

that a Telegraphic Despatch from Washington had announced the arrival of a Government Express with disastrous intelligence from the army—that Santa Anna had attacked Saltillo with fifteen thousand men, and cut up Gen. Worth and fifteen hundred Americans at that post!

Rumoured Loss of Another U. S. Vessel.—The Washington correspondent of the *Baltimore Patriot*, says:—

“There is a rumour here that the frigate Congress has been lost in the Pacific Ocean, and all on board of her. I know not whence the rumour came. No one seems to know.

“It will be remembered that the frigate Congress was the flag ship of Commodore Stockton, and was one of the new forty-four gun ships.”

St. Louis Republican, Dec. 23.

From the Plains.—We learn from the *Lexington Express* of the 14th, that an express had reached that place from the company of Ballard, Hooke & Co., traders to Santa Fe, who were the last to leave Independence this season. They had crossed the Arkansas, and were camped for the night south of the Sand hills on the Semirone, when one of those dreadful north-western snow storms, which are common on the plains, came up, and so alarmed their cattle, that many of them broke through the guard and made their escape. Some 20 head of them made their escape and 3 mules perished in the storm. Being thus weakened in their teams, the company were compelled to return to the Arkansas, where they have very good grass, rushes, &c., for their stock.

It was their intention, however, if the weather continued fair, to move on to Bent's Fort, 150 miles, with all the goods possible, and winter there. By doing so, they will be enabled to reach Santa Fe early in the spring.

More Trouble.—The Van Buren (Ark.) Intelligencer of the 12th inst. says: We learn that some one or more of the volunteers, so supposed, who are now stationed at Fort Gibson, have recently killed two Cherokees. The Cherokees are greatly excited, and we hear that they loudly demand redress. We have not heard any particulars, and therefore we are not able to give any history of the affair, nor our opinion as to the cause of the murders, or the justice of the excitement.

CARD.

SAMUEL THOMSON, Attorney at Law, Respectfully announces that he has opened an Office adjoining the residence of John T. Williston, Esq.

Sands' Sarsaparilla.

For the Removal and Permanent Cure of all Diseases arising from an impure state of the Blood, or habit of the system.

This Medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. It is now recommended and universally approved of by the most distinguished of the Medical Profession throughout our country, and, by its intrinsic medicinal value, the public generally (but the afflicted particularly) have been made acquainted with its usefulness, in the removal and cure of diseases having their origin in an impure state of the blood.

B. A. Fahnestock's Vermifuge.

This excellent medicine continues to be extensively used, and fresh proofs of its efficacy are being constantly afforded. Among others, the following certificate has been received by the Agents, and is submitted to the notice of the public.

Petite Riviere, Lunenburg County, March 24, 1846.

Seeing last Fall an advertisement in a newspaper stating a medicine called Fahnestock's Vermifuge, to be an effectual remedy for expelling worms from the system. I was thereupon induced to send for two bottles, and by way of trying its good qualities, gave three small doses in the morning, each an hour apart, (according to the directions) to a little girl, about four years old apparently in good health, and to our astonishment, during the afternoon of the same day, eighteen worms, from five to ten inches long, were dislodged. The other bottle was given to Mr. Hilton, a neighbour, of mine to be administered to one of his little boys, who, it was supposed, had worms, and when only one half the contents of the vial had been used, how were we surprised to find that no less than one hundred and thirty seven large worms had been passed. Being therefore convinced of the value of Fahnestock's Vermifuge as a worm exterminator. I would recommend it to the public as the most effectual medicine for expelling worms from the system that has ever come within my knowledge. I am very respectfully your obedient servt. J. R. HALL.

HUGH MORELL, P. M.

GRAHAM FOR 1847.

At the head of the Periodicals of the World, in point of Circulation and Popularity.

A New Novel by Cooper.

"The Islets of the Gulf," a powerful Sea Story.

In the best style of the Author of "The Red Rover," "Water Witch," &c.

We have the pleasure of being able to announce to the 50,000 readers of Graham's Magazine, that we commence the publication in the November number of Graham's Magazine, of a new Novel by James Fenimore Cooper, entitled "The Islets of the Gulf," a Sea Novel, written in the very best style of that accomplished novelist. This novel will run through twelve or fourteen numbers of "Graham," and we predict for it "a run," unequalled by any thing Cooper has ever written.

Subscribers to the January volume of the Magazine will receive the entire sheets of the "Islets of the Gulf,"—which commences in November. It is understood that the Novel will make from ten to fifteen pages extra, in each number of the Magazine, so that subscribers will receive this novel in addition to the usual quantity of reading matter in Graham. The publishers have given

\$1200 FOR THE NOVEL.

and with the premiums, \$1000 for prizes, Graham will undoubtedly excel all the Magazines for 1847

ELEGANT PARIS FASHIONS IN EVERY NUMBER.

While all the other monthly periodicals are crumbling to decay, and resorting to every expedient to save themselves from destruction, "Graham" pursues the even tenor of its way, proudly at the head of the periodical literature of the day—with its 50,000 readers, gradually widening its influence, and extending its circulation. The policy adopted in this magazine, of giving the best both in literature and art, has established it upon the secure basis of public confidence.

We have resolved, so far as "Graham" is concerned, to give a proper direction to the popular taste; and propose in the coming volume greatly to amplify the literary department of the work—to engage none but the very best writers—to open a field of young writers of merit—and, in fine, to enliven a National Periodical Literature, which shall command respect at home and abroad.

FOR THE NEW VOLUME.—In addition to the host of able writers who have enriched our pages by their productions we shall have the advantage of being able to publish some of the most brilliant articles that have ever appeared in our language.

The lowest Terms for 1847.—Three Dollars per annum for a single copy, or two copies Yearly for five dollars, invariably in advance, post paid.

For ten dollars Cash, free of postage, five copies of Graham's Magazine, or Graham's Magazine and Five Copies of Neal's Saturday Gazette.

For twenty dollars cash, eleven copies of the Magazine will be forwarded, and a copy gratis to the Postmaster or others forwarding the money. Address, post paid.

GEO. R. GRAHAM & CO., 129 Chestnut st., Philadelphia.
