SPEECH FROM THE THRONE.

(Continued from 1st Page.)

QUEENS AND SUNBURY COAL.

Consequent upon legislation passed at the last session to provide for the development of the coal areas of Queens and Sunbury, the railway to the coal fields is now under construction, and it will not be long before the line from Chipman to Fredericton will be completed. My government anticipates a marked stimulus to the industrial life of the province as well as a very considerable addition to the provincial revenues as a result of this undertaking.

WINTER PORT BUSINESS AT ST. JOHN.

The rapid development of the Canadian winter business through the port of St. John is most gratifying. The aid granted some years ago by the province towards the building of wharves and an elevator at that port, and the extremely liberal expenditure on the part of the city, have produced results which cannot but prove of permanent benefit, not alone to the city of St. John, but to the whole province and to the dominion as well, which is interested in having Canadian business carried on through Canadian ports.

THE FISHERIES MATTER.

It affords me pleasure to inform you that since you last convened the dominion government has paid to the province the amount of the eastern extension award, with the exception of a small portion which has been withheld pending an arrangement being made between the two governments in respect to a claim regarding certain land taken as part of the right of way for the railway out of which the claim arose.

My government has during the recess continued to urge a settlement of the various questions in respect to the fisheries outstanding between it and the advisors of Canada, and I have reason to hope that before very long either a friendly arrangement will be arrived at, or that the questions at issue will be submitted to the courts so that the rights of the province may be fully determined.

By the recent judgment of the judicial committee of the privy council it has been decided that the fisheries within the territorial limits of the provinces belong to the provinces, and in the opinion of my government it follows that the amount of the Halifax award should have been paid to the provinces and not to the dominion. My government will press for payment to this province of the portion of the award to which it is properly entitled.

The legislature at its session in the year A. D. 1888 approved of certain resolutions, which in the month of October of the previous year had been agreed to at Quebec at a conference of delegates and members representing the executive governments of five of the provinces of Canada, called for the purpose of conferring upon questions of inter-provincial interest. It seems proper that effective steps should be taken to press earnestly upon the dominion government the desirability of having the British North America act so amended as to carry out the views embodied in the Quebec resolutions, at least in so far as relates to the readjustment of the allowances by the dominion to the provinces. Your attention will be invited to this important subject.

BRANCH RAILWAYS.

The unsatisfactory condition of the branch railways in the province connecting with the Intercolonial is such as to call for serious consideration. These railways have been constructed largely by means of dominion and provincial subsidies, and are not giving that accommodation to the public which was anticipated when their construction was provided

for. If some arrangement could be made by which these roads could be worked as a part of the Intercolonial system it would be greatly to the public advantage, and there is reason to believe that they would become valuable feeders of the trunk line. You will be invited to consider whether the dominion authorities might not properly be urged to make arrangements for their operation upon a fair and equitable basis.

I have directed that the accounts of the income and expenditure for the past fiscal year, as well as a statement of the receipts and expenditures of the current fiscal year up to the opening of the present session, shall be laid before you. Estimates of the probable income and expenditure for the current year will be submitted to you, and I think you will find the estimates of expenditure have been prepared with due regard to economy and the public requirements.

OTHER MEASURES.

Bills to amend the public health act, providing among other things for the compulsory vaccination of children attending school; to amend the law regarding investments by trustees; a Workman's Compensation for Injuries Act; a bill to provide for the more equitable distribution of estates of insolvent debtors; a bill to provide a forest reservation; a bill to provide for the importation of horses, and other measures of importance will be submitted to you; and I am sure that your deliberations will, under divine guidance, be conducted with a sole desire to promote the public welfare.

The many friends of Mr. Ezra Ward will be pleased to learn that he is rapidly recovering from his seriously illness. About two months ago he was taken with la grippe and confined to bed. Although Mr. Ward has passed the three score years, he is as light of foot as any youth of eighteen, and can dance a hornpipe or sing a song in days of yore, his stories of bear hunting and bass fishing in the early fifties are always listened to with pleasure by the young folks.

ST. ANNE.

(Too late for last issue.)

There has been so much soft weather of late that the roads are almost impassable. The fields, where the roads had been previously going, are quite bare of snow now making it a necessity of shifting the road again to the old lanes which are blocked with snow, it will be some time before we have good roads again.

REXTON NOTES.

A most successful party was given by Miss Cameron on Wednesday evening. The first part of the evening was pleasantly spent at progressive crokinole, after which followed a Peanut Hunt in which all present participated, and which was the source of much fun and amusement. The prizes, for the lady and gentleman finding the greatest number of peanuts, were won by Miss D'Olloqui and Mr. A. B. Carson. The merriment was continued by a number of charades, the acting of which was most humorous. A lunch, which for variety and daintiness could not be surpassed, was then served, after which our popular violinist Mr. D. Taylor with Mrs. Dr. Doherty as accompanist favoured the company with excellent music till a late hour, when the company broke up all expressing themselves thoroughly pleased with their entertainment. Those present were: Mr. and Mrs. A. B. Carson, Mr. and Mrs. H. M. Ferguson, Mr. and Mrs. David Taylor, Mr. and Mrs. Dr. R. P. Doherty, Mr. and Mrs. W. Dickinson, Mr. and Mrs. D.
