

nature of the engagements of the ratified treaty on behalf of Otho, the new King of Greece, between Russia, France, and England, and can state that two millions four hundred thousand pounds is the sum granted; and that the loan by which it is to be raised is placed under the guarantee of the three Powers, severally and collectively. The Regency will proceed forthwith to Greece, to carry into effect the whole treaty.—*Courier*.

The Americans have revived a claim on Naples to the amount of £500,000, for the illegal seizure of American ships in the time of Murat. They propose to accept of Syracuse in lieu of money. The Neapolitan government have offered them the Island of Lampedusa, which they have rejected with disdain.

We are sorry to have to announce that in consequence of the state of Ireland, a prompt addition to its military force has been deemed necessary, and that the following regiments are now under orders for that distracted country:—the 14th, the 85th, the 90th and the 91st.—This last regiment commenced its march this morning from Manchester, to embark at Liverpool. The 80th regiment has been recently sent to Ireland, and a battalion of the Guards is now on its march to supply the place of the battalion which has just returned from Dublin.—*Courier of Wednesday*.

EDINBURGH, JULY 16.

We learn with much pleasure, that letters received yesterday from Abbotsford state that Sir Walter Scott had stood the journey well, and felt soothed on finding himself again in his own house, and on the whole he was greatly better.—*Courant*.

MISCELLANEOUS EUROPEAN ITEMS.

The General Synod of Ulster, after several days' discussion, have adopted, by a majority of 90 to 30, a series of resolutions, enjoining the subscription of the Westminster Confession of Faith, as a condition of entrance to the Ministry in that Synod.

At a tithe sale at Mount Shannon, the Clergyman, the Rev. Mr Halcote, was obliged himself to officiate as auctioneer.—*Waterford Mirror*.

TARA-HILL.—TITHES.—Mr O'Connell has consented to take the chair at the great national meeting against tithes, which is to held on the Hill of Tara on the 15th of next month.—*Morning Register*—No, he won't.—*Dublin Evening Post*.

EXTRAORDINARY TROTTING MATCH.—The great match between the two American horses, Rattler, the property of Mr Osbaldeston and Rochester, the property of Mr Payne, came off on Wednesday, on the ground between Wattleford Bridge and Royston.—Mr Osbaldeston backed his horse at one thousand pounds to Mr Payne's five hundred, and the distance was five miles, and was performed in harness. Both horses started at a tremendous pace, but Rattler took the lead and kept it all the way. On reaching the winning post the nose of Rochester was touching the wheel of Rattler's cart. The victory is disputed, Rattler being charged with having broken once, and Rochester twice. The match was run in thirteen minutes and fifty-eight seconds!—a degree of trotting speed hitherto unequalled.

GOVERNMENT PROSECUTIONS.—Our dormant Executive seems to have aroused itself into life and vigour, and the gentle Attorney General appears to have buckled on his armour in right earnest. Troops are arriving in considerable numbers, and are freely placed under the guidance and at the disposal of Protestant Magistrates, able and anxious to suppress the Popish rebellion that is now raging—protection is being afforded to a certain degree—prosecutions are carried on with spirit, and in cases of conviction adequate punishment dealt out to the delinquents. In Wicklow, all the persons put on trial for the outbreak at Duilavin, were convicted, on the clearest testimony, and the traversers outstanding have pleaded guilty.

Sir Walter Scott arrived at Leith on Monday. We cannot conceive more affecting circumstances than those under which our illustrious countryman returns amongst us—he comes indeed to lay his bones at rest for ever, in that land which gave him birth, and over whose history and literature his genius has shed a fadeless splendour, and secured for himself a deathless name. Early on Wednesday morning he left the Douglas Hotel, Edinburgh, for Abbotsford, accompanied by Mr. and Mrs. Lockhart and family, and

Miss Scott. A friend informs us that he was extremely feeble, but perfectly collected. He shook hands with, and bade farewell, when in the carriage, to Dr. Watson, the medical gentleman who had attended him from London. It is a melancholy gratification to the friends of Sir Walter, that although no chance of his ultimate recovery exists, but on the contrary the possibility of his speedy dissolution, he has yet been enabled to reach Scotland, and that, in this at least, the earnest and often repeated prayers of the "heart untravelled" of this great and amiable man, Divine Providence has granted.—*Glasgow Courier*.

The celebrated critique on Lord Byron's Hours of Idleness, which appeared in an early number of the *Edinburgh Review*, was in Mr Brougham's hand writing; and the compositor who set it for the *Edinburgh Review* is prepared, we believe, to give evidence as to the fact. The question, we think, is therefore settled.—*Edin. Evening Post*.

Yorkshire has within the last three years lost three of the most powerful studs of horses it ever had, viz: Earl Fitzwilliam's, Mr Watt's, and now Lord Scarborough's.

It appears from an article from Berlin, dated June 26, that an order had been issued on that day entirely abolishing corporal punishment in the Prussian armies.

CHOLERA PREVENTATIVE.

Clothe warmly during the day; lie down with a sufficient quantity of bed clothes at night; avoid excessive fatigue; be careful not to take any article of food which is likely to disorder the stomach or bowels; do not chill the stomach with cold drink of any kind; live soberly; and endeavour to have a bowel complaint cured as soon as possible.

SPIRIT OF THE PROVINCIAL JOURNALS.

ST. JOHN OBSERVER, August 14.—A number of vessels have arrived at the Quarantine station since our last, from England and the United States, the majority of which are still detained. The Health Officer on Partridge Island, in his communications to the Committee of the Common Council, reports all on board the different vessels as enjoying excellent health, and some of the vessels remarkably clean; but having come from infected places, considers it prudent to detain them at Quarantine for a short time.

BOARD OF HEALTH

FOR THE COUNTY OF ST. JOHN.

Court House, 14th August, 1832.

The Board continues to receive the most satisfactory Reports from the Magistrates in the several Districts, and are enabled to state that no Epidemic or Contagious disease exists in the County.

CHARLES SIMONDS, Chairman.

ROBERT PAYNE, Secretary.

MONTREAL, August 2.—We regret exceedingly that our account of the city should be so unfavourable. The burials yesterday, in the two grounds exceed, we believe, those of any day for the last fortnight. The new cause yesterday were, however, considerably less, and if we are correct in our opinion there is a still further diminution to-day. We earnestly hope that the exertions of the volunteer Health Wardens, whose appointments under the authority of the Board of Health are now going on, will be attended with signal success, in removing the secondary causes of this disease continuing so long among us.

FREDERICTON GAZETTE.—Distressing accident.—On Sunday last four men belonging to the Rifle Brigade, stationed in this garrison, and a young man named George Leaman, a shoemaker, lately from Ireland, set off to cross the river in a canoe, and as they approached the opposite side the canoe upset and the whole crew were plunged into the water. Three of the soldiers succeeded in regaining the canoe and clinging to her until released from their perilous situation, but we lament to say, that the two others were drowned. Every possible search has since been made for the bodies, but hitherto without effect.

HALIFAX NOVASCOTIAN.—If the prospect is good in Nova-Scotia, it is even more so in Prince Edward Island, which is really, without any exaggeration, blooming like a little garden. The soil is, as you may know, very dry and light, and in ordinary years, from that circumstance, does not produce heavy crops of grass, although admirably suited to the growth of grain and potatoes. Of these there will be, as usual, a plentiful supply, and aided by the wetness of the season, the grass lands are clothed by such a luxuriant growth as has scarcely, if ever, been equalled. Gentlemen of long practical experience, and who have recently travelled through much of the interior, have assured me that the prospect exceeds any thing to which their memories extend. Much will of course, still depend upon the weather—but should it prove favourable, the exports of agricultural produce will this year be immense. So that your Halifax folks, who have been all the spring paying 3s. 6d. and 5s. per bushel for Prince Edward Island potatoes, in punishment of their deadly sins of the former year, in devouring them at 3d. may comfort themselves with a fair prospect of another chance to practice that enormity.

Public Slaughter House.—A piece of ground at the north-west corner of the Common, has been purchased by the Magistrates, on which it is intended to erect a Public Slaughter House—attached to which will be a Tavern for the accommodation of persons from the country; and sheds for cattle.—August 15.

CHARLOTTE-TOWN August 7.—The Steamer Pocahontas is again plying as usual. The accident which caused her detention had nearly proved of disastrous consequence. On her last trip from Pictou, one of the side levers (or walking beams) which connects the paddles with the cylinder, owing to an error in the

calculation of its strength, cracked nearly in the middle. By extreme care and tight pressure she was enabled to reach Charlotte-Town in safety. The Engineer was immediately dispatched to the Albion Mines, where the necessary repairs having been made under his directions, he returned here on Thursday morning. The boat sailed on Saturday for Pictou, with the mail and a number of passengers, and will return to-morrow. We understand (says the Pictou Observer) it is the intention of her enterprising proprietor, in the course of the ensuing summer to build another steamer of greater power; and we feel assured, though the Pocahontas has so far given every satisfaction, that such a measure will be attended with the most beneficial results to all concerned.
