise schemes that will defy the law and enable them to fleece lambs regardless of the code.

To Poultry Raisers.

I will be prepared, September next, to purchase four or five hundred young Plymouth Rock, cockerels, or high grade cockerels of that breeding, weighing not less than two pounds each, for which I will pay four cents per pound, live weight. Parties having the same for sale will please communicate with

R. P. DOHERTY.

SHERIFF'S SALE.

There will be sold at Public Auction in front of the Court House in the Parish of Richibucto, in the County of Kent, and Province of New Brunswick, on MONDAY, THE TWENTY-FOURTH DAY OF MARCH, A. D. 1902, at the hour of two o'clock in the afternoon, all the right, title, interest, use, possession, property claim and demand either at law or in equity of John Simon Landry and Aime Simon Landry or of each or either of them in, to, out of or upon the following described premises:—

(First.) All those certain lots of land situated on the south side of the Cocagne River and conveyed to the said John Simon Landry by deed bearing date the 24th day of December A. D. 1901 from the Office of the Registrar of deeds and wills in and for the County of Kent, by the number 33896, book S. 2., page 225, on the 18th day of March A. D. 1901.

(Second.) All that certain piece or parcel of land situated on the south side of the Cocagne River aforesaid, and conveyed to one Dominick H. Leger by the said Simon Landry on the 31st day of May A. D. 1899, and recorded in the said Registrar's Office on the seventh day of June A. D. 1899, by the number 33142 book Q. 2., page 570.

(Third.) All that certain lot, piece or parcel of land situated on the south side of the Cocagne River aforesaid, and bounded as follows:—commencing at the North west corner of lot number 18 in block D on Government plan, thence running south along the west side line of said lot until it strikes the southwest corner thereof, thence east along the south side line of said lot and thence north parallel with the west side line of said lot until it strikes the north side line thereof, thence west along the said north side line to the place of beginning, and to extend east a sufficient distance along the said south side line and the said north side line, so as to include in the said last mentioned lot, twenty-five acres and no more.

Also all other lands of the said John Simon Landry and Aime Simon Landry, wheresoever situate and howsoever described in my bailiwick. Together with all and singular the privileges and improvements thereon and the appurtenances to the same belonging, the same having been seized, levied upon and taken under and by virtue of an execution issued out of the Westmorland County Court against the said John Simon Landry and Aime Simon Landry.

Dated at the Sheriff's Office in the Parish of Richibucto in the said County of Kent, this seventeenth day of December A. D. 1901.

AUGUSTE LEGER, Sheriff of Kent County.

January, 1901, 100 per cent.

January, 1902, 141 per cent.

Forty-one per cent. increase of patronage for January, this year, as compared with January, 1901, is encouraging, considering the fact that last winter's classes were the largest we ever had. Our catalogue gives the reasons for our success. Send for copy to-day.

The Review - \$1.00

The Montreal Daily Herald 3.00

And a Splendid Picture of King Edward VII. .50

Total \$4.50

ALL FOR \$1.75

This is the greatest combination offer ever made by any Canadian journal, and we are anxious to secure the exclusive privilege for this district. The Daily Herald is one of Canada's great papers. Established in 1854 it has ever been the leading Liberal paper of Eastern Canada. It is now a great family newspaper, reading giving full news of the world, and also devoting much space to matters of peculiar interest to the family. Its commercial intelligence is complete and reliable.

THE KING'S PORTRAIT is the best ever published in Canada, and will make a handsome addition to the walls of any library. It is produced by a new process, and is not one of the flimsy colored portraits so common. As the regular price of The Herald is \$2.00 a year, the liberality of our offer is self-evident.
