

**New and Extraordinary INVENTION.**

**FRANCIS'S HIGHLY IMPROVED Manifold Writer!**

By this wonderful invention a letter and duplicate can be written in one operation with more ease and greater facility than a single Letter with an ordinary pen and ink.

To the mercantile, professional, and travelling part of the community this truly great invention is of inestimable value, as it is a great saving of time, trouble and expense. The principal advantage to be derived from the Manifold Writer is, that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an inkstand or a pen. The instrument used for writing is an agate point, consequently it never wears by use for banks, insurance offices, merchants, men of business generally, lawyers, postmasters, editors, reporters, public officers, and all who may be desirous of preserving copies of their letters, documents, &c. with an immense saving of time, and the satisfaction of having an exact copy of what they have written, this will be found invaluable.

The following is from the Chairman of the committee on Chemicals, appointed by the managers of the American Institute at their late Fair—

The judges appointed by the Managers of the Fair of the American Institute, held at Niblo's Garden, October, 1841, report, that we have examined into the merits of Francis's Manifold Writer, and find it to be a very ingenious and useful contrivance, by which two or more letters, or other documents, may be written. The ink used is not in a liquid state, but consists of a composition applied to sheets of paper. The nature of this composition is such that it is not liable to change color by exposure to the air or moisture; nor is it easily removed from paper by chemical agents.

The principal advantages to be derived from a use of the Manifold Writer is—that a copy of any document may be kept without any additional trouble to the writer, and without the necessity of using an inkstand or a pen. It is stated that a copy right is secured. We consider Mr Francis deserving a reward from the Institute.

(Signed) J. R. CHILTON, M. D. Chairman.

Consequently a medal was awarded. Francis's Manifold Writer has now been in successful operation over two years during which time the proprietor has had the pleasure of receiving the unfeigned approbation of all whose approbation it has come under. This article entirely supersedes the copying press or anything ever known for writing or copying letters.

The proprietor has lately made great improvements in this article. The paper is of the best quality manufactured in the United States—being made for the Manifold Writer expressly to his order. The ruling of them—which has for some time been thought impossible—has at length been brought to perfection, for which a copy right has been secured. The copying books are bound in a variety of forms and sizes—varying in price—to suit every capacity.

Stationers and Country Merchants in general will find to their advantage to procure the article, as they meet with a ready sale. A liberal deduction made to those who buy by wholesale.

Newspapers or Magazines who will copy the above entire without alteration or abridgement (including this notice) and giving it 12 inside insertions shall receive a copy subject to their order by sending a paper containing the advertisement to the office of the subscriber.

LEWIS FRANCIS, 83 Wm street, corner Maiden Lane, N. York.
