Twenty Years of Itching Piles

Mr. Alex. McLaughlin, thirty years resident of Bowmanville, Ont., writes:"For twenty long years I suffered from itching piles, and only persons who have been troubled with that annoying disease can imagine what I endured during that time. About seven years ago I asked a druggist if he had anything to cure me. He said that Dr. Chase's Ointment was most favorably spoken of, and on his

recommendation I took a box. "After three applications I felt better, and by the time I had used one box I was on a fair way to recovery. I continued the treatment until thoroughly cured, and as that was seven years ago, and I have not suffered any since, I am firmly convinced that the ointment made a perfect cure.

"I consider Dr. Chase's Ointment an invalu ble treatment for piles. In my case I think the cure was remarkable when you consider that I am getting up in years and had been so long a sufferer from this disease." 60 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

DESPAIRED OF BEING CURED.

Mrs. W E Jeffries, 44 Hicks Ave. Kingston, Ott., states: I suffered agony with itching piles. In fact, I don't believe that any person who has not had piles can realize what I endured The first application of Dr. Chase's Ointment brought relief and it has since entirely cured me. I hope that this testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment."

CANNING SALMON.

Various Processes From the Time the Fish Are Caught.

The salmon caught in the seines and gill nets are brought 'o the cannery wharf, counted and thrown into heaps. Chinamen are mostly employed for subsequent operations. They take each fish, cut off the head, tail and fins, remove the entrails and throw the rest of the animal into a big tub. Next the fish is washed and placed in a trough. where several knives, acting after the manner of a feed cutter, slice it into piece large enough to fill the can, while the others are smaller. The fragments are then placed on tables, and the Chi namen fit them into the cans. Next the covers are put on the cans and sol dered.

A Palace by Piecemeal.

"I have bought a hut which I am transforming into a palace," said a woman. "You see, I had acquired a mania for buying the insides of fine old homes about to be torn down, and I had filled my city apartment with all that it would stand, besides putting a good deal in storage. Yet I kept on buying. One day I came across a well built but plainly furnished house on Staten Island which I could buy for a small price. At once I had visions of that house as it would look transformed by my fine old carved woods marbles, tiles and mirrors. Mentally I did it up to such a degree of attractiveness that I just had to purchase it. The results are justifying my expectations. Every one who enters gives an exclamation of surprise and admiration, and I'm not through yet. The interior finish of my house cost originally tens of thousands of dollars and came from all parts of the globe. I got it for almost nothing."

Helping a Man to Suicide.

It is remarkable how a suicide by a certain method or in a certain place will lead to another of the same kind. A surgeon of the Middlesex hospital, in London, went into a barber shop to be shaved. The barber spoke of a man who had been unsuccessful in an attempt to kill himself by cutting his

One of Oswald's Jokes. When a play written by a man who had roused Oswald's anger by reading a newspaper at a wedding of one of his friends was produced, he prevented its success by inducing 250 of his friends to attend it carrying great books. These young men, who occupied prominent seats, read their books while the performance was going on, and whenever there was any applause each one of them, as if moved by clockwork, turned over a leaf. The rustling of the leaves and the spectacle of the men absorbed in reading made the performance a complete failure.

THE ILLS OF WOMEN TOO OFTEN WRONGLY DIAG-NOSED BY OUR PHYSICIANS.

Lady Who Would Not Submit to an Operation is Cured by.

Paine's Celery Compound

It will prove interesting and comforting to thousands of women to know that almost all their troubles and diseases are due to a poor condition of the nervous system.

The ills, irregularities and diseases peculiar to women, such as nervous headache, nervous prostration, anaemia, loss of memory, irregular and suppressed periods, hysteria, bearing down pains, poor and watery blood, neuralgia, general weakness and other troubles, can only be cured by a specially compounded medicine like Paine's Celery Compound.

This wondrous medicine of nature, popular with tens of thousands of our women, carries its rich nutriment and healing virtues to the blood, nerves and tissues, giving power and new life to inactive and diseased organs. No other medicine can so quickly banish and permanently cure painful and obdurate feminine ills; no other medicine ever devised can so truly keep the nervous system, blood and boni ly organs in a healthy condition to fulfill their important duties. Mrs. A. Saund-

ers, Brancondale, Ont., says:
"I was a great sufferer from severe attacks of neuralgia in the left ovary. At in education as to the selection of men to doctors treated me, and I was a patient in the hospital. I obtained no relief from medical treatment. The doctors said unless I had the ovary taken away I could not be cured. Instead of submitting to the operation, I used Paine's Celery Com-pound, and I am thankful, your valuable medicine cured me. I feel like a new woman, and would like all to know what your medicine has done for me."
