HINTS TO APPLE GROWERS.

BY DEPARTMENT OF AGRICULTURE.

In the older parts of Ontario, such as the counties of Middlesex, Perth, Oxford, and Brant, as well as a portion of Huron, where the best apples grew in times gone by, to-day there is a great neglect of young tree planting as well as of pruning, and the natural result is a diminution in the quantity of apples grown and a decline in the quality of the fruit produced. Now in Grey, in the north-eastern part of Durham, and in the county of Northumberland, the young orchards are just about equal to the older ones in number, showing that planting is there going on vigorously.

In the former cases there is no doubt the trees were planted from some twenty-five to forty years ago, when there was no exact knowledge of, and, perhaps, but little experience, in varieties—when early apples were in demand, when the soil was new, when insect pests and fungous diseases were rare, and when the only skill required was simply to take the fruit. Under these circumstances the business of apple growing was exceedingly profitable; but there soon came a glut of the earlier varieties. They were not suitable for the export trade, so that as soon as the home market was supplied there was no further call for them. The soil lost something of its virgin freshness; the trees would not grow so well; and with the increased number of trees there came a quadrupled increase in fungous diseases and insect pests. Not only was there a falling off in the demand for the particular variety they were growing, but there was an increased difficulty in growing any variety; hence farmers got the idea that there was no money to be got out of apples, and they let their orchards run wild, they allowed noxious insects to multiply and fungous diseases to run their course, with the inevitable result that the orchards were almost ruined. In the Georgian Bay district, however, it is not difficult to persuade farmers that orchards can be made to pay; but everyone should understand that to be a successful apple grower he must choose suitable varieties, adopt clean cultivation, pursue systematic pruning, spray at the proper time in the proper manner with the proper solutions, and direct careful attention to cover crops.

Where ignorance is bliss 'tis folly to be wise" is not in the science of horticulture. This the Dominion Department of Agriculture is trying to instil into the minds of fruit growers by means of lectures and object lessons. Mr. A. McNeill, acting chief fruit inspector, is engaged in this work, and this is how he teaches the young idea how to grow fruit successfully, profitably, and ready for sale. He arranges a meeting in a central locality and spends from half an hour to an hour indoors lecturing and answering all sorts of questions put to him by growers and others. Then he proceeds with his audience to a near-by orchard, where he commences an expedition in search of noxious insects and fungi. Having discovered a pest (aided perhaps by a magnifying glass) he next proceeds to prepare his Bordeaux mixture, and then sprays the infected parts with the force pump, taking care to demonstrate as well as to explain the difference between showering or sprinkling and actual spraying; for while spraying with poisons is salvation to a plant, tree or shrub, showering or sprinkling means very often destruction. All insecticides and fungicides should fall on vegetation in the most delicate spray, otherwise the trees may be injured.

BIG DISCOUNTS, SPECIAL PRICES.

There is no time like the present to buy Dry Goods at LOGGIE'S.

The prices of our Dry Goods are always very low, but for one month we are going to make them a good deal lower. During the present month of July our customers will get the benefit of a good liberal discount, something that will pay them to come and see us if they need Dry Goods.

Come and see our big stock of Cloth for men's Suits and Trousers.

Come and see our ready-made Clothing, Shirts, Underwear, Hats, Caps, Collars, Neckties, Suspenders and Hose.

See our Dress Goods, Lawns, Piques, Sateens and Prints, and compare our prices with others, and note the saving by buying here. We have a large stock and our prices are positively the lowest.

During the summer months our store will close every Tuesday and Friday at six o'clock.

A. & R. LOGGIE

Mr. McNeill found in his recent tour through the counties already named a general belief that there were no insects this year doing any damage. His magnifier soon discovered hosts of insects. The oyster-shell bark louse is very prevalent; the cigar case beaver in some districts was quite numerous; the tent caterpillar was in evidence but not seriously; and the canker worm in some localities was very plentiful; but for multitude the bud moth simply swarmed. The result of finding these pests where they were supposed to be conspicuous by their absence so struck the farmers that Mr. McNeill could have sold a gross of magnifiers on the spot. It was an object lesson that will never be forgotten; it was nature study in its most tangible form; it was that practical experimenting which leads to the conversion of the desert into a fruitful field, and clothes the dismal prairie with a world's grain yield.

It does not always fall to the lot of a Government to witness the good results of missionary zeal; but here in Canada we are constantly reaping where we have sown; and Mr. McNeill reports that the result of the forward policy of the Minister of Agriculture has already in the fruit section led farmers in the older portions of Ontario to abandon their former slovenliness and to go in for clean cultivation; while in the newer districts the fruit growers themselves so appreciate what has been done to help them that they have become living exponents of the same policy.

To secure and maintain profitable apple cultivation after following out the work necessary, everything depends upon the variety cultivated. The grower must produce what the market requires; the market will no longer be content to adapt itself to the whims of the grower. No matter how healthy or prolific a tree may be, if the fruit be not of the right variety it is valueless.

Undoubtedly winter varieties are those that are paying best. The four varieties of apples that are receiving the most attention now are Baldwins, Ben Davis, Greenings and Spies. As these varieties cover only the fall and winter months it is certainly not wise to overlook entirely the early sorts; because there must spring up a market for the earlier sorts as soon as the others have got the market securely.

Top grafting has received a great deal of attention this spring. The average farmer thinks there is some mystery about grafting, so it is very gratifying this year to find him amenable to culture on the point. It is gratifying to discover how many farmers are taking up grafting, for where it has been put into practice it has been eminently successful. One Ontario farmer who had never grafted a tree in his life, after hearing Mr. McNeill's lecture some time ago, top-grafted a large number in his orchard, and his losses were under three per cent. of the number grafted.

Grafting should be made a part of every boy's education. Notwithstanding all the care the nurserymen can give to his stock, serious mistakes will be made in the varieties; and if for no other reason than

that every lad should know how to perform so simple an operation as grafting.

Trees have individualism just as animals have; and for reasons that we cannot explain one tree with apparently no better chance than another growing by its side, of the same variety, will be prolific while the other is comparatively barren.

The best orchards of the future will be those that are planted with some hardy vigorous stock like our Tallman Sweet, or Macmahon's White; and when these have formed a stock ahead at two or three years old they may be top grafted from selected trees.

As the nurseryman practices propagation he exercises no discrimination, because his cuttings are from productive and non-productive trees alike, and more often than not they are taken from trees that have not come into bearing at all, consequently he must perpetuate a good many poor specimens.

The man who top grafts has an opportunity to examine a thousand trees, and, selecting the best can top graft his whole orchard with the confident expectation of having nearly all his trees approach very near in merit that one in the thousand that he selected for his grafting.

One reason why top grafting cannot be recommended to the average farmer indiscriminately is that he cannot be always induced to do the work at the proper time or in the proper manner. He cannot always be trusted in the matter of selection. And he is too apt to be careless and indifferent, leaving the greater number of his trees ungrafted to the serious detriment of the symmetry of the orchard.

They Father Consumption

Bad coughs, colds and catarrh are responsible for more consumption than is traceable even to heredity. Catarrh cures more quickly than ordinary remedies because, it is the only antiseptic yet discovered that is volatile enough to reach the root of the trouble in remote parts of lungs and bronchial tubes, and impregnate every particle of the air breathed with its healing-germ-killing vapour. Colds can't last ten minutes, or coughs more than thirty minutes when Catarrh is inhaled. It clears nose, throat and air passages at once, stops drooping, headache, and eradicates catarrh from any part of the system. Two months' treatment, \$1.00; trial size 25c. Druggists or N. C. Polson & Co., Kingston, Ont. Sold by R. O'Leary.

DR. HAMILTON'S PILLS ARE MILD.

NO TRACE OF STEAMERS.

PORT TOWNSEND, Wash., July 5.—The steamer Senator, from Nome, June 24, denies the story brought by the Centennial that tidings had been received from the missing steamers Jaene and Portland. Captain Paterson says emphatically that when he left Nome no information had been received from the two vessels and further that the fletch had returned to port to replenish her coal supply without having found any trace whatever of the steamers.

The Critical Time of Life.

Is between the years of fifty-seven and sixty-two. Nature's power slows down, vitality becomes less, and the progress of decay sets in. A means of extending old age and renewing decreasing vigor is to take FERROZONE after meals. Ferrozone keeps up the appetite, and in the formation of red, vitalizing blood, imparts clearness to the tiring brain, force, energy and spirits just when they are needed most. To take Ferrozone regularly means adding from ten to twenty years to life. Large boxes 50c., or six boxes for \$2.50, at Druggists or Polson & Co., Kingston, Ont. Sold by R. O'Leary.

DR. HAMILTON'S PILLS ARE CERTAIN.

GREAT SENSATION IN CARLETON COUNTY.

WOODSTOCK, July 4.—Hartland and the neighborhood round about is in the throes of a great sensation. It seems that about a dozen years ago or so an old man named McDonald died and was buried. He had been a pedler, widely known and regarded as well nigh a pauper. He was buried at the expense of the parish in a rough coffin and his pack was buried with him. Some way or other recently it has become noised abroad that the old man had a lot of money and that this money was buried with him. It was decided to proceed with an investigation, but yesterday it was found that some one had already been at work. The body has been disinterred, and if there was any money it was evidently removed. Whoever dug the remains up left on a sudden, for they were only partly covered up afterwards. Great excitement prevailed yesterday about Hartland, and hundreds of people visited the grave.

FELL EXHAUSTED AND UNCONSCIOUS.

Mrs. R. W. Edwards, 33 McMurray St., Brantford, Ont., suffered for five years with nervous exhaustion, headache and dyspepsia. "The pains in the head would almost drive me crazy, I could not sleep nights but would walk the floor in agony until I fell exhausted and unconscious. For the past nine months I have used Dr. Chase's Nerve Food and from a mere skeleton this medicine has built me up in flesh and weight until I am strong and well." It would be scarcely possible to produce stronger evidence of the wonderful power of Dr. Chase's Nerve Food.

A HALIFAX CHILD IS BURNED TO DEATH.

HALIFAX, July 4.—Beatrice, the 3 year old daughter of Wm. Snow, was terribly burned while playing with matches near her home on South street. Death ended the child's sufferings at 9 o'clock at night.

BURDOCK BLOOD BITTERS is a purely vegetable combination, that in a safe and natural manner acts directly upon the BOWELS, LIVER, KIDNEYS and BLOOD, cleansing the entire system of all impurities, foul humors and obstructions that poison the blood and create disease.

DEATH OF MRS. J. C. MILLER AT MILLERTON, N. B.

Mrs. J. C. Miller, of Millerton, died Monday week at her home. Mrs. Miller was in usual health on Sunday and she and Mr. Miller were sitting on the veranda late Sunday evening talking when Mr. Miller noticed that Mrs. Miller was not taking part in the conversation and was startled to see her reclining in her chair in an almost lifeless state. She had been suddenly seized with paralysis, and became unconscious in which state she remained until her death Monday afternoon at about five o'clock. The deceased lady was sixty-four years of age, was born in England, but when very young removed to Grandby, Ont., where she lived until her marriage to Mr. Miller, who with one son J. W. Miller, survive.

KENT COUNTY TO THE FRONT.

JAS. FLANAGAN'S FLOAT IN MONCTON'S DOMINION DAY CELEBRATIONS ADMIRABLE.

The popular verdict was in favor of Mr. Flanagan's display as being the most artistically decorated cart in the procession. The design was very pretty, representing the peace proclamation, and the decorations were of an elaborate character. The car was drawn by four gray horses wearing blankets of crimson and gold and bearing Mr. Flanagan's name. Miss Claire Flanagan was seated on the car and represented a fairy driving a pair of swans, drawing an inverted cannon. The dominant colors were crimson and gold, a relief from the prevailing colors in the procession. Pictures of King Edward VII adorned each side of the car and over all rested a large gold crown on velvet cushions.

KENT COUNTY BAPTIST CONVENTION.

AN INTERESTING AND INSTRUCTIVE CONVENTION HELD AT BUCTOUCHE.

One of the most interesting and instructive S. S. Conventions, which the writer has ever attended was with the Buctouche S. S. on Saturday and Sunday, June 28th and 29th. The first session, being the 57th session of the Kent Co. Baptist S. S. Convention, was held on the afternoon of June 28th. It opened with a devotional service led by Pastor Stearns. Some of the interesting features of the session were the "Words of Welcome" from Wm. Ayer and Chas. Hicks with responses by W. S. Newcombe and Pastor Stearns, reports from schools showing that all were prospering, discussions on the following topics: "Are the Present Lesson Helps Satisfactory?" and "Should S. S. and Preaching Service be held at the one Gathering?" In the first case all agreed the helps would be ideal if a little of the Americanism and a few of the Sapolo and Pearlina advertisements were left out. On the second subject all seemed to agree that, with very few exceptions, the two services should be held at separate gatherings.

THE EVENING SESSION

met at 7.30. After a praise service led by Chas. Ward, the subjects of "Temperance" and "Missions" were taken up. A good program was carried out. Interesting addresses were given by Chas. Hicks, W. Ayer, W. Newcombe and Pastor Bynon. Subject of "Our Missions" and "Our Missions" were spoken on by E. H. Hicks and Pastor Stearns respectively. Music and readings helped to make the program still more entertaining. A very interesting feature of the evening was the time spent in "Happy Greetings" interspersed with spicy recitations.

The Sunday morning session consisted of Devotional Service led by Mrs. R. M. Bynon; Opening a Model S. S., J. West; Review of three lessons, five minutes each, by W. S. Newcombe, H. H. Floyd and Mrs. N. King; address to school, Wm. Ayer; Closing a Model S. S., E. H. Hicks. Pastor Stearns gave an address on "Systems of Teaching." This was a profitable session to all S. S. workers.

Session 60 opened at 2.30 by Praise Service led by Mrs. Newcombe and H. H. Floyd after which entertainments were given by the Little River and St. Marys S. School with music from Buctouche village. This session proved

ONE OF THE MOST INTERESTING.

At 7.30 p. m. the friends gathered for the last session. A praise service was led by J. Cummins in which a godly number took part. Addresses on Golden Texts were given by J. West, Chas. Ward, W. S. Newcombe, after which essays on "Power of Influence" by H. H. Floyd and "Preparation of the Lesson" by Mrs. N. King were read. Pastor Bynon preached from Ex. 14:14 a sermon full of earnestness. A short social service was held in which a great number took part. Thanks was tendered to the visiting friends, and especially to Mrs. Newcombe who presided at the organ, by the Buctouche S. S. In behalf of the visiting friends, W. Newcombe and Pastor Stearns made reply in which they expressed our enjoyment of the services and appreciation of the kindness shown by the people.

There is no form of kidney trouble, from a backache down to Bright's disease, that DOAN'S KIDNEY PILLS will not relieve or cure. If you are troubled with any kind of kidney complaint, use Doan's Kidney Pills.

Dr. W. D. Lesueur, who was recently superannuated after 46 years of service in the Post Office Department at Ottawa, was presented with an engrossed address and a mahogany library chair and set of university classics by the department.

J. R. Hooper, the ex-civil servant released from the penitentiary at Kingston, may put in a claim for a pension from the Government.

Hon. Charles Fitzpatrick has rented the Ottawa residence recently occupied by Gen. O'Grady-Haly.

The funeral of Dr. Douglas Brymner, Dominion Archivist in Ottawa, was largely attended.

J. A. Sheffield, superintendent of sleepers, diners, and hotels on the C. P. R., has retired, and will probably be succeeded by W. A. Cooper, assistant superintendent.

A HEROIC LIFE.

With an Eye Single to the Good of Her Fellow-men She Tilled.

The Story of Eliza V. Varney, of Bloomfield, Ont.—Spent Many Years in a Service of Sainly Sacrifice to the Poor and Needy—Ministered to Their Physical as Well as Spiritual Wants.

BLOOMFIELD, Ont., July 7, (Special).—Our community boasts of having within it one of the most devoted Christian women that ever tilled in the world's vineyard.

Owed and blessed by God, this self-sacrificing heroine and her husband, since deceased, spent many years of faithful pastoral work in different parts of the continent. Elizabeth H. Varney, relict of the late Levi Varney, is now 73 years of age and is living in quiet retirement here. She is a member of the Society of the Old Orthodox Friends and this simple peace-loving Society never had a more humble or more worthy member.

It is of her work among the Doukhobors in our own Canadian North-West that she loves most to speak, and many and vivid are her recollections of this peculiar people.

One of the greatest difficulties this devoted woman had to contend with was disease among her poor people. But she had armed herself with a remedy that was as unfailing as her own charity—Dodd's Kidney Pills were the weapons she used to drive out sickness.

Some years before she had tried and proven the value of this great medicine in her own case when threatened with Dropsy and suffering with Rheumatism. They had completely restored her, and when she found that the prevailing trouble among the Doukhobor people was Kidney Disease and Dropsy she knew that Dodd's Kidney Pills would be her most valuable aid in her good work.

She tells of one poor young woman among this people who was suffering so severely with the Dropsy that she was terribly bloated all over and confined to her bed. The Lady Missionary left a few of Dodd's Kidney Pills and immediately sent for three more boxes.

She was rewarded for her efforts by the complete recovery of the young woman. Dodd's Kidney Pills have received this worthy woman's most emphatic endorsement.

PATENT REPORT.

Below will be found a list of patents recently granted by the Canadian and American Governments, secured through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Can., and Washington, D. C.

Information regarding any of these patents will be supplied free of charge by applying to the above named firm.

CANADA.

76,377—Herman Warner, Leamington, Ont., Apple Peeler & Corer.

76,378—James D. Somers, Wallaceburg, Ont., Perambulator.

76,395—Donald Fraser, Jr., Fredericton, N. B., Feed Mechanism for planing machines.

76,407—Thomas E. Melanson, Upper Charlot, N. B., Car Coupler.

UNITED STATES.

700,583—Thomas F. Van Luven, Catarqui, Ont., Axle Bearing.

701,178—Napoleon Dussault, Montreal, Que., Nail making machine.

701,283—Victor Berford, Tara, Ont., Weed destroying mechanism.

701,851—Charles L. Culver, Sanson, B. C., Ore classifier and separator.

Write to Messrs. Marion & Marion for a copy of "The Inventor's Help".

To MAKE MONEY it is necessary to have a clear, bright brain, a cool head free from pain, and strong, vigorous nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

Messrs. Leonard, Lanigan, and Woodman, of the C. P. R. have returned to Winnipeg from a trip to the lake ports. They found that the construction of the mammoth grain elevator at Port William was progressing satisfactorily. When completed, the elevator will have a capacity of 10,000,000 bushels. The steamship Canada has arrived at Cape Town with four hundred Boers who were formerly prisoners on the island of St. Helena, on board. The Canada is the first transport bringing former Boer prisoners back to South Africa to reach there.

Children Cry for **CASTORIA.**
