

immense bomb-shell, containing fifteen passengers, from St. Louis to Boston in fifteen minutes, with the certainty that fourteen or the fifteen would be killed by the explosion, tickets for state rooms by the 'Express Bomb shell line' would at once be at a premium; each passenger being anxious for the chance to prove himself the 'lucky fifteenth.'

The American Railway Times remarks that, Railway accidents have become common, but a proposal has been made to our State Legislature to abolish hanging, and substitute for punishment, a ride upon some of our railroads. Something should be done, either by legislation or by voluntary action of these corporations, to prevent the horrible casualties, so frequently announced through the press.

Daniel Tucker, who has so often been warned to 'get out of the way,' is said to have been run over by a train of cars in Arkansas.

SUNDAY'S MAIL.

The English papers are to the 15th of the month. We have made some selections.

The Colonial papers do not add anything of interest to our previous stock of news.

FROM EUROPE.

No person had been named as Governor of Nova Scotia; but it is believed that none but a military man will be chosen.

The Conservative Ministry had retained its ground—passing the Militia Bill by a clear majority of 117.

An apparent defeat was sustained on a motion of Mr D'Israeli to bring in a bill to fill up four vacant seats. Without passing on the merits of the question, the house refused to entertain anything except the most urgent business, by a majority of 80.

The dissolution of Parliament, has, it is rumored, been appointed to take place, if possible, about the 10th June.

The crops of all kinds were most promising, and order and quietness in the rural districts was greater than has been the case for many years past.

Considerable anxiety has been caused during the last few days by the alarming rumors which have abounded respecting the occurrence of new disasters in South Africa. It is stated on the authority of parties whose sources of information connected with that part of the world are generally accurate, that the Orange territory is in a state of rebellion, that the Boers under Pratorious, claim its sovereignty and also that of Natal—and that by attacking the native tribes, and setting the British authority at defiance, they had succeeded in still further complicating the state of things at the Cape of Good Hope.

France.—All the splendid unsubstantial pageant of the 10th May has passed away, and nothing has come of it. France remains as before, bound in helpless subjection by the terror of countless battalions, which are paraded constantly before her eyes, as a mockery and a sign of the despotism of the prince and the slavery of the people, a fitting punishment perhaps for a nation whose aim and happiness have been mainly to indulge in the false glory of war and conquest.

It is said that the ambassadors of the northern powers were all prepared with notes of protest, if any such event had supervened; and as these proceedings might have endangered the peace of Europe, unless the President had given some satisfactory guarantee that the peace of Europe and the treaties of 1815 had been religiously maintained and observed, the opening of the imperial drama is only deferred until Louis Napoleon can divide and command the lesser, and bid defiance and circumvent the greater, powers of Europe. Excepting one or two fatal accidents the day passed over with brilliant success.

Russia and Turkey.—The Russians are said to have sent 18 engineer officer on a secret mission to European Turkey, to collect information as to the resources an army of 140,000 men would find there. The state of the roads and other matters would also be inquired into. It was believed that another body of engineer officers had left secretly for Greece and Constantinople to collect more information of the same character.

Austria and Turkey.—Letters of the 5th April state that the relations between the Austrian and Turkish cabinets had become exceedingly cold, with even the danger of a complete rupture, from the aggressive attitude assumed by the Austrians on the frontiers of Bosnia. Some hopes are entertained by the Turks that the new Austrian Foreign Minister would follow a less hostile policy.

State of Trade.—Business in Manchester continued very active and the accounts from the manufacturing districts are satisfactory.

Money Market.—Money continues very abundant and discounts easy.

Rumors that Lord Glengall will supersede Earl Dalhousie as Governor General of India.

Australia.—An arrival from Port Philip brings eleven days later, to 29th January, from the Victoria gold fields. The yield of precious metal was unchecked. Labor commanded very high rates—reapers 28s per day. Gold was selling at £2 15s to £3.

The Pesther Zeitung contains the court martials condemning eleven Hungarians to death by hanging, for high treason committed during the events of 1848-49. Forty-one other persons are sentenced to imprisonment of various terms, with confiscation of their goods.

The impulse towards emigration appears to be working among the Swedes as powerfully as upon their southern neighbors.

NOVA SCOTIA.

Electric Telegraph.—The company are now in communication with Windsor, Kentville, Bridgetown, Lunenburg and Liverpool, where offices are opened for business. Annapolis, Antigonish, Canso and Sydney, will in a short time be in communication with the Halifax office. At a meeting of the shareholders at Windsor on Monday, Benjamin De Wolfe, Esq., was elected Director for that place.—*B. N. American.*
