

SECOND EDITION.

TUESDAY MORNING, APRIL 22.

YESTERDAY'S MAIL.

The mail due yesterday at noon, did not reach here until eleven o'clock this morning. We have hurriedly glanced over our papers, and take from them a few extracts which we publish below.

NOVA SCOTIA.—Nothing further has transpired since the arrival of the Hon. Provincial Delegate respecting the Railroad. The next movement, we presume, will be a convention of Delegates, from the three Provinces, at Toronto, by invitation of the Governor General. Some revelations indicating the policy of the Local Government, on this interesting and all-absorbing subject, may be looked for in a few days.—*Halifax Chronicle.*

The Halifax British American says—"We have no doubt that Mr Howe will have to fight his way through this business with the other colonies. We have reason to believe that frequent councils have been held at Government House on the subject, during the last two days. The invitation from Canada will probably be here very shortly, as the despatches must have reached there a fortnight ago."

Important Movement.—We have much pleasure in learning that Mr Gisborne, the active and intelligent superintendent of the Electric Telegraph, has completely succeeded in the preliminary arrangements for establishing a Line of Telegraph from Newfoundland to Halifax and the United States.—*Halifax American.*

NEW BRUNSWICK.—*The Intercolonial Bill.*—The trade between this Province and the Neighboring Colonies has been, for some years past, placed on the footing of a free trade, by the passage of an annual Bill for that purpose. At the present Session, however, instead of re-enacting the former Bill, the Protectionist party in the Assembly introduced a provision which rendered Canada flour, coming through the United States, subject to the same duty as American flour. In consequence, the Bill was rejected by the Legislative Council, and a new Bill was then introduced in the Assembly, precisely similar to that of last year. The passage of this Bill has only been delayed by the great political debate of the past week; it will, no doubt, be passed in a few days, but in order to prevent the inconvenience now so seriously felt from duties being levied on Nova Scotia cattle and produce, the Government has taken the responsibility of authorising the Treasurer to admit those articles duty free until the act receives the Lieutenant Governor's assent. The whole difficulty has arisen from an attempt to impose foreign duty on Canada flour coming through the United States.

The Steamer Commodore, Capt. Donehay, arrived this morning from Windsor, being the first trip this season. She brought us Halifax papers of Thursday morning.—*St. John Courier.*

The divisions on Mr Ritchie's Resolutions were taken last evening about seven o'clock. The second, fourth and fifth Resolutions affected the Government, and amendments were moved to them, which were sustained by a majority in favor of the Government, the division being 21 to 19. For the amendments Hon. Messrs. Street, Partelow and Rankin, and Messrs. Rice, Beardsley, Taylor, Thomson, Robinson, Porter, Hayward, Gilbert, Earle, Stiles, Crane, Botsford, McPhelim, Williston, Gordon, Read, Barberie, Montgomery—21. Against the amendments—the Speaker, Messrs. Ritchie, Gray, Wilmot, Tilley, Needham, McLeod, Ryan, Purdy, Fitzgerald, Hatheway, Pickard, McPherson, English, Steves, Hanington, Chapman, Cutler and Johnson—19.

The first Resolution was carried, 30 to 10. Nays—Hon. Messrs. Street, Partelow and Rankin, and Messrs. Thomson, Montgomery, Robinson, Porter, Stiles, McPhelim and Williston. The third Resolution was carried 32 to 8. The nays were—Hon. Messrs. Street, Partelow and Rankin, and Messrs. Thomson, Robinson, Porter, Taylor and Montgomery.—*New Brunswicker.*

UNITED STATES.—*Severe Gale.—Great Destruction of Property, with Loss of Life.*—A north east gale commenced at Boston on Monday night, and raged with fearful violence until Wednesday. The wharves were overflowed by the tide, cellars filled, and property to a large amount destroyed. At the North End the waves made a complete breach over Commercial Street. All the cellars in Ann-street were flooded—Simpson's hat store at the corner having at least three feet in it.—Long Wharf was completely overflowed to the depth of several feet. The goods in the public stores are badly damaged. The damage in the cellars on Long Wharf is very great, also upon Central and India Wharves. The water was over a foot deep in Sea street, and in one cellar a girl was taken out where the water was up to her arm pits.

The tide made a complete breach over Charlestown and Chelsea bridges, so that passengers were unable to pass over them on Tuesday night.

At East Boston many of the cellars were flooded. The new Episcopal Church at the corner of Decatur and Paris streets, just covered, was by the force of the gale torn from its foundation.

In Charlestown the wharves were all covered with water, and much property was destroyed. The steeple of the new Baptist Meeting House on Bunker Hill, some eighty feet in length, fell across the street burying a milk

cart, which was passing at the time, in the ruins, killing the driver, Mr Theodore Lock, and the horse.

A schooner of about 60 tons, sunk in Boston harbor, off Rowe's wharf; the crew took to the boat and landed in safety.

CALIFORNIA.—A gang of thieves, detected in stealing horses at Foster's Bar, were fired at by the miners, and one of them killed. The others were taken prisoners, and immediately hung!

A beautiful California Lion was killed by Capt. Martin, near Sancelito. It is of whitish color, over two feet in height, and measuring between seven and eight feet from tip to tip.

A line of Steamships is to be formed between San Francisco and the Sandwich Islands, stopping at the Farallones.

The Sons of Temperance at San Francisco turned out in respectable numbers on the 22nd, to celebrate Washington's birth day, and marched in procession to the Baptist Church.

THE SEASON.—For the last fortnight the weather has been as disagreeable and unpleasant as could be imagined. During the whole of that time, the sun has scarce peeped out his head—the wind has blown constantly from the eastward, frequently with great violence—and snow and rain have fallen at frequent intervals. The ice in the river still remains. It is in a very decayed state, and all communication with the opposite shore cut off. A smart breeze from the southward or westward for a few hours, we think, would clear the river. There is a change for the better this morning, and we hope it may continue.

3 o'clock, P. M.—The ice made a start about an hour ago, but it has since stopped. We may expect to have a clear river in a day or two.

Southern Europe." According to the latest advices from Zara, the insurgents of the Kraina have combined with those of the Herzegovina. They have attacked the Seraskier, who, being reinforced by the Turkish troops which Arad Pasha had brought up from Travnie, succeeded in defeating them.

The mail from Constantinople has brought important news from Bagdad. It is well known that the great Arab tribe of the Anzezh migrate yearly, following the course of the Euphrates, from the neighborhood of Aleppo to that of Bagdad, where they arrive about Christmas, and sell camels and horses, and buy dates. It has long been the custom of the pashas of Bagdad to pay black mail to the powerful sheikhs of this tribe and the Shammar, when their vast encampments move down into the neighborhood of the old capital of the caliphs, in order to keep the roads open, and protect pilgrims and travelers from the depredations of the Bedouins. It seems, however, that Abdi Pasha, who has recently succeeded to the pashalik, refused the usual purses of tomanes demanded of him by the Anzezh sheikhs. Thereupon a cloud of mounted Anzezhs, with their spears, were seen in the horizon on the right bank of the Tigris. The fellahs fled, whooping, with their flocks towards the city walls, while the women raised the shrill alarm of their thrilling "Lu-lu-lu." Abdi Pasha marched out with his troops to meet the enemy; but, although they had cannon with them, they could not stand the charge of the Anzezh, and they were beaten back into Bagdad, after suffering considerable loss, and leaving one gun on the field. The Anzezh were encamped in the immediate neighborhood of the city, which they besieged, and continued their depredations to the right and left over the whole country, plundering the villages and driving off cattle. Meanwhile three of the sheikhs had been to the Serai to parley with the Pasha. One of these having suddenly died, it is suspected that he must have been poisoned with the coffee or sherbet, which is usually offered as a compliment in the East on all visits. The Arabs had been irritated to a great pitch of fury by this presumed treachery.

Emir Bechir, the old Prince of Mount Lebanon, has just died at Constantinople, aged 94. The Porte has declared the Island of Samos in a state of siege, because the Samians refused absolutely to accept as their governor, M. Conemenos, whom they consider as devoted to the former Prince of Samos (the protégé of Sir Stratford Canning), who is universally detested. The insurgent Samians have sent a second deputation to inquire what had become of the first they sent to Constantinople, but on hearing that they were safe in the state prisons, they thought they could not do better than hurry back to their Island, where an immense force of troops has been sent to quell the revolt.

EGYPT.—The Cologne Gazette states that the mental alienation of Abbas Pacha, Viceroy of Egypt, increases; that the country is in a most wretched state; that it is impossible to get in the taxes; and that favorites are squandering what remains of the treasures accumulated by Mehemet Ali.

MISCELLANEOUS.—The night before the Lycurgus steamer left Constantinople, the palace of the Seraskier, Mehemet Ali, was completely destroyed by fire.

The French journals record, that the snow which encumbers the mountains in the Department of the Ardeche, is deeper than for some preceding years. In the cantons of St. Etienne de Lugdars, of Coucouron, it is upwards of six feet deep in some places, and has been so for more than two months. Locomotion in all parts is a matter of difficulty.
