

RAILROADS.

INTERCOLONIAL RAILWAY

On and after Sunday, June 15th, 1902, trains will run daily (Sunday excepted) as follows:—

Table with 2 columns: Train Name and Time. Includes 'TRAINS LEAVE KENT JUNCTION' and 'TRAINS LEAVE HARCOURT'.

Stage from Richibucto connects with trains at Harcourt. All trains run on Atlantic Standard time East of Campbellton.

Vestibule, dining and sleeping cars on through express trains between Montreal and the Maritime Provinces. Railway Office, Moncton, N. B., June 10th, 1902.

KENT NORTHERN RAILWAY.

TIME TABLE.

Table with 3 columns: Time, Location, and Duration. Lists routes from Richibucto to Kent Junction.

Trains are run by Atlantic Standard time. Trains run daily, Sunday excepted.

Connect with I. C. R. Day Express ains north and south.

WILMOT BROWN, General Manager and Lessee Richibucto, June 16th, 1902.

MONCTON AND BUCTOUCHE RAILWAY.

On and after Monday, OCT. 21st, 1901, trains on this railway will run as follows:

Table with 3 columns: Time, Location, and Duration. Lists routes between Moncton and Buctouche.

Train from Buctouche connects at Humphrey's with I. C. R. train for Halifax, and at Moncton with the C. P. R. train for St. John, Montreal and United States points leaving at 13.10 and I. C. R. train for Campbellton leaving at 10.25.

Train for Buctouche connects at Humphrey's with I. C. R. day express from Halifax, and at Moncton with all I. C. R. trains from east and north arriving not later than 15.15.

E. G. EVANS, Superintendent Moncton, N. B., Oct. 21st, 1901.

MILBURN'S HEART & NERVE PILLS. Illustration of a pipe and text describing the benefits of the pills for heart and nerve ailments.

newer, they cure nervousness, sleeplessness, nervous prostration, smoker's heart, palpitation of the heart, after effects of la grippe, etc. Price 50c. per box or 3 boxes for \$1.25 at all druggists, or will be sent on receipt of price by

The T. Milburn Co. Limited, Toronto, Ont.

NEW BRUNSWICKER DEAD.

WAS SERVING IN SOUTH AFRICAN CONSTABULARY.

OTTAWA, June 27.—The militia department has received a cable from Cape Town stating that Warren Craig, C. division, South African Constabulary, died on 24th June from enteric fever. Craig came from Newcastle, N. B., where his father resides.

Children Cry for CASTORIA.

A doubt has been expressed as to whether the six prisoners who were to be liberated in Canada in connection with the King's coronation should be now set free, seeing that the coronation does not now take place. But as the order in council has been passed approving of their liberation and as they have been advised of this there is no reason to believe that the order will be cancelled.

TO INCREASE YOUR WEIGHT.

If you are thin, weak and emaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day, as it strikes at the root of trouble and creates new rich blood. You can prove that it builds up new tissue and adds flesh if you weigh yourself each week while using it.

A cablegram received at the militia department from Surgeon Col. Worthington, in command of the 10th Canadian field hospital company in South Africa, states that orders have been given for forty days' advance of pay to the company. At the department this is taken to mean that in the course of a few days the hospital men will embark for home.

Children are often attacked suddenly by painful and dangerous Colic, Cramps, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc. Dr. Fowler's Extract of Wild Strawberry is a prompt and sure cure which should always be kept in the house.

Hiram Malow and his son George, of Wolfe Island, left Kingston, Ont., for the island on Saturday. They were in a small boat and it is thought that in the wind storm of Saturday afternoon they have drowned. Neither man nor boat has been seen since. Friends are grappling for the bodies. Malow was 50 years of age and leaves a widow, one son and one daughter, Clara.

Ontario's second woman barrister, Miss M. Powley, of Port Arthur, Toronto, was called to the bar at Osgoode Hall, Toronto, on Tuesday and took the oath. The only other woman lawyer in the province is Miss Clara Brett Martin, of Toronto, who has been practicing a number of years.

Neuralgia. Dodd's Kidney Pills. Illustration of a kidney and text describing the symptoms and benefits of the pills.

Miners' Mortality.

One miner is killed for every 1,000,000 tons of coal raised.

Queer Taste. A wealthy Warsaw landowner sleeps each night in a room draped with black, decorated with skeletons and having in the middle of the floor a catafalque, on which is a metal coffin.

Rice. Rice is the emblem of fertility, and the custom of throwing it after a bridal couple arose from a wish that they might be blessed with a large family.

Parasols. The umbrella and parasol were used by the eastern nations many centuries before the Christian era. The oldest chinaware shows pictures of ladies and mandarins shaded by parasols of patterns similar to those now in use.

A Horse Made a Priest. Incitatus, the famous horse of the Roman emperor Caligula, was actually consecrated as a priest, had a manger of pure ivory and was never given a drink from anything but a gold pail.

Wood in China. In China probably more wood is used for coffins than for any other purpose. The coffins are made of lumber from four to nineteen inches thick. It is not a high estimate to say that from 8,000,000,000 to 10,000,000,000 feet of lumber are annually thus utilized.

Watch Beats. A watch that makes five beats a second makes 432,000 a day or nearly 158,000,000 in a year.

Stamped Envelopes. The first stamped envelopes were issued in 1853 of the two denominations of 3 and 6 cents, and it was not until two years later that the ten cent envelope was added.

Salad Plants. Salad plants comprise a group which may be arranged under the head of acetarious plants. Some have long been known as common vegetables and cooked and served as such, while others have been regarded simply as weeds by most native Americans.

Sakhalin Forests. The island of Sakhalin, the great penal colony of Russia, has splendid forests of fir and pine.

Paraffin. Paraffin is a pure hydrocarbon, containing nothing else than carbon and hydrogen, being precisely the same ingredients as in ordinary coal gas, though in another form.

Slate Mining. Slate is got out of the ground by means of blasting, holes being bored into it with steam drills. With derricks and hoisting chains the rough slabs are lifted to the edge of the quarry, and then they are rolled upon trucks to the shanty of the "splitter."

London's Substratum. It is said that the flint which forms the substratum of London is nothing but petrified sponges. An examination of the fossil sponge, or flint, shows its structure.

Olivelike Shells. On the Pacific coast are found numerous little shells of sea snails of a species called the "olivella," because of their resemblance to olives, out of which the Indians used to cut disks that were extensively used for coins.

Hemp. Hemp is by far the most valuable production of the Philippine archipelago, the province of Albay being the greatest producer of it, with an output valued at nearly \$5,000,000 a year.

Influence. The word influence at first had an astrological meaning. It referred to the subtle energy supposed to emanate from the sun, moon and stars and to exert some mystic power over the human race.

For a Shampoo Mixture. Make a froth of good toilet soap, and when lukewarm add to it the beaten yolk of an egg and a dessertspoonful of spirits of rosemary.

A Cingalese Superstition. The Cingalese believe that the moon and sun are working at cross purposes; that part of the time the sun is dragging the moon across the sky and that afterward the moon takes her turn at pulling the sun about as she pleases.

Damascus. According to Moslem tradition, the foundations of the city of Damascus were laid soon after the creation of the earth.

No Swear Words in Japanese. You cannot swear at or abuse anybody in the Japanese language. The worst you can say of anybody is that he is a "fellow," and if you want to express your very, very pointed indignation you shout, "There, there!"

Mosquito Eggs. The mosquito eggs are, it is said, hatched in from four to seven days, according to the warmth of the weather.

Norway Fisheries. A comparison has been drawn in Norway as to the profit of the fisheries in the sea and in the rivers which shows that the former are three times as remunerative as the latter.

Alaskan Homesteads. Alaska, it is said, can furnish homesteads of 220 acres each to 200,000 families.

Unsalted Food.

Never throw away unsalted food. Keep it, add brown sugar until it tastes all right, and thus save money.

Pointers and Setters. A pointer is so called because of its habits of stopping and pointing at game with its nose, while the setter gets its name from a like habit, excepting that it crouches instead of standing when pointing under similar circumstances.

Heavy Wood. There are 413 species of trees found within the limits of the United States, sixteen of which, when perfectly seasoned, are heavy enough to sink in water. The heaviest of these is the black ironwood (Condalia ferris) of Florida, which is 16 to 30 per cent heavier than distilled water.

Cows in Europe. The number of cows, in millions, is about ten in Russia, eight and five-tenths in Germany, six in Austria, five in France, three and nine-tenths in England and two and two-fifths in Italy.

Pliny's Giant. Galabra, the giant whom Pliny mentions as having been "brought out of Arabia" during the reign of Claudius, was ten feet high, of fine proportions and weighed upward of 400 pounds.

China's Dialects. There are as many different dialects spoken in China as in Europe.

Plated Goods. Plated goods will soon become tarnished when not in constant use. Clean them with a piece of flannel dipped in vinegar and then in plate powder, rub well and afterward polish with a leather, when all marks will be removed.

The Japan Current. The Japan current is about 500 miles wide off Japan. When it passes San Francisco, it has widened to 1,000 miles.

Chocolate as a Food. An interesting experiment was recently made by a Frenchwoman. With a view to testing the sustaining powers of chocolate, she lived upon that for sixty days and lost but fifteen pounds in weight in the interval.

How to Take Ink Out of Paper. To take ink spots out of white paper, wash the spot with a camel's hair brush dipped in a solution of oxalic acid. When the ink has disappeared, wash with pure water.

Lemon and Coffee. A teaspoonful of lemon juice in a small cup of black coffee will almost certainly relieve a bilious headache.

Ebony. Ebony sometimes becomes discolored and whitish. The natural color may be restored by sponging it off once or twice with a strong decoction of nutgalls to which a quantity of iron filings or rust has been added.

Acids and Teeth. All acids are injurious to the teeth. Medicines containing acids should be taken through a glass tube and the mouth rinsed with a little borax and water.

Many Tombs For One Island. There are said to be more than 3,000 prehistoric buildings in the island of Sardinia. They are almost all in fertile districts and are built in groups which are separated from one another by wide and generally barren spaces. These buildings, it is supposed, were tombs.

Japan Fruits. Fruits originally cultivated and probably native in Japan include the orange, pear, peach, sour plum, almond, grape, persimmon, loquat, pomegranate, gingko or salisburia and fig.

Our First Launching. The first vessel launched by the early American colonists was the Blessing of the Bay, launched in Massachusetts bay July 4, 1631.

Why a Bulldog is So Called. As to the derivation of the word bulldog, it is only necessary to state that at one time this species was exclusively used in bull baiting, and from that circumstance arose the name by which it is universally known. A cross between this and the terrier is appropriately termed the bull terrier.

Eskimo Pastimes. Next to gambling the Eskimo men like to wrestle.

Meat Eating. Meat eating reached its greatest height in this country, and to its excess are charged the prevalence of rheumatism, gout and kindred evils and the consequent heart difficulties which annually mow down too large a proportion of the population.

Glazing Pens. The glazing of pens, in some varieties considered an important operation, is done with lac dissolved in naphtha.

Blighted by Blood. Traditions are common in western Kansas of trees suddenly dying without apparent cause after having been used as gallows for lynchings. Many are said never to have leaved again after this experience.

Coffee Test. To test coffee grind and over one tablespoonful pour one cup of cold water. If the coffee colors the water slowly and floats, it is pure; if it sinks to the bottom and the water immediately is stained brown, you may feel sure there is some other adulterant in it.

THE WORLD OVER.

Lord Kitchener and General French have sailed for England on the Orotava. The Duke of Manchester took the customary oath and his seat in the House of Lords on Monday, his financial disabilities having been removed.

C. H. Wessels and P. G. W. Robler, who have been on the continent of Europe for some time past in the interest of the Boers, have started for England, with the view, it is said, of taking the steps necessary to permit of their return to South Africa.

Lord Roberts has again appealed to the public to refrain from treating the returned soldiers, so that the "well-deserved welcome may not be the means of sullying the fair fame of my gallant comrades, of whose stainless reputations I am as jealous as I am proud."

The Allan liner Bavarian has been racing from Cape Town since June 7 with 2,000 British troops on board to get the soldiers to London in time to take the post of honor in the line of the approach to Westminster Abbey on Coronation Day and be the first to salute the King as he leaves the State carriage to be crowned.

The Lloyds medal for meritorious service was presented on Monday in London to Capt. Freeman of the British steamer Roddam in the committee room of Lloyds, in recognition of his action in gallantly getting away his vessel from St. Pierre, Martinique, on May 8, at the time of the destruction of that town by the outbreak of Mont Pelee.

Emperor Francis Joseph of Austria was received in Dresden by the new King George of Saxony on Monday as he came to deposit a wreath on the tomb of his old friend, King Albert.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

The British National Rifle Association will send a team to Canada to compete for the Palmer centennial prize at Rockcliffe ranges, Ottawa, during the meeting of the Dominion Rifle Association next August.

OTTAWA, June 27.—William Curtis, who lives at 79 Creighton street, about sixty years of age, married, but no family, had one of his legs sawn off at the knee by a circular saw in W. C. Edward's mills at New Edinburgh, this morning. It was sawn clear off.

DO YOU GET YOUR Job Printing . . . DONE AT THE Review Office?

All kinds of JOB WORK done at this office with Neatness and Despatch.

Send us your Order and be convinced of the GOOD SATISFACTION GIVEN

ADDRESS: THE REVIEW

Richibucto, N. B.

JUST RECEIVED!

A carload of the famous Heney Carriages. For quality of stock and excellence of workmanship, the Heney Buggy heads the list. Also a large stock of light and heavy Harness, Plows, Harrows, Cultivators, Churns, Washers, Wringers, Bicycles, Organs, Pianos, Sewing Machines, Spramotors, etc.

A full stock of the world-renowned McCormick harvesting machines. The name "McCormick" on a Reaper, Binder, Mower or Rake is a sufficient guarantee that you are getting the best machine in the world. The McCormick runs in a class by itself and is the standard by which all other machines are judged.

If it is true that "cleanliness is next to godliness" it is very important that you should have a Quaker Bath Cabinet in your home. With it you can enjoy the luxury of a Turkish Bath for four or five cents. A soap and water bath only cleanses on the outside. A Vapor Bath cleans inside as well. It will break up a cold quicker than any other agency. There is no disease that will not benefit.

In order to introduce it, I will give any responsible person the use of a Cabinet with sufficient alcohol to give him a good vapor bath free of charge. Try it once and be convinced.

GEO. N. CLARK
