

upon entering, which he vociferated for the landlord. That important personage obeyed the call on the instant, but in evident trepidation, as a matter of course; when the Yankee, in a sharp accent, which conveyed the idea to the uninitiated Mexican that his safety lay in implicit acquiescence, thus accosted him—"I want this establishment, house, lot, furniture and everything as it stands. What'll you take for it?" The Mexican, happy to be permitted the privilege of naming a price at all for property which he supposed to be at the mercy of the enemy, named as much as he judged he wanted, to put a respectable distance behind him and "los Yankees." "It's a bargain!" shouted the down-easter, as he commenced shelling out the money. "And now, my friend, what is the least possible time it will take you to clear out?" He was told that half an hour would suffice. And, in half an hour, accordingly, our friend, the Yankee, was mixing juleps and otherwise ministering to the comfort and accommodation of his countrymen in particular, and the public in general.

**THE SEASON.**—We noticed in our last that there was every appearance of mild weather. Such proved to be the case. The wind on Wednesday was from the Southward, and during the night it rained incessantly, and in the morning there was scarcely a particle of snow on the ground. The ice which formed in the river was broken up, and floated down with the ebb tide. From that period up to Sunday night, the weather was unusually pleasant—yesterday, however, was a cold day, with a smart cutting wind from the Northwest, and considerable ice formed on the shores. Last night it was extremely cold, and this morning, we perceive the river is frozen completely across.

**CHINA.**—Keying, Governor of the Kwang provinces in China, has issued a proclamation, that hereafter Everybody must mind their own business.

**GOVERNMENT NOTICE.**

All persons who may be in possession of Money or effects belonging to the Estates of Emigrants who have died during the late season at Partridge Island or in the Hospitals at Fredericton, Saint John, Saint Andrews, Miramichi, or any of the Out Ports, are hereby required forthwith, to make returns of the same to the Provincial Treasurer at Saint John and at the Out Ports, to the Deputy Treasurers, setting forth the names of the deceased persons, the vessels in which they arrived, and the amount of the moneys so received by them, and pay and deliver over such effects to those officers.

By His Excellency the Command,  
JOHN S. SAUNDERS,  
Secretary's Office, 12th November, 1847.

**ARRIVALS AT HEA'S HOTEL.**

November 23—John Turner, Dorchester. 24, Alexander M'Dougall, Black River; Miss McDougall, do. 25, John McKay, do. Thomas Gray, Sussex Vale; John Jardine, Richibucto; John Graham, do. 26, William Bell, Kouchibouguac. 27, Theophilus DesBrisay, Esq. Bathurst; James W. Wolhaupter, do. 29, Adam Stewart, Tahusintac.

**Deaths.**

In the Parish of Newcastle, on the 19th instant, JANET, second daughter of Alexander Goodfellow, Esq. aged 20 years; much and deservedly regretted.

In Chatham, on the 25th instant, very generally, and deeply regretted, JOHN M'ARTUR FRASER, son of Mr Donald Fraser, late of the Miramichi Foundry, aged 11 years and 2 months: a youth of great promise.

At Chatham, on Sunday evening last, JOHANNA, youngest daughter of Mr John O'Keffe, aged 21 years.

The following is taken from the Daily Mercury of November 11th, printed at Bangor, Me.,

**The Secret Revealed!**

Many persons wonder how CURRIS & PARKEES have managed to sell over thirty thousand bottles of the Cramp and Pain Killer within the last six months, and that too, without advertising it to the amount of fifteen dollars. The secret of its unparalleled popularity is, that it positively will and does cure Bilious cholera, cramp in the limbs and stomach, rheumatism, inflammatory sore throat, stitches in the back or side, spinal complaints, chapped hands, tooth ache and sore lips. It will extract the fire from a burn or scald in ten minutes, and if applied in season, prevent its blistering, and is the best article in the world for the cure of the piles. In short, it is all vegetable and all-healing matter. Unlike most other Pain Killers, it does not contain one particle of opium or camphor.

Every family should keep a bottle in the house, as it is exceedingly useful in case of accident. An external application will at once relieve children who are afflicted with cholera.

The above valuable medicine is for sale by K. B. and W. Forbes, Chatham, price 2s. for large bottles, and 1s 3d for small. Messrs Forbes have circulars containing certificates of almost miraculous cures performed by this medicine.

**Testimony of the Doctors in favor of Wistar's Balsam of Wild Cherry.**

Exter, Maine, Sept 30, 1845.

This certifies that I have recommended the use of DR. WISTAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases, where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exter Corner. Dr. Bradford Knapp, of Crown Point, N. Y., in a letter dated August 3d 1845, says: "In the course of my practice in this vicinity, I have tested in some good degree the good qualities of Wistar's Balsam of Wild Cherry in Pulmonary Complaints, and I now wish to procure a supply of the medicine."

Dr. A. H. Macnair, of Tarboro, North Carolina, writes us under date of Feb. 14, 1847, that he has used Dr. Wistar's Balsam of Wild Cherry, in his practice the last eighteen months, and consider it the best preparation of the kind he ever saw, and knows of none so deserving the public patronage.

Dr. Wm A. Shaw, of Washington, N. C., writes, under date of May 1, 1846, as follows:

"I have heard of many cases of decided beneficial effects from its use, especially in Asthma and chronic cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good results in those cases of great nervous mobility, and Irritability, to which physical patients are subject. The combination of these principles in Wistar's Balsam of Wild Cherry is ingenious and judicious."

Medical men are justly distrustful of Patent Medicines in general, but candor must discriminate between outrageous humbugs and nostrums and those medicines which have proved salutary, and in many well attested cases curative."

Dr. Hoffman, Huntingdon, Pa., cured a child of Asthma with it, after he declared he could do no more with his medicine, and the child must die.

Dr. Freleigh, of Saugerties, N. Y., says he cured Liver Complaint of four years standing, that would not yield to the usual remedies.

Abraham-Skillman, M. D., of Boundbrook, N. J., says it is the best medicine for consumption, in every stage, that he has ever known. We might refer you to hundreds of cases, had we room, that would convince all of its great virtue. For sale by

K. B. & W. Forbes, Chatham.

And by Druggists generally throughout the United States.

**Shipping Intelligence.**

**PORT OF MIRAMICHI.**

We noticed in our last paper, that the schooner Miscon, Coulson, from Quebec, with a general cargo, was ashore below, near Point Esquimaux. The cargo has since been discharged on the beach, and we understand, a portion of it has received considerable damage.

The schooner Martha Sophia, Boudrault, from Quebec with a cargo of flour, &c., came up on Friday, and discharged, and on Saturday a schooner from Prince Edward's Island. Last evening the schr. Calm, from Quebec, with a cargo, came up to Chatham. All the vessels with the exception of the latter, have left the port.

**YESTERDAY'S MAIL.**

**POSTSCRIPT.—ONE O'CLOCK.**

The mail has just got in, and we have hurriedly made the following extracts from the papers that have come to hand. They add but little to our stock of intelligence from Mexico.

A young man of the name of Doyle, belonging to Halifax, was found dead on board the steamer Conqueror on her last trip between Charlottetown and Pictou. He had come on board without the knowledge of any person connected with the boat.

**HALIFAX.—The Times.—The Weather.** The times are dull, and so is the weather.—Money is scarce, and mud plenty. The winds are high, and so are breadstuffs—and there is a flow of rain on the land, rather than of milk and honey. Truly the millennium is approaching—and the 'man in the moon' who has looked coldly upon this world ever since it was made, appears to be the only indifferent spectator of these stupendous events, so prognosticative of the future. What's to do we know not. Some people look to the banks for assistance, in the hour of their trouble—more ask for time—but time has its value, the interest of an hour being as minutely calculated by your cunning shaver, as of a year, and is as grudgingly granted,—hence debtors would not care if the whole tribe of creditors,

sheriffs, constables, bank-runners, &c., were swallowed up by an earthquake, or petrified for a twelvemonth to come. The times are dull—but they will soon be better. Let us hope so, at all events, and by mutual forbearance endeavour to make the business circumstances of each other as easy as possible, until the year's transactions are closed, and men can get breathing spells to look into their affairs. Thus far, the effects of the crisis have not been very disastrous. There has been but one failure, or two at farthest in this community, by which loss of consequence will be sustained; and considering the severity of the pressure, those who weather the storm best, and those who weather it at all, will have proved the soundness of the basis of their business.

The trial of McGovern, who was arrested on suspicion of having shot the late James Briggs in Portland, has been put off until the January term of the Circuit Court.—*New Brunswick.*

**Unexpected.**—The Ice, which for some days previous, had established itself strongly on the River, broke up on Wednesday; and yesterday morning the steamer Carleton reached this place with a heavy Barge full of provisions, in tow. There is no ice in the river to-day.—*Fredericton Reporter.*

**Hurricane in the West Indies.**—A letter dated at Grenada on the 25th Oct. and received in New-York on the 17th inst. states that a severe gale of wind had been experienced in the West Indies on the 11th ult. which did great injury at Trinidad and Tobago. At the latter island particularly, it was very severe. About seven hundred houses are stated to have been destroyed. Nearly all the estates have lost their work houses, about one third of the crop.

At Tobago three lives were lost, and damage done to the amount of £150,000.

**Louisville Nov. 20.**—The western mail brings lamentable intelligence from Iowa. A fire in the prairies has swept over the greater part of Washington county, carrying devastation in its track. The loss to property is immense, and it is feared that human life has also suffered. One person writes that the loss in his immediate neighbourhood cannot be less than \$50,000.

**MEXICO.**

From the Irish Volunteer.

An active prosecution of the Mexican War appears to be a favorite policy of the United States just now. The American invading army, with its handful of men, is in possession of the Mexican Capital. What then? We cannot but call to mind the memorable reply of Washington to Cornwallis, when his Lordship threatened to 'march into the United States, burn and destroy'—*My Lord, it is a very easy thing to march into a Country—the question is to march out again.*

The country at the mouth of the River Miramichi was completely submerged, from the 5th to the 21st ult. owing to heavy rains.

**WEST INDIES.**

**Fire at St. Thomas.**—This island was visited by a fearful fire on the 26th ult., which destroyed property to the estimated amount of twelve thousand pounds sterling, and would have laid the entire town in ashes but for a sudden change of the wind, which providentially occurred when the flames were at their highest, and arrested their progress. Drinking water was selling at one shilling per gallon.—*Bermuda Herald* October 21.

**Dominica.**—Several shocks of earthquake had been felt in this island. One continued considerably longer than the shocks usually experienced.

The Colonist reports that a shock was felt at Marie Galante; which destroyed a church and did much additional injury.

**Destruction of a Valuable Library.**—A Danish letter, dated from Copenhagen the 26th ult., informs us of the destruction, the same morning, of the rich and valuable library of the Royal Society of Icelandic Literature in that capital. The loss is distressing, inasmuch as the library contained more than 2,000 unpublished MSS., and a numerous collection of single copies of ancient Icelandic works. The destruction of this library recalls to mind that of the Arna-Magnean Institution, composed of more than 40,000 Icelandic manuscripts, which was burnt during the famous bombardment of Copenhagen by the English in 1807.

**Singing School.**

The Subscriber grateful for the past patronage he has received, begs to inform the people of Chatham that he purposes opening a CLASS for the purpose of giving instruction in the science of Music. Wilhelm's system, the one most approved in Britain, will be pursued. The class will be taught in Mr. Smith's School room. Terms and other particulars made known at an early day. Individuals wishing to join the class will confer a favor by notifying him early.

JOSEPH WINDSOR.

Chatham, November 20, 1847.
