UNITED STATES PRESS.

From the Boston International Journal. RECIPROCITY WITH THE LOWER PROVINCES.

The Legislasure of New Brunswick dis-posed of the subject of Reciprocity, just before closing the session, in a few brief re-marks from the Attorney General, in answer before closing the session, in a few brief re-marks from the Attorney General, in answer to an inquiry from another member on the subject. He said that "the Government of the Province had not lost sight of this import-ant matter; and that it had been going on du-ring the winter, and the moment the bill to effect reciprocal trade with Canada being be-fore Congress reached this place, a commu-nication with the Governor General had been made, urging the interest of the Province. Honorable members must, however, bear in mind that the Government of this Province had no power of holding official communica-tion with the authorities at Washington; this could only be done through the Gover-nor General or the British Government, and also that these negotiations for reciprocal trade for the Lower Provinces would have to be based upon very different principles from those of Canada. As the concessions from the Lower Provinces to the Americans, to effect this object were widely different from those offered by Canada, and must not only be consented to by these provinces, but by the British Government, which alone might make distinct bills necessary in Congress. The Government, however, have no official infor-mation of any bill upon the subject being yet imroduced into Congress."

But why not, in united concert with the other Provinces, bring the subject before Con-gress ? It is not a matter for diplomatic cor-respondence, but for mutual legislative action. We icannot perceive that "the concessions from the Lower Provinces are widely differ-ent from those of Canada ;" on the other haud they are in many respect very similar. The ent from those of Canada ;" on the other haud they are in many respects very similar. The one gives up the St. John River to free navi-gation—the other the River Saint Law-rence ;—the one wants from the States manufacture cloths and other textile goods, in exchange for lumber, wheat, peas, flour and ashes—the other requires from the States the same articles, and gives in exchange wood goods, coals, fish and minerals, the produce of the computy and wherein is the difference? There is no conceivable wisdom in crying " a lion in the way," when the path is clear. We shall never obtain a reciprocity if a liber-al and spirited determination is not manifested, to overcome the surmountable impedi-ments to our international prosperity.

BATHURST, May 12, 1852. James A. Pierce, Esq.,

Sir,-In the present communication] shall be brief in reference to a letter which appears in the Gleaner of the Sth mstant, signed "Fides." I can assure him that his mis-statements and mis-constructions give me very little annoyance in respect to my conduct as one of the representatives of Gloucester ; however, not until he unmasks himself of his assumed title "Fides," shall I take any further notice of his communications, but will treat such as I have invariably treated him. Mr Editor, "Fides" refers to one noble instance in Mr Barberie's conduct as a representative ; this admission coming from "Fides," no doubt Mr Barberie will treasure up. But "Fides," seems to have forgot to mention the circumstance and particulars of another more noble instance of Mr B----'s conduct, in the cas-tigation Mr Barberie had inflicted on him, in the Session of the Legislature before the Yours, &c., last.

NEW APPOINTMENTS .- At a late meeting of the Executive Council, the following of the Executive Council, the follow-ing gentlemen, it is reported, were ap-pointed Law Commissioners—Hon. W. B. Kinnear (Solicitor General), Hon. Charles Fisher, and James W. Chandler, Esq., of St. Andrews. The Hon. Attorney General and Hon. Surveyor General are to be exofficio members. It is also said that Wm. H. Needham is to be Secretary to the Com-mission. mission.

MORE STEAM .- The Belgian journals state that it is the intention of the Cunard Company to establish a line of steamships between Antwerp and Liverpool, in con-junction with the royal mail line to the United States, similar to that which is now in operation between Havre and Liverpool, and which has so signally answered the purpose for which it was established. The Liverpool and Havre line is to be kept up in all its efficiency as hitherto, the An-twerp new line being an addition to it.

RAILWAY NEWS.—The Editor of the St. John Morning News furnishes his read-ers with the following intelligence respec-ting the probable success of the Delegates in obtaining the needful for the Railway.

" A gentleman has just arrived from Halifax who had an interview in that city with Major Robinson, who came out by the last English steamer—and the Majør states that the British Government will not consent to the British Government will not consent to grant the money for the Trunk Railway. He says he has no doubt that if Earl Grey's des-patch (or rather Mr Hawes's letter) had been acted up to by the three Provinces, and the northern, or military route been adopted, the money might have been had; but as matters now stand, also taking into account the state of parties, the appropriations required for the Kaffir and Burmese wars, the money is not Kaffir and Burmese wars, the money is not to be expected. The people of Halifax have fully made up their minds that so far as aid from Hercules is to be expected, the gas is now completely let out of the bubble. This news will be the death of some folks in Saint John. Our authority is the very best, and we will give the name privately."

STRAITS OF CANSO .- A Correspondent at this place, under date of May 3, writes to the Editor of the Pictou Chronicle as follows. This will account for the non-ar-rival of several vessels now due here from Britain, Boston, and other places :--

" Since my last, about fifty sail of vessels have arrived here, bound to the northward, have arrived here, bound to the northward, but unable to get further on account of the ice. Of the number, two are for Picton, viz: brig Lady Mary, Crerar, from Liverpool 21 days; and bark Standard, Slater, Liverpool, 26 days, general cargo. There are also bark Henrick, Virgland, Prebensen, from Norway to Miramichi; Bark James, Thomson, from Bristol 22 days, for P. E. Island, with general cargo; and bark Emma, 22 days from Ply-mouth, in ballast, for Buctonche. The rest consist of American, Nova Scotian and New Brunswick fishermen, bound to Magdalen Is-lands and Bay St. George."

lands and Bay St. George." "About twenty sail of Arichat vessels arri-ved here last week, bound to Picton, but after

ved here last week, bound to Pictou, but after getting as far as Cape George, they met with so much ice that they were forced to turn back. They have returned to Arichat. "The bark Tongaraboo arrived here on Saturday, bound to Picton. She went round Cape North, and got up as far as Cape George, but put back on account of the ice. Brig Falcon, of London, bound to P. E. Island is also here." also here."

STEAM IN THE GULF .- Under this head the Morning News gives the following paragraph :---

SPECULATIVE .- The Saint John Freeman contains a long editorial under this title, giving a comprehensive sketch of the incongruous materials of which our present strong Government is composed, and also some speculative ideas how the vacancy in the Executive cleated by the death of the Hon. Mr Rankin is to be filled up. It is too long for our columns to-day, but we give below an extract which forms the conclusion of the article :

" The problems in New Brunswick politics

"Will captain Robinson, the echo of Mr Gray, or Mr Montgomery, or any other who agrees with Messrs Partelow and Chandler, be selected to fill it ?

"Will Mr Giay be satisfied to act for a while with Mr Street, as Attorney General, and be content with a Solicitor Generalship in hand, or a Railway Commissionership in the bush ?

" Will the Government hang together for the next two years, fearing one another, dread-ing the formation of a new party without, and hoping, perhaps, for the seven millions

"Will Partelow, and Chandler, and Hazen endure Street as leader; and the Provincial Secretary continue to share Her Majesty's Secretary continue to share Her Majesty's councils with the Surveyor General, and pre-tend to førget the past; and Gray be con-tent to live upon hope; and Kinnear continue to hold office upon sufferance; and the va-cancy be unfilled by way of compromise, with one who will be vacancy itself? "Or will these discordant elements mutu-ally repel each other, and this incongruous coalition, relieved from the compression, be violently disruptured ?

"Common report says the Government cannot hold on as it is, and in our opinion common report is correct in this as in many other instances."

MORE TOADYISM .- The Carleton Sentinel contains the following paragraph. We insert it for the special edification of our readers, to shew the influences which have been set in operation to bolster up Mr Street, and malign the inhabitants of this county, because they had the presumption to exercise a constitutional right, by calling on him to resign his seat in the Legislature, when they found he had sacrificed their interests, and could no longer place any confidence in him. We do not think it worth our while to bandy words with the Editor for his gratuitous attack on us. The people of this County are not so very simple as to believe the off represented stream back as to believe the ofi-repeated story that the Canadian Delegates would not agree to any Line but the one which passes up the Valley of the St. John. They cannot be Valley of the St. John. They cannot be made to believe that those gentlemen would have had the presumption to dictate to Nova Scotia and New Brunswick the Route, when they had no more at stake in the undertaking than the other Provinces, if they had not found our Government rea-ter and willing to acadea with them in the dy and willing to coalsce with them in the measure, and assist them in forcing No-va Scotia into the arrangement. The business was managed in too slovenly a manner not to be seen through, and the inhabitants of the Northern section of the Province fully understand all the manœuvres.

" The enemies of Mr Street have at length succeeded in getting up a requisition nume-rously signed, requesting him to resign his seat in the Legislature. We believe there are over a thousand names to the requisition. We of course do not know what arguments were used to induce people to sign, but doubtless they were told that if Mr Street had been true to the interests of his County, the main truck line from Halifax to Quebec would have passed through Northumberland. If such stories were got up, or if such an epinion prevailed in Northumberland, the whole blame must rest with the Editor of the Gleaner, as none better than him knew that the Canadian Delegates would have nothing to do in the matter the Valley of the Saint John. Mr Street by contending for the Northern route, might have embarrassed the Government, and would in consequence have been compelled to resign big office but this would have else resign his office, but this would have placed Northumberland in no better situation, the route was settled, and all that Mr Street or his constituents could do would not alter it. All this the Editor of the Gleaner knew, and it would have been far more honorable in him had he cited the in bim had he stated those facts instead of signing the requisition, thereby showing that he was actuated by personal motives. We know not what course Mr Street may pursue. but of this we are satisfied that he will gain more honor from having legislated for the benefit of 160,000 persons, than if he had overlooked their wants and wishes to please without benefitting 40,000."

have been busily occupied ploughing and putting in their crops, The wind has pre-vailed from the eastward.

EUROPEAN NEWS.

The Royal Mail Steamer Canada arrived at Halifax on the evening of Tuesday last. The despatch by the telegraph gives a brief summary of the news. We are indebted to the attention of

James Johnson, Esq., who came out in the Canada, and who arrived here on Friday

night, for copies of the London Times and Liverpool Mail of the 1st May. A large portion of the first named paper is filled with a long Speech of the Chancel-lor of the Exchequer in the House of Commons on the evening of the 30th April, on the state of the public finances, which gave much satisfaction to all parties in the house.

The same paper contains the following report of a conversation which took place on the same evening in the Commons, on the subject of the Halifax and Quebec Railway, or as the Times heads it, " Canadian Railway.

Mr. Cobden, referring to a Railway propo-sed to be made between Halifax and Quebec, (at a cost of something like £7,000,000,) respecting which the late Government had given some sort of guarantee, and the negociations as to which, he believed, had since been re-newed, asked the right honorable gentleman the Secretary of State for the Colonies whother he was prepared, before the Government entered into an undertaken of that magnitude and importance, to lay upon the table of the house the whole correspondence having refe-rence to the construction of that railway ?

Sir J. Packington thought it necessary to explain-not by way of complaint, but only in justification of himsell-that the hon. member had given him no notice whatever of this question. Mr. Cobden had no desire to take the right

honorable gentleman by surprise, and would place the terms of his question upon the no-

site paper. Sir J. Packington said, the hon. gentleman stated that the late Government had given a qualified assent to this railway. Now, in justice to the late Government, he thought it ight to state that nothing had taken place between them and the parties who were anxi-ous for the construction of the line, which could be construed into a qualified assent. The language of Earl Grey had been uniform-ly to this effect—teat the Government would be no parties to any guarantee as that sought for, unless they were satisfied with the line which it was proposed to make. Hebelieved the assent of Earl Grev went no further than this. The subject was now under the con-sideration of the Government, and before any thing final was done it would be their wish to give every information to the house.

It appears that Messrs Hincks and Chandler had an interview with the Earl of Der-by at his official residence in Downing street, on the 30th April.

FREDERICTON MAIL .- The Gazette received by this Mail contains the following appointments :

"Richard Hutchison, Esq.. to be a Com-missioner of the Marine Hospital at Mirami-cni, and of Light Houses in the Bay of Fun-dy, in the room of the Honorable Alexander Rankin, deceased ; also an Indian Comission er for the County of Nortumberland. "The Attorney General, the Selicitor Ge-neral, James W. Chandler, and Charles Fish-er Esquires, and the Surreyor General to

er, Esquires, and the Surveyor General, to be Commissioners under the Act for the fur-ther amendment of the Law, and the better advancement of justice."

MIRAMICHI FISHERY SOCIETY .- The Board of Directors of this newly organized Society, at a recent meeting, appropriated One Hundred and Eighty Pounds of its funds to be expended as follows: ----To this season's catch and cure of MACKAREL a bounty of £80; FALL HERRINGS £60; and £40 in twelve prizes for CodFISH.

BY TELEGRAPH DORCHESTER, May 11, 1852. To Mr Nicholas Keiver, at W. W. Pride's, Durham, care of Andrew Barbarie, Restigouche

JOSEPH READ.

FOR SALE.

The Subscriber has yet on hand 15 chests TEA, 1 box and two 3-4 boxes TOBACCO, 6 bhls. No. 1 CANSO HERRINGS. 12 Sides of SOLE LEATHER, and 12 pairs of MENS' Boors, country make, and several other small remnants of Stock which he will sell cheap for Cash, or approved paper. Purchasers for the Herrings will please

apply to JOHN BRYSON, Chatham.

JOHN BEGNAL. Chatham, April 9, 1852. 3w

"We learn that Major Norton arrived in the Admiral on Wednesday evening-and that he had purchased a splendid steamer in Philadelphia, of seven hundred tons, to ply between Pictou, Shediac, Miramichi and Quebec, encouragement having been granted by the Legislatures of this and the sister Pro vinces, last Session, for this purpose. If we had our railroad built on as far as Shediac. If we we could find our way to Canada in as quick time by this conveyance, as if we journeyed through the heart of the wilderness all the way by land. The day is not far distant when this will be the case—and then we shall have a branch line from Shediac to Miramichi.'

We sincerely hope the predictions of the Editor will be speedily fulfilled ; but while the parties now in power continue in office, see but little prospect that justice will we be done to the North-eastern section of the Province. Will our contemporary give us his opinion with respect to the non-fulfil-ment of the contract by Major Norton, in leaving Miramichi out of the arrangement, as specified in the Resolution of the Legislature ?

COUNTY WESTMORLAND .- By the telegraph we are informed that the nominatton of Candidates for the representation of this County in the Assembly, took place on Thursday last. They were Messrs. Chapman, Gilbert, and Smith. One member is required.

THE SEASON .- The weather has continued dry during the week, which has been of essential service to the Farmers, who 1st instant,

Let Mr Keiver know that his son JAMES was drowned on the 10th instant, and have it inserted in the Gleaner.

J. E. UPHAM.

TO THE MIRAMICHI NEWS ROOM.

ST. JOHN, Tuesday, May 11, A.M. The weather continues very fine, with light westerly winds. Sir Edmund Head and family left at 3

o'clock yesterday, in the Fairy Queen for Windsor, en route to England. Colonel Murray was sworn in as Administrator of the Government at 4 o'clock, in presence of the Executive Council.

We have had no arrivals from Britain during the last few days.

No news of the Canada at Halifax vet. Wednesday, May 12, P.M.

The steamer Canada arrived at Halifax at 9 o'clock last evening, with 51 passen-gers. She sailed from Liverpool at 6, P.N.
