

SECOND EDITION.

TUESDAY MORNING, OCTOBER 28.

Charles W. Weldon, A. M., of Richibucto, has been admitted an Attorney of the Supreme Court of this Province.

The Halifax papers state that Mr John Brown, for many years a resident of that city, left at his decease a few weeks since, the handsome sum of £2,000, for the erection of a lunatic asylum in that city.

A public meeting has been held in Fredericton for the purpose of taking into consideration the best means of getting up an "Exhibition of Agricultural Productions, Natural Resources, Arts and Industry." We will publish the proceedings next week.

The rate of passage from Liverpool to New York and Boston, on both the Cunard and Collins steamships, will be reduced on the 30th of November to \$150.

Another Cuban Expedition, unaccountable as it may appear, is really on foot in the State of Louisiana, with Gen. Felix Houston at the head of it. Some of the New York papers strongly reprehend the movement.

POLITICAL.—The St. John Courier contains the address of S. L. Tilley, Esq., to the Freeholders of that city, on resigning his seat as one of their Representatives.

UNITED STATES.—Horrible Murder.—Our community was last evening thrown into a great excitement by the discovery of one of the most atrocious and cold blooded murders in the annals of this city. The scene of the tragedy was at the house in the rear of No. 41 Charter street. The name of the murdered woman was Elizabeth A. V. Van Wagner, wife of L. L. Wagner. She was found yesterday afternoon between four and five o'clock, lying prostrate on the floor in her bedroom, with her throat cut in the most horrible manner. When discovered she was entirely dead. A razor was found near the body covered with the gore of the murdered woman. The murderer's name is Thomas Davis, own brother to the deceased. He occupied a room immediately adjoining his sister's.

After committing the deed, Davis left the house, and such was his unusual manner that a neighbor, Mr. Bacher, had his suspicions that all was not right. As soon as Davis passed down the street, he went into the house. He shortly went up stairs, where he found the prostrate form of Mrs. Wagner, weltering in blood. He immediately sounded the alarm, and the neighbors were soon on the spot.—Davis was subsequently arrested by officer Tarlton, and conveyed to the Marshal's office. He denies any knowledge of the murder.

The deceased had been married between three and four months, and was 24 years old. Davis is a widower and has three children, the oldest not more than 14 years old. One of the children recollects hearing the deceased scream and say, "Oh! let me speak, do!"

Davis is a rigger by trade, and has worked in the Navy Yard the last three months. About six months ago he returned from California. He is a man addicted to the use of intoxicating drinks, and has an ugly disposition.

On the side of the stairway are marks of blood, made with the fingers of the murderer. His shirt sleeves were also found stained with the gore of his victim. From all circumstances there can be no doubt but that he is the murderer. For atrocity and fiendishness it surpasses any thing of the kind we have ever heard of.

SOUTH AMERICA.—Revolution in Chili.—The French brig Marie Louise, from Callao, arrived at Panama on the 2d instant. She reports that when she left, on the 20th September, the steamer Chile had just arrived from Valparaiso, bringing information that a revolution had broke out in Chili, and that many of the troops had declared in favor of General Santa Cruz for President; that Coquimbo and other cities were in possession of the new party, and that everything throughout the Republic was in a disorganized state.

General Santa Cruz was the successful candidate for the Presidency at the late Election, Senor Don Monti being chosen by a large majority. The latter is a civilian, and its being the first time that the army candidate has been, trouble was anticipated when it was known that he was elected. This anticipation, it appears, has been more than realized.

The Revolution in Mexico, if we can believe the daily reports which reach us through the New Orleans newspapers, is making serious progress. Accounts from Brownsville, which is near the present scene of revolutionary movement, represent Colonel Carjaval, the leader, as being in a strong position, with efficient troops enough to enable him to make a successful attack at almost any point; while the Mexican General was busily engaged in putting Metamoros, which it was expected would be assailed, in a state of defence.—Boston Traveller.

CANADA.—It is currently reported that at the late meeting of Anglican Bishops in Quebec, it was decided to remonstrate against the decision of Her Majesty's Council and the two Archbishops in the Gorham case, and that a remonstrance was agreed upon and transmitted to England—thus identifying the Bishops with the Exeter tractarian party. The Bishops of Nova Scotia and Prince Rupert's Land declined to attend the meeting.

The Welland Canal, on Thursday, was full of vessels, from four to six lying between each flat, awaiting their turn of lockage; it

was thought that at least one hundred vessels were on its waters. It is estimated that the tolls of the canal this year will realise upwards of \$260,000. This speaks well for Canada.

LATEST FROM CALIFORNIA.—The Empire City arrived at New York with dates from California and Havana. She brought 150 passengers and \$100,000 in gold dust on consignment, together with \$150,000 in the hands of passengers. The news from California contains few facts in addition to those brought by the Prometheus. From Sacramento City, we learn that the Governor had issued a proclamation strongly reprobating the conduct of the vigilance committee of that place and threatening the punishment of those engaged in the late hanging there. An answer had been made by a requisition from a mass meeting for his Excellency to resign "in view of the extraordinary course he had had seen fit to pursue in the case of Wm. B. Robinson alias W. B. Heppard, in granting him a respite."

From the Isthmus of Panama there is news of the robbery of the gold train of the Pacific Mail Steamship Company, about seven miles from the City. The train consisted of between seventy or eighty mules, as near as I can learn, carrying about two millions of dollars in specie and gold dust. Reports state that two men, natives, probably muleteers, were killed. Seven mules have returned to the city, which went with the train, with their packs. Great excitement exists among our citizens; and a large armed force of Americans, together with some fifty or sixty National Guards, having started out in pursuit of the robbers. The amount supposed to have been taken is reckoned at two hundred and fifty thousand dollars.

By this arrival we have San Francisco papers of the 15th September, nine days later than our previous advices. The intelligence generally is not of the average interest or importance.

Crimine has most sensibly diminished throughout the state, and no execution has taken place since the sailing of the last steamer.

The gold diggings continue to yield rich returns to the labors of the miners. The auriferous quartz veins are being extensively worked, and generally with great success. The amount shipped by the steamer Panama, which leaves to-day, \$1,700,000, exhibits no falling off in the production of gold in our State. In the dry diggings, miners are only waiting for the rainy season, to take out large amounts of gold.

San Francisco has recovered from the two great conflagrations of May and June, and has been rebuilt in far better style than before. Numerous fire proof brick and stone buildings have been erected, and many others have been commenced. Altogether the condition of affairs in our state is highly satisfactory.

The Panama Railroad was doubtless completed to Gatuna by the 10th or 11th instant, as only about 400 feet of the work remained unfinished when the steamer Illinois left Chagres, and that was only a single day's work. The engineer of the company confidently anticipated that the cars would be running on the road on the 12th.

The Illinois brings 374 passengers. The specie on board amounts to \$1,859,358.

JAMAICA.—The correspondent of the New York Herald says:—The House of Assembly is called to meet on the 28th proximo, for public business. It was fully expected that we should have been blessed with a new Governor by that time but I fear that we shall be disappointed. Sir Charles Grey, our present Governor, is very unpopular, and I regret to say that he refused to pay £57 sterling taxes, and the collecting constable will be obliged to levy on one of his carriages, to sell the same towards the amount.
