Life Pills & Phoenix Bitters.

The Universal Estimation in which the celebrated LIFE PILLS & PHENIX BITTERS

are held, is satisfactorily demonstrated by the of the Union, and by the voluntary testing of the Union, and by the voluntary testing on als to their remarkable efficacy, which are everywhere offered. It is not less from a deeply gratifying confidence that they are the means of excessive and inestimable good a mong his afflicted fellow creatures, than from naterested considerations, that the proprietor of these pre-eminently successful medicines is desirous of keeping them constantly before the the public eye. The saie of every additional box and bottle is a guarantee that some persona box and bottle is a guerantee that some persona will be relieved from a greater or less degree of suffering, and be improved in general health, for in no case of suffering from disease can they be taken in vain. The proprietor has never known or been informed of an instance in which they have fulled to do good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torbid liver, thermatism, asthma nervous and bilious head ache, costiveness, piles, general debility, scrofulous swellings and licers, scorvy, sair theum, and all othe. coronic affections of the organs and membranes, they effect cures with a rapidity and permanency which few persons would theoretically believe, but to which thousands have testified from happy experience. In colds have testified from happy experience. In colds and coughs, which, if neglected, superinduce the most fatal diseases of the lungs and indeed the vicera in general, these medicines, if taken but three or four days, never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of tebrile action and feenlent obstructions, as to produce a most delightful sense of convalescence in the morning—and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose, at the next bour repetition of a suitable dose at the next hour of bed time, will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent stad is not less sure and speedy if taken in proportionable quantity—and persons retiring to bed with inflammatory spmptoms of the most alarming kind, will awake with the gralifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. in the same way, visceral targescence, though long establised, and visceral imflammations, however critical, will yield—the former to small, and the lotter to large doses of the Lieu Pills—and so also hysterical affections, by pocondrianism, restlessness, and vary many other varieties of the Neonrotical class of dis eases, yield to the efficacy of the PHENIX

Bretters.

The above Medicines are for Sale at the Store of Mr THOMAS SPRATT, in Chatham, near the residence of the Hon. Joseph Cuaard, who is oppointed sole Agent for their linearity Miramichi. disposal in Miramichi
