

flatteringly been bestowed upon us—for the expression of which, we feel duly sensible, and tender our best acknowledgments.

The paper will be sent to our subscribers as formerly, and such as do not wish it, will please return it to our Agents. A call will be made by ourselves, or by an Agent, on our Subscribers in Kent, Gloucester, and Restigouche, in a few days, when we trust they will be prepared to meet our demands.

Our Agents are—for Bathurst, W. Napier, Esquire. Restigouche, Dugald Stewart, Esquire.

**News by the British Steamer.**—By the arrival of the Royal Mail steamer *Acadia*, on the 17th instant, in a passage of 12 days and 8 hours, we have obtained our regular files of British papers to the 4th of the month.

We are glad to perceive that the riots which had disturbed the manufacturing districts, were quelled with but little loss of life, the military having displayed much forbearance. Our gracious Queen left England on the 29th ultimo, on a visit to Scotland, and arrived at Granton, near Leith, on the 1st instant, after a very pleasant voyage, and proceeded to Edinburgh in the Royal carriage. She was greeted by the cheers of thousands of her loyal Scottish subjects, who had assembled at the place of landing, and on the road to the metropolis. Particulars will be found among our extracts.

There is some news from China, and India, but nothing of consequence.

**United States.**—The Yellow Fever had made its appearance in New Orleans.

The wife of President Tyler died at Washington, on the 10th inst.

Great abundance of Flour was constantly arriving at all the ports in the Union.

**St. John.**—The papers published in this city state, that an arrangement has been concluded between the creditors of the city Corporation and the common Council. A mortgage upon the city property, it is understood, is to be executed, in favor of trustees named by the creditors, the Chamberlain continuing, as heretofore, to receive the public rents, but being obliged to pay over his receipts monthly, into one of the banks to the credit of the trustees.

**Departure of the Steamers.**—The Halifax papers state, that the Royal Mail Steamers will leave that port, in future, on the 3rd and 18th of each month, "whether those days fall on Sunday or otherwise."

**Canada.**—The Canada papers contain the Speech of the Governor General, on opening the Legislature of Canada, at Kingston, on the 8th instant. This document, with the exception of the two opening paragraphs, which make mention of the death of Lord Sydenham, and the birth of the Prince of Wales, will be seen under the proper head.

**Church of Scotland, and the Wesleyan Methodists.**—We copy the following gratifying piece of news from the September No. of the Methodist Magazine:

"In pursuance of a Resolution of the last General Assembly of the Church of Scotland, the Moderator forwarded a letter to the last English Conference, expressive of a desire to open, and keep up, a friendly intercourse and correspondence. A Committee was appointed to prepare a reply to this interesting and valuable document."

**New Works.**—We are indebted to the publishers of the *New World* for

copies of the 'Life of Henry Clay,' and 'Letters from the Baltic': They have in the Press, Bulwer's new work of 'The Last of the Barons,' and a new work by an American lady, entitled, 'The Conspirators.'

**Kouchibouguac.**—Four full grown Bears were killed in this settlement, during the last week.

**Valuable Discovery.**—The Saint John Herald states, that a strata of very superior coal has recently been discovered within a short distance of that city.

**Sentence.**—David P. Horan, found guilty of Forgery, was sentenced on Saturday last, by Judge Carter, to nine months imprisonment, with hard labour.

**Card.**—We return thanks to our contemporaries, for the favorable notice they have taken of our journal.

#### BY YESTERDAY'S MAIL.

**NEW BRUNSWICK.**—The Steamer *Columbia*, which recently arrived at Campbellton from England, is destined to be employed in the survey of the Bay of Fundy and the adjacent shores of Nova Scotia and this Province. She is commanded by Lieut. Kertwright, and to be under the control of Capt. Owen, who is to act as Commodore. During the winter months we are informed she will be engaged in exploring and surveying Georges' Bank, a place, while it is highly dangerous to vessels sailing on this side of the Atlantic, is also at present little known to Mariners generally. Capt Owen has spent a good portion of his active life in similar expeditions, on the South African and other shores, and has proved himself highly qualified for such an undertaking. On the return of the Spring the attention of the Surveyors will be turned to the Bay of Fundy and the Gulf of Saint Lawrence, Sable Island, and the adjacent shores, when such valuable and correct information will be obtained, as will set at rest the many doubts and fears, now existing in the minds of seafaring men. As soon as returns of the various surveys are made to the Admiralty we may expect accurate Charts will be published; a circumstance that will tend greatly to embolden the mariner in his approach to our shores, and be a valuable acquisition to commercial men.—*St. John Herald.*

**NOVA SCOTIA.**—The *Canvass.*—Although our community appears always to have enough of a sufficiently exciting nature before it, some time has elapsed since an election of any kind has occurred to call for the practical development of party strength and feeling. Now, however, the ensuing election in the different Wards of the City to come off upon this day week appears to have put the different Candidates and their friends upon the *qui vive*, and the *Canvass* is eagerly prosecuted wherever a contest is apparent. We heard some imperfect report that J. F. Gray, Esq. would offer himself for No. 1, and we feel confident that if he did, the Constituents would not hesitate to place their suffrages in his hands, for his well known ability and integrity certainly entitle him to the confidence of his fellow citizens, but as we see no public notice of his intention, we presume Mr. Anderson will be returned. In No. 2 we believe no opposition will be offered to the return of Mr. Keith. But in No. 3, a severe struggle will take place, the opposing candidate to Mr. Caldwell being George R. Young, Esq. \* \* A very handsome requisition has been signed in Ward No. 4 to the Hon. Hugh Bell, and we are sure that that gentleman, ever ready to be useful to the country, will again come forward. Mr. Hemmeon's return will not be opposed in No. 5; and Nepean Clarke, Esq. having refused to offer again, notwithstanding the most pressing entreaties of his friends, Mr. John Winters takes No. 6 against the field.

**PERSONAL BEAUTY!**—Among the most valuable attributes of Beauty, whether regarded as conducive to manly purity and grace of aspect, or as auxiliary to feminine loveliness, a Beautiful Set of Teeth must ever rank among the most important elements of a favorable personal appearance. The embellishment and preservation of the Teeth and Gums have therefore ever been regarded with peculiar interest, and among the mass of preparations suggested for these desirable purposes, we could particularize 'Rowland's Odonto, or Pearl Dentifrice,' as unrivalled for its excellence in purifying, embellishing and preserving these important and attractive objects. See advertisement.
