

fish and cure them with our own salt, for our own use, and for exportation. Let us turn our eyes to the Legislature and see what they can do for the farmer, and then we will perceive what the farmer can do for us!

THE COMET.—A late English paper thus notices the visit of this celestial stranger:

The Comet.—The comet about which we have all been talking so much, has it seems, come at last. The wheel of his chariot of fire have been seen by Dr. Peterson, of Altona, on the verge of our system—driving appropriately to the sign of 'The Charioteer'; and Mr Taylor, of Liverpool, has had an interview with the illustrious stranger. The nature of his credentials on the present occasion has not yet transpired; but Mr. Taylor reports that he may be seen any evening after dark, at a respectable distance, and weather permitting, in the north-east below the north pole, not far from the stars Castor and Pollux, standing towards the star Procyon. The astrologers will, no doubt, have some explanation to give us of all this by and-by, and will render a full and true report of his despatches. The fiery cyphers are for the reading of the adepts alone. Meantime, as it is 292 years since he last visited our system, he will see great changes on the earth. He does not however, intend, it appears, to take up a near point of view for his observations. 'The earth and the comet,' says Mr. Taylor, 'are now gradually approaching each other, but will not come so near each other as in the year 1264; for the perihelion has this time prescribed the autumnal equinox by a week less than in the year 1264, when its display was so terrible, great bright, and spreading a long, broad tail as described in the annals of Colmar. Their nearest approach this time will not be less than 30,000,000 of miles. In the year 1556 the distance of the comet from the earth was less than 7,000,000 of miles, the comet being then in its ascending node, whereas it is now about to pass through its descending node, as it did in the year 1264.'

NEW EXPORT.—We were put in possession this morning of a gratifying piece of news, which we have much satisfaction in recording. It is this—that Mr John Macdougall, of Chatham, has shipped on board the ship John Moran, bound for Greenock, forty-two firkins of BUTTER, the produce of this county. This is something new, and we have no doubt, judging from the general character of the butter made in the county—that Mr M. will meet with a ready sale for the article in the British market, and at a remunerating price.

This number brings to a close the nineteenth volume of the Gleaner.

Chatham, 2nd October, 1848.

Passengers in the Pomona for Leith—Mr and Mrs Samuel Napier.

Port of Halifax—Arrived, John Wallace, Miramichi; Sisker, do. Cleared—New Mes-senger, Miramichi; ship Wm. Penn, do; brig Fanny, Buctouche; bark Cornwallis, Richibucto.

The ship Peel's One, from Hull or Liverpool, for Richibucto, struck on Cape North, 18th September—14 lives were lost—had on board Captain Johnston and crew and passengers of brig Valeris, of Newfoundland, from Saint John N. B. for Boston, which she had run into that day. The V. was abandoned by the crew—eight lost from the brigantine—six from the ship.

YESTERDAY'S MAIL.

Papers by this mail furnish a few items of news, which we notice below.

The steamer America experienced very boisterous weather on her passage out, particularly on Sunday week, when she was slightly damaged. She had 122 passengers.

The Pictou Eastern Chronicle, in speaking of the passengers at the quarantine station there, labouring under small pox, says—We believe there is not the slightest appearance of the disease among the miners or cabin passengers; but it is supposed that it will likely extend thro' the whole of the Highlanders, upwards of 90 of whom are now afflicted with it.

St. John New Brunswick, Sept. 29. The Lieutenant Governor.—We learn that His Excellency with a view of completing his examination of the Province, will leave Fredericton for St. Andrews (Thursday) morning, and after visiting St. Stephen, will arrive in this City next Monday evening. His Excellency will then proceed by Sussex Vale to Shediac and Richibucto, thence to Dorchester and Sackville, and probably the County of Albert before returning to Headquarters.

The Herring Fishery at Grand Manan.—Since the Revenue Cutter 'Phantom' has been stationed at Grand Manan, the herring fishery has been prosecuted with great success, and proved abundantly productive. We learn on good authority that up to this date, more than 20,000 barrels of herrings, of excellent quality have been taken by vessels from the mainland of this Province, in addition to those taken by residents of the Island. The season is not yet over, and the fish appears abundant as ever. So large a catch of fish will be of great advantage the coming winter, and the Cutter has really done good service in preserving order, and enables the really industrious to pursue their fishing profitably.

Drowned.—On the 24th instant, at the head of the Long Reach, by the upsetting of a boat, Mr. John M. Smith, aged 26 years, formerly of Wiltshire England; also at the same time and place, Mr. Richard Murray Magee, youngest son of the late Capt. Thomas Magee, of H. 48th Regt. of Foot, and formerly of Dublin, Ireland, aged 31 years; also at the same time and place, Mr. Wm. Fairbanks, aged 26 years, formerly of Frome Somersetshire England.

Eastern Chronicle, Sept. 28. The crops are now pretty generally housed throughout this County, and from any thing we can learn respecting the quantity of grain in the country, it appears that owing to the unfavorable weather that we have had for the last few weeks, both for ripening and harvesting the grain, the crop is far below an average. This is the case more particularly among the back settlements, from some of which we learn that the whole of the crop secured by the farmers this season will not more than feed their families till the month of February or March. There is no doubt that much distress will be in the country, unless some means be devised by the Legislature to enable the people to obtain money with which to buy food, and to enable them to save from what little they have a sufficiency of seed for next season.

Chatham, September 19, 1848.

COUNTY OF KENT.

PROVINCE OF NEW BRUNSWICK S.S. In the matter of JOSEPH CUNARD, of Chatham, in the County of Northumberland, Merchant, a Bankrupt.

Whereas under the provisions of the Acts of the General Assembly in this Province, entitled "An Act relating to Bankruptcy in this Province," and of "An Act in addition and amendment of the same," JOSEPH CUNARD, of Chatham, in the County of Northumberland, Merchant, has been declared a Bankrupt, and hath accordingly surrendered himself to me—now, therefore, I do hereby give public notice that by virtue of the power and authority to me given, to and by the said act, I have appointed WILLIAM J. FRASER, of Chatham, aforesaid, Merchant, Provisional Assignee of the estates and effects of the said Bankrupt;—and I do hereby require all persons indebted to the said Bankrupt, to pay to the said Assignee, on or before the first day of November next, all such sum and sums of money, debt or debts, as they may owe to the said Bankrupt; and all persons who have in their possession, power, or custody, any property or effects of the said Bankrupt, to deliver the same up to the said Assignee, on or before the said 1st day of November next—and I do require all the Creditors of the said Bankrupt, resident in the said Province, or in any of Her Majesty's North American Colonies, or in the West Indies, or in the United States of America, within three months from the date hereof to deliver into the said Assignee, and to prove to my satisfaction, their respective claims and demands, whether the same be actually due or to become due, against the said Bankrupt—and Notice is also hereby further given, that I appoint a Meeting of the Creditors of the said Bankrupt, to be held on FRIDAY, the twenty ninth day of September next, at noon, of the same day, at the Office of the undersigned Commissioner, in Richibucto, in the said Province—and a further Meeting of the Creditors of the said Bankrupt, will be held at the same hour, on FRIDAY, the twenty seventh day of October next, at the Office aforesaid, for the purpose of receiving proof of or contesting any claim presented against the said Estate, at which meeting or at any adjournment thereof, the said Bankrupt will be examined on oath, touching his estate and dealings and such other business relating to the said estate, with then and there to be transacted as may be deemed necessary.

Given under my hand at Richibucto aforesaid, the Twenty Eighth day of August, A. D 1848

J. W. WELDON

Commissioner for the Estate and Effects of Joseph Cunard, a Bankrupt.

Celebrated throughout the Globe!

Holloway's Ointment.

CURE OF FISTULOUS SORES AND PLEURISY

Extract of a Letter from Mr. Robert Calvert Chemist, Stokesley, dated September 3d. 1847.

To Professor HOLLOWAY.

Sir,—Mr. Thomson, National Schoolmaster of this Town, desires me to send you the particulars of his son, who had been bad for three years and one half, and has received the greatest benefit by the use of your Pills and Ointment. He is of a scrofulous constitution; pleurisy had left a large collection of matter in the chest, this eventually formed a passage through the wales of the chest, and ended in three fistulous sores which discharged large quantities of pus, when he was induced to try your Pills and Ointment, at this date he was apparently in a dying condition; the stomach rejected every thing it took. Your Pills and Ointment had the effect of completely curing both the cough and stomach affections, his strength and flesh are also restored, his appetite keen, and digestion good. There is every prospect that a little future continuance of your medicines will finish the cure.

(Signed) ROBERT CALVERT.

The *McFusulite Newspaper*, published, at Meerut, has, on the 15th October 1847, copied an article from the '*Benares Recorder*,' of which the following, is an Extract:—

The Prince of Maharejah Biesoonath Singh, who was temporarily residing at Chattercote, was suddenly taken ill with Spasmodic Colic, and during his illness His Holiness often asked for Holloway's Pills and Ointment, as he had heard much of their virtues, but none could be obtained in the neighbourhood, and Professor Holloway, no doubt, unfortunately loses a certificate which would have graced and dignified his list of cures.

The native Princess are now using Holloway's Pills and Ointment in preference to every other medicine, they being so wonderfully efficacious in the cure of diseases in India.

Cure of a bad Leg of thirty years standing
June 7th, 1847.

I George Bourne, Butcher of Sockton-upon-Tees, do hereby certify, that my wife had a bad leg for thirty years by the bursting of a vein, her sufferings were intense, she had been under the care of most of the eminent men in the neighbourhood, but to no purpose, and was afterwards perfectly cured in eight weeks by Holloway's Pills and Ointment.

(Signed) GEORGE BOURNE.

Cure of Ulcers where there existed Diseased Bone

Extract of a Letter from Mr. James Wetmore, Hampton, N. B., dated February 10th, 1847.

To Messrs. PETERS & TILLEY.

Gentlemen—I feel it is but due to Professor Holloway to inform you, as his Agents or this Province, of a remarkable cure performed upon my Son. He had been afflicted with Ulcers upon his limbs and body for more than three years, from which small pieces of bone had been removed. I tried several medical men in St. John, but all to no purpose. I was then induced to try Holloway's Pills and Ointment, which made a complete cure, several months have elapsed but there is not the slightest appearance of the cure not being the most complete.

(Signed) JAMES WETMORE.

CURE OF THE PILES.

Extract of a Letter from Joseph Medcalf, Dated, Beverly, June 17, 1848.

To Professor HOLLOWAY

Sir—For some years I had laboured dreadfully with bleeding Piles, by divine blessing, together with the use of your Pills and Ointment, I have been perfectly cured, and never was there a greater sufferer with Piles than myself.

(Signed) JOSEPH MEDCALF.

THE TESTIMONY OF A PHYSICIAN IN THE CURE OF SKIN DISEASES.

Copy of a Letter from W. P. Powell, M. D., 16 Blessington Street, Dublin, dated Feb. 9th, 1837.

To Professor HOLLOWAY.

Dear Sir,—Having devoted my attention for some years to cutaneous or skin diseases, I think it but right to inform you that I have in various cases recommended the use of your Pills and Ointment, and invariably found them to have the most perfect effect in removing those diseases.

(Signed) W. E. POWELL, M. D.

The Pills should be used conjointly with the Ointment in most of the following cases

Holloway's Ointment will cure any case of bad legs, Ulcerous sores, bad breasts, sore nipples, cancers, ulcers, swellings, contracted or stiff joints, gout, rheumatism, Lumbago, burns, scalds, chilblains, chapped hands and lips, bunions, soft corns, piles, the bite of mosquitoes, sand-flies, chigger-foot, yaws, coccidiosis.

Sold by the Proprietor, 244, Strand, (near Temple Bar,) London, and by Mr JOHN FRASER, Chatham; and Mr M. M. SARGEANT, Newcastle, and Mr J. McKENNA, Bathurst, in Pots and Boxes, at 1s 9d., 4s 6d., and 7s. There is a very considerable saving in taking the large boxes. N.B.—Directions as to the guidance of patients are affixed to each pot and Box.
