

seamen, perished. Another Indianman, named the Guna, was driven ashore on the same coast, about the same time, and became a complete wreck. The crew of this vessel were more fortunate; they were all saved. The loss of both vessels is said to exceed £50,000. The sad calamity to the L'Agile happened on the 10th of June. She was suddenly overtaken in a heavy squall, and almost instantly capsized and went down. Her crew and officers amounted to sixty men. With the exception of two, every soul met with a watery grave.

**THIS DAY'S MAIL.**

**UNITED STATES.—Riot by Journeyman Tailors.**—New York, Aug. 6.—A Tailor's Riot occurred in 20th street, near 5th avenue, last evening, which was of so serious a nature as to call out the Police, who were assailed, by about 200 Germans, with stones, clubs and pistols, and a desperate fight ensued. The disturbance was quelled and five of the rioters arrested.

About two hours afterwards, some 300 more Germans appeared, when the fight was renewed, and Justice Mountfort received a serious blow in the breast.

Knives, stones and clubs were freely used, and three Policemen were badly hurt, one of them mortally.

**The Cholera.**—This disease is approaching the Capital with considerable rapidity and scattering the population wherever it appears. At Harper's Ferry, and Uniontown, Pa., it is committing great ravages.

**The Texas Question.**—On Monday last, President Fillmore sent a message to Congress relative to Texas, in which he earnestly advises the adjustment of the boundary dispute, in order that a collision with Texas may be avoided, and signifies, that unless Congress removes the difficulty, it will be the duty of the Executive to maintain possession of the territory by the exercise of all the power with which it is invested.

The remainder of the Contoy (Cuban) prisoners were still in prison at Havana on the 3rd inst. Seven of them were liberated on the 6th, and the rest were to be sentenced to eight years in the chain gang.

**Terrible Catastrophe in New York.**—Another of those dreadful disasters, caused by the falling of a Building, occurred in this city on Monday afternoon. The wall of a large five-story brick building, in Spruce street, occupied by Messrs. Hoyt, Carriers, fell suddenly, burying under the ruins some fifteen or more workmen engaged on the premises. Several had been taken out, terribly bruised, and others, it was feared, would perish under the incumbent mass. The disaster is said to have been caused by the undermining of the wall by workmen engaged in erecting a new building adjacent.

**Baltimore, July 31.**—A severe storm occurred yesterday. Great damage was done both in the city and country. Several houses were blown down in Bond street.

**CALIFORNIA.**—A number of frightful murders are reported from the southern mines. Two Americans were murdered in their tent at Jamestown by some person unknown—one a Mr Chase of New Bedford, and Mr Hathaway, of Dighton, Mass., was robbed of about \$1000. A Frenchman was shot by an unknown man, near Oregon tent. Several of a similar nature are reported. People go armed to the teeth. The Gold Lake excitement has almost entirely subsided.

**OREGON.**—The news from Oregon of the discovery of gold in that country, is confirmed. The mines are some 200 miles south of Oregon City; there was great excitement in the country; the mines were said to be very rich, differing from the yieldings in California, and containing large amounts of platinum. The people were flocking to the mines.

**POLAND.**—There has been a great fire in Cracow. Three hundred houses have been destroyed. A band of incendiaries have been convicted of a conspiracy to destroy the city.

**St. John.**—The Courier says—We believe it is intended to have a Public Meeting in this city, in the early part of next week, to receive the report of the Delegates to the Portland Convention.

**SECOND EDITION.**

TUESDAY MORNING, AUGUST 16, 1850.

**WEST INDIES.—The late Hurricane.**—Capt. Loring, of the bark J. W. Bladget, which arrived at Boston on Sunday, from St. Martins, having left on the 19th ult., reports as follows—

For two or three days previous to the commencement of the storm, the weather was squally with showers of rain, the wind blowing from the N. E. On the morning of the 11th ult., fresh gales from the N. E. prevailed, and the sky was dark with masses of heavy clouds. At 2 p. m. the hurricane commenced, blowing the salt from the pits against the houses, which caused the inhabitants to bar their doors and windows, and to take refuge in such places as promised the greatest security from the fury of the elements.

The hurricane continued raging until midnight, when it ceased for about an hour, and then recommenced with its previous severity, and so continued until the next morning, when it moderated. During its continuance several lives were lost in the harbor, and the shipping suffered severely. Several buildings were destroyed. The inhabitants have sus-

tained considerable loss, and it is supposed that no salt can be made for four or five years. The depth of water in the salt ponds, by reason of the heavy rains was nine feet; the former depth was only fourteen inches. Salt had risen in consequence from 29 to 30 cts per barrel, and the latter price had been refused.

The vessels in port suffered severely. The J. W. Bladget was near the island on the 11th and 12th, but felt none of the hurricane. Accounts from Antigua and St. Kitts, state that those places had experienced the hurricane equally severe. At Anguilla also, the salt is reported to be nearly all destroyed by inundation. The government of St. Barts was obliged to contribute to the assistance of the distressed. The loss at that place is estimated at \$40,000.

**NEW BRUNSWICK.—Highway Robbery.**—James Flood and James Hayes were committed to jail on Tuesday last, by Justices Allan and Simonds, on a charge of highway robbery the night previous, on Mr Hugh Larkay, of Grand Lake, near St. Luke's Church in Portland. It appears that Mr L., while on his way to Indian Town, about 10 o'clock, was accosted by Flood who demanded his money, and on his hesitating, seized him by the collar, and presented a pistol, threatening to blow out his brains. Hayes then coming up, Mr L. gave up what loose money he had in his pocket, when the robbers, who are lads, decamped. They were soon after arrested by the vigilance of the Portland Police, and will be tried at the present sitting of the court of Oyer and Terminer.—St. John Courier, Aug 10.

**UNITED STATES.—A fatal accident** occurred on the Erie Railroad a few days since. A locomotive, with twelve freight cars attached had partially crossed a bridge, when it gave way, and the central bars of the train fell in, drawing the cars at either end after them. A number of cars, loaded with horned cattle, &c., were smashed to atoms. Several lives were lost. The loss is estimated at \$200,000.

**The ill-fated Elizabeth.**—Through the exertions of Collector Maxwell, of New York, many most important discoveries of stolen goods from the Elizabeth, at Fire Island, have been made.

It was supposed that the bodies of the Ossolis had been washed ashore, and secretly buried by the land-pirates. Both the Countess Ossoli and her husband had fastened their money and valuables around their bodies. About 40 persons, many of them passing as respectable, had been arrested, and sufficient proof had been obtained to send many of them to the Penitentiary.

**WESTMORLAND.**—A friend writing from this quarter says—"The Hay crop is decidedly light this season, notwithstanding the abundant rains with which we were favored in the month of June. The meadows and marshes are probably somewhat affected by the consequences of the excessive drought of last year; but I have very little doubt that the very late and very early pasturing which prevailed in the Fall and Spring has a great deal to do with it. It seems very hard for our farmers to learn to keep down their stock so that one good crop a year from their land will support them; they are too apt to keep so many catties that they have to pinch them in the latter part of Winter, turn them out over the whole extent of their hay land in early Spring and keep them out very late in the Fall. This, at least, is a fundamental fault with many. It is hoped that time will correct it. Potatoes are looking remarkably well; oats and wheat are also looking well. "One of our neighbors has just returned from Newfoundland, and reports having found a good market for his beef cattle, which netted him £25 a head at St. John's."

**MARRIAGES.**

At the Church of St. John the Evangelist, Glenelg, on the 1st instant, by the Rev. Jas. Hudson, Mr JOHN McMASTERS, to Miss CHARLOTTE ULLOCK; and at the same Church, on the 8th instant, by the same, Mr JOHN B. WILLIAMS, to Miss MARY ELIZA ULLOCK, both daughters of Mr Thomas Ullock, all of the Parish of Glenelg.

**Mr Van Buskirk, Dentist,**

FROM ST. JOHN,

Will remain in Chatham for a few days. Ladies and Gentlemen requiring any operation connected with his profession, will oblige him by an early call.  
Rooms at Mr KELLY'S, Miramichi House, Chatham, August 6, 1850.

**MORE WOOL.**

The Subscriber respectfully informs the public, that he has erected a CARDING MACHINE, which has been in operation for two years, at his residence at Gaspereaux Creek, on the South side of the Richibucto River, on the road to the Lower Village, about two and a half miles from Messrs. Jardine's ship yard, where he will Card all Wool, well picked and greased, for TWO PENCE per pound, for Cash only. He has also engaged Mr S. B. Hetherington, at Richibucto, as his Agent, from whence he will take all Wool left, and return it Carded, once every week.  
H. PETERS, Jun.  
Richibucto, July 1, 1850.

**Carding Machine.**

The Subscriber, finding it impossible to get all the necessary Machinery for his intended establishment at French Fort Cove, in time for the present year's operations, begs leave to inform the public, that the Carding Business will be carried on by him as usual, at Upper Nelson, for the current season. He has got on a new set of Cards, and the Machine put in excellent order. He would beg further to intimate, that before sending Wool to the Machine, it should be cleaned and well picked, and if designed for a mixture, the different colors are required to be well pulled together by hand, so as to secure a good mixture. The quality and state of the Wool affect the work very materially. When the Wool is clean, well picked, and left at the Machine, or with any of the undermentioned Agents, it will be Oiled and Carded for Four Pence per pound. If properly greased with good, clean, sweet grease or oil, to the satisfaction of the subscriber, it will be Carded for Three Pence per pound. The following gentlemen will act as agents, to take in Wool, until the 15th September next, viz: Johnson & Mackie, John Dixon, at the Ferry, and M. M. Sargeant, Newcastle. The subscriber will have the Wool conveyed to and fro once every eight or ten days.  
WILLIAM WILSON.  
Upper Nelson, June 27, 1850.

**BLANKS**

Of various kinds for sale at the Gleaner Office.

**DR. S. P. TOWNSEND'S**  
**COMPOUND**  
**Extract of Sarsaparilla.**  
**THE WONDER AND BLESSING OF**  
**THE AGE!**  
*The most Extraordinary Medicine in the World!*

*This Extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the patient.*

WE have manufactured 1,500,000 Bottles of this Sarsaparilla during the past year, and are now putting up 5,000 bottles per day using more of the Sarsaparilla Root in one month than all the other manufacturers of Sarsaparilla in one year.

This Extract has cured more of the following diseases than all the other advertised medicines together have done.

- Scrofula, or King's Evil.
- Obstinate Cutaneous Eruptions.
- Pimples or Pustules on the Face.
- Blisters, Biles, Chronic Itch of the Eyes.
- Ring Worm or Tetter.
- Scald Head.
- Enlargement and Pain of the Bones and Joints.
- Stubborn Ulcers.
- Syphilitic Disorders, Lumbago.
- Salt Rheum.

And all diseases arising from an injudicious use of Mercury, Ascites, or Dropsy, Exposure, or Imprudence in Life. It invariably cures Rheumatism.

- Indigestion or Dyspepsia.
- Neuralgia, General and Nervous Debility.
- Palpitation of the Heart.
- Liver Complaint and Inflammation of the Kidneys.

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigor.

THE NUMBER OF DISEASES mentioned above, as cured by this preparation of Sarsaparilla, MAY SEEM LARGE; but we are, nevertheless, PREPARED TO PROVE, by an EXTENSIVE ARRAY OF CERTIFICATES, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any JUDICIAL TRIBUNAL as complete demonstration. It may be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin or causes; for they all spring directly or indirectly from the same fountain. If the blood were in a pure, healthy and active state, it would drive all these complaints from the system, and chronic diseases would be impossible.

**Hope for the Afflicted!**

Mr SAMUEL STORY, 3d., Agent, S. P. Townsend's Sarsaparilla.

SIR,—Having been afflicted for the last 12 months with an affection on the Lungs, which prevented me attending to my work as well as I could wish, during which time I was under three doctors' hands, and must say, I derived no benefit whatever, and began to despair of ever getting better. I was induced to try S. P. Townsend's Sarsaparilla, that you are agent for, by seeing it advertised, and after using two bottles found immediate relief, and am now able to attend my work as usual; I sincerely believe it has been the means of restoring me. I have also been afflicted with the Piles for the last seven years, and when I began using your valuable Sarsaparilla, to my astonishment I was cured.

JOHN BRENNAN, Cooper.  
No. 81 Alchemarle Street, Halifax, N. S.  
Sworn to at Halifax, before me, this 13th tenth day of May, 1850.

A. KEITH, J. P.

**And yet another.**

Mr SAMUEL STORY, 3d., Agent S. P. Townsend's Sarsaparilla:

SIR,—I am happy to forward you a statement voluntarily furnished, and certified upon oath, of a cure recently effected at this place, by S. P. Townsend's Sarsaparilla, which you are at liberty to make use of for the great benefit of the public.

Yours truly,  
M. W. SKINNER, Druggist.  
Charlottetown, P. E. I., April 27, 1850.

"This is to certify that my wife was for the space of twenty five years suffering under a complaint got through a severe cold, which brought on a general debility of the system, and from the use of one bottle of Dr. S. P. Townsend's Compound Extract of Sarsaparilla, was entirely restored to good health, which was purchased from Mr W. Skinner, General Agent at Charlottetown for the above medicine.

FINLAY MCKINNON.  
Sworn before me, May 18.  
GEORGE DALRYPPLE, J. P.

**FOR SALE.**

The Subscribers will dispose of
