EBENEZER GRAY.

He thought he was a Christian—
Did old Ebenezer Gray,
He never missed church meetings
And was always glad to pray
He did not let religion
Hurt his business through the week,
But on a Sunday morning
He was righteous-like and meek.

He used to have a manner
That would make a clown feel "blue";
He used to chill his neighbors
And his home was chilly, too,
But in the church on Sunday
You could never find him late,
And when it came to rooting
In religion, he was great.

He used to skin all comers
Through the week, and liked the game;
Yet claimed to run his business
In the Master's holy name.
He never let the doctrine
Used on Sunday, understand,
Affect upon a week day
Any deal he had on hand.

Some people called him "brother,"
And great numbers called him names,
The latter people being
Those who fathomed all his aims.
He died in proper season—
Crossed unto another shore—
And this is what St. Peter
Told the fellow at the door:

"While you were good on Sundays,
Through the week, Eb, you were tough;
Hence when I speak your sentence,
Do not think that I am rough.
Now, you can spend your Sundays
Here in heaven very well,
But week days, Ebenezer,
We're going to give you—"

—St. Joseph's Gazette.

Economical Pork Production.

In the past some objections have been raised by the packers for the use of forage plants and roots for pork production, but the light of recent experiments would seem to show their fears or objections groundless; in fact, the good influence of a considerable proportion of green feed or roots in the ration of a pig can scarcely be overestimated. It has long been known that skim milk has a most beneficial influence upon the thrift of the porkers, and quality of the pork, even when the amount fed, forms only a small part of the ration. Green food and roots seem in a large measure to be capable of supplementing the now, in view of the tremendous expansion in the Canadian bacon industry, quite inadequate supply of dairy by-products, for use in pig feeding. The farmer whose conditions permit may go even further than to use forage plants as a supplementary food. He may even make them the chief item of his pig feed if he is careful to use a good proportion of grain, (oats, peas and barley,) during the last month of the feeding period.

As the season is rather far advanced for an exhaustive discussion of forage crops suitable for this purpose, I shall confine my remarks to such as are still seasonable.

CLOVER:—Probably no crop is better adapted to young pigs than clover, and a bit of clover stubble used for this purpose will give very good returns. So far as our experiments go, the pork so produced is of good quality.

RAPE:—Of all the crops used here so far for pasturing pigs, rape quite easily stands first. The principal points in its favor are:—(1) its quick growth, (2) its wide range, as it grows well on almost any kind of land, (3) its long season, as it may be sown as late as September and still do fairly well, (4) its evident palatability, as the pigs eat it greedily, and (5) its good effect upon the quality of the bacon, producing as it does, almost invariably a good firm carcass. Rape may be expected to be fit for pasturage from 6

BIG DISCOUNTS, SPECIAL PRICES.

There is no time like the present to buy Dry Goods at LOGGIE'S.

The prices of our Dry Goods are always very low, but for one month we are going to make them a good deal lower. During the present month of July our customers will get the benefit of a good liberal discount, something that will pay them to come and see us if they need Dry Goods.

Come and see our big stock of Cloth for men's Suits and Trousers.

Come and see our ready-made Clothing, Shirts, Underwear, Hats, Caps, Collars, Neckties, Suspenders and Hose.

See our Dress Goods, Lawns, Piques, Satens and Prints, and compare our prices with others, and note the saving by buying here. We have a large stock and our prices are positively the lowest.

During the summer months our store will close every Tuesday and Friday at six o'clock.

A. & R. LOGGIE

to 8 weeks from date of sowing. It should be sown in rows about 24" apart, since when so grown it gives the greatest return per acre, and is best adapted for pasturing. It should be sown fairly thickly in the rows, say, three lbs. of seed per acre. An acre may be expected to carry from 20 to 40 pigs through a season, depending on the season and the condition of the crop when the pigs are turned in.

VETCHES:—Vetches also are valuable as forage for swine, and may be, under exceptional conditions, sown late in the season. Especially is this true of the Hairy Vetch, which species has the peculiar quality of growing up again after having been cut off or eaten down.

OATS:—Probably no green crop will give a better return in pork than oats. They may be sown late or early in the season at the rate of 5 or 6 bushels to the acre and the pigs turned on about a month after they germinate. The fault of this crop is that it lasts only a short time, as it does not seem to be able to recover when once eaten down.

ARTICHOKES:—Another crop of great value for pork production is the artichoke. It should be sown late in the fall or very early in the spring. The pigs may be allowed to feed on it in October and the early spring. They will do the harvesting themselves. This is the most excellent crop for brood sows in spring and autumn.

Almost all varieties of juicy forage crops are suitable for pork production, the sorts mentioned above being probably the best for Canada.

The question as to the advisability of allowing pigs to graze, or shutting in a small pen and feeding them the green crops, does not seem to have been positively settled yet, for while greater daily gains may be expected where animals are kept in close quarters, there is always the item of extra labor for cutting and carrying the forage.

Another item of some importance to the feeder is the comparative economy of Winter and Summer feeding of pigs. According to various experiments conducted here recently, pork may be produced at about \$1.00 per hundred pounds, live weight, less cost in summer than in winter. This seems to be due to less cost of green feed, as well as to low temperature, which must be overcome by food or by artificial heat.

J. H. GRISDALE,
Agriculturist,
Central Experimental Farm,
Ottawa, Ont.

Compliments of F. W. Hodson.

Is Your Back Lame.

Does it hurt to stoop or bend down? Have you a heavy dull pain at the base of the spine? If so, the best remedy is Nerviline; it will invigorate the tired, sore muscles, make them supple and strong. Nerviline will drive out the pain and make you well in no time. Nothing so good as Nerviline for Lumbago, Stiff Neck, Rheumatism, Neuralgia and Sciatica. Buy a 25c. bottle of Polson's Nerviline to-day and try it. Sold by R. O'Leary.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

Dying By Slow Degrees.

Although not always aware of it yet thousands die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrh is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the Inhaler kills thousands of germs, clears the throat and nose, aids expectoration and relieves the pain across the eyes. Catarrh is eradicated every vestige of catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price \$1.00; trial size 25 cts., all druggists. Polson & Co., Kingston, Ont. Sold by R. O'Leary. DR. HAMILTON'S PILLS CURE BILIOUSNESS.

USEFUL RECIPES.

Put one ounce of unsweetened chocolate into a saucepan and pour on it gradually one pint of boiling water, stirring all the time. Put the saucepan on the fire and stir until the chocolate is all dissolved, then add a pint of granulated sugar and stir until it begins to boil. Cook for three minutes longer without stirring, then strain cool. Add one teaspoonful of vanilla extract, bottle and store in a cool place. When needed put two tablespoonfuls of crushed ice in a tumbler and add two tablespoonfuls of the chocolate syrup, three tablespoonfuls of whipped cream, one gill of milk and half a gill of carbonic or Apollinaris water. Stir thoroughly before drinking.

BLACKBERRY BRANDY.

Into one quart of blackberry juice stir one pound of white sugar. Fill small muslin bags with one ounce of grated nutmeg, one-half ounce of powdered cinnamon, one-quarter of an ounce of allspice and one-quarter of an ounce of cloves. Boil spices, juice and sugar together for 15 minutes, skimming frequently. Remove from the fire and add one pint of brandy. Allow the cordial to cool in a closely covered vessel before bottling and sealing.

SWEETBREAD CUTLETS.

Plunge sweetbreads into cold water, and let stand one hour; drain and put into salted boiling water; cook slowly 20 minutes; again drain and plunge in cold water. Split and cut in pieces shaped like a small cutlet. Season with salt and pepper, dip in beaten egg, then in cracker crumbs and saute in butter. Arrange in a circle around buttered peas.

GREEN PEA SAUCE.

Cook one tablespoonful of flour in a like amount of butter until smooth; add one-half teaspoonful of sugar, one-fourth teaspoonful of salt, a dash of white pepper and one cupful of cream; stir constantly until it boils smooth, add one teaspoonful of lemon juice and one-half cupful of boiled peas, and remove from the fire at once.

JELLIED VEAL.

Boil the veal tender. Shred it fine, put into a mold, add the water it was boiled in, and set in a cold place; season

with salt and pepper to taste. A layer of hard-boiled eggs is an improvement.

BREADED SAUSAGES.

Wipe the sausages dry. Dip them in beaten egg and bread crumbs. Put them in the frying basket and plunge it into boiling fat. Cook ten minutes. Serve with a garnish of toasted bread and parsley.

A HINT.

The next time tomato soup is planned for the family dinner, try adding a few slices of orange just before serving, and enjoy the pleasant flavor which they impart.

A FAMILIAR NAME.

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book author. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land, they are popular because they cure when others fail.

THE APPENDIX—WHAT IT IS.

(London Chronicle.)

People as a rule know nothing regarding the appendix. They talk about appendicitis, but the organ affected is to them a profound mystery. Let me endeavor to make plain the nature of this curious vestige in human anatomical history.

The digestive system of man, and that of all other animals, is a canal or tube, whereof the stomach is simply a dilated part. Now, beyond the stomach we find the intestine or (bowel), which in man averages twenty-six feet in length. It is divided into the small intestine, measuring about twenty feet, and into the large intestine, which makes up about six feet of the total length. Where the small intestine—which is the part that immediately succeeds the stomach—joins the large we find the caecum. This, as its name indicates, is a cul de sac, a kind of blind alley, lying below the point of junction. Attached to the caecum we find the appendix, a little tube like vestige, averaging about three inches in length, and of the diameter of a goose quill. If the caecum is a blind alley the appendix is a kind of trap, lying as it does to the back of the caecum. When indigestible things find their way into the appendix—cherry stones, grape seeds and even the hairs of tooth brushes—they cause irritation, and when this irritation goes the length of inflammation we get the ailment known as "appendicitis." The removal of the appendix is an operation of modern surgery which, under ordinary conditions, is both safe and successful.

MILBURN'S HEART AND NERVE PILLS cure Anaemia, Nervousness, Sleeplessness, Weakness, Palpitation, Throbbing, Faint Spells, Dizziness, or any condition arising from Impoverished Blood, Disordered Nerves or Weak Heart.

CAN BREAK FRENCH LAW.

MAN WHO VIOLATED STATUTE TO AID PRETTY WOMAN RELEASED.

PARIS, JULY 20.—The French courts with characteristic finesse, have decided that lawbreaking is not lawbreaking when it is disinterested gallantry. The decision is apropos of the case of M. Guilbert, arrested for violating the statute, as follows:

Guilbert had gone to the races of Bois Colombe, and when the rain commenced to pour in torrents took refuge under a shed. A pretty young woman in a new gown and a pair of light gray shoes had sought the same shelter. The lovely stranger was in despair.

She wished to risk \$10 on the King of the Air. She was quite sure of gaining. But how to do it! She had no umbrella and if she risked crossing the sward to make her bet she would spoil her toilette and the gray shoes. M. Guilbert would have been less than a man if he had not offered his services. He plunged into the rain with \$10 to be put on the King of the Air. But he was snapped up by the police.

The Judge by common consent interpreted his deed as a piece of "disinterested courtesy and gallantry" not to be considered as a bet for others.

WHEN LIFE IS NOT LIFE.

"Without health life is not life; it is only a state of languor and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

LORD DUNDONALD.

NEW COMMANDER IN CHIEF REACHES CANADA.

PRaise FOR CANADIAN SOLDIERS IN AFRICA.

QUEBEC, July 24.—The Lake Champlain sailed into port shortly after eleven o'clock to-day with Lord Dundonald, the new commander-in-chief of the Canadian forces on board. Lord Dundonald in conversation with your representative, said that he would continue to Montreal on board the ship, and will proceed the same day to Ottawa, and at once enter upon his official duties. He expressed his great pleasure at the prospect of assuming command of the Canadian forces and at having had under him in South Africa some of his representatives in the shape of Strathcona's Horse. Of that fine body of men he could not speak in sufficiently high terms. It had rendered the most signal service on the veldt. He was quite confident that his relations with the militia as a whole would be most cordial.

Speaking of Canada generally he said the one thing that had particularly impressed him was Canada's vastness, which surprised him on his former journey across the continent and by his sail up this great waterway, the St. Lawrence. This country seemed to him to be the mother country's great natural outlet and granary, and he wished its resources and opportunities were more generally brought home to Great Britain's crowded population.

While acknowledging the good work that had already been done in the way of spreading information concerning the country he could not but feel that the best way of making it known was to give free passes and homesteads to representative British farmers. From the coming visit of twelve British editors he expected much good to result.

Lord Dundonald is an affable man of fine presence and much apparent activity. He was met here by Lieut. C. J. S. Lunbar, deputy staff adjutant.

SALE OF INVENTIONS.

Martin A. Toline assigned to McKindree F. Bishop, Ill., on December 26th, 1901, patent No. 700,445, for Thill Coupling, for \$2,500.

In consideration of \$3,000, the Dorn & Marcellus Co., of Philadelphia, Pa., have secured the entire right in and to patent No. 675,326 for Pumping Apparatus. Assignment recorded December 12th, 1901.

A. T. Morey assigned to The M. & M. Oxygen Light Company of Mo., on December 16th, 1901, entire right to patent No. 649,252, for Carburetor for \$50,000.

Louise Denayronze assigned to Wm. Flutmann of New York, on December 24th, 1901, entire right to Bunsen Burner for Incandescent Gas Light, Patents No. 673,705 and 684,921, for \$60,000.

Communication of Messrs. Marion & Marion, Patent Attorneys, Montreal, Can., and Washington, D. C.

CHILDREN CRY FOR CASTORIA.

HOW ABOUT NEW BRUNSWICK? The girls of Maine will be surprised to learn that there are nearly 40 per cent. more bachelors than there are maidens in the state. This shows that there are almost one and one-half times more bachelors than spinsters, thus giving the latter a far better chance of securing husbands than has heretofore been the impression. Maine has 60,878 bachelors, against 43,790 spinsters.

"Amber, Test It"

A Pipeful of "AMBER" Plug Smoking Tobacco will burn 75 minutes.

"test it?"

Save the tags; they are valuable.

GOT HIS ANSWER.

"While on a trip through the south soon after the civil war," said a Chicago man, "I stopped over night at the little town of Warrenton, N. C. The next morning, strolling around looking the place over, I met a country man who greeted me with a 'Howdy!' and passed the time of day most cordially. I was considerably taken aback when I noticed that he was barefooted, and I ventured to ask him if it was the custom of the country for the men to go without shoes. He answered with a drawl, 'Waal, some on us does, but most on us 'tends to our own business.'"

BRITISH TROOP OIL LINIMENT is good for man or beast. Relieves pain, reduces swelling, allays inflammation, cures cuts, burns, bruises, sprains, stiff joints, bites of insects, rheumatism, etc. A large bottle for 25 cents.

A POSITIVE MAN.

He Seems Able to Prove the Truth of What He Says.

Mr. Chalker Makes Some Very Strong Statements—Explains That He is Prepared to Prove the Truth of Every Assertion He Makes.

HOUSEY'S RAPIDS, Ont., July 23.—(Special)—Mr. George C. Chalker, a well known resident of this place, has authorized the publication of a letter containing some very startling statements.

Those who know Mr. Chalker will not ask any proof of the truth of any statement he makes, but to convince those who do not know him, he has announced that he is prepared to substantiate in every detail, the truth of his published statement, which is as follows:—

"It is with pleasure that I certify to the merits of Dodd's Kidney Pills.

"I was laid up with Kidney Trouble and was so bad that I could not do a day's work. My back was very sore, I had heavy aching arms, dull bloated eyes. I was very weak and much reduced in weight.

"After I had used six boxes of Dodd's Kidney Pills I was ten pounds heavier. I often wonder about the powerful virtue of this medicine. I do not know anything about what Dodd's Kidney Pills are said to cure but I know a great deal about what they will actually do for Lame Back and Kidney Trouble, and I can prove it.

"They are worth their weight in gold to any one suffering as I suffered. The six boxes of Dodd's Kidney Pills cured me completely and there has been no return of my old trouble. That is over three years ago, and I still enjoy good health."

This is, indeed, a very strong testimonial for Dodd's Kidney Pills and one which will have very great weight with all who have the pleasure of Mr. Chalker's acquaintance or friendship.

Dodd's Kidney Pills have made many friends and are to-day, without doubt the most popular family medicine.

GENTLY SARCASTIC.

The following church notice was recently exhibited: "The service on Sunday morning is at 11 a. m. The supposition that it is ten minutes later is a mistake. Young men are not excluded from the week night service. The seats in the front portion of the church have been carefully examined. They are quite sound and may be trusted not to give way. It is quite legitimate to join in the singing. The object of the choir is to encourage, not discourage, the congregation."—London Answers.
