ALMOST IN DESPAIR.

THE CONDITION OF MRS. JOHN SHOTT, OF ORANGEVILLE,

Suffered From a Burning Sensation in the Stomach-Food Became Distasteful and She Grew Weak and Despondent.

From the Sun, Orangeville, Ont.

The Sun is enabled this week through the courtesy of Mrs. John Shott, a lady well known and much esteemed by many of the residents of Orangeville, to give the particulars of another of those cures that have made Dr. Williams Pink Pills a household remedy throughout the civil-1zed world. Mrs. Shott, in conversation with our reporter, said :-- "About three years ago, while living in Ingersol, I was a great suffer from Dyspersia. The trouble first began with severe headaches, dizziness and sometimes vomiting. Next I suffered continually from a burning sensation in my stomach; food distressed me; I did not sleep well at night; lost fles. and became very weak. I was continual. ly doctoring but it dil me no good. In fact I was gradually growing worse and despaired of ever beiug well again. One day a friend who called to see me strong. ly advised me to try Dr. Williams' Pink Pills. She spoke so highly of them that I decided to take her advice, and I soon discovered that they were not like the other medicines I had been taking and that I had at last found something to help me. I continued using the pills for perhaps a couple of months, when I found myself fully restored to health. I have always since enjoyed my meals with relish and have had no return of the trouble. With my experience I feel certain that if other sufferers will give Dr. Williams Pink Pills a fair trial they will find a certain cure."

Dr. Williams' Pink Pills enrich and nourish the blood and strengthen the nerves. It is thus that they cure such troubles as dyspepsia, kidney ailments, rheumatism, partial paralysis, heart troubles, St. Vitus' dance and the ailments that make the lives of so many women a source of misery. These pills never fail to drive away pain, bring a glow of health to the whole body and make despondent men and women, bright, active and strong. Do not take any pills without the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around the box. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for \$2 50 by address the Dr. Williams' Medi cine Co., Brock ville, Ont.

A MATHEMATICAL PROBLEM ADE Can You Solve It or Prove That It Cannot Be Solved? At a lecture at the Royal institution

on the fascinating subject of "Magic Squares" Major P. A. MacMahon, F. R. S., reminded his audience of the existence of a curious problem which, despite its apparent simplicity, has never yet been solved. He commended it to the attention of any one present who desired to exercise his ingenuity and patience.

The problem is as follows: There are thirty-six officers of six different ranks and drawn from six different regi ments, and it is required to arrange them in a square of thirty-six compartments, so that in each row as well as in each column there appears an officer of each rank and also an officer from each regiment.

Euler's "Recherches Sur une Nouvelle Espece de Quarres Magiques." which appeared in 1782, discusses this problem, but gives no solution, and the late Professor Cayley, writing more than a century afterward. confessed that it was beyond his powers.

Major MacMahon, who has added so much to our knowledge of the theory of groups-a fascinating branch of mathematics which has an important bearing on many branches of physical science-has not yet found a key to the mystery.

Whoever can solve this problem or prove that it cannot be solved will achieve immortality on the lips of mathematicians and perhaps open a door into a new realm of the scientific wonderland which is called pure mathematics.-London Post.

Catching a Muskellunge.

You feel the drops of sweat on your forehead, though the early morning air is as cool as the breath from some snow clad mountain. Gradually he weakens, and you know that, barring accident, you have won. Up, closer and closer, you draw him along till at last he floats there within a foot of your boat.

No eyes so wicked as a musky's. They glare up at you like an angry dog's, seeming to watch every motion you make. Be careful. Here it comes. his final despairing leap for liberty. As he makes it his powerful tail sweeps against the stern and deluges you with water. But the hooks hold, and once more, for the last time, you draw him again to where the guide waits with a revolver in his hand. A shot back of those glittering eyes. a shiver down the whole length of him, a swift jerk into the bottom of the boat with the ganhook-and you lie back in an ecstasy of exhaustion.

We Ask This Question:

Why don't you remove that weight at the pit of the Stomach?

London July 25.-Replying to a question by Lord Beauclerc in the house of Lords, this afternoon, the Earl of Onslow, parliamentary secretary to the colonial office said he had not the full statistics for 1902 of the imigration from the United States to Canada, but undoubtedly the WHAT fertile land in the western part of the Doorgans so that it will not be necessary to minion had been taken up with great rapidity by American and Britishlemigrants. The influx of these people promished to GREAT make those wheat fields an important fact r in the wheat supplies of the world. The number of immigrants that entered Canada from the United States in the various years beginning with 1897 was as

Mago's Egotiam.

Victor Hugo had a very exalted opinion of himself. One of his intimates called on him once and found him walking in his garden, apparently thinking deeply. The visitor asked the great French poet what he was meditating upon. "I was wondering," replied the poet, "what I should say to the Creator when I meet him. Can you imagine what I would say?" "Yes," answered the poet's friend. "You would say, 'My dear confrere.' " The is +

Her Generosity. Madge-I hear you take your sister to the matinee every week. De Garry-1 do. Madge-If you'll take me there as often as that, I'll promise to be a sister to you .- New York Times.

It doesn't matter so much how many mistakes Moses made if we only follow up the advice he left us when he did hit the nail on the head.-American Thresherman

Twitching of The Nerves

Mrs. Drinkwater, 5 Water Street, Galt, Ont., states :- " My great trouble has been with my nerves. I was very nervous, had twitching of the nerves and could not get to sleep at night. I seemed quite worn out and believing that I needed some. medicine began to use Dr. Chase's Nerve Food. I can truthfully say that this preparation has proven surprisingly beneficial to me. It has strengthened and steadied my nerves, made me rest and sleep well, and in fact built up the system generally." In Dr. Chase's Nerve Food is found the ideal tonic for blood and nerves, and through these two mediums every organ in the human system is benefited. The languid, depressing feelings disappear when this great restorative is used, and with renewed energy and vigor disease is overcome, the organs of the body perform their various duties and new flesh and tissue are added 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Naming the Hymn.

A story is told of a negro evangel-Ical minister who held night services in a chapel formerly used by the Anglican church. In a hymnal which had been left he found an old familiar hymn suitable for his sermon, but the Roman number CXIX somewhat confused him, and he was embarrassed as to how to announce the hymn. As was the custom, he read the stanzas through, seeming still confused. He then reread the first stanzas, which did not seem to aid him in helping the congregation, now very much bewildered. Proving redoubtable, he straightened himself up and seemed to grasp the situation at a glance and in a stentorian voice exclaimed. "Brethren. let us sing the Skee-six hymn." 4013

He Boiled It Down.

A beginner in newspaper work in a southern town who occasionally "sent stuff" to one of the New York dailies picked up what seemed to him a "big story." Hurrying to the telegraph office he "queried" the telegraph editor: "Column story on so and so. Shall I send?" The reply was brief and prompt, but to the enthusiast unsatisfactory. "Send 600 words," was all it said. "Can't be told in less than 1,200," he wired back. Before long the reply came: "Story of creation of world told in 600. Try it."

Cannibal Trout.

Trout are canvibals, and it is a moot question whether in some waters large trout should not be systematically destroyed. Dartmoor fishermen are in favor of killing them. They say that fish in their streams of one pound to two pounds weight are hardly ever caught by ordinary means and live entirely on their own brethren. A two pound Devon trout is probably responsible for the death of several stones' weight of his own kind.

Ants as Examples.

"Look at the birds in the trees," said the man who wants to keep house; "they wouldn't think of living in a crowded tenement." "Yes," answered his wife, "but look at the ants. They always live in an apartment house. And every one knows that ants are smarter than birds.".

Why don't you regulate that variable appetite, and condition the digestive starve the stomach to avoid distress after eating?

The first step is to regulate the bowels. For this purpose

Burdock Blood Bitters Has No Equal.

It acts promptly and effectually and

permanently cures all derangements o follows: digestion.

ACADIEVILLE.

Let me try my hand at writing a few items for THE REVIEW.

I am not acquainted with the girls along the line so I can't give any of their doings. This is a poor day for hay making as it is raining very hard. Moose are very plentiful this season.

Several were seen up the road lately and they are destroying the crops in some places.

The Barrios are building two houses and two barns.

Abraham Pineau has also built a large

P. Arsenault and J. M. Vautour have each built a house.

Fabien Desveau has . again put up his barn which was blown down by the gale some time ago.

The school house in dist. No. 2 which was badly twisted in the same gale is yet in the same position.

Blueberries are the talk of the day aud
