**BUCTOUCHE.**

APRIL 5th.—News was received by telegraph on the 25th from Los Angeles, California, of the death of Mrs. Wm. Roberts on 21st, of rheumatism of the heart. Mrs. Roberts was a Miss Potts, of Buctouche, Kent County, where she resided until about fifteen years ago, when she went west to marry Mr. Roberts. After the union they resided in Winnipeg until last fall, when they moved to California for the benefit of Mrs. Roberts' health, thinking that the sunny south would expel the rheumatism, and for a time she improved, but finally succumbed to the disease. Mrs. Roberts was a daughter of the late John and Margaret Potts of Buctouche, and is survived by a husband and two children now in California. Three sisters, Mrs. Roberts, widow of the late Wm. Roberts, Collingwood, Ont., Mrs. David H. Keswick of Hartland, and Mrs. Wm. Keswick, Bass River, and three brothers, John of Cripple Creek, Colorado, Robert of Fredericton, and William of Buctouche survive her. Mrs. Roberts was an estimable lady and loved by her many acquaintances.

**ON MAGNETIC HEALING.**

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable cases of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching, burning sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

**COATESVILLE.**

(Special Correspondence.)

A correspondent writing from Coates Mills concerning the recent freshet says that it was very destructive in that locality.

The rain commenced on Monday, 17th, at which time the ice was solid all up the river, and teams were hauling logs across the pond at the mills. On Tuesday the ice commenced to break up and from that time until Saturday, 22nd, it did much damage. All the top was taken off A. F. Coates' dam and it was also badly damaged at one end. There were sixteen piers in the pond, some were partially and the rest totally taken out.

As Mr. Coates had put heavy expenses on the dam, mills, piers, etc., last summer, his loss will be considerable, probably \$1000.

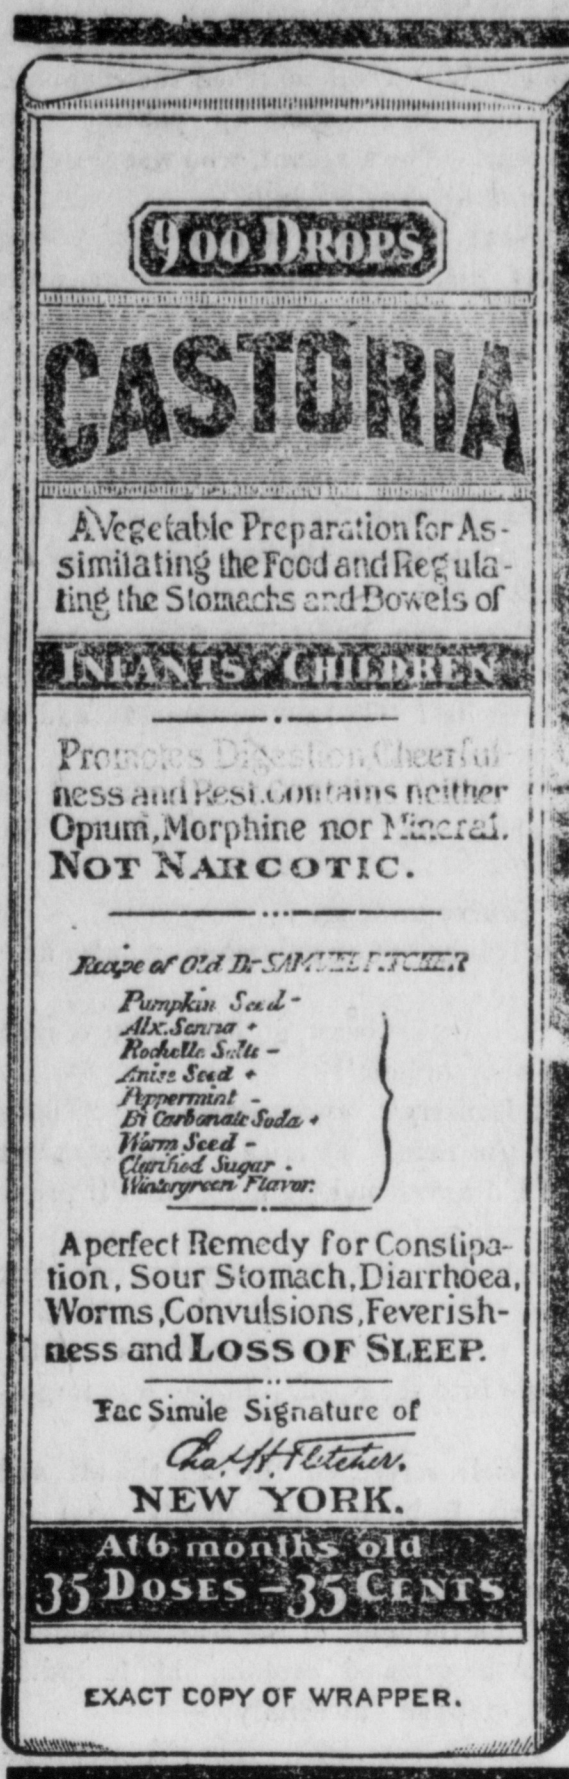

The bridge too was taken out.
