**SHOCKING.**—A son of Mr. Betts, of Wayne, Erie, Co., Pennsylvania, was heating a kettle of spirits of turpentine on a stove, with four younger brothers and sisters about him; the father was absent; the mother in an adjoining room; when on the young man putting some rosin in the kettle, it exploded or boiled over on the stove, filling the whole room with flame and gas, and striking every person present blind and helpless. Mrs. Betts was found by the neighbors, strangled, and all her children so burnt that three of them died that night, and the two remaining were not expected to survive when heard from.

The fearful storm which swept over the chain of Western Lakes, brought sorrow and desolation to many a domestic hearth. The total number of lives lost will probably exceed sixty, most of them suddenly engulfed in the surging waters. On lake Erie one vessel is known to have gone down and not one survivor to tell the name or sad tale of shipwreck; and a proPELLOR, full freighted and carrying 25 or 30 persons, has strewn the shore with fragments of her wreck, but not a living soul survives to relate the cause and manner of her going down. It is probable, however, that the Oneida was overlaid, or that some of her machinery gave way during the war of wind and waves.

We learn that the Oneida took on board 3,500 barrels of flour, which filled her hold and some tiers deep on part of her main deck, and at the Railroad Depot received additional freight, beef and hams, in tierces. She was loaded nearly to her guards, and may have foundered in consequence. The floating ashore of the small boat with the books and papers of the vessel lashed to it, shows that there was a protracted struggle for life.—*Cleveland Herald*, 28th Nov.

Mr Booth, the celebrated Richard the 3d, supposed at one time to be equal to the elder Kean, as an actor, died a couple of weeks since on his passage from New Orleans to Cincinnati.

New York, Dec. 1.—The sun has advice from Mexico to Nov. 2d, which states that President Arista was shut up in the palace with 500 troops. The revolutionists are within twenty leagues of the capital. Gen. Uraqua is also marching upon it with 3000 troops. It is stated that Arista's power will not be sustained another month.

**NOVA SCOTIA.**

The late gale has had a damaging effect on the Telegraph Lines in Novascotia and New Brunswick. The Saint John News says—'It was most fearful in the vicinity of the Bend, breaking the wires every few yards, overturning the posts, and grinding the glass insulators to powder.' Our Saint John Correspondent under date of the 1st, says—'From the 24th ult., up to the present time, there has been no Telegraph communication to Halifax from this place, and reports from the Eastward represent the storm of last Wednesday as having made fearful havoc among the Lines both of this Province and yours.—*Halifax Sun*.

A great Freshet was experienced at Pictou during the late storm. The tide rose in the harbour to an unusual height, breaking up the wharves, and injuring goods from the overflowing of warehouses and cellars. The beach on which the Lighthouse stands was dreadfully disturbed by the fury of the waters, and a number of bodies of emigrants who had died of small pox, and been buried there some years ago, were washed out of their coffins, and carried by the force of the tide to great distances, some of them having been found more than a mile from the place of interment.

**NEW BRUNSWICK.**

The Hazard, Messenger, master, from Annapolis, laden with produce, was driven ashore and wrecked near Grand Manan, during the severe gale of Tuesday night last, all hands lost. Several other small crafts are missing, and fears are entertained for their safety.—*St. John Times*.

The Steamer Reindeer arrived at Woodstock last evening, from Fredericton, at 7 o'clock. We believe this is an unprecedented thing for this season of the year.

We are gratified to learn that Mr Lewin (formerly of H. M. Customs) has succeeded in obtaining the Right of Way for the Railroad, all the way through from the Bend to Shediac, without a single exception, from owners of land along the route.

**STRAY COW.**

The Subscriber residing at Barnaby's River, within a mile of the high landing, has had in his possession since September last, a STRAY COW. The owner can have the same by proving his property and paying expenses incurred. JOHN DUNN Barnaby's River, December 4, 1852.

**SUNDAY'S MAIL.**

The papers by this mail add but little to our stock of news. Below we give a few extracts.

**UNITED STATES.**

*Baltimore, Sunday Nov. 21*—Seventeen deaths from Yellow Fever and eleven from Cholera, occurred at New Orleans during the week ending 15th inst.

At Charleston there were ten deaths from yellow fever during the past week.

Several firemen's riots occurred here this afternoon, keeping the city in a state of uproar and excitement. Henry Pooie, one of the rioters, was shot in the arm, and several others received injuries. The companies engaged in the riot have just been released from the operation of the district law by the new Mayor.

**NEW BRUNSWICK.**

*The Eastern Mail*.—The English Mail which arrived at Halifax at an early hour last Tuesday morning, was due here at 1 A. M. on Friday—but did not reach the Post Office in this City until after nine o'clock last Saturday night, being forty-four hours behind time.

The Mail from the Eastward for some weeks past has been continually 12 or 14 hours after its time—and this state of things has caused great annoyance in this City, and disarranged the mail arrangements in every other direction. In consequence, the Post Master General has given notice to the present contractors that their contract will terminate on the 5th January, and in the mean time notice will be given that the mail route hence to Amherst, is open to competition.

We had intended to offer some observations on the necessity for a change of contractors, or a change in the manner of performing the eastern mail contract; but the determination to dismiss the present contractors on the 5th January renders this unnecessary.

As a change is about to take place, we beg to suggest that a better class of Carriages ought to be employed on this important route. Those now in use, are the most unseemly and uncomfortable contrivances of any in British America and altogether discredit to a civilized community. In New Brunswick alone, are such carriages inflicted upon travellers—in Nova Scotia, and in Canada, there is every attention to comfort and convenience, and we ought not to be behind our neighbours in anything.

We trust also, that on the Stage routes from this City to St. Andrews and Fredericton, something better will be placed on the road this winter, than the narrow, uncomfortable, open sleighs, or rather sleds on which passengers have for some season, been dragged along. Nowhere else would they be tolerated for a week.—*St. John New Brunswicker*.

**P. E. ISLAND.**

*General Thanksgiving*.—By a Proclamation in the Royal Gazette, Thursday the Ninth December is appointed a day of General Thanksgiving to Almighty God for his Mercies in blessing the Labours of the Husbandman during the past Season.

The steamer Ellen Gisborne returned to this Port, from Cape Traverse, at an early hour on Wednesday, the 24th instant, in the midst of a heavy snow storm, after having succeeded in laying down the sub marine cable between Cape Tormentine, in the Province of New Brunswick, and Carlton Head on this Island. Mr Gisborne made several attempts to lay the cable down before he finally succeeded on Monday night last.
