

SECOND EDITION.

TUESDAY MORNING, OCTOBER 21.

**THE HALIFAX GUARDIAN.**—We regret to learn that this excellent paper is to be discontinued, for want of sufficient support. The Editor, in his No. of Friday last, states that after the 31st of the present month, the paper will be discontinued, but, should the publishers be furnished with 400 new subscribers by the beginning of 1852, it will then be resumed. We are sorry that the proprietors should have been compelled to take such a step; the Guardian has always maintained a high character, and its mechanical execution is very creditable. The Editor says:

"That we might the more speedily bring this about, we employed a competent person to act for us as travelling agent—to gather our outstanding debts—and to receive the names of those who would be willing to subscribe to our journal. He left Halifax early in August, and proceeded thro' the Eastern part of the Province, and to New Brunswick, on his mission. He had accounts to a considerable amount with him, and we confidently expected such a return as would soon place us in a position to put the paper on its former footing. We have been disappointed. Out of subscriptions which amounted to some 3 or £400, he received about 50!"

This will enable our readers to form some idea of the manner in which newspapers are supported in these Provinces. How, we ask, can a man be expected to make his paper interesting or useful, when those for whose amusement and instruction he toils night and day, will not pay the amount of their subscriptions punctually? How many there are, who take a paper year after year, without giving themselves the least concern about paying for it? We know many such, and yet these very men (?) are often the loudest in their pratings about the "blessings of a free and independent Press." But they are not honest men. We hope our respected and useful cotemporary will soon be enabled to resume his wonted size.

By the mail, on Friday, we received the first number of a new paper, just started in city of Saint John; named the *Morning Times*. It is published by Mr Ross Woodrow, and is to be issued on the mornings of Monday, Wednesday and Friday. It makes a very respectable appearance.

By an advertisement in the St. John Courier, we perceive that the British Government have made arrangements with Messrs. Conard, Burns, and MacIver, to continue throughout the Winter the weekly service, of the Royal Mail Steamers.

James Buchanan, Esq., formerly British Consul at New York, died at Ellenwood, near Montreal, a few days since, in the 81st year of his age.

Cleared at Halifax, on Wednesday last, Mr Messenger, Siteman, Miramichi.

ST. JOHN ELECTION.

*State of the Poll.*—Freeman Office, 1 o'clock.—From the opening of the Polls to eleven o'clock, Wilmot led at nearly all the polling places in the city; but since eleven his majority had been growing less. In Portland McLean was leading by a small majority. There is, as yet, no news from the other districts, St. Martin's excepted, where Mr. McLean's majority is reported to be very large. In the City—including Carleton and Parish of Portland—little more than half the votes are polled. The numbers are as follows:

Wilmot,	375
McLean,	197

**NEW BRUNSWICK.**—*The Gale at P. E. Island.*—By the Creole, on Tuesday evening, no less than fifteen gentlemen from the various fishing towns in Massachusetts, arrived here on their way to Prince Edward's Island. They left yesterday morning by express for Shediac, where a vessel was engaged by Telegraph to convey them across to the Island last night.

These gentlemen were understood to be owners of the fishing vessels lately wrecked on the Island, and others looking after friends and relatives whose fate is yet doubtful. One of the party had lost four sons, the eldest only twenty one years of age, in one vessel, and he was going to look after their bodies—a melancholy and heart-rending task! Another of the party was agent for a Mutual Insurance Company, in which most of these fishing vessels are insured—and it is particularly unfortunate in this case, that the survivors from these fatal wrecks, besides losing heavily themselves, will be called upon to contribute largely to the losses of others—an evil attending the mutual system of insurance which will bear with great severity in the present instance.

The grief which will be thrown over many families in the United States by this calamity will be almost beyond description, and many happy firesides will become desolate when the news of the loss of their protectors is received. The Boston Post relates the following:

"The wife of Captain Morey, of the schooner Martha, worked up to insanity by a rumour that her husband's vessel was lost with all on board, committed suicide at Newburyport, on Thursday night, leaving a large family of young children."—*St. John New Brunswick.*

*Melancholy Accident.*—We learn from the

Christian Visitor that the second son of Mr William Bendleton, of Sheffield, was accidentally shot on Tuesday week, while in the woods. He had taken out his gun with him, in consequence of a bear having been seen in the neighborhood, and having laid it down in order to remove a stump in the way of his team, he attempted to draw it towards him by the muzzle, when it went off, lodging the contents in his breast, causing instant death.—*New Brunswick.*

**LATEST FROM CANADA.**—*The New Administration.*—We last evening received information from Toronto, that a new Executive has been formed in Canada as follows:—Inspector General, Mr Hincks; President of the Council, Dr. Rolph; Postmaster-General, Malcolm Cameron; Commissioner of Crown Lands, William Morris; Attorney General for Canada West, W. B. Richards; same for Canada East, Mr Drummond; Provincial Secretary, Mr Morin. Three other appointments remain to be made in order to complete the Government, which it is thought will be the best Canada ever had.

By the above list it will be clearly seen, that men who have heretofore differed widely in their politics, are combined to form an administration which will possess the strength and stability requisite to carry out the public business of Canada at this unusual crisis, and give full effect to measures calculated to promote Colonial interests generally.—*Saint John New Brunswick, Oct. 18.*

**UNITED STATES.**—*Murder at Eastport.*—A man named Phelps, a soldier stationed at the fort at Eastport, stabbed a man named Sullivan to the heart, on Saturday evening last, about 8 o'clock. The murderer was knocked down three or four times with brickbats, &c., by a party of three or four Irishmen, among whom was Sullivan the murdered man, and on getting up Phelps thrust his hand back with the knife, which entered the lower part of the heart of Sullivan, causing his death in about an hour. Phelps was arrested immediately.

*Very Late and Interesting from the Cape of Good Hope.*—The bark Springbox, Captain Hurd, from Cape Town, at Boston, brings dates to September 3rd.

Advices from Grahamstown to August 16th have been received, which state that since the last post the work of destruction is still going on around us. Murders and robberies by the Kaffirs, continue at Somerset, and great distress prevails on account of a severe drought as well as Kaffir depredations.

Cattle, sheep and horses are perishing for the want of food. Enemies, principally Kaffirs, are numerous in the neighborhood.

A dreadful hurricane had swept over the Missionary stations at Ulmastoew, materially damaging the Washington chapel, &c.

Intelligence from Fort Hare announced that the Kaffirs and Hottentots are in such force, near the General's tent, that he can do nothing with them.

The frontier posts are greatly distressed for supplies. At Alice, meat was selling from £5 to £6 10s. per 100 lbs. The inhabitants were daily looking for fresh inroads of the savages.

*The Mexican Revolution.*—New Orleans, Oct. 13.—We have received by the steamship Yacht, papers from Rio Grande, Mexico, to October 8th. Our previous accounts stated that the insurgents were marching on Reynosa, which is now confirmed; as also the capture of that town. The Rio Bravo News reports that Col. Carvajal had received large reinforcements, and that Gen. Arolas was busily engaged in fortifying Matamoras.

Intercepted letters of the Mexican Commander say, that should the insurgent leader be taken he will be served in the same manner as the Spaniards served Lopez.

A party of sixteen armed Americans had landed secretly at Mazatlan, and were taken prisoners by the authorities.

The cholera was committing dreadful ravages in Gaudalajara.

*A Fleet of Steamers.*—No less than seven large ocean steamers sailed from New York for Foreign and Southern ports on Saturday, viz: the Baltic, for Liverpool; the Glasgow, (iron) for Glasgow; the Empire City, for Havana and Chagres; the Southerner, for Charleston; the Florida, for Savannah; the Roanoke and City of Richmond, for Richmond, Va. Three others sailed during the week, making the whole number which sailed from Tuesday to Saturday, ten. All or nearly all of these steamers are over 1500 tons burthen.

The Right Rev. William Frazer, Roman Catholic Bishop of Arichat, died at his residence at Antigonishe on the 4th instant. He was in his 73rd year, and had filled the Episcopal Seat for 24 years.

The California fever has again broken out in Charlottetown, P. E. Island. Twenty three persons left that place en route for the land of gold, last week.

Daniel C. Finemore, who killed a man named Montgomery at Woodstock, some time since, has been found guilty of manslaughter, and sentenced to 14 years in the Penitentiary. King Alcohol was the cause of the murder.

The brig Dolphin has sailed from the United States upon her expedition to endeavor to run a line of soundings across the Atlantic.

A hostile feeling towards the United States prevails in Spain, caused by the late expedition against Cuba. It is said that all the American prisoners will be liberated, on condition that the city of New Orleans will compensate the Spaniards for losses sustained during the late riots in that city.

It is a singular fact that the recent storm on the coast of P. E. Island occurred on the 3rd, 4th, and 5th instant, the anniversary of the disastrous gale on George's Bank, in 1841, in which fifty fishermen from Truro, the flower of the population of that town, were lost.
