- Tickets, Visiting Cards, Wedding Cards, Wedding
- Invitations, executed with neatness and despatch.

### DEPRESSED AND DISCOURAGED.

It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

The Kingston tinsmiths' strike has been settled.

The residence of Mr. Daniel Scott, London Township, was destroyed by fire on Saturday morning, with a loss of about \$2,000.

The new breakwater at Port Colborne was damaged in Saturday's south-west gale.

A Company will be organized in a few days to establish steel and iron works in Victoria or Vancouver, with a capital of \$25,000,000.

KUMFORT Headache Powders are safe, pleasant and effectual. The contain no opiates or any harmful drug. They create no habit from continued use.

Seven or eight petitions to obtain commutation of the death sentence passed on Salomon, the Galician murderer, are being circulated in Winnipeg.

About \$75,000 loss, no insurance, was caused by a fire at Chesterville on Saturday night, when Mr. Jas. York's sash and door factory and all but two or three residences were completely destroyed.

The dry goods stock of the Runians, Cason, McKee Co., Limited, of London, was damaged to the extent of \$2,000 during the recent heavy storm by rain water pouring through a leak in the roof.

### You May Need

## Pain-Killer

For Cuts Burns Bruises

Cramps Diarrhoea All Bowel Complaints

It is a sure, safe and quick remedy. There's only one PAIN-KILLER. FERRY DAVIS' Two sizes, 25c. and 50c.

**Bright Pupils.**  
A young woman teacher in one of the grammar schools in Brooklyn was speaking of her work the other day. She said that unless a person had some experience in teaching he could scarcely understand how marvelously stupid some children were and what peculiar mistakes ordinarily bright children sometimes make. To illustrate her point she told three stories from her own personal experiences. One day, on a language examination, the following was one of the topics: "Name three kinds of sentences and give examples." This is the way one of the children met the problem. He wrote: "Declarative, interrogative, imperative. 2+2=4. 9x2=18. 13-6=7."

On another day one of the questions in a grammar examination read: "I cannot see it." Complete this sentence by using the words plain or plainly. Give your reason."  
One bright youth wrote this answer: "I cannot see it plain." Reason: Because it is too far away."  
Another scholar answered the question as to why the Dutch settled on the Hudson river by saying, "So they could have a place to wash."

**Evils of Excessive Smoking.**  
While a good cigar, used temperately two or three times a day, may be smoked by the average adult man to good advantage, excessive indulgence in smoking is very harmful. It is only necessary to recall one's first cigar and the profound effect it produced to realize that the smoking of tobacco in large quantities is trifling with a dangerous agent, says the Baltimore Sun.

The chief effects of smoking are from the nicotine and empyreumatic oil, the first being an active poison—an infinitesimal quantity will destroy life—and the latter, which is the rank accumulation in the stem of the pipe, is also a potent poison, one drop on the tongue of a cat having been fatal. The nicotine and the oil both act on the nervous system, though differently, the nicotine paralyzing the heart by its action on the brain, while the oil confines itself chiefly to the spinal cord and the motor nerves.

It will thus be seen that no part of the victim's equipment escapes the deadly effect of tobacco in excess.

**Railroading Terms.**  
Railroading terms in England and America differ very widely. The English would speak of shunting a train. We call it switching. Freight trains they call goods trains, coaches are carriages, conductors are guards, engineers are drivers, trucks are boggies and freight cars are wagons. The British always say station instead of depot, and in that they have the better of us. Rails they call metals and tracks permanent ways. They do not get their tickets at a ticket office, but at a booking office, and the smokestack of the locomotive is to them the chimney. A railroad man going from one country to the other finds that he has to learn an entirely new set of phrases about his business.

**A Chameleon's Bite.**  
The bite even of the largest chameleon does not fetch blood, though the teeth leave indentations. I often, says a naturalist, provoke them to bite me in order to observe their habits, and only once, when one caught me between the fingers where the skin is tender, was I really hurt. On this occasion the thing held on so persistently and firmly that I could not for some time free my finger. At last I was obliged to call some one to get it off by forcibly opening its mouth. Even then it did not pierce the skin. Its teeth are too fine and regular, but the dotted triangular impression of the little teeth was very red and distinct for some minutes.

**Do Your Work Well.**  
Possibly you think your employer does not notice you or know about your work. The writer of this was talking the other evening to an extensive employer of labor, and he talked most of the evening about his workmen. He knew all about every one of them, from the head man to the laborers, and noted their good and bad points. Don't forget that your employer knows all about you. When he needs a new foreman or superintendent, he knows the one to select.

**To Little Profit.**  
"Don't you think I preached a very poor sermon this morning?" asked the new preacher of the deacon, from whom he expected a compliment.  
"Yaas, I do," drawled the honest deacon, "but it runs in my mind that I've heard worse, ef I cud only rickollect wher' it wuz."

**The Trouble.**  
Wicks—There should be a law to restrain the theaters from printing those mossy jokes in their programmes.  
Hicks—You don't have to read them.  
Wicks—No, but you usually have to listen to some idiot behind you reading and explaining them.

**Determination.**  
"I am afraid that your boy lacks determination," said the neighbor.  
"That's where you wrong him," answered Farmer Cornstossel. "I never saw anybody as determined not to work as Josh is."

**The Same Air.**  
Mrs. Homer—Jane, open that window and let a little fresh air into the house.  
Jane—It isn't fresh air at all, mem; it's the same air that's been about here all the morning.

**The Wear and Tear of It.**  
"You must find it wearing to be the wife of a genius."  
"Yes; so many fools want to know how I am able to get along with him."  
—Chicago Record-Herald.

### PET DOG WASHERS.

The Queer Trade That Flourishes in the French Capital.  
As you walk along certain parts of Paris your attention is sometimes attracted by the barking of a dog, and on such an occasion one of the queerest of the outdoor trades of Paris is seen. Near the water's edge, his black coat flecked thickly with soapuds, stands the dog, and over him, energetically shampooing the soap into the long, hairy coat, stands one of the professional dog washers who haunt the banks of the Seine at stated spots from the Pont d'Iena to the Pont Neuf. These men lather and wash pet dogs while their owners look on from conveniently placed chairs. The fees range from 5 sous to a franc. When the soaping operation is completed, the dog is dropped into the river and encouraged to get rid of the dirt and soap by a swim.

Sometimes the pet will swim straight out, while the fair owner is in agonies of fear lest some swiftly passing steamer should strike it and end its bathing and swimming days forever. On more than one occasion the dog washer has been driven to plunge in and rescue the bewildered animal lest the infuriated owner should claim compensation for his carelessness. With some Parisiennes this weekly pet washing is a ceremony of importance. The dainty lady, alighting from her smart victoria, goes down the steps to the washing place chosen, preceded by her footman carrying or leading the dog, as the case may be, and then, seated under a sunshade, she directs the toilet of Fid or Nero with tender solicitude. The toilet des chiens at the fashionable spots includes warm, fleecy towels, a peignoir de bain while the dog's hair is being curled, combed, singed or cut, and a length of ribbon of a selected color to tie round its neck at the finish.

A fee of 5 francs cannot be considered excessive for a "toilet" including a clipping during which Fid or Nero is held firmly by the lady proprietress of the etablissement des bains, while her assistant uses the patent shears. When all has been completed, the victim, wagging his tail with conscious pride, proceeds to the carriage with his proud and happy mistress and drives away in state, yelping at dogs less aristocratic than he.

### FLOWER AND TREE.

Heavy pruning of growing trees will check growth.  
Flowering plants should never be watered with cold water. It chills the plants.

The Madeira vine is one of the best climbers, having a wreath of leaves equaled by few other plants.  
Repotting of plants becomes necessary at intervals for two reasons. The plant uses up the available fertility in the soil and fills the pots with roots.  
The ink plant of New Granada is a curiosity. The juice of it can be used as ink without any preparation. At first the writing is red, but after a few hours it changes to black.

In watering the primrose observe this: Water should not be poured upon the crown of the plant nor the pot filled so full that the water flows over into it. This is fatal to the health of the plant.  
To destroy aphides or plant lice dip the ends of the twigs into a strong tea made by steeping tobacco stems in hot water or syringe with whale oil soapuds, repeating the operation in six or seven days.

**Not at All Excited.**  
In a certain Wisconsin city lives an old German, now past eighty, who has for years been in the hotel business. The old gentleman is very fond of card playing, and pitch is his favorite game. One day a couple of years ago a party was sitting about a table playing, and just as the cards had been dealt and sorted and it was up to the old gentleman to bid for the trump a boy rushed into the office and in great excitement said the barn was on fire.

Without showing the least perturbation the old gentleman turned to him, and the following conversation took place:  
"Did you get out the horse?"  
"Yes."  
"Did you the buggy get out?"  
"Yes."  
"Well," turning to the players, "I bid three."

**The Wrong Way.**  
Fathers and mothers who do not know how and where their sons and especially their young daughters spend their evenings are guilty of a negligence that is little short of criminal and that, too, often leads to sad consequences. The American habit of letting the young folks "have their own way" in choosing their associates and methods of recreation is responsible in every city for a good deal of evil that might be prevented by parental firmness judiciously exercised.

**Anticipated.**  
Stern Parent—I suppose you are aware, young man, that I cease to provide for my daughter when she leaves my roof?  
Suitor—Oh, yes! We have settled about that—Bertha and I. We have decided to make our home with you.

**The Very Best.**  
Mrs. Nurich—I want some terrapins.  
Dealer—Yes'm. Diamondbacks?  
Mrs. Nurich—Yes, and see that the diamonds are of the first water.—Ohio State Journal.

I think you will find that people who honestly mean to be true really contradict themselves much more rarely than those who try to be consistent.

### A Sluggish Liver Brings Bilioussness.

Headache, Indigestion and Constipation—To Set the Liver Right You Must Use Dr. Chase's Kidney-Liver Pills.

Good health is impossible when the liver is deranged. The skin tells of the poisoned state of the system by pimples, blotches and liver spots; the tongue is coated, the head aches, digestion is impaired and the bowels are irregular. There will come spells of dizziness and weakness, palpitation, shortness of breath and menstrual derangements. In sympathy with the liver the kidneys become clogged and the most serious complications arise.  
Search where you will it is impossible to find a better treatment for bilioussness and liver complaint than Dr. Chase's Kidney-Liver Pills. Having a direct and combined action on the kidneys and liver they get so thorough and searching as to promptly afford relief and cure.  
There is scarcely a home in this whole country where Dr. Chase's Kidney-Liver Pills are unknown. They have made their way by force of merit until physicians and people alike recognize in them most unusual medicinal value. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

**A Blind Man's Perception.**  
One of the priests of St. Francis Xavier's church devotes himself to work among the blind and the deaf and dumb. He says that, contrary to the general impression, the blind are peculiarly happy and fond of jokes.

Illustrative of this, not long since a blind acquaintance of his whose remaining senses, like that of all blind, are exceptionally keen, was in a room where were some lady visitors. Finally one of the ladies left.  
"What remarkably white and perfect teeth that lady has!" laughingly remarked the blind man.  
"Why, how do you know?" asked Father Stadelman.  
"Because for the last half hour she has done nothing but laugh!"

**Leaves Used For Paper.**  
Leaves of trees were used for writing purposes very early by the Egyptians and probably by the Greeks. The Hindus continued the use of this material until within a few centuries. Even at the present time books of leaves are not uncommon in the south of India and the island of Ceylon. The leaves of some Asiatic trees, from their size and smoothness, are admirably adapted for books. If we may judge from the name "leaf" being still applied to the paper of books, we should imagine these leaves to have been formerly the principal material in use.

**Umbrella Inconsistencies.**  
"There's something remarkable about this umbrella," said Jlawleigh, exhibiting the antique handle.  
"I suppose," remarked his friend, "you refer to the fact that while your name is John Anderson Jlawleigh the monogram is F. L. T.? Nothing peculiar about that at all, sir."

**Declining.**  
The Friend—Is the editor enjoying good health?  
The Poet (sadly)—No; from what I've seen of him he has been declining for the last five years.

**Pretty Slow.**  
When a girl pins a flower on a man's coat, she always tilts her chin up and looks at it sideways, and the man who doesn't tumble is slow enough to get run over by a hearse.

Nothing worries a person so much as to tell him that he talks in his sleep and then not tell him what he says.

No woman will ever reproach her husband for flattering her even if it is badly done.
