

The Secret Revealed!

Many persons wonder how CONARD & PERKINS have managed to sell over thirty thousand bottles of the *Cramp and Pain Killer* within the last six months; and that too, without advertising it to the amount of fifteen dollars. The secret of its unparalleled popularity is, that it positively will and does cure bilious cholic, cramp in the limbs and stomach, rheumatism, inflammatory sore throat, stitches in the back or side, epipal complaints, chapped hands, toothache and sore lips. It will extract the fire from a barren or sealed inlet in ten minutes; and if applied in season, prevent it blistering, and is the best article in the world for the cure of the piles. In short, it is all vegetable and all-healing matter. Unlike most other Pain Killers, it does not contain one particle of camphor.

Every family should keep a bottle in the house, as it is exceedingly useful in case of accident. An external application will at once relieve children who are afflicted with cholera.

The above valuable medicine is for sale by K. B. and W. Forbes, Chatham, price 2s. for large bottles, and 1s. 3d. for small. Messrs. Forbes have regulars containing certificates of almost miraculous cures performed by this medicine.

THE SEASON.

We have had during the week intense cold weather, some snow, and on Sunday it rained for several hours. A north wind springing up immediately after, our streets were covered with ice.

YESTERDAY'S MAIL.

We have received our papers by this mail this morning—and have hurriedly made the following summary of the news they furnish:

The Halifax Courier of Saturday contains the following paragraphs.

The 6th Steamer from New York arrived yesterday Wednesday, at eleven o'clock, and left again at 5 P.M. for Europe.

Her Market news will be found under the prop head.

She brought a very good freight of passengers for a beginning. (By some mistake we are without a list this morning.)

The Mexican News is of little moment—two Mexican officers were shot at Jalapa on the 24th Nov. for breaking their parole.

The Steamer A. N. Johnston blew up on the Ohio on Thursday last, and seventy persons were killed, and about thirty dreadfully injured.

Capt. Ryrie was welcomed at a Public Meeting in New York on the arrival of the Hibernian.

A Snow Storm commenced precisely at twelve o'clock last night.

Nearly one thousand persons are sick with the ship fever, at the hospital on Staten Island New York.

We learn that a Dispatch has been received from Earl Grey, in answer to the Resolutions passed by the Common Council of this City, relative to the influx of pauper emigrants the past season. The Colonial Secretary regrets the additional burdens to which the Province has been subjected, and expresses his willingness to bring the subject before the Imperial Parliament, in order that this Colony may be reimbursed for the expense incurred in supporting so many destitute people.—St. John Newbrunswicker.

We take the following from the Saint John Courier:

Colonial Under Secretary—Mr. Thomas E. Elliot, the Senior Commissioner of the Colonial Land and Emigration Board, has been appointed joint-assistant Under Secretary of State for the Colonies Department with Mr. Merivale. Mr. Murdoch, who has been appointed a Commissioner in the place of Mr. Elliot, has been one of the Senior Clerks in the Colonial Office. It may be in the remembrance of many, that Mr. Murdoch visited this city in 1840, as Secretary to Lord Sydenham, with whom he remained in Canada until his Lordship's death.

Canada.—The Elections are proceeding, the parties shewing as little discretion as ever. The interference of associations in the towns and their emissaries sent out to enlighten the Electors throughout the country, shows the unfavourable opinion they entertain of the constituencies. The spirit, generally, of these associations and their agents is too personal and venomous to authorize a belief that they are influenced by the general welfare.

Among the returns, since our last, are Sir Allan McNab for Hamilton, Mr. Johnson for the county of Montreal, the Hon. Mr. Morin for Belcheresse, Mr. Chauvin for the county of Quebec, and Mr. Cauchon for Montmorency, all former members for the same places, without opposition.

The Hon. Mr. Daly, returned for Meantime, is expected in town about one o'clock to-morrow.

The polling is going on for several elections, and it is reported that some gentlemen, whose profession is arguing the case, have resorted to fistcuffs.—*Quebec Gazette*, Dec. 31.

UNITED STATES.—Arrival of the *Hibernian* at New York.—This steamship, the pioneer of the *Cunard* line, arrived at Jersey City at half past nine o'clock on Wednesday morning. Crowd collected on both sides of the river to witness her arrival, among whom were a number of the fathers of Jersey city.

She came to her docks in beautiful style, and with considerable speed, to the admiration and gratification of all the bystanders. It was rumoured that the authorities of Jersey city intended giving a public entertainment to Captain Ryrie, in honour of his arrival. We believe however, this will not take place—that the grand reception at Jersey city will take place on the arrival of the *Cambria*, which is to leave Liverpool on Saturday for New York. We learn that the merchants of this city, on change had made some preliminary arrangements to give Capt. Ryrie a public dinner.

The *Cunard* docks are not finished, but are considerably advanced, and when completed, will be the most convenient and commodious on the river. Everything betokens systematic management. Several hundred tons of coal are in the warehouses, and men engaged immediately to commence shipping the cargo and coal.

The Great Flood at the West.—A. McCall Esq. writes under date of Nashville, Tenn., Dec. 18, '47, as follows: "A great flood of waters now prevails between the Mississippi river and the Alleghany ranges. The damage will amount to above ten millions of dollars, at the lowest estimate. At half cost, four millions of dollars would not replace fences. At least 15 millions of bushels of corn and other grain is wholly lost; and in my opinion 3,00,000 bales of cotton, mostly unpicked, in the fields, is wholly destroyed, besides some \$300,000 worth of wood prepared for steam boat fuel. On a space of 300,000 square miles, the injury to mills and other machinery will exceed two millions of dollars, while bridges are generally carried away, with many buildings on the low lands. The larger rivers, Tennessee, Cumberland, and Ohio, are rising now, and are higher than since 1808. It is said 500 houses in our suburbs are more or less submerged.

Serious affair at New Haven.—A serious affair occurred here last night, between two students and Two Tutors. It resulted in stabbing one of the latter with a sword cane, (not likely to prove fatal) and knocking down another with a bar of iron, which it is feared will prove fatal. Names of the Students, Tewer, of Philadelphia, and Ewen, of Tennessee. Names of the Tutors, Emerson and Goodrich, son of Professor Goodrich, of Yale College. The two students were arrested and held to bail in the sum of four thousand dollars each. Great excitement. Goodrich not expected to survive.

The French steamer *Union*, which sailed from Havre on the 24th Nov. for New York, put back from Lon. 18 on the 1st December, with six feet of water in her hold and pumps choked.

We learn that a Dispatch has been received from Earl Grey, in answer to the Resolutions passed by the Common Council of this City, relative to the influx of pauper emigrants the past season. The Colonial Secretary regrets the additional burdens to which the Province has been subjected, and expresses his willingness to bring the subject before the Imperial Parliament, in order that this Colony may be reimbursed for the expense incurred in supporting so many destitute people.—St. John Newbrunswicker.
