Chatham, June 6, 1846.

Acknowledgement.

The Reverend the Visiting Missionary for the Miramichi River gratefully acknowledges the receipt of Four Pounds Nine Shillings, collected by a friend and former Parishioner towards providing a Baptismal Font of Stone for the Church of St John the Evangelist, at his native settlement of Baies-des-Vents.

In consequence of the Reverend the Rector's intended absence from his parish on the second Sunday after Trinity, June 21st, Divine Service will be celebrated (D. V.) in the above Church, on that day, at eleven o'clock, A. M. During the reading of the Offertory Sentences, the Alms of the people will be collected, and devoted towards purchasing a decent Baptismal Font, for which good work the Missionary entreats from his friends of the Laity in Chatham and Newcastle, their hearty and liberal co-operation.

Let all things be done decently and in order.—1 Cor. XIV. 40.
"We appoint that there shall be a Font of Stone in every Church and Chapel, where Baptism is to be ministered; the same to be set in the ancient usual places; in which only Font the Minister shall baptize publicly."—Stat Canon of the English Church
Miramichi, Feast of St. Barnabas, 1846.

WILLIAM McNAUGHT, Tailor.

BEGS to return his sincere thanks to his friends and the public in general for the liberal support they have afforded him for some years past, and solicits a continuance of the same, at his old stand, next door below the shop of Mr C. McCully, Watchmaker. He is in want of two good JOURNEYMEN and an AP-RENTICE. A lad from the country would be preferred.

GOODYEAR'S METALLIC GUM Elastic Machine Belting.

The Subscribers having been appointed Agents for the sale of the above article, and all other articles manufactured at the same establishment, beg to draw the attention of Mill Owners and others to the peculiar qualities of the above article.

- 1st. Perfect equality of width and thickness which it will retain
- 2nd. No degree of heat under 250 Fahrenheit injures it, and it remains flexible in any degree of cold.
- 3rd. Essential and common Oil, Turpentine and other solvents (some of which at once will destroy leather) produces no effect on it.
- 4th. It is of GREAT STRENGTH and DURABILITY, does not slip on the pulleys, consequently a gain of power is obtained, and when adjusted to machinery, DOES NOT REQUIRE ALTERATIONS, as is the case with Leather.
- 5th. It is particularly adapted to Machine Shops, Furnaces, &c., where coal, gas, and steam prove so injurious to leather.
- 6th. It is confidently believed that electricity will in a great measure be avoided by the use of this Belting, it being a non-conductor.

Every information given on application to the subscribers, where samples of the above mentioned article can be seen, as also WATER PROOF COATS, and ELASTIC PAPER BANDS, an excellent and convenient article for filing papers.

The Fredericton Mail.

The Canada and Fredericton papers received, do not furnish any thing of moment. The American Journals add nothing of interest from the Mexican frontier. We take from the New Sun of Saturday last the following scraps:

Montreal, June 3.

"There is no local news here of interest nor from Upper Canada. All accounts speak favourably of the growing crops. There were heavy showers and thunder about 5, P. M. yesterday afternoon; to-day it is clear and warm, thermometer 76°."

Massacre by the Rancheros.—Some horrible murders are said to have been committed by the Rancheros on a party of 16 Texans, men and women, coming across the country from Corpus Christi to the Brazos.

We believe no orders have been issued yet to attack the castle of San Juan D'Ulloa—nothing beyond directions for a strict blockade. We have no bomb vessels, indispensable to the attack.

If the object at this time should be to direct the march on the city of Mexico. Tampico should be captured, and from there the distance to the city is but 200 miles, over a good road and through a healthy country.
