That well known and eligible ESTABLISHMENT at Newcastle, owned and heretofore occupied by G. & R. HENDERSON, consisting of a Wharf, extending to the channel of the river; with 2 Stores and Stable thereon; a convenient Landing Slip, together with the residue of Lot 29, adjoining the Store of Thomas C. Allan, Esq. affording an excellent Boom Privilege and Building Lot. These premises have been recently built of the very best materials, are at present in excellent repair, and fitted up with every attention to convenience and comfort. The Wharf from the Store fronting Castle-street to the slip is 180 feet long by 40 feet wide; from thence outwards 272 feet long by 30 feet wide making the total length of the wharf 452 feet, being one of the most eligible situations for carrying on the trade of the country in the town of Newcastle.

Also—a well-finished HOUSE and GARDEN, in Water-street Apply to

Whereas Joseph Smith, of the parish of Gosforth, in the County of Cumberland, England, Husbandman, came to America in the year 1819, and his friends heard from him in 1820, he being at that time in Stewartvale, 20 miles east of Pittsburgh, but intended going to Niagara. If he be living, and will write to his brother-in-law, Colin Burns, of Greysouthern, near Cockermonth, county of Cumberland, England, he will hear of some information much to his advantage. If he should be dead, the subscriber would feel much obliged to any well-disposed person to write and let him know.

NEW-BRUNSWICK.

St. JOHN COURIER. *The Season*, at present, is more propitious for the labours of the husbandman than was the case, in this quarter, at the same period last year. The rain, however, which has fallen occasionally for several days past, has rendered the travelling on our streets and roads very unpleasant—and, this morning, a cloak is almost as indispensable an article of comfort as a galoche.—On Wednesday night, the wind blew a perfect gale from the Eastward, accompanied at intervals by rain. Several trees, near the Hon. Judge Chipman's residence, were unrooted; and we have heard of some barns and fences in the City and on the Marsh in the Parish of Portland, having been blown down. Fruit trees, we fear, must have suffered considerably. The Shipping in the harbour sustained no injury.

BEWARE OF COUNTERFEITORS!—We have been furnished with the following extract of a letter from a Gentleman in Hallowell, Maine, to his friend in this City, under date 9th June, instant, and beg to draw particular attention to the subject, as we are informed an attempt was made in this City on Thursday last, to introduce some counterfeit Half-Dollars into circulation.

“Within a few days a large and well organized gang of counterfeiters of Half-Dollars has been broken up here; some of them have escaped, and taken with them their minting establishment, and you may probably look for an emission of spurious coin in your Province, as it is understood that part of them have gone to Canada, and part towards New-Brunswick. Houlton would be a good point for the rascals to throw their base currency into circulation. Your Police will do well to be on the alert.”

NOVASCOTIA.

NOVASCOTIAN. *National Curiosity*.—We are indebted to an intelligent correspondent for the following account of a very singular fish pond, which bids fair to be a source of no small profit to the good folks in its immediate neighbourhood:—

“The inhabitants of Nova Scotia, like those of other countries, are apt to suppose that there are few curiosities in ‘the land they live in,’ while the hasty passenger passes on, without becoming acquainted with those which really do exist. Perhaps the following curiosity had been recorded in the history of America, it would have been interesting, notwithstanding an account of the wooden nutmegs and wooden cucumber seeds of our neighbours has been omitted, although the latter were preferable last year, as it is said, to any other kind, as they were not liable to rot in the ground.

There is at Five Islands, in the township of Parrsborough, a pond, situated between two small Islands, and of considerable extent; three of its sides are formed by a small *cul de sac*, penetrating the base of one of them, and the other side has evidently been thrown up by the violence of the sea, so that an hour before low tide a perfect Basin, filled with water as clear as crystal, remains. Great numbers of fish of different kinds have been this season incarcerated in this decoy; while they are in quest of food, or depositing their ova, the tide retires and leaves them inclosed in the pond in water about two feet deep. It is curious to observe the inhabitants repairing to the spot at low water, with pitchforks and other implements of husbandry—they make a deadly charge upon the bewildered prisoners, and a great number are killed without net, hook, or bait. A few days ago 700 codfish were taken out of the pond at one tide, and a boy threw out of the water nearly a barrel of herrings with his hands; and although this kind of fishing might not afford amusement to the scientific angler, nor furnish matter for a treatise on fly-fishing, yet the fish-flakes of the inhabitants of Five Islands plainly shew that their amusements has not been unprofitable.”

*The Kenebec Road*.—The Quebec Gazette says:—“His Excellency the Governor in Chief is expected in town from Sorel about the 15th inst. to inspect the troops in this garrison. It is understood that His Excellency will also make a visit to the Kenebec road. A number of gentlemen have come from Maine in Gigs
