

that the young Queen shall marry none other than a Bourbon, observes—'We have reason to believe that the answer M. Pageot got from the British Government, was in substance, that however willing he may be to accept the disclaimer of France as to the project which has been vaguely attributed to her the fact that Spain was wholly adverse to a marriage with one of Louis Philippe's sons had set the matter at rest,—that England has not the slightest intention of presuming to interfere in a matter of domestic policy so nearly affecting the person of the Sovereign, and so entirely depending on the wishes of that Sovereign and her people,—but that England cannot admit that any other Power has a right to exert an influence which she herself repudiates and disclaims, or that the marriage of the Queen is to be made or unmade in obedience to the direct threats of violence of a neighbouring state.'

Emigration from Ireland to America.—The number of human being freight for North America this season, in Limerick, are as follows:—By the *Borneo*, 286—*Primrose*, 258—*Jane Black*, 417—*Governor*, Niain, 226—*China*, 293—*Nerio*, 130—*Shelmaliar* (New York), 93—*Thetis*, 203—*Energy*, 193—*Nerio*, 130—*John White*, 118—*Bryan Abbs*, 193—*Ariel*, 68 (Miramichi), *Maria*, 176—*Ann Moore*, (for Quebec)—making a total of 3032 souls from the port of Limerick alone. The last spring ships entered for passengers are the *Hope*, for Quebec—*Jessie*, for St. John's N. B., and *Mary Russell*, for Quebec. The *Leila* has sailed from Galway with 180 emigrants for Quebec. The *Prince of Wales* and *Redwing* sail for the same destination on Monday, with 400 passengers, and the *Lively* following.

The Halifax Steamers.—It may not be generally known, that the four ships forming this line carry all the materials for converting them, in case of a failure, from whatever cause, of steam power, into sailing vessels. Hence the facility with which the *Columbia*, on the occurrence of the accident to her machinery, was equipped at sea. Complete as the present vessels are, the ship now building will, we understand, be still more complete, her lower masts being ordered of sufficient strength to carry, in case of necessity, the rigging and the canvass of a sailing vessel of her tonnage.

SCHEDIASMA.

MIRAMICHI:
TUESDAY MORNING, MAY 31, 1842.

ARRIVAL OF THE MAIL.

The Courier with the Southern mail arrived on Saturday morning at 6 o'clock.

TOKEN OF RESPECT.

An elegant Pulpit Gown and Cassock, have been presented by the Ladies of his Congregation, to the Rev. John M. Brooke, Minister of the Scotch Church, New Richmond, Baie des Chaleurs, in testimony of their approbation of the able, zealous, and faithful manner in which he discharges the duties of his sacred office. The articles above mentioned have been ordered from Glasgow, and are of the richest quality. The Donors earnestly hope that their beloved Pastor may long be spared to wear them, and to minister amongst a people by whom his services are so highly appreciated.

THE TIMES.—The Mirror, published at St. John, gives the following gloomy picture of affairs in that city. Things with us are bad enough, but we ought to be thankful that they have not arrived at so desperate a crisis, as they are represented to be in the 'first commercial city' of the Province:—

"The present time is, we believe, unprecedented in this community, for scarcity of money in circulation,—the general business of the Province is quite stagnant, and parties interested are like men hanging between hope and despair,—the spring, to which so many looked forward with sanguine expectations, has arrived; unaccompanied, however, by any cheering turn in business, the general depression still prevails, and the relief which distant prospects seemed to promise has not been realized. The Banks of our city have long since ceased to extend the aid of their funds by discounting new paper to any extent; while the strict rule they have established in refusing various monies in circulation, owing to the fluctuating and unsettled state of our currency, is not among the least evils which at present prevail. The 'drag' of all classes of business men is slow and weary indeed. The merchant, mechanic, and even the poor laborer are alike affected by the general depression, and we fear that unless a revival shall soon take place in the commercial world, the streets of our late bustling city will present a gloomy contrast, if compared with past years. Numbers of houses and stores in various parts of the city are tenanted, which, until the present year, yielding their owners a respectable income; and by a statement in the Morning News—which we fear is too correct—it appears that the vast number of five thousand persons have left the city since the first day of April."

EMIGRATION.—We heartily coincide with the opinion of our contemporary of the Mirror, in the following sentiment.

"We would feign a hope that some attention will be paid by the Executive of the Province to the necessities of those helpless emigrants who are crowding to these shores. Let exertions be made to settle them on the land, so as they may have some chance of obtaining a subsistence. The poor creatures have left the land of their birth, the scene of their earliest affections, their home, the spot where the remains of their nearest and dear-

The tide of Emigration, from the mother country, is setting towards our shores, and this year a very numerous body of individuals have already arrived, and numbers are hourly expected; but there is no person appointed here, either to give such as wish to remain, any instruction or advice, or render them any assistance. This is not right. There is abundance of land, belonging to the Crown as well as to private individuals, which, if occupied, would conduce very much towards the improvement of the Province, and many farms remain untenanted, and consequently untillied, which would not be the case, were some one employed by Government, to look after the emigrants yearly brought here, and to make systematic arrangements for the disposal of public and private lands on this side of the Province. Many of the passengers have means, and would cheerfully, we feel persuaded, take up their abode among us, if pains were taken to make them acquainted with the capabilities of this fine Province, and to settle them on lands. On the same subject, the *Fredericton Sentinel* makes the following comments:

"On their arrival at St. John, they should be induced to resort to the interior, where laborers are required for agricultural purposes, and where they would obtain employment to a considerable extent, if moderate wages will be accepted.—There is at present little inducement to remain in St. John, and there is an equally discouraging prospect of engagement in the United States. Requiring, as this Province does, an extensive agricultural population, too much pains cannot be taken to secure the services of those Emigrants who may arrive in the Province; and who at present are people of sober, and generally speaking, industrious habits."

PASSENGERS.—The bark *Bolivar*, from Waterford, has brought 140 passengers; and the bark *Medina*, from Dungarvon, 83. Information has been obtained of the sailing of several vessels from Limerick, with upwards of 900 passengers for this port. Several Schooners, crowded with passengers, have left here, bound for Quebec and P. E. Island.

Effects of Total Abstinence Principles.—The papers state that there are three hundred Bands of Music in Ireland, in connexion with the Temperance Societies in that country. The musicians number 6,000.

THE NEW WORLD.—To the enterprising proprietor of this highly deserving popular weekly publication, published at New York, we are indebted for a copy of James's new work 'The Jacques'. It is comprised in two extra numbers of that paper, and is offered at the unprecedented low price of 1s. 3d. The proprietor states, that he has already disposed of the first edition of 10,000 copies. He intends issuing extras twice every month, in the same form—which will contain the works of James, Bulwer, Dickens, Marryat and all the popular authors, and be also purposes occasionally to give Original stories, by American writers. The Agent here is Mr G. J. Cooke, who will order any of the works.

RHODE ISLAND.—The Editor of the *New World* states—that the difficulties which have so long agitated the people of the above named state, have rather increased than diminished. He trusts, however, that the people will have good sense and moderation enough to settle their affairs, without an appeal to arms. We hope so to.

HALIFAX.—A man has been apprehended for attempting to set fire to the Boarding house of Mrs McDonald, in Bedford Row.

MILITIA ORDERS.—We are glad to perceive that His Excellency has thought fit to dispense with the worse than useless Militia Drills. The Commanding Officers are required to have a General Inspection of their respective Battalions in such places, and at such times as they may think most convenient.

THIS MORNING'S MAIL.—We do not perceive in the Saint John, Halifax, or United States papers, any intelligence of the slightest consequence.

DIED.

At the West Point, on the 24th April, Mr Alexander Taylor, Cooper, formerly of Miramichi, after a painful affliction of two months, which he bore with Christian resignation.

Cleared, May 28, schr Pearl, Hall, St. John's, N.F.

PICTOU, May 23. Shipwreck.—The barque Isabella, Thomas, from Glasgow to Pictou, with goods and passengers, was totally lost at Papsy Bay, Cape North, on the 11th inst. The Isabella had nearly completed her voyage, when she was surrounded with ice off the East Point of Prince Edward Island, and was swept away with the current, until she was finally stranded, as above. The passengers, seeing the fate of the ship inevitable, left her on the 10th in the boats, landing all safe. The vessel parted her cables next day and went ashore, but the weather being favourable a great part of the goods were safely landed. We learn, however, from the passengers, (most of whom arrived here on Sunday in the Schr. Henry), that the bales were ripped open by the inhabitants, and pillaged of their contents before their eyes!—a transaction so disgraceful that every effort should be made by the proper authorities to bring the parties to conviction and punishment.—*Observer*.

QUEBEC, May 17.—We have had no arrivals from sea since last Sunday, and the total number of vessels now arrived is 31. Last year, on the 18th May, there were 86. On the 19th May, 50 square rigged vessels arrived here; on the 20th, 97, and on the 21st, 77, making the total number of arrivals, on the 21st May last year, 339.

In our last, the *Jane Black*, from Limerick, with 417 passengers, was reported ashore, at Pointe des Monts. We have since learned that all the passengers had been landed in safety, and that the vessel will probably be a total wreck. The *Trinity* Pilot Schooner sailed on Monday evening at 7 o'clock, for the wreck, at 11 o'clock the same evening, the steamer *Lumber Merchant*, also sailed for the same destination with a supply of provisions, &c. She was engaged by A. C. Buchanan, Esquire, Emigrant Agent, at Quebec, for the purpose of relieving the unfortunate emigrants on board, who are short of provisions.

Captain Gorman returned to the wreck in the *Lumber Merchant*.
