SHODDY IN BRITISH AND AMERICAN WOOLENS.

The article "Why is Wool so Cheap?" previously alluded to, further states that shoddy is the great feature in the trade of one of the leading towns of the Heavy Woollen District of Yorkshire, and it is well known that the mills do turn out an enormous weight of goods, the material being composed mostly of shoddy, cotton and the like. Sixteenpence to eighteenpence per yard (broad width), is the price of these so called woollen goods, and plenty of attractive fabrics are made at less.

It is also stated that Scotch manufacturers of tweeds, who hitherto used no shoddy, have had to resort to its use in order to compete with the composition of similar articles largely composed of shoddy produced in several Yorkshire towns and elsewhere.

The manufacture of artificial wools—and it is somewhat difficult to understand the designation—is said to be a large industry supplying manufacturers with a cheap substitute for the real article.

In speaking of the trade of another town in the Heavy Woollen district, the Yorkshire Observer says it is noted for its classical cloths, cheap dress meltons, dyed in classical shades, which find their chief markets in Greece and the Levantine ports. If all goes well there is a great future for these goods. The twills and serges produced here are in great favor with wholesale clothiers, and, combined with an export demand, a steady trade results the whole year round. Into the composition of the higher grades a percentage of wool enters, but it is small. The cheap costumes which adorn the windows of many mantle shops are made in this locality. Tweeds and mantle cloths from 1s. 3d. per yd. form another important branch, and are made largely throughout this neighborhood. Speaking of military and police clothes, "strength being the test," there is little room for mungo or shoddy, and even the tender wool caused by the Australian drought is not admissible.

A well-known Yorkshire firm replying to an enquiry on the subject states,—"There is so much mixing done nowadays to bring goods in at such low prices, that it takes a very good man to tell what there is in some of the manufactured arid.

In the Yorkshire Post's annual trade review of December 7th, 1901, a 54in. cloth is spoken of which sells at 1s. 1d. per yd., which is composed of all shoddy, but is classed as woollen goods.

The Hon. Geo. W. Wallace, Santa Fé, New Mexico, in an able article on "Substitutes for Wool," recites a statement by a commission house in the trade that 90 per cent of woollen goods contain cotton, and that in 45 per cent the proportion of cotton is 2; and, when in addition to this cotton, the stuff which masquerades under a score of aliases, such as shoddy, mungo, wastes, stocks, loon flyings, wool extracts, noils, wool stock, manufactured wool jute yarn, &c., &c., the wonder is not that the sales of wool fall off so largely, but that any wool is used at all.

I thoroughly agree with his deduction, and also in his statement that the adulterated cloth has neither the wear or the warmth of honest woollen goods. Mr. Wallace continues by stating that an expert witness before the Ways and Means Committee of the Fifty-fourth Congress, testified that the first class large worsted mills of the United States had put in the French and German process by which short-wool-fibres could be used. This is a fact which speaks for itself. Quoting

IN STOCK

Paris Green, Bug Death, Cow-Ease, Hay Rakes, Pitch Forks, Fork Handles, Scythes, Scythe Snaths, Scythe Stones, Fly Poison Pads, Tanglefoot Sticky Paper, Insect Powder, Window Screens, Wire Netting.

COW-EASE is a preparation to prevent the fly-pest on Horses and Cattle and when applied with a Sprayer once or twice a day will keep the flies off the cattle and give them a chance to feed.

Have you tried Fishermen's Pride Soap? It is the best laundry soap in the market.

A. & R. LOGGIE

farther from the same source, an English correspondent of an American paper writes:—"I give designs and particulars for two most excellent cloths. The worsted panting will make a cloth particularly adapted to the American taste, and it can be made very well on a cotton-backed cloth and mungo filling." Again a trade journal in a technical article says:—"The proper finishing of low-grade face goods requires great skill and care, as generally such goods contain a large percentage of cotton in both warp and filling, the amount of wool being only sufficient to form a face to cover the cotton, and it is seldom of the best quality.

Quoting Mr. Mulhiser, the greatest manufacturer of shoddies in the United States, Mr. Wallace gives the annual consumption of shoddy in the United States at 40 million pounds, displacing 120 million pounds of wool. The National Live Stock Association of America puts the figures for 1900 as follows:—(and this I presume refers to the U. S. only)—Shoddy used in 1900—74 million pounds displacing 222 million pounds of wool, or equal to 72 per cent of all the wool in the United States that year. In other words it displaced wool equal in quantity to that clipped from 42,990,000 out of the 61,415,000 sheep owned in the United States. Therefore but for this shoddy there would have been used 222 million more pounds of wool.

An instance is given of the discovery by accident of the fact that a most reputable (?) and well known manufacturer, who had a contract to supply the Government with 50,000 army blankets, was found to be stuffing the same with shoddy to the extent of 50 per cent. Cotton is also introduced into blankets made in England, and in some cases, exceeds even 50 per cent of the material used.

The rapid increase in the use of shoddy in the United States is shown by the following figures:—In 1860 thirty establishments had an annual output of a value of \$400,000; in 1890 the census showed ninety-four establishments and a product valued at \$9,208,011.

A Surprising Discovery.

You will be surprised in trying Catarrhozone to find how quickly it cures cold in the head. The agreeable, penetrating vapor traverses every air cell and passage of the nose, throat and lungs. In one breath it carries instant death to the millions of germs infesting the respiratory organs and breaks up a cold in ten minutes.

A trial will convince you that Catarrhozone is the most potent, satisfactory and pleasant cure for Colds, Catarrh, Deafness, Bronchitis, Asthma and Lung Trouble. Complete outfit \$1.00; small size 25c. Druggists or N. C. Polson & Co., Kingston, Ont. Sold by R. O'Leary.

HAMILTON'S MANDRAKE PILLS CURE BILIOUSNESS.

The forty-eighth convention of the International Typographical Union has adjourned after voting \$2,000 to the striking miners.

Nerve Wracked and Inomnious.

Everything goes wrong, head feels heavy and dull, mind is filled with strange forebodings, stomach is out of kilter. You need a good tonic like Ferrozone to bring back your lost appetite and digestion, and cleanse the blood of all impurities. Ferrozone is a wonderful invigorant and strengthener that will banish gloomy depression and quickly restore you to a healthy, vigorous condition of mind and body. Nothing is so good for the sick, weary and debilitated as Ferrozone. Price 50c. per box, at druggists or Polson & Co., Kingston. Sold by R. O'Leary.

HAMILTON'S MANDRAKE PILLS CURE CONSTIPATION.

AMERICAN YACHT WON.

COWES, Isle of Wight, Aug. 22.—The American yacht Utowana (A. V. Armour, New York), won the sailing race for auxiliary yachts, started Monday, and the Coronation cup offered by the Earl of Crawford. She passed the mark at 10.53 o'clock last night.

LIKE OTHER EVILS cramps and diarrhoea come suddenly. Promptly give a dose of Perry Davis' Painkiller and the pains will go immediately. A bottle at hand will save hours of suffering—be prepared.

NEW INVENTIONS.

Below will be found a list of patents recently granted by the Canadian Government, through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Can. and Washington, D. C.

Information regarding any of these patents will be supplied free of charge by applying to the firm above mentioned.

76,877—George Hastings Hackett, North Sydney, C. B., Machine for producing perforated telegraphic paper.

76,922—Joseph P. Mallette, Magog, Que., Stone lifter.

76,935—Leon Gauvin, Quebec, P. Q., Stone lifter.

76,994—Harris H. Field, Apple River, N. S., Ditching machine.

77,015—Erastus Allan Liezert, Okotoks, Assa., Grain pickling machine.

77,023—Joseph Moreau, St. Germain de Grantham, Que., Potato digger.

77,054—Joseph Alex. Godin, St. John's, Que., Attachment for soil pipes.

THE PULP INDUSTRY.

GREAT GROWTH IN PROVINCE OF QUEBEC.

QUEBEC, Aug. 22.—The pulp industry is developing by leaps and bounds in the country north of Quebec. Following close after the benediction of the new mill at Oniatouhan Falls comes the announcement that a very extensive new factory is being erected by the Chicoutimi Pulp Co. at Chicoutimi, which will increase the capacity of the company's mill from nine grinders to twenty-seven and will permit of an annual output of sixty thousand tons of pulp. Still another new pulp mill of very large size is being added by Messrs. Price Brothers & Co. to their present establishment at Jوقiere.

MAN FOUND WITH KNIFE IN HIS HEART.

MONTREAL, Aug. 21.—The body of a man named Beauchamp, of 9 Champlain street, was found this morning on the corn fields by a little girl going out with cows. The body was covered with blood and was badly slashed with a knife, which was found sticking in his heart. The case is plainly one of murder. Beauchamp has for many years borne an unsavory reputation. The police have no clue as yet.

FELL EXHAUSTED AND UNCONSCIOUS.

Mrs. R. W. Edwards, 33 Murray St., Brantford, Ont., suffered for five years with nervous exhaustion, headache and dyspepsia. "The pains in the head would almost drive me crazy, I could not sleep nights but would walk the floor in agony until I fell exhausted and unconscious. For the past nine months I have used Dr. Chase's Nerve Food and from a mere skeleton this medicine has built me up in flesh and weight until I am strong and well." It would be scarcely possible to produce stronger evidence of the wonderful power of Dr. Chase's Nerve Food.

PREMIER TWEEDIE HOME FROM ENGLAND.

CHATHAM, Aug. 23.—Premier Tweedie and Mrs. Tweedie reached their home from England on Thursday and were given a most cordial and enthusiastic welcome. Bunting was displayed in their honor and in the evening a large number of citizens called, headed by Mayor Snowball, and warmly welcomed them. The Citizens band furnished music for the occasion. The Premier and his wife left the train at Newcastle, where a few friends had gathered, and proceeded down river in Mr. Fred Tweedie's steam yacht Wenonah. Mayor Snowball cordially welcomed the Premier and his wife back home and Hon. Mr. Tweedie replied at some length, telling their friends of their trip and of the things they had seen and done. Referring to the fast line the Premier predicted that St. John will hold the freight business. He defended the course of Premier Laurier on the question of defence. The Premier and his friends spent a very pleasant social evening and at its close Auld Lang Syne was sung and hearty cheers given for Mr. and Mrs. Tweedie.

TO BUILD SHAMROCK III.

CONTRACT FOR THE CHALLENGER TO BE SIGNED THIS WEEK.

LONDON, Aug. 25.—Contracts for building the Shamrock III. will, the Associated Press learns, according to present arrangements, be signed this week. Sir Thomas Lipton expects to arrive in the Clyde then on board the Erin, to make final arrangements with the Denny's. The contracts will provide for the very early launch of the next challenger for the America's cup, thus giving more time for tuning up than has been enjoyed by previous competitors for the trophy.

A Red Hot Season.

During the hot season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system and restores the lost appetite.

The London Standard says that Canada, instead of paying for a couple of ironclads, might take over and maintain all the naval and coaling stations on her coast, and the garrisons at Halifax and Esquimaux.

Alex. T. McLean was electrocuted at Winnipeg Friday while stringing wires.

On account of the drought in Australia, one carload of creamery butter has been shipped there from Calgary.

It is reported at Montreal that Chas. M. Hays, general manager of the Grand Trunk railway, will succeed Sir Chas. Rivers Wilson as president of that company.

BURDOCK BLOOD BITTERS IS A PURELY VEGETABLE COMBINATION.

that in a safe and natural manner acts directly upon the BOWELS, LIVER, KIDNEYS and BLOOD, cleansing the entire system of all impurities, foul humors and obstructions that poison the blood and create disease.

CANADIAN PACIFIC SEEKING EXTENSION.

NEW YORK, Aug. 23.—The Canadian Pacific Railway is seeking entrance here by the New York, Ontario & Western Road. It has several charters for the purpose but the Vanderbilts oppose.

ST. JOHN EXHIBITION NOTES.

On Saturday, 9th, we hailed with fitting expressions of joyous loyalty, the event of the King's Coronation. Although we could not personally witness the Pageant in London; yet, in spirit, we were there. However, through the enterprise of Mr. G. H. Ireland—of Moving Picture Fame—whose service the Exhibition Association has been fortunate to secure, our people will be able to view the whole grand affair, actually as it took place, and this much more comfortably than had they incurred the expenditure of hundreds of dollars by going over to London.

Mr. Ireland, with commendable foresight, some time ago engaged a high-classed Photographer on the other side, to obtain for him Moving Pictures of the great event. These pictures, he says, are from a technical standpoint, among the finest he ever saw.

The above is a case in which the mountain accommodatingly approaches Mohammed.

The foregoing is only one of a large series of intensely interesting events which the Moving Pictures will depict in the most life-like manner. Among the chief of these will be Mount Pelee in eruption, with lava flowing from its crater; and showing the awful destruction cast over Martinique and the adjacent islands.

There is nothing fanciful about these pictures. They represent the truth, terrible and unadorned; for immediately on hearing the news of the appalling catastrophe, Mr. Ireland, regardless of expense, sent a highly capable photographer to the scene of devastation, and thus a full line of forcible, descriptive photos was obtained. This series is certain to prove one of the Exhibition's most popular attractions; and will practically illustrate in a manner unlikely to be forgotten, the Titanic forces of nature in activity.

In Amusement Features as in other directions, the St. John Exhibition opening August 30th, will certainly lack nothing.

With regard to Amusements, however, the Exhibition Association certainly deserves congratulation; the galaxy of high-class, keen amusement that will be provided, could only have been secured through the means adopted by the Association; the services of a well known Amusement manager were enlisted, and that gentleman was instructed to tour Canada and the United States, with the object of engaging such of the latest, novel attractions as had been most thoroughly successful. The result has been very satisfactory.

Here are a few of the features secured,—The Original Cycle Whirl, which is justly described as "The Greatest Sensation of the Day." Some faint conception of it may be gathered from the fact that the track is only fifteen feet diameter at the top. It stands seven feet high, and is banked to an angle of 74 degrees. While circling this miniature track, the bodies of the riders lie parallel with the ground, thus apparently defying all laws of gravitation.

A race on such an erection flavors of hair-raising; yet racing takes place, and the riders will be of no mean order, as may be judged from the following names:—Frank Lawrence, Champion quarter mile, Western Canada; Will Greenough, Champion half mile, Western States, and George Larsen, Australian Champion.

Then comes the Monte Myro Troupe of European Eccentrics Pantomimists, with their varied, clever performances which have won a deserved popularity in so many great centres.

White & LeMart, the contortionists, with their eccentric tumbling, hand balancing, burlesque decapitating and laughter provoking frolic, will also be there; and lots of other splendid attractions. Altogether, the Amusement Features this year will surpass anything previously seen in the Maritime Provinces.

Interviewed at Quebec, Hon. L. J. Tweedie said the Maritime Province governments will strongly oppose any reduction in the representation of these provinces in the House of Commons.

Joseph Mathurin, of Montmagby, Que., cut his wife's throat yesterday, and on being asked at the inquest why he committed the crime said, "that is my business."

Eight workmen were killed, six are missing and three others were badly hurt by the explosion of two steam digesters at Wilmington, Del. The monetary loss is estimated at \$35,000.

Sir Wilfrid Laurier has arrived in Paris, and he and Lady Laurier are guests at the Ritz Kriz Hotel.

Miss Nellie Parks was struck by an electric car in Norwood, Mass., and died last week.

THE POSTMASTER.

Old Gentleman's Narrow Escape From Death.

A Very Interesting Personal Experience Which Contains Some Good Advice for Others Whose Lives may be threatened.

LOVETT, Ont., Aug. 25, (Special).—Every man, woman and child for miles around knows Mr. C. A. Harries, the genial Postmaster at Lovett.

Mr. Harries is a hale old gentleman, 75 years of age, and considering his advanced years is remarkably well preserved, strong and healthy.

But he was not always so. Five or six years ago he was at the point of death, being fearfully run down and a complete wreck with Bright's Disease.

He was so low that no one ever dreamt that he could pull through, and yet he is alive and well to-day. This is a statement of the case in Mr. Harries' own words:—

"In 1897 I was at the point of death with Bright's Disease, and was a complete wreck. I could not even dress myself or turn in my bed, but now I am a well man, and I attribute it all to Dodd's Kidney Pills.

"I am 75 years old, and for a man of my years I feel quite strong and healthy. I consider Dodd's Kidney Pills a good medicine to take in the Spring, as I have found it a great blood purifier.

"As Postmaster I come in contact with a great many people, and I know of my personal knowledge that a great many in this country are using Dodd's Kidney Pills with the best results."

Such evidence should be most convincing to any who may still doubt that Dodd's Kidney Pills will cure Bright's Disease.

The honest, earnest, straightforward testimony of such reputable people certainly deserves the confidence of everyone.

If Dodd's Kidney Pills can do cure Bright's Disease, which is the very worst form of Kidney Trouble, they certainly will cure any of the lesser forms.

THE MEMORIAL FUND.

OTTAWA, Aug. 23.—Mr. R. L. Borden, leader of the opposition party, has sent \$25 to the funds for erecting memorials on the graves of deceased Canadian soldiers in South Africa. The fund amounts to \$4,330.

Children are often attacked suddenly by painful and dangerous Colic, Cramps, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc. Dr. Fowler's Extract of Wild Strawberry is a prompt and sure cure which should always be kept in the house.

Emperor William will visit King Edward in November.

Sir Edward Barton, premier of Australia has sailed for New York.

The Government drill has been sent to test distances from the coal discovered at South Maitland, N. S., a few days ago. The seam promises well.

Major General Sir Charles Parsons and members of his staff will make a military staff ride from Sussex to Halifax next month.

Furnace coal has advanced to \$10 a ton in Boston.

George A. Whitney, local homestead agent for the Canadian Government, expects to take 5,000 of the striking miners in Pennsylvania to Canada.

Children Cry for CASTORIA.

King Edward has donated to the hospital fund the present of \$50,000 received from the Maharajah of Gwalior.

It has suddenly been decided to hold the German manoeuvre in Prussia instead of Poland.

It is reported from London that many Russian Jews are emigrating to Canada through the agency of the well known Issa Association.

The Shah of Persia, accompanied by the Prince of Wales, was entertained on Tuesday night at the Empire Music Hall. The ballet and other attractions offered were evidently keenly enjoyed by the Eastern monarch.

MILBURN'S LAXA-LIVER PILLS regulate the bowels, cure constipation, dyspepsia, biliousness, sick headache and all affections of the organs of digestion.
