

Hope For Consumptives.

HOW THE RAVAGES OF THIS SCOURGE MAY BE STAYED.

Statistics Prove That More Deaths Occur From Consumption Than From All Other Contagious Diseases Combined—How Best to Combat the Disease.

The ravage of consumption throughout Canada is something appalling. In the province of Ontario, where statistics of deaths from all diseases are carefully kept, it is shown that 2,286 of the deaths occurring during the year 1901 were due to consumption, or about 40 per cent. more than the number of deaths occurring from all other contagious diseases combined.

It was a long ride through a desolate and dangerous country, and the politician sought to relieve the monotony by philosophic musings on his recent victory and embarrassments that even success brings.

These pills are also a certain cure for the after effects of la grippe and pneumonia, which frequently develops into consumption. Through their blood-renewing, strengthening qualities they also cure anaemia, heart troubles, neuralgia, rheumatism, stomach troubles, kidney and liver ailments and the functional weaknesses that make the lives of so many women a source of constant misery.

PRESENTATION AT MONCTON.

J. H. Abbott, manager of the Royal Bank of Canada, who has been transferred to Ottawa, was waited on at his home Friday night by a number of leading citizens and presented with a valuable cabinet of silverware and travelling case, accompanied by address. The presentation was made by Judge Wells, after which a pleasant evening was spent socially.

Nervous Depression and Bodily Weakness.

Another Woman Who Has Found Health, Strength and Vigor in the Use of Dr. Chase's Nerve Food.

To women especially Dr. Chase's Nerve Food is proving to be a very great blessing. So many women are weakened and debilitated by overwork, worries or diseases peculiar to their sex, and need the assistance of just such a restorative as this great food cure.

Mrs. M. A. McCree, Tory Hill, Ont., writes: "My system was all run down when I began to use Dr. Chase's Nerve Food. I was weak and very nervous and felt so tired and worn out that I could scarcely drag myself about the house. It seemed impossible for me to get rest or sleep at night, and I felt that I was gradually growing weaker and more nervous and irritable. Since beginning the use of Dr. Chase's Nerve Food I feel altogether different. It has gradually strengthened my nerves and built up my system wonderfully. I sleep well now, and am being thoroughly restored to health and strength. I believe it is the best medicine to be had for the nerves."

Many of the islands of the western Pacific have in their streams and lakes large numbers of eels of immense size which seldom are used as food by the natives, who seem to have a horror of the snakelike creatures.

These eels sometimes will climb mountains 2,000 feet high and select the summit as the place for their winter's rest. They select or make a depression in the soft, moss covered soil and fit themselves into it snugly, remaining for months at a time absolutely motionless and inert.

Without making any reply he walked out and went into a little coffee house hard by and asked for a cup of chocolate. The landlord answered that it should be ready in a moment.

I should take a small gang of practical coffee planters from Ceylon with good digestions to be not afraid of chigoes, ticks and Berne flies, to say nothing of the dear little mosquito.

Of all the vile insects on earth the Berne fly is the worst. She lays her eggs inside your flesh and hatches three very ugly insects an inch long with three rings of bristles round the body and with sharp nippers. They take about six weeks to develop under your skin, then commence to turn somersaults just when you want to go to sleep after a hard day's work in the sun.

The natives of Brazil adopt a novel way of extracting the brute when full grown. They tie on a piece of raw pork and the Berne comes out of your skin and takes a header into the piece of pigskin.

When Li Hung Chang was in Paris, he went to visit the Credit Lyonnais and showed lively interest in its halls, its stairs, its safes and the room where the bonds of the last city of Paris loan are kept.

As an illustration of how closely everything is watched in Russia, take their system of registering firearms. When a weapon of any kind is purchased a permit must be secured from the local authorities. The name of the man who makes the purchase, with the number of the weapon, is recorded. If the purchaser ever wants to dispose of the weapon he must notify the authorities and cause the transfer to be recorded on the books of the firm which sold it.

Wife—What are some of the requirements necessary to make a successful poker player, my dear? Husband (thoughtfully)—Well, a man must be cool, calculating, crafty, deceitful, selfish, sly and have a touch of meanness in his disposition.

Eighteen miles is said to be the longest distance on record at which a man's voice has been heard. This occurred in the Grand canyon of the Colorado, where one man shouting the name Bob at one end his voice was plainly heard at the other end, which is eighteen miles away. Dr. Young records that at Gibraltar the human voice has been heard at a distance of ten miles.

Her Marriage Dot.

The Emperor Joseph II. was in the habit of walking about incognito. One morning he went into a coffee shop and asked for a cup of chocolate.

Without making any reply he walked out and went into a little coffee house hard by and asked for a cup of chocolate. The landlord answered that it should be ready in a moment.

The emperor wished her good day and observed to her father that it was high time a flower in full bloom should marry before it faded.

Among the experiences that helped a now prominent attorney to emerge from the condition of a briefless barister he tells the following: One day a miserly old fellow came to him and asked that the young attorney draw up a will.

"How much cash have you?" was the first interrogation. "Waal, I dunno," responded the client, "somewheres nigh on to \$30,000, I reckon."

"What else do you wish to say?" "Say that to each of my several nieces and nephews I also give the sum of \$5,000."

"Hold on, sir; this is a work of supererogation. You have already disposed of all your money. How are they to be given the sums you specify?" "Gol darn 'em, let 'em work for it, as I did!" came the answer.

"Think I'm kiddin', do you?" "Trying to make fun of me, are you?" "Biff! Bang!" "For heaven's sake, gentlemen," agonizingly exclaimed the hotel clerk, "stop! You are under a misapprehension. I know both of you and know those to be your real names and the real names of the towns you are from!"

By strenuous efforts he succeeded in separating them, and a few moments later they were apologizing profusely and insisting with much vehemence on treating each other.

FARMERS AND DAIRYMEN.

REPORT BY JOHN JARDINE, REXTON. In presenting my report for the County of Kent it must be in order to correspond with the crop, be a short one.

The long continued drought during the summer and autumn caused a shortage from all the operations of the farmer, but the increased prices of the different products of the farm will, in part, compensate for the shortage in quantity.
