[COMPRISED 13 VOLUMES.]

New Series, Vol. XI.

MONDAY EVENING, AUGUST 16, 1852.

No. 43.

TO THE INHABITANTS OF THE County of Northumbeland, LADIES AND GENTLEMEN,—

You are aware that the GREAT EXHIBITION or PROVINCIAL SHOW and FAIR is to take place in the City of FREDERICTON, on TUESDAY, THE FIFTH DAY OF OCTOBER NEXT, and that His Excellency the Lieutenant Governor has consented to patronise the same.

The objects contemplated by the Great Exhibition are—

1st—To obtain a thorough knowledge of our Provincial Resources, and to create in the inhabitants of this County a greater reliance on their own capabilities, to raise and manufacture for themselves, thereby creating home Productions and home Markets; keeping our money in the country, employing our own people, and inducing others with capital to come and settle among us.

2nd—That a favorable Report, founded on the details of the Exhibition, and having for its object the promotion of the general interests of the Province, and of the several Counties respectively, may find publicity, not only throughout the North American Provinces and the United States, but also throughout every part of England, Ireland and Scotland. By this means it is hoped that the Province of New Brunswick may be fully introduced to the parent and other countries; and that through this instrumentality a tide of Emigration and Capital may be caused to flow towards us, whose tendency will be to prosper and enrich the Country.

The Legislature of the Province at its last Session, granted Five Hundred Pounds in aid of the funds of the Exhibition.

Local Committees and Agents for the different counties throughout the Province have been appointed to attend to the interests of the Exhibition generally, and the interests of their respective Counties in particular.

The following gentlemen comprise the Northumberland Local Committee:—The Attorney General, John Wright, Alexander Goodfellow, George Kerr, Peter Mitchell, Daniel Witherell, Edward Williston, James Caie, John Porter, Henry Cunard, A. Jessamine, and John M. Johnson, Esquires.

The Local Agents for this County are—Chatham, James Caie, Esq.; Newcastle, P. Mitchell, Esq.

The Local Committee thus introduced, would now respectfully call the attention of the inhabitants of this County, male and female, to the coming Exhibition, and humbly but earnestly solicit the aid and co-operation of all classes in the community, to enable them to place specimens of the Resources, Productions and other Capabilities of the County, before the world, in such diversity, and of such quality as will reflect credit on themselves, and raise Northumberland to a much higher position than it has ever yet attained.

At a time when the population of these Provinces is so fluctuating and such a diversity of opinion prevails as to the most desirable places for men to resort in order to secure a livelihood, surely every man who has sincerely at heart the welfare of the County must admit that a strenuous effort should be made to place its resources prominently before the public.

To the Ladies of Northumberland the Committee feel assured they will not appeal in vain. They know that with their aid success is almost certain—that without it their best efforts may prove a failure. They therefore humbly beg leave to solicit their assistance in two ways.

1st—By their preparing by the 21st day of September next a rich display of their finest handiwork, for competition at the coming Exhibition.

2nd—By their exercising that magic influence which they possess, in stimulating the male population of this County to co-operate with the Committee in their efforts to benefit the land they live in.

The Local Committee beg to direct public attention to the following Rules, prepared for the guidance of the Exhibitors, and to state that these rules must be strictly adhered to in every case.

RULES FOR THE GUIDANCE OF INTENDING COMPETITORS.

1. Articles, the produce or manufacture of other Countries, may be exhibited or sold, but cannot take prizes except as specially excepted. Works of art and curiosities of all kinds are solicited, and every care will be given to their safe keeping.

2. Exhibitors must be prepared to prove that the articles are the produce or manufacture of New Brunswick, and must send with the articles a label, stating the exhibitor's

name and address, the designation, description and object of the articles, where produced or manufactured, the lowest price, and the quantity available for the market, and the prize for which they are entered.

Portions of manufactured articles must necessarily in some cases be the produce of other countries—such as the ivory and wires of pianos, the woods of Cabinet-maker's work, and the mountings of Saddlery: a certificate of such facts with an account of the State in which such articles were imported, to be verified if required, must be furnished in all such cases.

3. No article shall be entitled to more than one prize, and premiums in any Department may be withheld if the Judges do not consider that the article or articles exhibited are entitled to them: strict compliance with the above rules will in all cases be required.

4. In the case of Grains or Roots, not less than half a bushel, (unless so specified) is to be exhibited for competition; and in every case a report in writing, is required of the kind of seed, the quantity grown per acre, the mode of preparing the same, the quality of soil, the system of culture, with the time of sowing and reaping.

The Judges at the Exhibition, shall be guided in their awards—1st, by the purity of the seed; 2d, by its freedom from extraneous seeds; 3d, by its weight; 4th, by the quantity raised per acre.

5. In the case of imported or thoroughbred stock, the importer or owner must furnish in writing a particular account of the breed pedigree and prime cost of the animals when imported. Age of cattle to be taken from the 1st day of January of each year.

7. All stock entered for competition must have been owned and kept in the province not less than three months prior to the exhibition.

8. Competitors in fatted Cattle and Sheep must furnish a verified statement in writing of the mode of feeding, the size and weight when put up to fatten, and their progressive increase as far as can be ascertained.

9. In the case of manufactured articles generally, the Judges shall be guided in their awards by a reference to their excellence, cheapness and fitness for the country.

10. All articles intended to be forwarded to Fredericton by the Local Committee, for competition at the approaching Exhibition, must be placed in the possession of John Porter, Esq. and Mr. A. Jessamine, at the Lower Store of Messrs. Gilvour, Rankin & Co., of Douglstown, on TUESDAY, the 21st day of September next, between the hours of 9 o'clock, A. M., and 6 o'clock, P. M.

11. The Local Committee will meet at Douglstown on Wednesday, the 22d September, to examine the articles deposited the day previously, and select those worthy of being forwarded by them to the Exhibition.

For further information please apply to either of the Local Agents.

By order of the Local Committee of Northumberland,
E. WILLISTON, } Sub-Committee
JAMES CAIE, }
Miramichi, July 1, 1852.

CLASS I.—MINERAL KINGDOM.

SECTION A.—RAW MATERIALS.

Ores of the Metals, best assortment,	£6 0 0
