

HEALTH OF NEW YORK.—A late Boston paper thus alludes to the unhealthiness of the above named city:—

"It is useless to disguise the fact, the ship fever is raging in New York, as foul as the Small Pox and the Yellow Fever, and more fatal than the Cholera. Its progress, says the Mirror, is no longer heralded in whispers. The truth can be no longer stifled. It is not confined to the station houses and the hovels of the poor, but has entered the places of the wealthy. The wintry air stays its progress, but let the warm weather set in, and it will become a dreadful scourge."

A number of our subscribers are some years in arrears. We would call their attention to this matter, as we have at an early day some payments to make. Such of our Agents as have funds in their hands will oblige us by an early remittance.

BY TELEGRAPH

TO THE MIRAMICHI NEWS ROOM.

St. John, Wednesday, March 3, 8 o'clock, P. M.

The Railway Resolutions passed in the House to-day, the first by a vote of 31 to 6, and the second by a vote of 26 to 11, only six Members voted for Mr Harding's amendments.

To-day the Bill regulating the office of Sheriff, and the School Bill were committed, and progress reported in both.

The Council have rejected the Bill abolishing Judges' fees by a large majority, on the grounds that all fees should be abolished. The minority wished to amend the bill in that way, but the majority thought that could not be done.

The steamer Franklin, with five days later news from England, arrived at New York yesterday morning.

A measure to provide for the national defence was brought forward in the House of Commons on the 16th. It provides for the embodiment of the Militia, by ballot; one fourth of all men, from 20 to 23 years of age, to serve 14 to 18 Days, the first year, and 14 days the three succeeding years; not to be taken out of their own counties, except in case of invasion.

The experimental squadron had left the Tagus to form part of a powerful Channel fleet.

5000 men are immediately to be added to the army.

France is very unsettled. Another coup d'etat is feared on the 22nd February, when it is said the Empire will be proclaimed.

The most despotic decrees continue to be issued against the liberty of the press, and controlling the coming elections by intimidation, &c.

From India there is later news; commercially, very favorable.

The Burmese had acceded to the demand of the British Government.

At Hong Kong about 500 houses had been destroyed by fire.

Thursday, 7 o'clock, P. M.

In the Assembly to-day the bills to provide for the better extinguishing of fires, to preserve the rights of owners of the soil, on the Mining question, and Mr Gray's bill to amend the law, were committed, and progress reported.

The bill to amend the Municipal act, as far as relates to the County of Carleton, passed.

The School bill was also committed. Williston, McLeod, and Botsford, spoke in favor of the general principle.

The Council rejected the appropriation for returning a part of the hospital dues to the owners of the steamers Admiral and Creole.

The Railway bill is to be taken up on Saturday.

The steamer America arrived at Halifax at 10 o'clock last night.

The most important item of news is the defeat of the Ministry on the local militia bill, and their subsequent resignation.

Many speculations were afloat, but the most probable was that the Earl of Derby (Lord Stanley) would be the next Premier. Nothing else in Parliament worth reporting.

Trade reports are favorable. Bullion in the Bank of England, 18 1-2 millions.

France is by no means tranquil. Rumours are afloat of another ministerial crisis, and an attempt to annex Belgium, in which country are many secret agents of the French government.

The Queen of Spain had quite recovered.

In Ireland, a settled combination exists to resist the payment of rent, and the landlords are greatly alarmed. Mr John Isaac Heard has been elected for Kinsale in the room of Mr Benjamin Hawes, without opposition.

Continental news not important.

Nothing local. Weather fine but cold.

Friday, 7 o'clock, P. M.

The Assembly has been most all day occupied in supply, but little of interest done. The grant to Messrs. Berton, of

£149 for expense in a mining suit, passed by 23 to 7; that to Messrs. Mahon for £30 was rejected. There was a discussion on a bill to define what shall be considered Coasting Vessels, and regulating Harbour Masters' fees on these. The operation of this bill is confined to the North Shore.

Mr Gray's Election bill was read. It makes assessment list registry; refers the trial of contested elections in Counties, to Commissioners appointed permanently by Government—five in all, to be Barristers of not less than—years' standing. The bill does not embrace the ballot. Mr Botsford laid resolutions on the table, relating to Judges' fees. Mr Purdy is seriously ill, and obtained leave of absence.

The Council have thrown out the bill to tax Wild Lands, and passed several appropriations, including the grant to the Pictou steamer. They have passed the bill authorising an assessment to pay off the Penitentiary debentures.

The English mail arrived by express at half-past 5 o'clock this evening.

Weather mild.

Saturday 7 o'clock, P. M.

The Railway bill was before the House to-day. The Speaker, the Attorney General and Mr Gray spoke in favor. Messrs. Barberie and Johnson against, as did Messrs. Harding, Ryan and English.

An important despatch has been received at Fredericton from Earl Grey, by the British mail to-day, favorable to the proposed Railway scheme; approving of the delegation from the three Provinces, to confer personally with the Home Government; and stating that the object of uniting the Provinces with the Mother Country by way of Halifax, is of so much importance, that Her Majesty's Government will be disposed to forward the proposed plan, if wholly through British Territory, even although it departed from the Line originally contemplated.

Nothing new here.

DISGRACEFUL ROW.

A most disgraceful row took place in Chatham, about eleven o'clock on Saturday night last. We have not heard the particulars, but understand that several persons after having partaken very freely of liquor, in one of our taverns, quarrelled, and then turned out into the streets to settle the difference, when a general row ensued. One man was stabbed in the right side, but not dangerously. A home-made dirk, or dagger, was picked up, and left at our office. It is an ugly weapon, and a curiosity well worth seeing. The owner can have the same by calling on us, and proving his property.

We would feel obliged to the person who took the copy of the first number of the "Provincial" Magazine, which we placed in the Reading Room, if he would return the same at as early a period as he can make it convenient.

Marriages.

On the 26th ult., by the Rev. John Turnbull, Mr ROBERT WALLS, of the Parish of Chatham, to Miss CHARLOTTE HANNAH, eldest daughter of Mr William Walls, Parish of Nelson.

Deaths.

At Newcastle, on the 26th ult., JANE, wife of Mr John Mitchell, a native of the Parish of Glass, Aberdeenshire, Scotland, aged 73 years.

At Newcastle, on the 4th of February, after a long and severe illness, which he bore with great patience, Mr GEORGE OGILVIE, leaving a wife and two children to lament their bereavement. His end was peace.

International Journal.

Arrangements are in progress by a number of Mercantile gentlemen, to issue at an early day,

A WEEKLY JOURNAL,

to be devoted to the strenuous advocacy of a reciprocity trade between the United States and the British North American Colonies—increase of Railway and Steamboat communication between the two countries—the presentation of the resources of the Colonies to capitalists in the United States—weekly review and prices current of American goods required in the colonial markets, and of colonial produce, &c., shipped to American ports—and all general Commercial intelligence touching the interests of the rapidly increasing trade between the two countries.

The JOURNAL will be handsomely printed on a large folio sheet, at \$2.00 per annum in advance. A reasonable space will be devoted to advertisements of goods required in the Colonial trade, and other interests connected with the objects of the paper.

The proprietors respectfully solicit from American and Colonial Correspondents, articles containing statistics of the trade between the States and the Colonies—the mines, minerals, timber, fisheries, agriculture, &c., of the Provinces,—the manufactures, public institutions, schools, &c., of the States, and facts on all subjects connected with the reciprocal commerce of the two countries. Communications, POST PAID, to the "International Journal, Boston," (giving the editor, confidentially, the writers' names,) will receive faithful attention.
