

Provincial system of Agriculture, the very mainstay of the country, while the gentlemen of the Government are quietly filling their own pockets, and making provision for poor relations and electioneering friends? Surely the Freeholders of New Brunswick will not submit longer to abuses so easily remedied! They will not vote for men at the coming election who are favorable to the present Government, or who will not come forward manfully at the hustings and declare their political sentiments."

HON. CHARLES SIMONDS.—This gentleman has tendered his resignation as a member of the Legislative Council, which has been accepted by the Governor. He is up for the County of Saint John.

COUNTY OF KENT.—We understand the following gentlemen are in the field as candidates for this County—Messrs. J. W. Weldon, L. P. W. DesBrisay, D. McAlmon, J. McPherson, and R. B. Cutler.

COUNTY OF GLOUCESTER.—We have the cards of Joseph Read, and T. Des Brisay, Esquires. We have not learned whether there is any other candidate in the field, but we presume Mr End's friends will bring him forward.

COUNTY OF RESTIGOUCHE.—We have not heard anything from this County. Will some of our correspondents enlighten us on the subject?

COUNTY OF NORTHUMBERLAND.—The following gentlemen are in the field—Messrs. John A. Street, Wm. Carman, Jun., Martin Cranney, John M. Johnson, Jun., Richard Sutton, John Hea, and John T. Williston.

MR. PERLEY'S FISHERY REPORT.—The Montreal Gazette concludes a review of this excellent work with the following laudatory remark—"the Report is altogether a most interesting one, and well worthy of perusal."

GAZETTE.—The Gazette complains of the large amount of Caplin caught in that district for Manure, and attributes the great falling off in the Shore Fisheries to this circumstance. The Editor remarks:

"Our Salmon Fishery is destroyed, and our Cod Fishery will soon share the same fate. Moreover, using Caplin as manure is prejudicial to the farmer, as, depending altogether on it, he neglects procuring other and better kinds; and if disappointed in the spring his crops suffer. We have spoken to many persons on the subject who use fish, and they all admit that it would be far better for them, as farmers, if a law was made, prohibiting them under a heavy penalty, to catch Caplin or Herring for the purpose of manure, as then knowing what they have to depend on, they would be obliged to use a better system of Agriculture. We hope some Provincial regulations may be enacted, otherwise the fisheries of Gaspé will soon become extinct."

EUROPEAN NEWS.

The Mail Steamer Canada, arrived at Halifax, on the morning of Wednesday last. She had 10½ days passage. We copy in another column some extracts from the papers, which are to the 1st of the present month.

THE STEAMER ATLANTIC.—This vessel arrived at New York on Sunday week after a fine passage from Liverpool of 11 days. The Herrman from Southampton, arrived on the same day at the same port, in twenty days.

CANADA.—The Montreal papers furnish the following unsatisfactory news respecting the prospects of a Reciprocal Free Trade with the United States:—

We regret to say that, for another year, at least, our farmers and lumber merchants must be contented to contribute 20 per cent. upon the value of their produce sent to the United States' markets, towards the support of the government at Washington; for we yesterday learned by telegraphic despatch from Toronto, that our ambassador extraordinary, Mr Tiffany, has just returned to the Court of Elmley House, with the distressing intelligence, that during this session of Congress, there is no hope of reciprocity being carried

A Bill is before the Legislature, to facilitate reciprocal free trade between Canada and the other British North American Provinces. It empowers the Governor General in Council to declare what description of Colonial Produce may be considered free; with the proviso that nothing contained in the act shall have the effect of rendering any such article liable to duty in any case where without this act, it would be free from duty.

HALIFAX AND QUEBEC RAILWAY.—The Halifax British Colonist in the number received by the last mail, thus alludes to this important undertaking:—

The Halifax and Quebec Railroad is however a most favorable measure with us, and we get occasional encouragement that it will be undertaken. The prominent part taken by Lord Stanley in the matter is a token for good—he headed the delegation lately to the Premier, and advocated it as a great and important national question—and on that ground justified his addressing Lord John Russell, the head of the Government, instead of Earl Grey, the Colonial Secretary. His high standing and personal influence, must give prominence to the subject, and we learn that it was acknowledged by the Premier to be one worthy of the deepest consideration of the British Government—which he promised it should receive—The Colonies are indebted to Lord Stanley for the step he has taken, and we hope to hear that he has followed it up in connection with other powerful friends, who have associated themselves with his lordship in fostering the undertaking, which if carried through, will entitle him to the lasting gratitude of these North American Colonies. Can we do anything to second this important movement.

TIMBER DUTIES.—The House of Commons, on the 23rd May, went into Committee on Wood used for Ship Building:

Mr Mitchell moved a resolution, that it is expedient that a drawback be allowed of all duties on such wood.

The Chancellor of the Exchequer, with the intention of preventing the introduction of a bill, moved that the chairman leave the chair. The grounds upon which he opposed the measure were, that it would revive the objectionable system of drawbacks, and that the scheme itself was open to frauds against which it would be impossible to guard. He admitted at the same time that the timber duties were in a most unsatisfactory state, requiring revision.

Mr Cardwell supported the motion, the principle of which was that foreign ships have been allowed to come in free of duty, whilst a duty was imposed upon raw material.

Mr Mitchell explained the precautions which he proposed to introduce into this bill to obviate fraud.

The motion was supported by Mr Wyld and Mr Ricardo; upon a division, the amendment was carried by 50 against 19, so that the resolution was lost.

NAPAN.

MR. PIERCE.
I beg to inform you that John M. Johnson, Jun., Esq., Lectured in the School House of this Settlement, according to announcement, on yesterday evening, to a numerous and attentive audience, who appeared to be greatly pleased with his political opinions, which they evinced by the hearty manner in which they applauded the Lecture. A resolution was unanimously passed, requesting him to publish his Lecture. Mr Johnson consented to publish a synopsis of it, if his time would permit; which synopsis you will please publish, when you receive it, for the good of your Napan friends and the public.

I am, Sir, your obedient servant,
G. JOHNSTONE.
Napan, June 13, 1850.

COUNTY OF WESTMORELAND.—*Shediac*, June 13.—The weather has been remarkably cold for the season, and the crops, with the exception of Hay, are much retarded. On Sunday morning, 9th instant, we had a very heavy thunder storm, accompanied by rain; and on Tuesday following a severe gale from the Northward, also accompanied by rain, which descended throughout the day in torrents. The tide rose to a very great height, and swept away several fences. We have just been informed that a boat upset, with sails standing, was driven ashore at Casey's Creek, between here and Cocaigne, and that in the cabin was found fishing tackle, &c. It is feared that lives have been lost, as the storm was tremendous.

In addition to the gentlemen already named, as candidates for the representation of this County, we understand that Stephen Binney, Esq., of Moncton, also stands on the list.

LIVERPOOL MONTHLY TIMBER REPORT.—Since our Report of the 27th April, the arrivals from British America consist of only two vessels of 1891 tons. The demand from consumers has been good throughout the month, and a large business has been effected. The stocks of all kinds are diminishing, and while there is nothing on which to found an advance in prices, still there is a fair market open for the early arrivals.—*Willmer & Smith.*

AUCTIONS.

On the UNION WHARF, on THURSDAY next, the 20th instant, commencing at 11 o'clock, ex schr "Father Mathew," from New York:—

Chatham, June 17, 1850.

DR. S. P. TOWNSEND'S COMPOUND
Extract of Sarsaparilla.
THE WONDER AND BLESSING OF THE AGE!

The most Extraordinary Medicine in the World!

This Extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the patient.

WE have manufactured 1,500,000 Bottles of this Sarsaparilla during the past year, and are now putting up 5,000 bottles per day; using more of the Sarsaparilla Root in one month than all the other manufacturers of Sarsaparilla in one year.

This Extract has cured more of the following diseases than all the other advertised medicines together have done.

- Scrofula, or King's Evil.
- Obstinate Cutaneous Eruptions.
- Pimples or Pustules on the Face.
- Blotches, Biles, Chronic Sore Eyes.
- Ring Worm or Tetter.
- Scald Head.
- Enlargement and Pain of the Bones and Joints.
- Stubborn Ulcers.
- Syphilitic Disorders, Lumbago.
- Salt Rheum.

And all diseases arising from an injudicious use of Mercury, Ascites, or Dropsy, Exposure, or Imprudence in Life. It invariably cures

- Rheumatism.
- Indigestion or Dyspepsia.
- Neuralgia, General and Nervous Debility.
- Palpitation of the Heart.
- Liver Complaint and Inflammation of the Kidneys.

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigor.

THE NUMBER OF DISEASES mentioned above, as cured by this preparation of Sarsaparilla, MAY SEEM LARGE; but we are, nevertheless, PREPARED TO PROVE, by an EXTENSIVE ARRAY OF CERTIFICATES, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any JUDICIAL TRIBUNAL as complete demonstration. It may be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin or causes; for they all spring directly or indirectly from the same fountain. If the blood were in a pure, healthy and active state, it would drive all these complaints from the system, and chronic diseases would be impossible.

Hope for the Afflicted!

MR SAMUEL STORY, 3d., Agent, S. P. Townsend's Sarsaparilla.

SIR,—Having been afflicted for the last 12 months with an affection on the Lungs, which prevented me attending to my work as well as I could wish, during which time I was under three doctors' hands, and must say, I derived no benefit whatever, and began to despair of ever getting better. I was induced to try S. P. Townsend's Sarsaparilla, that you are agent for, by seeing it advertised, and after using two bottles found immediate relief, and am now able to attend my work as usual; I sincerely believe it has been the means of restoring me. I have also been afflicted with the Piles for the last seven years, and when I began using your valuable Sarsaparilla, to my astonishment I was cured.

JOHN BRENNAN, Cooper.
No. 81 Albemarle Street, Halifax, N. S.
Sworn to at Halifax, before me, this thirteenth day of May, 1850.

A. KRITH, J. P.

And yet another.

MR SAMUEL STORY, 3d., Agent S. P. Townsend's Sarsaparilla:

SIR,—I am happy to forward you a statement voluntarily furnished, and certified upon oath, of a cure recently effected at this place, by S. P. Townsend's Sarsaparilla, which you are at liberty to make use of for the great benefit of the public.

Yours truly,
M. W. SKINNER, Druggist.
Charlottetown, P. E. I., April 27, 1850.

This is to certify that my wife was for the space of twenty five years suffering under a complaint got through a severe cold, which brought on a general debility of the system, and from the use of one bottle of Dr. S. P. Townsend's Compound Extract of Sarsaparilla, was entirely restored to good health, which was purchased from Mr W. Skinner, General Agent at Charlottetown for the above medicine.

FINLAY MCKINNON.
Sworn before me, May 18.
GEORGE DALRYMPLE, J. P.

CARD.

The Frewards of the Town of Chatham, beg to return their warm acknowledgements to the Engine Companies of Newcastle and Douglastown for their prompt attendance and their efficient service in subduing the destructive fire which took place on the night of Tuesday, the 4th inst.
Chatham, 7th June, 1850.

To the Freeholders of the County of Gloucester.

GENTLEMEN,—The time has arrived when you have an opportunity of exercising the constitutional privilege of the Elective Franchise, which you enjoy, of returning Members to represent you in the next General Assembly.

Having had the honor of being one of your Representatives for the last four years, during which time the course I pursued in the Assembly, will, I trust guarantee me a continuance of your support, I can honestly say that I have not on any occasion neglected (in the exercise of my judgment) to forward and promote the general interest of the country, by giving my support to every measure that in my opinion would likely have a tendency to advance its Trade, Commerce, Fisheries, and Agricultural Interest; also its Internal Improvement in Roads and Bridges.

My opinion on several of the leading subjects which now agitate the public mind, has not been recently formed, particularly the importance of the Registration of Voters; and Vote by Ballot—an Elective Legislative Council—the entire management of our local affairs—the immediate necessity of Retrenchment and Economy in the public expenditure—and also the Reduction of Public Salaries; with due regard to ensure the public service being independently and efficiently performed. I shall also give my support to any constitutional measure for obtaining Reciprocity of Trade, in its various branches, with the United States. Our geographical position points to that country as our natural market, the accomplishment of which, it cannot be denied, would be a great step towards reviving our prostrate Trade from its present languishing state.

Entertaining these views, I shall again appear at the hustings for your Suffrages, and if honored with your confidence, as one of the Representatives for this County, you may rest assured that I shall devote my best attention to promote its interests, its prosperity, and that of the Province generally.

I remain, gentlemen, your most obedient servant,
JOSEPH READ.

To the Freeholders of the County of Gloucester.

GENTLEMEN,—I deem it proper to announce to you that I intend to offer myself as a Candidate for your suffrages at the approaching General Election, when you will be called upon to choose two fit and proper persons to represent you in the Legislative Assembly of this Province.

It is said that both the old Members will be again in the field, and it will be for you to decide whether or not you will go on in the old way, and quietly submit for four years longer to the barefaced system of corruption and speculation which has so long disgraced the management of your local affairs.

I shall visit the different sections of the County before the Election takes place; and if required, will explain to you my views on the several questions which engage the attention of the public mind at this important crisis in our Colonial History.

I can only pledge myself that if I am honored with your confidence, I shall endeavour to serve you uprightly and independently; believing that I shall best promote my own interests by faithfully serving yours.

I remain, Gentlemen, your obedient servant,
T. DES BRISAY.
Bathurst, June 4, 1850.

Aux Francs Tenanciers du Comte de Gloucester.

MESSIEURS,—Je le juge à-propos à vous annoncer que j'ai dessein de vous offrir un aspirant pour vos voix à l'Élection Générale prochaine quand vous serez convoqués à choisir deux hommes capable et propres à vous représenter dans l'Assemblée Législative de cette Province.

On dit que le vieux représentants seront tous les deux sur le tapis, et dans ce cas il sera votre part à vous décider si vous serez contents de suivre la vieille voie, et de vous soumettre pour quatre ans deplus au système de corruption et de spéculât effronié qui a si long-temps souillé la conduite de vos affaires locales.

J'ai dessein de visiter les diverses parties du Comté avant que l'Élection pren place; et j'aurais donc une occasion d'expliquer mes avis sur les questions importants dont le public s'intéresse dans la présente situation critique de notre Existence Coloniale.

Je ne peux que vous assurer que si j'aurais l'honneur de votre confiance, je serai tout mon possible à vous servir franchement et honnêtement dans le créance que le plus je m'appliquerai à l'avancement de vos intérêts le plus j'avancerai les miens.

Je suis, Messieurs, votre très humble serviteur,
T. DES BRISAY.
Bathurst, 4th Juin, 1850.

SCHOOLMASTER WANTED.

A Schoolmaster is wanted for School No. Seven, Douglastown. Applicants will be required to produce the necessary qualifications. Apply to

JOHN IRVINE,
DANIEL BALDWIN,
June 7, 1850.
