## A Surprised Doctor.

#### SAID A CASE OF ST VITUS DANCE COULD NOT BE CURED.

#### Called One Day and Found the Patient Ironing and Learned that Dr. Williams Pinp Pills Had Succeeded Where Other Medicines Had Fatled.

The sufferer from St. Vitus Dance, even in a mild form, is much to be pitied, but when the disease assumes an aggravated form the patient is usually as helples as an infant, and has to be watched with as much care. St. Vitus dance is a disease of the nerves and must be treated through them, and for this purpose there is no other medicine in the world acts so speedily as Dr. Williams' Pink Pills. Proof of this statement is found in the case of Miss Louise Luffman, whose home is at Poucher's Mills, Ont., who was cured by these pills after two doctors had failed to benefit her in the least. The young lady's mother tells the story of her daughter's illness as follows; - "I do not think it possible anyone could be afflicted with a more severe form of St. Vitas dance than that which attacked my daughter Louise. Her "arms and legs would twitch and jerk, her face was drawn and finally her left side became numb as though paralyzed. Two doctors attended her, but their treatmen! not only did not help her but she grew steadily worse. Her tongue became swollen, her speech thick and indistinct, and she could neither sit still or stand still. She could not hold anything in her hand and it was necessary to watch her all the time as we feared she would injure herself. The last doctor who attended her told me she would never get better, and it was then that I decided to try Dr. Williams' Pink Pills. After she had taken two boxes we could see an improvement in her condition. Her appetite improved, she could sleep better and the spasms were less severe. From that on there was a marked insprovement in her condition and one day the doctor who had said she could not get better called while passing and found her ironing-something she had not been able to do for months. I told him it was Dr. Williams' Pink Pills that was curing her and he said, "Well, 1 am surprised, but continue the bills, they will cure her." She used in all eight or ten boxes and is now as healthy a girl as you will find anywhere, and she has not since had a symptom of the trouble." If you are weak or ailing; if your hervet ale tired and jaded, or your blood is Sut of condition, you will be wise to use Dr. Williams' Piuk Pills, which are an unfailing cure for all blood and nerve troubles. Be sure you get the genuine, with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for \$2.50 by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

#### The Joke Will Turn. Chauncey M. Depew and Samuel L.

Clemens, the humorist, were crossing the ocean on the same steamer. One evening after dinner it was suggested that, following the time honored custom in the United States, the diners make speeches. Mr. Clemens made a characteristic address, such as might have been expected from one whose writings are so well known under the nom de plume of Mark Twain.

"It was understood," said Senator Depew when called upon to speak, "that Mr. Clemens and I should write out our speeches for this occasion in advance and then exchange manuscripts. We have done so, but I regret to say that I have forgotten Mr. Clemens' speech."

The senator then took his seat. His auditors roared in appreciation of the joke.

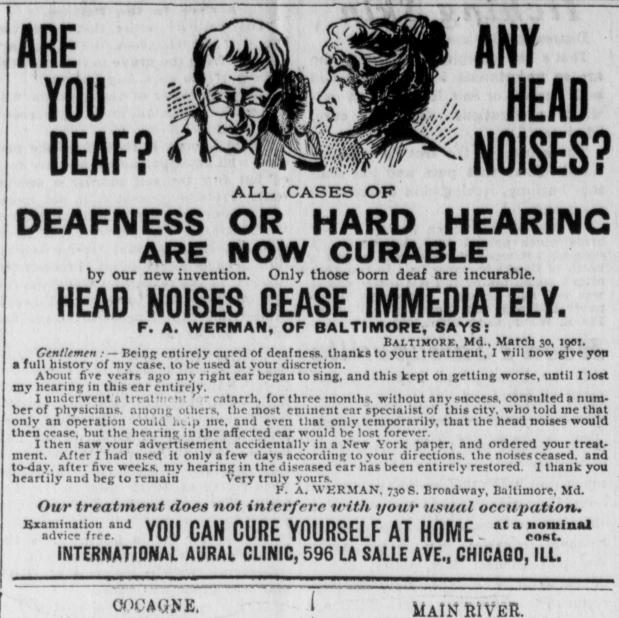

The next day an Englishman met Mr. Clemens on deck.

"I say," he remarked, "I have always heard that Senator Depew was remarkably clever, but what wretched drivel of his that was which you were obliged to recite last night!"

#### Foundlings.

For the humanity of parents let it be said also that the police records show the percentage of foundlings increases in summer and decreases as regularly with the oncoming of winter. It is another interesting fact that hard times mean more foundlings, and this may be taken as a corroboration of the theory of one of the oldest and most humane captains in the police department, who would never believe that any infant was abandoned except for the reason that there were already too many mouths in the house to feed. This particular police captain would look at the foundling when the patrolman brought it in from his post, grunt and then say: "Get it to the hospital quick. They can afford to feed it there. There's too many mouths in the house where that came from-God forgive 'em." But in this charitable view the old police captain is not supported by many of his fellows.

Why He Liked Henty.

The north shore bridge, which for some years was in a poor state is now being repaired by E. S. Hains, who has just completed the Notre Dame bridge. Mr. Hains, wife and family are residing at the Dysart Hotel.

Mr. M. Brown of Notre Dame was in town Sunday.

Messrs, Hatris and Borden, barristers, H. A. Whitney and I. W. Binney, of Moncton, were in town last week.

Masters Willie and Johnie Gegain, cf Boston, are visiting Mr. and Mrs. L. L. Legere,

Roadmaster St. Peist is is 65 congratulated on his cleverness of reducing the amount of road work. The Fondmaster had better complete his work white commissioner will review it by command of others.

Hoping to see more news from our busy little town, I concluded to write to see if others would follow my example.

The weather is very unfavorable and the roads are in a very bad condition, owing so the daily rain showers.

We are pleased to see a number of our young folk returning home again.

It is rumored that picnics and basket socials will be plentiful this summet.

Mr. Andrew Wilt returned home from Boston, Mass., last week.

Mr. Jas. Shortal paid Main River a flying visit last Saturday,

Mt. Jas. McDermott, accompanied by his daughter Miss Lizzie left last week to visit friends in Nelson.

Misses Lena and Vernie McLeary were

IN THE PROBATE COURT OF THE COUNTY OF KENT.

TO THE SHERIFF OF THE COUNTY OF KENT OR ANY CONSTABLE WITHIN THE SAID COUNTY,-GREETING.

Whereas, Thomas Gambol, of the par-ish of Shediac, in the County of West-morland, farmer, has prayed that letters of Administration of the estate and effects of George Gamble, who departed this life on the sixth (6th) day of April, in the year of our Lord, one thousand nine hundred and two, at the Parish of St. Mary's

without having made any will. You are therefore required to cite the heirs and next of kin of the said deceased and all parties interested in said estate to attend a meeting of the said Probate Court to be held before me at my office in the town of Richibucto, in the said Coun-ty of Kent, on Wednesday, the second day of July next, at the hour of eleven o'clock in the forenoon, to show cause why letters of administration should not be granted to said Petitioner Thomas Gamble in said estate, as prayed for in and by his said petition and that a copy of said petition be mailed postage pre-paid to the addresses of the following named Heirs of said deceased residing outside the Province namely, Emily Gamble, Providence. Rhode Island, in the United States of Pmerica, Susan Gamble, of the same place, and Blair Gamble, of Boston, in said United States of America, and that such citation be posted in the following places-being three public places in the County of Kent, namely, at the Registry Office, Richibucto; the Post Office at Buctouche, an the Post Office in Rexton in said County of Kent, and such citation to be published in THE REVIEW, newspaper printed and published at Richibucto, in said County of Kent, for six weeks in each weekly issue of said RE-VIEW ---- ) Given under my hand and the L.S. | seal of said Probate Court, this - 12th day of May, A. D., 1902. HENRY H. JAMES, Junge of Probate, Kent County.

ROBERT H. DAVIS, Registrar of Prabate, Kent County.

#### -----IRISH SERVANT AN HEIRESS.

## HEARS SHE IS LEFT \$15,000 AND AT ONCE QUITS WORK.

PITTSBURG, June 23. - Maggie Maloney, a pretty Irish servant, is awaiting a draft to leave for Ireland, where there is a forsuddenly about three weeks ago, and the first intimation she had of the fact was when she received a letter from a Dublin attorney.

She was employed by a East End family and was sweeping the dining room when she received the letter. She at once threw up the place and is now installed at a comfortable family hotel. She came here from County Mayo two years ago and her three brothers came with her, but she has since lost track of them. She will endeavor to locate them. and give them help before she leaves the country. Her uncle threatened to leave her name out of his will, but evidently relented.

Wearily plodding through a pile of compositions brought from school for corrections, this teacher suddenly burst inte boisterous laughter.

"What is it?" asked his roommate, who was engaged in a similar task. "Listen," said the amused pedagogue, "and perhaps you will be able to read between the lines.

"I asked my class yesterday to write a brief composition on their favorite author. Here is what one boy says: "'Henty is my first choice among story writers. I like him very much. One of his stories in particular pleases me. It tells of how the boys gave their teacher a coat of tar and feathers!" "

## Misanderstood.

An attendant in a London business house was recently approached by a furtive looking stranger. / This suspicious person, dressed in somber black, came quite close to the attendant and then, raising his eyes from the ground, whispered tragically, "Are you prepared to die?"

The attendant wasn't, and he caught the suspicious one by the throat and half throttled him. When the invalid was recovering, it "transpired" that he was an amateur missionary inquiring after everybody's spiritual needs.

#### An Australian Mole.

The Australian mole burrows obliquely in the sand, going two or three tune of \$15,000. How Vaccine Virus Is Obtained. The preparation used to produce what Halifax next week. we call "vaccination" is known among medical men as vaccine virus, to produce which it is necessary to go through a surgical operation, the subject being a young cow or even a calf. After scarifying the belly of the animal, the parts having previously been shaved, the wound is inoculated with virus from an animal already in use. A sore is thus formed without lasting injury to the beast, and after a week or ten days a thin vaccine matter begins to flow from the abrasion. This pus or matter is the vaccine virus of commerce.

Goose quills which have been scraped with a knife until they present a rough exterior are rubbed in this virus. The virus from one abrasion is sufficient to coat 10,000 quills, which after being so prepared are technically called "points." These points when ready for shipment look very much like ordinary goose quills, the virus coating not being visible to the naked eye.

#### Buying of Wives.

Wives are still obtained by purchase in parts of Russian Europe. In the district of Kamy chin, on the Volga, for example, this is practically the only the children Juring the past term. way in which marriages are brought about. The price of a pretty girl from a well to do family ranges from £10 to £20, and in special cases a much higher sum is obtained. In the villages the lowest price is about £5. It is customary for the fathers of the intending bride and bridegroom to haggle for a long time over the price to be paid for the lady. A young farmer whose father cannot afford to pay for a wife for him need not think of getting married. -London Chronicle.
