WASH FOR FRUIT TREES.

I am at this season of the year, frequently asked what is the best wash for fruit trees, both trunk and limbs. The following has given me the best satisfaction of all the various mixtures I have tried, and I have used no other for at least 12 years:—I use a large vessel, say a tub, made by sawing a molasses-hogshead in two, at the bung, which will hold about 70 gallons; in this tub I put a wheelbarrow load of yellow clay, and an equal quantity of fresh cow-manure, covering it with water. After soaking and mixing a day or two, I add half a bushel wood-ashes, 1 lb. of sulphur 6 or 8 lbs. of soft soap, and mix well together; then slake half a peck of lime, and add to the above, using water sufficient to make the whole about the consistency of thin cream, which will nearly fill the tub; mix well together for several days; then, with a common whitewash brush, (an old floor-brush will answer), I paint the bodies of the trees, having first used a smaller brush to paint the crotches of the limbs and the limbs themselves, as far as possible. I think any gentleman trying this wash, or paint, if you please, will find it to give him perfect satisfaction on every kind of fruit tree in ordinary cultivation with us.—*Captain Lovett, in Hovey's Magazine of Horticulture.*

MANURE FOR GRASS LAND.

I was anxious to know what quantity of grass could be procured by stimulating manures, by experiment. This experiment has been made on a hundred superficial yards of grass land; and manuring after every crop, I have mowed five times, and have had each time as much grass on the land as what there usually is when persons mow for hay. The manures I made use of were pounded charcoal, malt-dust, muriate of ammonia, sulphate of magnesia, and nitrate of soda. The salts were put on in a liquid state, 2oz. to each yard. I mowed the fifth time on the 10th of August. The land is by no means good land on which this experiment was made, and which is not yet completed. These manures will give to very poor land the appearance of very good land, as long as their effects last.—*C. A. A. Lloyd, Whittington Oswestry.*

SPEEDY CURE FOR A FOUNDERED HORSE.

As soon as you find your horse is foundered, bleed him in the neck in proportion to the greatness of the founder. In extreme cases you can bleed him so long as he can stand up. Then draw his head up as is common in drenching, and with a spoon, put far back on his tongue strong salt, until you get him to swallow one pint. Be careful not to let him drink too much. Then anoint round the edges of his hoofs with spirits of turpentine, and your horse will be well in an hour.

A founder prevades every part of the system of a horse. The fleam arrests it from the blood; the salt arrests it from his stomach or bowels; and the spirits of turpentine arrests it from the feet and limbs.

Once road a hired horse ninety-nine miles in two days, returning him at night the second day; and his owner would not have known that he had been foundered if I had not told him, and his founder was one of the deepest kind.

Once in a travel of seven hundred miles, foundered my horse three times, and I do not think my journey was retarded more than one day by the misfortune, having in all cases observed and practised the above prescription. I have known a foundered horse turned in at night on green feed; in the morning he would be well, having been purged by the green feed. All founders must be attended to immediately.—*S. W. Farmer*

Never Failing Remedy,

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr. Thomson, Chemist, Liverpool, dated August 20th, 1853.
To Professor HOLLOWAY,
Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills, which so astonished every person acquainted with the sufferer. About ten years ago, Mr. W. Cummins, of Saltney Street, in this town was thrown from his horse, whereby he received very serious injuries; he had the best medical advice at the time, and was afterwards an inmate of different infirmaries, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health and vigour.

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr. Hird, Draper, of Keady, near Gainsboro', dated March 15th, 1853.
To Professor HOLLOWAY,
Sir—Some time since, one of my children children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration the effect was miraculous, for by persevering in use, all the eruptions quickly disappeared and the child was restored to perfect health.

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG, DEBILITY AND GENERAL ILL HEALTH.

Copy of a letter from Mr. J. M. Clennell, of Newcastle-on-Tyne, dated September 20th 1852.

To Professor HOLLOWAY.

Dear Sir—I am authorised by Mrs. Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had been a sufferer from debility, and general ill health, accompanied with a disordered stomach, and great derangement of the system. In addition to this she was terribly afflicted with ulcerated wounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderful short time, they effected a perfect cure of her legs and restored her constitution to health and strength; and that she is now able to walk about with ease and comfort. Several other persons in this neighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully,

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE.

Copy of a Letter from Messrs Walker and Co., Chemists Bath.

To Professor HOLLOWAY,

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighbourhood, we may mention that of an old lady living in the Village of Preston about five miles from this city. She had ulcerated in her leg for many years, and latterly they increased to such an alarming extent as to defy all the usual remedies; her health rapidly giving way under the suffering she endured. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends was enabled to persevere in their use, until she received a perfect cure. We have ourselves been greatly astonished at the effect upon so old a person she being about seventy years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter. We remain, dear Sir,

Yours faithfully,

Azor's Turkish Balm,

THE ONLY CERTAIN REMEDY FOR BALDNESS, AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Beautifying and keeping the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualities are as follows:

1st—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d—It causes the hair to curl beautifully when done up in its over night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is universally used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost universally known and used for the hair. Hence a case of baldness is no head of hair is entirely unknown in that country. CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. CAUTION.—Remember and ask for CARLTON'S CONDITION POWDERS, and take no other.

They have been used by Farmers, Veterinary Surgeons, proprietors and others with the most marked and decided success.

THE SCHOOLMASTER.

A NEW MONTHLY HALF-DOLLAR MAGAZINE, Devoted to Practical Education—For Fireside and Wayside.

The Schoolmaster, a new monthly magazine of USEFUL INFORMATION, is published on the first of each month, at No. 40 Ann-Street, New York. It contains 16 quarto pages, printed on a superior quality of paper, at 50 cents per annum, in advance—11 copies for \$5 000; 25 copies \$9; 50 copies \$15; 100 copies \$25.

THE SCHOOLMASTER, will embrace in its MATTER and MECHANICAL EXECUTION several features, peculiarly its own. It has two-fold purpose—1st. To promote the interest of Universal Education, by encouraging and extending the system of Free Schools. 2nd. To supply the Fireside and Wayside reader with entertaining, instructive and useful reading, worthy of preservation, and which shall form a part of the mental furniture of its readers—to awaken a desire for the acquisition of science, and inspire a spirit for self-improvement, physically, mentally and morally, and to furnish when awakened, such "food for thought" as shall develop the whole man, refine and elevate him in the scale of being.

To accomplish this object the SCHOOLMASTER will contain a variety of original and carefully selected matter, on the principles, means and end of Education and educational institutions—its advantage and benefits to individuals and nations—the duty of enlightened legislation on the subject. It will also contain a department, in which practical and experienced educators will discuss the best method of imparting instruction, in the school room or family circle. The SCHOOLMASTER will aid in shielding from merciless attacks all those institutions of learning which the "Father of his country" referred to in his farewell address to the American people, when he said:—"Promote as an object of primary importance institutions for the general diffusion of useful knowledge." Great care will be taken that

"Not one immoral, one corrupt thought One line, which aying we could wish to blot,"

shall ever appear on its pages. It will be strictly an educational magazine—a physical, mental and moral educator for Universal Circulation—an encyclopedia of valuable information for all classes of Readers—matter gathered and garnered from intellectual storehouses.

Its patrons will find in its ample pages Scientific Items, Literary Gems, Curiosities of Art, Relics of the Past, Pearls, Diamond Dust and Gold Sands, Facts for the Curious, Curiosities from Antiquarian Cabinets, Biographical Sketches, showing that "the proper study of mankind is man;" Dew-drops of Wisdom, Rare Readings, Hints for the Home Circle, and the events of the age, carefully collected, culled and collated from sources which from their expense, are not accessible, and are as "sealed fountains of living waters" to thousands of readers.

Believing as we do that a publication of the kind we propose to make the SCHOOLMASTER, is needed to counteract the influence of a vicious literature which too often blights and sear the souls of its too willing readers, we cheerfully send the SCHOOLMASTER abroad and anticipate that the friends of education will encourage the enterprise. And although

"Tis not in mortals to command success, We'll do more—deserve it."

School-teachers, Editors, Clergymen, Students, School Officers, Post masters, and all friends of practical education are respectfully requested to aid us in extending the Circulation and usefulness of the SCHOOLMASTER.

Editors desiring an exchange, will always secure it by noticing or copying this prospectus, and addressing their papers to the Schoolmaster, New York.

N. B.—Travelling agents of good address capable of giving lectures on the subject of education, are wanted, with whom very liberal arrangements will be made—SEE TERMS.—Specimen Nos. furnished on application. Address

Sir—It is very natural that Mr. Hutchison, after adopting the extraordinary measures which he did, upon the death of the lamented Mr. Wishart, without a pressing necessity,
