conment will operate as a just punishment, and not as a menace in common to the fradulent and the unfortunate. This is worthy of his lordship's enlightened character. If he proceed in this way, he will have none to resist him, but those who hate to hear Aristides called the just

Mr. E. Lytton Bulwer has given notice of a mo-

postage as a compensation to the revenue.

An admirable marble statue of the late Mr. Caning, executed by Chantry, for 3006 guineas, is about to be placed in the Town Hall, Liverpool.

We can positively assert, on the first authority, that Lord Palmerston has signified to the Spanish Ambassador here, that if Spain interferes against Don Pedro. England will interfere against Spain We do not know whether this is wise or not, but it is fact.

The Dutch army is 120,000 strong. The garrisons in Dutch Flanders are still further fortified; and at

Maestricht, as well as at Flushing, new ships of war

are being built.

frontier.'

The French landing at Ancona appears hostile. On the 23d, 800 men were landed, and having broken the gates with axes, took possession of the fortress. Carnal Bernetti, on being informed of this new step, said to M. St. Aulaire, 'I cannot but protest, for since the time of the Saracens no such thing has been attempted against the Sovereign Pontifi.'

The Russian government continues its severe mea-

The Russian government continues its severe measurss against the Poles who were concerned in endea-Vouring to favour the independence of their country. The officers of the garrison of the interior guard, Lieut. Moratschwski, the trumpeter, P. Zeplinski, G. Schangawski, and T Cesnorrski, have been condemned by the Council of War, and the sentence has been confirmed by the Emperor, to degradation, and to be exiled

Lafayette is to be raised to the peerage with many

Other members of the opposition.

Government is marching about 30,000 men towards the frontiers of Spain, in case of necessity, with the concurrence of the British ministry.

Constantinople.—The naval and military prepa-

rations for the expedition against Syria are nearly complete. The sublime Porte is in a passion.

MADRID - The Spanish Cabinet has prohibited all intercourse with England, on account of the cholera.

ROTTERDAM .- In this port, and at Amsterdam, the quarantine on vessels from London, and the Thames, as low as the Nore, has been reduced to fifteen days; and from places on the coast between Harwich and Dover to Dover, to seven days.

The Reform Bill is slowly progressing - the Papers are still occupied with animated discussions of its clauses and general bearing. The Times and other Whig Journals strenuously urge upon the Ministry, the propriety of creating new Peers—there is no evidence to prove that they will shrink from this alternative, it really should be necessary to the success of the

Ministers had a narrow escape last night on the segar Duties—a majority of only 14. Lerd Althorp regretted that the state of the revenue would not admit of any reduction in the duty; but that he would intro-duce some fiscal regulations for the benefit of the co-

Edinburgh has been entirely free from Cholera for the last eight days. The disease has also been totally extinct for a week at Musselburgh. In the other llages of the same neighbourhood it is rapidly subsi-

SCHEDIASMA.

MIRAMICHI.
TUESDAY MORNING, APRIL 24, 4832.

By the arrival at Halifax of the ship Halifax, and called the just.

Mr. E. Lytton Bulwer has given notice of a motion for a repeal of the newspaper stamp duty and of the excise on paper, and proposes the substitution of a postage as a compensation to the revenue.

Majesty's Packet Camden, we have been put in possession of our files of English papers to the 6th, and London dates to the 11th ult. As far as the short period allowed us by the late arrival of the mail (6) o'clock last evening,) we have gleaned such articles as we consider important or interesting.

> We are happy to have it in our power to give our testimony to the enterprising manner in which the Stage to Richibucto is carried on. At the present time, while travelling by sleigh or wheel-carriage, is all but impracticable, the undertakers furnish saddle horses for travellers. We consider it our duty to announce to the public, that no difficulty in travelling that road occurs, except from the natural state of the passage of the rivers Kouchibouguasis and Ardine.

mane and active individuals rup from the town to his rescue. The highest praise is due to Mr Boreas M'Donald, who utterly regardless of his own safety, went to the very edge of the holes, and saved the poor

fellow, who was quite exhausted, from a watery grave.

The Ross has moved from the place in Richibucto Harbour where she was frozen in, and Captain Harrison, with a zeal for his owners which confers on him the highest degree of credit, is actively preparing his vessel to withstand the pressure of the floating

ice, and to make ready for sea.

The channel of Richibucto river is quite clear of ice but the extensive flats still remain firmly bound in their wintery fetters.

THE WEATHER-We perceive by all the Colonia papers we have perused, that the weather continue extremely severe for the advanced period of the seasoa. In Miramichi, to use the language of one of our neighbours, it has been "out of a character."

The river still continues attired in its winter apparel and a spau of horses was driven on the ice from Bay du Vin to Chatham, yesterday afternoon. Sunda and yesterday more resembled days in January than April, the thermometer on the morning of the latter stood 22 below the freezing point. We would however, advise persons to be cautous in crossing the river, as the ice in many places cannot be safe

The Committee appointed at the Sessions, to make arrangements to prevent the importation and spreading of infectious distempers, have purchased Sheldrak. Island, and intend having the Lazor Houses immediately erected upon it. Tenders for the Buildings were to have been received by them yesterday.

COLONIAL SUMMARY: - The Legislature of Nova scotia was prorogued on Saturday the 14th instant We have not room for His Excellency's speech on the occasion; be expressed himself highly gratified with

their proceedings while in Session:
The first Number of the Methodist Quarterly Magazine, has been published at Halifax; also, the first

volume of Mr Murdoch's Epitome.

At a meeting of the Shareholders of the Royal William, Steamer, held at Quebee, it was resolved to borrow, on security of the boat, the sum of £5,000. The money was offered at six per cent interest, provided that amount is kept insured on the vessel.

His Excellency the Lieutenant Governor of this Province, has appointed the Hen. William Black, Mayor of the City of St. John.

The Honorable East-India Company's Ship Mangles, 120 days from Canton, has arrived at Halifax; also, the brig Albion, Leslie, Aberdeen, 42 days.

ST. JOHN OBSERVER. REVENUE LAW—Revised!
—In our last we stated that this "untoward" enact-

ment had caused great excitement among our Merchants and the community at large, but that the alarm had subsided under an impression that the burthen would fall upon the article of Wheat Flour. On the evening however, of that publication, accounts reached town of a different construction having been put upon the Law by the Crown Officers, whose opinion was, that the Act, from the peculiar inaccuracy of its wording, must be taken to apply to all imports not from the United Kingdom, and orders were accordingly given to enforce its provisions.—In consequence of this unwelcome intelligence, a Deputation from the Chamber of Commerce of this city, proceeded on Wednesday last to Fredericton, for the purpose of waiting upon His Excellency Sir Archiba'd Campbell, and soliciting the adoption of measures to counteract the evil effects of the Law The Deputation returned to the City on Saturday evening, having met with a very kind reception from His Excellency, and we are happy to add that the result of their mission has been satisthat the Act, from the peculiar inaccuracy of its wordto add that the result of their mission has been satisfactory and decisive His Excellency has without delay called a Meeting of his Majesty's Council at Fredericton, on the 18th instant, (To-morrow,) to take the matter into consideration, and decide upon the means most proper to be adopted in the present emergency. - In the mean time, a Notice has been issued from the Treasury Department, warning Masters of Vessels from Nova Scotia and elsewhere, against landing Goods at this Port, without the requisite permits from that Department. We sincerely hope that something will soon be done to obtain the serious inconvenience of this very oppressive Law; and to relieve an important Branch of our trade from an impost under which it could not long exist .- His Excellency's promptitude in thus immediately laying the matter before his Majesty's Council, together with his expressed determination to apply such remedy as was within his prerogative, demands and will receive the gratitude, not only of the Commercial body of this city, but of the inhabitants generally throughout the Pro-
