

then proceeds to Chester and the Western shore next morning.
The Rev. Mr McIntosh will leave for Picton on Thursday morning.

And it is expected that the Rev. Mr Stevenson will preach in St. Mathew's and St. Andrew's churches on Thursday and Friday evenings next, and the ensuing Lord's Day.

The piety, zeal, and powerful preaching of the members of this deputation, have inspired and animated the friends of the church with new vigor in favor of the church of their fathers. The Lay Association will present them with an address this evening.

New Brunswick.

Saint John Newbrunswick, June 22.

FROM NEW YORK.—Effect of the English News on the Market.—The news by the Cambria reached New York on Thursday last, by telegraph, and had a decided effect on the market. The Express says:—The speculators in Breadstuffs are most sadly disappointed. So confident were they in the expectation of higher rates, that the moment the steamer was announced below, they purchased several thousand barrels of Flour at \$8.57 1/2, which is an advance of a shilling.

The tidings when received put an extinguisher on all purchases, and prices fell full half a dollar. Flour is now offered at \$8.25, and general belief is, that it will be \$8. Corn has fallen 10 to 15 cents a bushel, and all other descriptions of grain and meal in proportion.

The Corner Stone of the provincial Lunatic Asylum, at Carleton, will be laid on Thursday next, being St. John's day, with Masonic honours. His Excellency the Lieut. Governor will lay the corner stone, assisted by the Right Worshipful the Hon. Alexander Keith, of Halifax, Provincial Grand Master, who will conduct the Masonic ceremonies. Major Nicholson's Company of Artillery will turn out and fire a salute on the occasion. If the weather should prove propitious, we shall have quite a gala day.

Collision upon Lake Erie.—A collision has taken place upon Lake Erie, near Coneaut, Ohio, between a Steamer and a schooner. Both were sunk, and the engineer of the steam-boat and thirteen others were missing, and were supposed to be lost.

Canada.

Quebec Chronicle, June 21.

From the Montreal papers of Saturday we learn that the debate on the Hon. Mr. Neilson's resolutions was continued on the previous evening. The first six, which only affirmed certain historical facts, were carried by a majority of one, but the remainder—which implied a vote of want of confidence in the Ministry, were lost by the casting vote of the Speaker. Mr. Morris then said, that as the first part of the resolutions was altogether in-meeting when detached from the last, he should move to expunge them. This motion was, after a short conversation, also carried by the casting vote of the honorable Speaker. The Hon. Mr. Morris complained throughout of being taken by surprise, asserting that if due notice of these resolutions had been given, hon. members who were out of town, would have been present, and would have rejected them by a large majority.

YESTERDAY'S MAIL.

TORONTO.—Canadian Parliament.—The address to the governor General's opening speech has been carried, against Mr Baldwin's amendment, after four days spirited debating, by a majority of two.

SAINT JOHN.—The laying of the corner stone of the new Provincial Lunatic Asylum took place on Thursday last, with Masonic honors. The fineness of the day drew forth hundreds of the inhabitants to witness the imposing ceremony, and early in the morning the streets presented a lively appearance, from the continuous stream of persons crossing to the Carleton side.

From the United States.—The new and splendid steamer *Admiral*, Captain Rogers, arrived here yesterday afternoon, in three and a half hours from Eastport, having left Boston at noon on Thursday—she brought a large number of passengers.

The news is not of much importance. No intelligence has been received from General Scott since the 23rd ult.

Accounts from St. Louis state that a government train for Santa Fe, under Captain Thorp had been attacked near Cottonwood fort, by the Cammache Indians, and that captain Thorp and twelve or fifteen of his men had been killed. The Indians stole a large number of cattle, mules, and other articles.

St. John Courier, June 25.

The Yellow Fever.—This dreadful scourge, called *El Vomito* by the Mexicans, has commenced its ravages in earnest at Vera Cruz. Some very valuable lives have already fallen victims to its fierceness. The most energetic measures have been adopted by Col. Wilson, by the appointment of a Board of Health, the publication of sanitary regulations, &c. to mitigate effects.

From Tampico.—Arrivals at New-Orleans bring bad accounts of the health of Tampico. It is stated that a large part of the troops were unfit for duty, and that many deaths had occurred from yellow fever.

A government train for Santa Fe, under Capt Thorp and twelve or fifteen men had been killed. The Indians got possession of a large

number of cattle, mules, and other articles.

The news from England by the Cambria had caused a great decline in the Flour Markets throughout the United States.

The Crops.—The Sandersville Central Georgian of the 11th inst says:—We are happy to have it in our power to state that the corn crops in this section of the State are at present very promising. The stand of cotton is generally very good, and the plant is now growing rapidly. We hear of cotton blossoms in divers places.

We understand that Dr. Collins, one of the Physicians on Partridge Island, is ill of fever.

Capt. Hall, of the ship Pallas, who had been landed on Partridge Island from that vessel, we are sorry to say, died there, last evening, of typhus fever.

From the Cape de Verd Island.—Dates from these Islands announce that there was a volcano eruption about the 1st of April, on the Island of Fogo, (of the Cape de Verd group) which continued ten or fifteen days, throwing out showers of earth and stones to a great height, and emitting huge streams of lava, which, running down the mountain, destroyed many houses and plantations and caused some loss of life. All vegetation, and many goats and cattle, were destroyed by the heat of the earth, the showers of stones and the lava. The shock was distinctly felt on the neighbouring island, and caused much alarm at Port Praya, where the vibrations were very violent, and almost unceasing for seven or eight days. The crater of Fogo is 12,000 feet above the sea, and eruptions occur once in twenty or thirty years.—Newbrunswick, June 24.
