CORRESPONDENCE

To the Editor of The Review:—

I see by the press that the different counties in our Province are looking forward to an election soon. And as I had occasion to be in the different sections of Kent County lately, I find that the rate-payers are generally well satisfied with the Tweedie Administration. I very much doubt if an opposition ticket can be brought out in Kent. And justly so, when we look over the past and see how the people of Kent have been used by the present Government. The Rexton iron bridge is a monument for the present Government in Kent. Besides there has been a large amount of expenditure all over the County. For example, a covered bridge at Notre Dame in place of the one swept away by the freshet in March last, a bridge over Falconer's Pond, a bridge over Cocagne River near Poirier Settlement, a bridge over the Northwest Cocagne River, a bridge over Brooks' Stream, Cocagne, four bridges in St. Mary's Parish, a large bridge at McWilliams' Mill, a bridge over Trout Brook, the Barriean bridge, two bridges repaired in Richibucto Village, and the painting of the Rexton iron bridge which is getting near completed, and for which the Contractor, Geo. P. Jardine, deserves great credit for the pains he has taken in this work. The prompt action of the Government in ordering a ferry for the St. Nicholas River, just a day or two after it broke, is to be commended. All goes to show that we have now a Government that looks after the welfare of the people.

The Tweedie Government should be returned and that with a larger majority than before. As for Kent, if indications are to guide one, the opposition will not be able to put up a man. And the Government will have a walk over.
