Vagaries of a Whirlwind.—A correspondent of the Northern Whig, writing from Portadown, Sept. 10, gives the following account of a curious natural phenomenon:—On Monday, the 6th instant, at about 4 o'clock p. m., the parishes of Seago and Tullyish, the former in Armagh, and the latter in Down, where the scene of a curious natural phenomenon. Beyond, or convenient to, the Mourne mountains, on the day stated, was observed a cloud resembling a pillar in appearance, and which gradually increased in volume and blackness, till the sky in that direction was completely overcast. Widow Twinem had a parcel of flax spread in a meadow, a considerable quantity of which was carried away to the manifest alarm of many. Its actions here seemed to resemble a whirlwind, as the breach made in the field was almost circular, and the flax, which was whirled about rapidly, when it got beyond the influence of the whirl, was scattered about in all directions. On went the tornado, carrying corn, hay, flax, and all the lighter substances which came in its course. In passing through Drumnagoan, a cow, belonging to Mr John Malcolmson, was lifted some distance from the ground, and, after getting two or three whirls in the air, was safely deposited uninjured on terra firma. Mr Thomas Ruddell, Lisniskey, farmer, and some of his workmen, were engaged in field labor when the tornado passed through his meadow, which contained a quantity of hay in cocks. One cock was wholly carried off, scarcely a vestige remaining, and two others were scattered about the field. On went the whirl, gathering additional force as it proceeded, and carrying devastation in its course. In Knockmena, Mr Jockson's son was thatching a corn stack, the one half of which was carried away, but, fortunately, he escaped uninjured. In Ballydougan, three miles from the starting point, the destruction of property was considerable. Two men, cleaning corn, were rather disagreeably surprised to find cloth, corn, and everything else carried away, and whirled to the elements; and it is even reported of one of the men that he was so much alarmed that he ran and caught hold of a bush lest his tu-n might come next! 'It is an ill will that blows nobody good,' says the old proverb; and its truth was beautifully exemplified in the case of Mr T. Brown, Clare, County Down, parish of Tullyish, one of whose fields was literally filled with a shower of corn, hay, flax, wheat, and other miscellaneous articles. The air was perfectly still at the time, and in the commencement of the whirl was almost motionless, but by the time it reached Clare, the rising sound resembled distant thunder, or rather the rattling, of a milway train.—*British Colonist.*

Trying to Head off a Lawyer.—Editors sometimes meet with a good thing; such for instance, as the following:—A delinquent subscriber in Fall River, Mass., has manifested, for some time past, a harrowing indifference in regard to the payment of \$1 50 due on his subscription; which balance had accumulated before the inauguration of the present administration. Our Clerk, being a very sharp boy, determined to collect the 'litt'le balance,' by hook or crook. Sundry bills and pressing 'duns' were dispatched, without any satisfactory result. Inquiries were at last made as to who this delinquent 'really was,' and he turned up a lawyer. 'Ah! I have him, now,' said the clerk; 'I will send him his own bill to collect, and see if that won't fetch him.' The bill was accordingly sent; and, a few days after, the following reply was received:

Fall River, 31, 1851.
To Messrs. Dyer & Willis.—Gentlemen. Yours of the 16th is at hand. Inclosed I found a bill of \$1 50 sent to me, as an attorney, for collection. I have collected the bill; and, on payment of three dollars, (our usual fee in such cases,) I will send the amount of said bill to you, by any means you may direct. Yours, respectfully

J. C. Blaisdell.

This joke we consider too good to be lost; therefore, it is against us, we give it to the world. If any of our city friends should wish to employ an attorney in Fall River, they could not do better than to secure the services of Mr Blaisdell.

For the payment of the \$1 50 balance against us, we would like to turn out a bill against another Blaisdell, of Warren, R. I., who may be a relative of our legal friend—*Musical World.*

SUNDAY'S MAIL.

NOVA SCOTIA.

Railway Movements.—Mr Jackson, the great English Railway Contractor, accompanied by the Mayor of Portland and Mr Ross, Civil Engineer of Canada, arrived in town on Thursday. On Friday, we understand, there was a meeting of the Executive Council, to whom Mr Jackson submitted propositions for building a Trunk Line of Railway through our Province from Halifax to the New Brunswick frontier, in one or other of the following modes:

First.—The New Brunswick Plan.—5 per cent. for right of way, stations &c., to be paid in Stock.

10 per cent. subscribed by Contractors.

35 per cent. Bonds of Company to be taken in payment.

25 per cent stock to be taken by the Government.

25 per cent. in Cash or Bonds to be loaned the Company by the Government, and with the Stock taken by the Government to be a first charge on the road, and bear 6 per cent interest.

The 35 per cent. Bonds of the Company to be a second charge on the road.

Second.—The Canadian Plan.—The Government to give Bonds or Cash to the extent of half the cost of the Work for which they are to receive 6 per cent. interest, to form first charge on the Road. The Contractors to form their own Company, and raise remainder of the Stock in any manner they please.

Third.—To take the Debentures of the Nova Scotia Government bearing 6 per cent. interest, redeemable in 20 to 30 years. The Province to own the work.

We offer no opinion for the present on these propositions, but we may remark that the Executive would do well, before closing any bargain with Mr Jackson or the gentlemen who preceded him, to make a final appeal to the Home Government. The appeal may be unavailing, in the existing state of parties in England, but it should nevertheless be made.

No means should be left untried on the part of the Local Government, to build the Railroad with money borrowed at a low rate of interest. For we have no doubt that with the money in hand we could build our railroads 25 per cent cheaper than the estimated cost of the New Brunswick and Canadian Railways, to say nothing of the immense saving of interest and consequent cheapness of traffic and travel.—*Novascotian.*

P. E. ISLAND.

The Brig Henrietta, arrived here from Liverpool on Wednesday last, having on board 10½ miles of Telegraph Cable, all in one piece, about 2½ inches thick. It is to be laid down between Cape Traverse and Cape Tormentine, crossing the Gulf of St Lawrence. Sufficient wire, we understand, arrived here last week in the Bark Closina, from Liverpool, to reach from Charlottetown to Amherst N. S., less the length of the Cable crossing the Strait. We understand Mr Gisborne is expected here daily, and that the Telegraph Posts between Charlottetown and Cape Traverse will at once be erected.—*Islander.*
