

severe in the neighbourhood of Peckham, Sydenham, Forest Hill, and Bromley. The lightning commenced playing at about 6 on Tuesday evening, accompanied with violent peals of thunder, but no rain.

London Shipping Gazette, August 17. IRELAND.—The meeting at Tara.—Dublin, August 15.—The Repealers were on the wing at an early hour this morning. They were collected according to the programme to body-guard the Liberator: the cry was—"Hurrah for Tara." Tara is somewhere about 18 miles from town; it is three and a half beyond Dunshaglin, which is the nearest village; it is a place famous in Irish history, and is said to have been a favorite spot for the crowning of Irish kings. Under the head "Mr O'Connell—Tara Meeting," a journal of this evening says:—"The Honorable and learned gentleman left town this morning shortly after nine o'clock, in a carriage and four, to proceed to Tara, for the purpose of attending the great repeal demonstration fixed for this day. His carriage was immediately followed by about twenty others (most of them drawn by four horses) in which were members of the town council and other gentlemen. The procession passed down Grafton street, Westmoreland street, Sackville street, and towards the county Meath through Phibsborough. Many thousands of the working classes left town in parties yesterday evening to walk towards the scene of the meeting."

The meeting took place in due time, and was immense, at far as numbers were concerned; the calculation having been that 500,000 persons were present. Mr O'Connell delivered himself of a long speech, abounding with the usual topics, with the addition of statistics to show the enormous amount of corruption by which the Union had been carried. The result was the adoption of the following resolutions:—

1. That we yield to no portion of her Majesty's subjects in devoted loyalty and attachment to Her Majesty's crown and person, or in unconditional determination to maintain to the utmost of our power the integrity of the British Empire.

2. That the Legislative Union was forced upon Ireland by fraud, corruption and military violence; that its provisions were, therefore, indignantly framed, as to defraud Ireland of her just share in the representation of the United Parliament, encumber her with an unfair proportion of the national debt, lead to the increase of absenteeism, and sink the great bulk of the Irish people into a state of the greatest misery and destitution.

3. That we are determined to persevere in our efforts to seek for the restoration of an Irish Parliament, which, representing the feelings, and soliciting for the welfare of the Irish people, devote their energies to the framing of measures which will secure our rights, increase trade, manufactures, and commerce, and develop the resources of a country for which nature has done so much, and which requires the fostering care of a domestic legislature to make her people free, prosperous, and happy.

4. That we do petition both houses of Parliament for a Repeal of the Legislative Union.

5. That the petition now read be adopted by this meeting, and presented to the House of Commons by our venerable chairman, the incorruptible advocate of our rights, and that H. Grattan, Esq., M. P., be requested to support in prayer.

6. That the failure of Mr Smith O'Brien's motion, and the enactment of the Irish Arms Bill, afford additional proofs, if proofs were wanting, that our only hope of justice is from an Irish Parliament.

7. That we cannot but express our indignation and disgust at the conduct of her Majesty's ministers, in dismissing the Irish magistrates for exercising the sacred right to petition Parliament; and that we tender to those magistrates and the other gentlemen who refused to hold a commission which they conceived they could no longer retain with honour, our hearty thanks for their intrepid and patriotic conduct.

8. That our illustrious leader, O'Connell, is entitled to our eternal gratitude and unabated confidence for his unceasing exertions in the cause of Ireland, and we hereby render him our thanks for his proper and dignified conduct in his chair this day.

The vast multitude then quietly dispersed. The late Frauds of the Revenue.—Mr Dennis John Blake, a landing waiter of the customs, was implicated in the recent charges, and sentenced to six months ago, has been arrested at the suit of the Crown. He had returned to a fine estate which he possessed at Dublin; but it is said that government have determined to proceed against him for \$0,000, the amount to which he is ascertained to have defrauded the customs.

Father Mathew in London.—Father Mathew has been busily engaged in converting the cockney to temperance during the last fortnight. At the scene of his labours, at the outset, was the new Catholic Cemetery, in the city-road, where many took the pledge. On Monday week Mr Mathew made his appearance on Kennington Common, between eleven and twelve o'clock, in a brougham and six, accompanied by Mr J. Moore, and Mr Dear, and attended by a long procession.

PROSPECTUS OF A NEW WEEKLY JOURNAL OF ENLARGED DIMENSIONS, CALLED The Anglo American,

Devoted to Public Information on the Subjects of Elegant and Entertaining Literature, General Intelligence concerning Affairs in every quarter of the world; Political, Legislative and other public debates; Commerce, the Fine and the Useful Arts, Brief Critical Notices of Books, Music, the Drama and Lectures; and General Miscellaneous Affairs.

It is always understood, when a new candidate for public favour appears, offering an additional Journal or Periodical to the numbers which previously so abound in the community, that those who undertake its conduct and management believe they have struck out some new feature, have included some hitherto-omitted species of intelligence, intend more lucid information on the subjects embraced in their plan, propose some more appropriate arrangement of their matter, or offer a larger quantity in proportion to price. Instead of offering any one of these advantages, however, the conductors of THE ANGLO AMERICAN modestly intimate that their plan proposes to include all that have been here supposed.

In declining to trumpet the praises of THE ANGLO AMERICAN by a loud blast, there are nevertheless, a few notes of introduction which justice to the intended Journal demands to be sounded. It is the earnest object of the Proprietors—and that object they will steadily and assiduously endeavour to carry out—to take a dignified stand in the world of Journalism; and whatever defects they may unwittingly fall into in respect to the materials of THE ANGLO AMERICAN, these shall never consist of anything that would be inconsistent with good breeding and the established proprieties of social life. They will aim, in the literary portions of the Journal, to lively without levity solid without dullness, and to give a due proportion of each. In the general information respecting public matters they adopt the maxim of "Audi alteram partem"; and, although they may give their own views briefly and independently, on contested questions, they trust never to be found degenerating into violent partisanship.

The Proprietors flatter themselves with the possession of a considerable experience in Newspaper management, and with a strong desire to please—as their bases for the hope of public encouragement; and it is trusted that in confiding the Editorial department of this Journal to Mr. A. D. PATERSON, who has so long been before the public through his engagements in "THE ALBION" of this city, as well as through other literary labours, a sufficient guarantee is offered for the quality of THE ANGLO AMERICAN's columns.

THE ANGLO AMERICAN is published every Saturday at the office of the Proprietors, No. 6 Ann Street. Terms, Three Dollars per annum, to be paid invariably in advance, and no deviation will in any case be made from the Cash plan of subscription. The Journal is printed on superior paper, with a beautiful type cast expressly for the work; it contains as large a quantity of matter as any other Newspaper in this country; the letter press is diligently and carefully read, to free it from typographical errors, and the press work neatly and clearly executed.

Agents dealt with on the usual terms. All orders, &c, to be addressed to F. L. GARVIN & Co., Publishers, No. 6 Ann Street, New York.

PROSPECTUS OF A NEW WORK, New Journal for the Press and to be published at Saint John and in London, to be entitled: New-Brunswick:

With Notes for Emigrants BY ABRAHAM GESNER, Esq. F. G. S. & Co Author of "Remarks on the Geology and Mineralogy of Nova Scotia."

A WORK containing an account of the Topography, Climate, Soil and Natural Productions of New Brunswick, form a desirable object in Colonial literature. It is generally acknowledged that the historical sketches of certain districts of the Province; which have appeared from time to time, with all the merits they possess, do not supply a full description of the whole country in its present state, and the advantages it offers to a respectable class of emigrants from Great Britain.

The numerous able works that have been written on Canada have been the means of introducing the extensive improvements every where seen in that Province, compared with which New Brunswick possess equal advantages. The relief of the surplus population of the Mother Country and its translation to the unoccupied Lands of her Colonies is of national importance, the chief object of the above work is to supply a full and accurate account of the Province with a view to its improvement by British emigrants and British capital.

During the last fifteen years, the author has explored every district of Nova Scotia and New Brunswick. The last five years have been devoted to making a Geological Survey of the latter Province. His attention has also been directed to Emigration; and from the opportunities he has had for obtaining information, his descriptions will be given from actual observation, and his remarks will be derived from practical experience.

Besides advertising briefly to the History and Aborigines of the Colony, the work will contain an account of its present state, its climate, topography, agriculture, geology and mineralogy, fisheries and other resources, trade, statistics, and natural history, with remarks on emigration, and information for emigrants.

The work will be neatly printed on about four hundred pages of large duodecimo, and will contain a new Map of the Province, with views of the Grand Falls and other natural scenery.

Subscription Lists will be opened in different parts of the Provinces.—The price of each copy to subscribers will be Ten Shillings. St. John, N. B., June 17, 1843.
