TO BE PUBLISHED IN NOVEMBER NEXT: A TREATISE ON THEORETICAL AND PRACTICAL Land Surveying, Demonstrated from its first principles, DEDICATED (by permission) To the Hon. Amos Edwin Botsford, AND THE Land Surveyors of British North America.

CONTENTS: Decimal Fractions, Square Root, Elements of Geometry, Definitions, &c., Algebraic Definitions Geometrical Problems, including in the Nature and Use of Scales, Logarithms, Plane Trigonometry, Mensuration of Height and Distances, Description and use of Instruments employed in Surveying, a simple and concise method of keeping a Field Book, Variation of the Compass, with particular observations on the different affections of the Magnetic Needle, a correct and simple method of ranging, tracing, and retracing Lines, Mensuration and Division of Lands by the universal and other methods of Calculation, Location of Lands in almost every possible form, and with the least possible data.

The Problems will be illustrated by appropriate examples, and Diagrams interspersed through the body of the work. In an Appendix will be added the investigation and demonstration of the rules contained in the body of the Work, especially on the Mensuration and Location of Land, a collection of necessary and useful Promiscuous Problems concise system of Levelling, Tables of Logarithms, Mat. Signs, &c. &c.

The Treatise, it is hoped will be found exceedingly useful to Gentlemen of the Legal Profession conducting suits arising out of disputed surveys, and to the owners of landed properties as well as to Practical Surveyors. The work will be printed on good paper with clear type. It will contain about pages 500. Price half bound 5s 6d, bound 9s. New Brunswick, May, 1843.

Editors of Newspapers in the colonies giving two or three insertions to the above advertisement will be entitled to a copy of the work. Subscriptions will be received by Booksellers throughout the Colonies.

PROSPECTUS OF A NEW WORK, Now preparing for the Press and to be published, at Saint John and in London, to be entitled: New-Brunswick:

With Notes for Emigrants BY ABRAHAM GESNER, Esq. F. G. S. & Co Author of "Remarks on the Geology and Mineralogy of Nova Scotia," A WORK containing an account of the Topography, Climate, Soil and Natural Productions of New Brunswick, form a desirable object in Colonial literature. It is generally acknowledged that the historical sketches of certain districts of the Province; which have appeared from time to time, with all the merits they possess, do not supply a full description of the whole country in its present state, and the advantages it offers to a respectable class of emigrants from Great Britain.

The numerous able works that have been written on Canada have been the means of introducing the extensive improvements every where seen in that Province, compared with which New Brunswick possess equal advantages.—As the relief of the surplus population of the Mother Country and its transmigration to the unoccupied Lands of her Colonies is of national importance, the chief object of the above work is to supply a full and accurate account of the Province with a view to its improvement by British emigrants and British capital.

During the last fifteen years, the author has explored every district of Nova Scotia and New Brunswick. The last five years have been devoted to making a Geological Survey of the latter Province. His attention has also been directed to Emigration; and from the opportunities he has had for obtaining information, his descriptions will be given from actual observation, and his remarks will be derived from practical experience.

Besides advertising briefly to the History and Aborigines of the Colony, the work will contain an account of its present state, its climate, topography, agricultural, geology and mineralogy, fisheries and other resources, trade, statistics, and natural history, with remarks on emigration, and information for emigrants.

The work will be neatly printed on about four hundred pages of large duodecimo, and will contain a new Map of the Province, with views of the Grand Falls and other natural scenery. Subscription Lists will be opened in different parts of the Provinces.—The price of each copy to subscribers will be Ten Shillings. St. John, N. B., June 17, 1843.

WANTED!

FOUR SHIP MASTERS to take charge of New Vessels, immediately. TWENTY RIGGERS for the season. FOUR MOULDERS, TWO FITTERS UP, and TWO TIN and COPPER SMITHS for the Chatham Foundry. HOUSES, with Land attached will be provided for men having Families, at moderate rents Apply to J. CUNARD & Co Chatham, April 29, 1843.

PROSPECTOUS OF A NEW WEEKLY JOURNAL OF ENLARGED DIMENSIONS, CALLED The Anglo American,

Devoted to Public Information on the Subjects of Elegant and Entertaining Literature, General Intelligence concerning Affairs in every quarter of the world; Politics Legislative and other public debates; Commerce; the Fine and the Useful Arts; brief Critical Notices of Books, Music, the Dramas, and Lectures; and General Miscellaneous Affairs.

It is always understood, when a new candidate for public favour appears, offering an additional Journal or Periodical to the numbers which previously so abound in the community, that those who undertake its conduct and management believe they have struck out some new feature, have included some hitherto-omitted species of intelligence, intend more lucid information on the subjects embraced in their plan, propose some more appropriate arrangement of their matter, or offer a larger quantity in proportion to price. Instead of offering any one of these advantages, however, the conductors of THE ANGLO AMERICAN modestly intimate that their plan proposes to include all that have been here supposed.

In declining to trumpet the praises of THE ANGLO AMERICAN by a loud blast, there are nevertheless, a few notes of introduction which justice to the intended Journal demands to be sounded. It is the earnest object of the Proprietors—and that object they will steadily and assiduously endeavour to carry out—to take a dignified stand in the world of Journalism; and whatever defects they may unwittingly fall into in respect to the materials of THE ANGLO AMERICAN, these shall never consist of anything that would be inconsistent with good breeding and the established proprieties of social life. They will aim, in the literary portions of the Journal, to lively without levity solid without dullness, and to give a due proportion of each. In the general information respecting public matters they adopt the maxim of "Audi alteram partem"; and, although they may give their own views briefly and independently, on contested questions, they trust never to be found degenerating into violent partizanship.

The proprietors flatter themselves with the possession of a considerable experience in Newspaper management, and with a strong desire to please—as their bases for the hope of public encouragement; and it is trusted that in confiding the Editorial department of this Journal to Mr. A. D. PATERSON, who has so long been before the public through his engagements in "THE ALBION" of this city, as well as through other literary labours, a sufficient guarantee is offered for the quality of THE ANGLO AMERICAN'S columns.

THE ANGLO AMERICAN is published every Saturday at the office of the Proprietors, No. 6 Ann Street. Terms, Three Dollars per annum, to be paid invariably in advance, and no deviation will in any case be made from the Cash plan of subscription. The Journal is printed on superior paper, with a beautiful type cast expressly for the work; it contains as large a quantity of matter as any other Newspaper in this country; the letter press is diligently and carefully read, to free it from typographical errors, and the press work neatly and clearly executed.

* Agents dealt with on the usual terms. All orders, &c., to be addressed to E. L. GARVIN & Co., Publishers, No. 6 Ann Street, New York.
