THE EARL OF ALDBOROUGH CURED OF A LIVER AND STOMACH COM-

PLAINT.

Extract of a Letter from the Earl of Alborough dated Villa Messina, Leghora, Feb. 21, 1845 To Professor Holloway.

Sir,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and, at the same time, to add that your Pills have eff-cted a cure of a disorder in my Liver and Stomach, which all the most em nent of the Faculty at which all the most em hent of the rachity at home, and all over the continent, had not been able to effect; nay! not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Point of the Oliment, in case any of my family should ever require either.

Your most obliged and obedient servan; (Signed) AUDBOROUGH WONDERFUL CURE OF DROPSY OF FIVE YEARS STANDING.

Chemist, Stockton, Dorham, 17th April, 1845

Sir,—I think it my daty to inform you that Mrs Clough, wife of Mr John Clough, a respectable farmer of Ack'am within tour miles of this place, had been suffering from Drops for five for five years, and had had the best medical advice without receiving any relie'. Hearing of your Pills and Ointment, she used themwith such surprising benefit, that, in fact she has now given them up, being so well and quite a let to attend to her household duties as tormerly, which she never expected to do again. I had almost forgotten to state that she was given up by the Faculty as incurable. When she used to get up in the morning it was impossible to discover a feature in her lace, being in such a fearful state. This cure is entirely by the use of your medicines.

I am, Sir, yours, &c. &c.,
(Signed) THOMAS TAYLOR.

MOFFATT'S Life Fills & Phænix Bitters

The Universal Estimation in which the celebrated LIFE PILLS & PHENIX BITTERS

are held, is satisfactorily demonstrated by the increasing demand for them in every section of the Union, and by the voluntary testim on als to their remarkable efficacy, which are everywhere offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good a mong his efflicted fellow creatures, than from interested considerations, that the proprietor interested considerations, that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before the the public eye. The sale of every additional box and bottle is a guerantee that some persona will be relieved from a greater or less degree of suffering, and be improved in general health, for in no case of suffering from disease can they be taken in vain. The proprietor has never known or been informed of an in-stance in which they have lilled to do good -ln the most obstinute cases of chronic one ase, such as chronic dyspepsia, torbid liver, rheumatism, as hma nervous and bilious head ache, costiveness, piles, general debility, scrotulous swellings and accers, scrivy, sair theum, and all other. enronic effections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds and coughs, which, if neglected, superiodece he must fatal diseases of the lungs and indeed the vicera in general, these medicines, il taken but three or four days, never fail. Taken at night, they so promote the insensible perspira-tion, and so relieve the system of tebrile action and feculent obstructions, as to produce a most deliginful sense of convulescence in the morning-and though the usual symptoms of a cold should partially return during the day, the repetition of a shitable dose at the next hour of hed time, will almost invariably effect permanent relief, without turther sid. tleet upon tevers of a more acute and violent atad is not less sure and speedy if taken in coportionable quantity—and persons reviling o bed with inflammatory symptoms of the most alarming kind, will awake with the gradying consciousness that the fierce enemy has n the same way, visceral turgescence, though long establised, and visceral imflammations, however critical, will yield—the former to mail, and the latter to large doses of the Like Pills-and so also hysterical affections, by occonditacism, restlessness, and very many other varieties of the Neourofical class of dis
