

brewers, by taxing the raw material, and admitting malt, the manufactured article, free, much to the advantage of our American neighbors, from whom the principal supply of barley for our breweries is derived. Foreign Candles pay ten per cent., but the same rate of duty is levied on foreign tallow, in order, we suppose, to put the foreign tallow-chandler on a par with our own. For the encouragement of our Merchants and Millers who have invested large sums in the erection of expensive grist-mills, granaries, warehouses, &c., wheat flour is admitted duty free, while wheat, unground, is subjected to a duty of 4 per cent! This, we suppose, is intended as a boon to our neighbors of Nova Scotia, and a compliment to the Yankee millers.

Under the head of Canvas, we find, that if foreign, it pays 10 per cent.; but on referring to the letter S, we find that sail-cloth of all kinds, Canvas included, if foreign, pays only 5 per cent!—Another incongruity is in the article of Duck, which is specially rated at 10 per cent, but under the head of sail-cloth comes in at 5 only. Under the letter F, we have fishing nets duty free, while under the letter N, we find Nets, fishing nets, and seines of all kinds 10 per cent. Next we find fish-hooks, subjected to 10 per cent duty, while at the letter H, we have hooks, lines, and twines, duty free! At I, we have Iron-castings for machinery, for mills, for steam engines, and for other purposes, duty free, whether British or foreign—but at M, we find, that machinery, or parts of machinery, for steam engines, mills, or agricultural purposes, are all subjected to 10 per cent. We find Looking Glasses paying 15 per cent, while the same article, under the head of Mirrors, pays only 10 per cent. How, in the name of common sense, could so many blunders and absurdities have been perpetrated?

Steel is subjected to a duty of 4 per cent, doubtless for the advantage of our Blacksmiths in the manufacture of axes, &c. Iron castings of all kinds, from any where, are admitted duty free, which will be of especial benefit to our excellent Foundries. Tin in sheets and blocks pays 4 per cent., which must be for the purpose of assisting our Tinsmiths.

Under the head of 'fresh pork,' we find a reference to 'fresh meats' for the rate of duty; but there is no such head in the table as 'fresh meats,' consequently fresh pork, with fresh mutton, and fresh veal, being non-enumerated articles, will, under the general clause, pay a duty of 4 per cent, on importation from Nova Scotia, and 10 per cent, if foreign produce. All fresh fruit, whether British or foreign, (except apples) is subjected to 4 per cent. Therefore pears, plums, and cherries from Nova Scotia, as also cheese, cider, and eggs, and many other 'notions' from that quarter, as non-enumerated articles, will all pay 4 per cent. This will doubtless give great facilities to the trade between this port and Nova Scotia the present season, and add considerably to the revenue—to say nothing of the extra tide-waiters it will require, to look after the coasters and prevent fraud upon the Treasury!

Dr. Moffat's Life Pills and Phoenix Bitters!

THE UNIVERSAL ESTIMATION in which the celebrated LIFE PILLS AND PHENIX BITTERS are held, is satisfactorily demonstrated by the increasing demand for them in every section of the Union, and by the voluntary testimonials to their remarkable efficacy, which are everywhere offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from interested considerations, that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before the public eye. The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health: for in no case of suffering from disease can they be taken in vain. The proprietor has never known or been informed of an instance in which they have failed to do good.—In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, rheumatism, asthma, nervous and bilious head ache, costiveness, piles, general debility, scrofulous swellings and ulcers, scurvy, salt rheum, and all other chronic affections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs and indeed the viscera in general, these medicines, if taken but three or four days, never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of febrile action and feculent obstructions, as to produce a most delightful sense of convalescence in the morning,—and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bed time will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionable quantity,—and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. In the same way, visceral turgescence, though long established, and visceral inflammations, however critical, will yield—the former to small and the latter to large doses of the LIFE PILLS,—and so also hysterical affections, hypochondriacism, restlessness, and very many other varieties of the Neurotic class of diseases, yield to the efficacy of the PHENIX BITTERS.

The above Medicines are for Sale at the Store of Mr. THOMAS SPRATT, in Chatham, who is appointed sole Agent for their disposal in Miramichi.

AUCTION.

HUGH MORELL, Post Master.

Important Scientific Work!

Prepared expressly for the New World, and will be published in a Double Octavo Number, on Wednesday, March 29, 1843.

METEOROLOGY!

Comprising a description of the Atmosphere and its Phenomena, the Laws of Climate in general, and especially the climatic features peculiar to the region of the United States—with some remarks upon the climates of the Ancient World, as based on Fossil Geology. By SAMUEL FORRY, M. D., Author of 'the Climate of the United States and its Endemic Influences.'

As the title of this work is sufficiently expressive, we deem it unnecessary to be more precise in regard to its contents. This, indeed, we think the less requisite, as Dr. Forry's reputation as a writer on this subject, is acknowledged both in this country and in Europe. We will, however, present, by way of specimen, a notice from the London Literary Gazette, relative to Dr. Forry's work on the Climate of the United States:

"This is an important subject, treated in a comprehensive, able, and scientific manner. * * * The highest praise that we can award this great labor—for so it may be truly designated—is that the older country, with all its industrious intelligence, has nothing of the kind; most of the contributions in local medical topography that adorn the pages of the Transactions of the Provincial Medical Association, will not bear comparison; and it reflects altogether the highest credit on the medical literature of the United States."
 Terms—Single copies, 25 cents.
J. WINCHESTER, 30 Ann st.

Just Published.

In an Extra New World:
 The celebrated Work of M Arrago, the French Astronomer, entitled
THE COMET.

Scientific Notes of Comets in general, and in particular the Comet of 1832, whose revolution is six years and 3/4 in duration. By M. ARAGO, Officer of the Legion of Honor, and Astronomer of the Board of Longitude, and of the Royal Observatory at Paris, Perpetual Secretary of the National Institute of France, &c., &c., &c.

To which is added a full Account of the Extraordinary Comet now Blazing through the Heavens. With the opinions of Aristotle, Tycho Brahe, &c., and the observations of Herschel, Dick, Schroeter, Mrs. Somerville, Nicol, and many others, in relation to the physical constitution and INFLUENCE OF COMETS ON THE EARTH.

This will be the most interesting and scientific, as well as the most complete Work on the subject of Comets, ever published; giving the history of the most celebrated Comets which have appeared for the last 2000 years—the whole illustrated with

NUMEROUS ENGRAVINGS, giving the appearance in the Heavens of the present GREAT COMET, which, from its magnitude and splendor, will be ranked among the most extraordinary blazing stars which have ever been discovered—together with the other most celebrated Comets that are known to Astronomers.

TERMS—Single copies, 12 1/2 cents—\$8 per hundred. Immediate orders solicited from Agents and others. Ten copies sent by mail for \$1. **J. WINCHESTER, 30 Ann st., N. York.**

Charles Willmer's American News Letter And European Intelligencer.
 Enlarged to the extent of Ten additional columns.

The above Newspaper, now enlarged Ten additional columns, which was established in July 1842, is regularly published at Liverpool expressly for transmission by every steam ship sailing from any port in Britain to any port in the United States, and its leading feature is to give, at one glance, an account of every important event that has occurred in Great Britain, Europe, or Asia, in the interval between the sailing of each steam ship, whether in politics or commerce—a correct and comprehensive Shipping List, in which will be found a faithful record of the arrival and departure of American vessels at and from all the British, European, and Asiatic ports—together with notices of such casualties or disasters as may from time to time occur—a complete prices current, in which the greatest care is taken to give the latest reports of the various descriptions of American produce, from the most unquestionable sources—thus combining, in one sheet, a Newspaper, Shipping List, and a Prices Current.

The annual subscription to Charles Willmer's American News Letter is 12s. 6d. sterling. Orders and Subscriptions will be received at any of Messrs. POMEROY & CO'S Express Offices in the United States and Canada, and in Boston by Messrs Redding & Co., News Agents,—Halifax, Mr Belcher, Stationer,—Montreal, Mr Wm. Greig, Bookseller,—St. John, N. B. Mr G. E. Fenety, Morning News Office,—Quebec, Mr Charles F. Ford, Mont-tain street,—St John, Newfoundland, Mr McCoubrey, Times Office,—or they may be sent directed to the Publisher, address as follows:
CHARLES WILLMER,
 Transatlantic Newspaper Office,
 5, South John street, Liverpool.

General Agency and Commission Office,
 No. 18, CORNHILL, LONDON, opposite the EXCHANGE,

To Merchants, Commercial News Rooms, Libraries, Agricultural Societies, Officers of the United Services, Printers, Publishers of Newspapers, and Colonists generally.

P. L. SIMMONDS, General Agent and Commission Merchant, in offering his services to his friends and the Colonial Public in general, has to acquaint them that he is ready to receive orders for supplies of any kind and quantity, and goods of every description of first rate quality at the very lowest market prices of the day, and to transact business upon the most liberal terms, provided he is previously furnished with funds or draughts, at either long or short dates, or a reference to some London or Liverpool house for payment.

P. L. Simmonds will receive consignments of any description of Merchandise to be sold on commission, and accept bills for two-thirds of the amount, on receipt of the bills of lading. Consignments entrusted to his care will meet with every possible dispatch in their disposal, and sales be conducted with the greatest attention to the interests of the disposer. An extensive knowledge of general business, acquired during a long residence in the West Indies, and subsequent extensive courses of business with all the British colonies, the experience of several years in London as a Colonial Agent, coupled with promptitude, attention, and judgment, will he trusts, enable him to give satisfaction to those who may favor him with their commands.

N. B.—Parents sending home their children for education, may with confidence entrust them to the care of Mr. Simmonds, who will undertake to see them placed in first rate and respectable establishments, where every attention shall be paid to their health, morals, improvement, and general comfort.
