

police and a large body of special officers, who appeared on the ground, and seizing him, obliged him to desist. This was in the morning. In the afternoon of the same day, under the direction and auspices of Archbishop Pruell, a great Catholic procession, numbering from five to ten thousand men, with badges, flags, banners, and a large number of bands of music, marched through the streets to lay the corner stone of a Catholic church. The Catholic church bells were ringing during the whole time, the brass bands, comprehending nearly all in the city, were playing, and the procession marched through half the town, blockading up the streets, making a very ostentatious parade, which created a great deal of excitement, sufficient to render some of the streets impassable to church-going people, and to disturb the stillness of the Sabbath. The Mayor had on a large police force to protect the procession. These circumstances will explain the telegraphic statement we published, relative to a public call upon the Mayor to resign. That officer appears to have been determined at all hazards to prevent a riot on the occasion of this procession; but in doing so, has thoroughly aroused the Protestant population, and added fuel to a religious excitement which was already very deep and bitter.—Boston Journal.

NEW YORK, May 5.—A range of slaughter-houses, fourteen in number, were burnt this morning in 59th street, together with a large number of live hogs. The buildings belonged to Mrs. Edgar H. Lang, and were insured for \$30,000 in this city.

BUFFALO, April 28.—THE RAILROAD ACCIDENT NEAR CHICAGO.—The Chicago papers contain heartrending details of the late melancholy accident. The entire road in the vicinity of the catastrophe was covered with the mangled cars and the dead and dying. One by one the wounded and uninjured crept from beneath, and the shrieks of the women and groans of the dying added to the horror of the scene.

One poor woman, with her legs broken, lay with her child in her arms, and two little ones, uninjured, clinging to her.

A young woman stood by the dead bodies of her father, mother and brother, shrieking like a maniac.

Three children from eight to ten years of age, were taken out and recognized by their father, who is left alone.

Beneath the edge of a car appeared the bald head and hand of an old man, a leg of one, and the mangled body of another. The scene at the depot was awful in the extreme when the remains were brought in. The floor was covered with blood and a heap of limbs gathered together in a corner, while many bereaved ones were searching for lost friends or relatives.

The papers are loud in their denunciations of all connected with the roads.

EMIGRATION.—The emigration from Europe to the United States, as it is said, likely to prove extraordinary within the coming six months. It is estimated that some 200,000 men, women and children, will leave England and Ireland, and that this vast army will be increased to nearly half a million by Europe. A still further impulse is likely to be given to this living tide by the strikes in the United States, and the extravagant reports that are published in foreign journals, as to the demand for labor and the high rates of wages in this country.

CANADA. HORRIBLE MURDER.—We are informed that one William Breaud, an American resident at Wickham, in the Eastern Township, last Saturday, shot, with a revolver his mother and brother. The parties all lived under the same roof and conducted a lucrative farm, respecting the proprietorship of which several disagreeable quarrels had frequently taken place between them, the termination of which was the horrible circumstances just mentioned. The unfortunate man has fled that section of the country, and the constable in search of him, Thomas Sadler, from whom we derive our information, represents Breaud as a man about five feet ten inches high—thin long face, had then black whiskers, and wore green pants, black silk shirt, and black cloth cap. He also informs us that the ball entered near the lungs of the brother, and must prove mortal; the effect of the shot discharged at the mother, he was unable to conjecture, as he was obliged to leave Wickham immediately, in pursuit of the murderer.—Montreal Transcript.

NOVA SCOTIA. The postal arrangement which gives a daily Mail between Pictou and Halifax, commenced on the 6th inst. The mail from Halifax for the eastward, will be primarily closed at 8 o'clock in the evening; but letters paid by stamp, and posted previous to five next morning, will be forwarded with the Mail, which leaves at six o'clock.

We are credibly informed that the inhabitants on the Banks of Port Medway River have come to the spirited resolve to

open a navigable Canal which shall connect that stream with great Lakes Resignol and Pauke. The survey to be proceeded with in the current season.

We are rejoiced to find the spirit of enterprise thus stirring up the self-dependence of our people to works of this character; and if, as we are given to understand, they will readily do, the inhabitants of Port Medway, subscribe the sum of £5,000 towards the prosecution of the proposed project, we have little doubt that the balance, £10,000, will be readily obtained from capitalists, native and foreign.

The proposed Canal, when completed, will open up hardly less than 200 miles of inland coast; the greater portion of the entire area being covered with wood of the most valuable varieties—the soil by which it is produced being, generally, for depth and richness, not surpassed by any in the Province.

It is assumed that the work, can be completed in little more than three years; when a Steamer plying upon the Medway, shall pass closely the door of almost every dweller in the new and really beautiful section of the Province which the contemplated Canal will have made accessible.

Application will be made to the Legislature—not, we trust, in vain—for a charter and fair pecuniary and encouragement, to an undertaking every way so praiseworthy and promising.—Halifax Sun.

WEST INDIES.

The New York Tribune has dates from Jamaica to April 11. Shortly after the rejection of the Retrenchment Bill a letter above the signature of Wm. Stevenson appeared in one of the Kingston papers, taunting the Assembly with their impotency to carry out the principles of retrenchment, and asking whether after their sixth annual defeat by the Council, in their endeavors to perpetrate an unmitigated wrong. The writer was one of the Judges of the Supreme Court. The Assembly decided that the communication was a breach of privilege, and Judge Stevenson was arrested by the Sergeant-at-arms, brought to the bar of the House, and the subject was discussed with closed doors. Judge Stevenson refusing to apologise, he was committed to jail, but was released the next evening. He immediately tendered his resignation, but the Governor refused to accept it. Persisting in his determination, he refused to sit in the nisi prius court which met a few days afterwards, and consequently the business of the colony has been much retarded. The Assembly also issued a warrant for the arrest of Mr. Castello, editor of the "Falmouth Post," he having termed the members of the Assembly "knaves, fools, and something worse."—The Deputy Sergeant-at-arms immediately proceeded to Falmouth, but the sickly condition of Mr. Castello prevented him from undertaking such a tedious overland journey, but it was expected he would be able to go up the following week. He had written another article reiterating his assertions, and announcing his determination to promulgate them at the bar of the House.

NEWFOUNDLAND.

We observe that Mr. Shea has moved an address to his Excellency the Governor for the appropriation of a sum of money for the protection of the fishery in the Straits of Belle Isle in the ensuing summer. The two co-ordinate branches of the Legislature have concurred in an application to the Imperial Government for a loan of the sum of £50,000, at an interest not exceeding 3 1/2 per cent, to be appropriated to the construction of roads and bridges in the colony.

On motion of Mr. Little, Ambrose Shea, Esq., a member in the House, has been appointed to proceed to Washington for the purpose of promoting the views of the House unanimously expressed with reference to the question of free trade between the United States and this colony.

We learn from the late arrival from Fortune Bay, that the French have taken the measure last fall, of supplying the people with a great number of seines of enormous size, for the purpose of taken herring as bait to be ready for their arrival this spring. That up to the 10th of last month only two French vessels had arrived, but that shortly after that, about 60 had made their appearance. Herrings had been taken in so much abundance that from 40,000 to 50,000 barrels had been absolutely thrown overboard. The inference is, that seeing the protection which has already been given to the Fisheries on the Newfoundland coast in the course of the last summer, the ardour of the French fishermen upon this coast has been abated, and that the French have resorted to the expedient of supplying themselves with bait upon some part of the English coast as a matter of precaution. There is a practical lesson to be derived from this fact which it is to be hoped the House of Assembly will not be slow to appreciate.—Newfoundland Ledger.

We have been favoured by Mr. Matthew

Warren with the following extract from a letter from a leading commercial house at Quebec, dated the 22d April. We fear there is some mistake as to Newfoundland. The admission of Labradore produce is a great boon, for which we believe the trade is mainly indebted to the exertions made by Mr Warren when he was in Canada last year, when he petitioned the Legislature, and was examined before a Committee of the Canadian House of Assembly on the subject:—"We are now happy to have it in our power to inform you, that our legislature have consented to admit the produce of the Fisheries of the Coast of Labradore and Newfoundland duty free, and for this we think the Legislature of your Island should make certain concessions in our favour, for the admission of our produce, on more favourable terms than the produce of the United States."—Express, Newfoundland.

TEXAS.

The Austin State Gazette states that the Indians have become decidedly hostile and have committed several daring depredations on the frontier.

On the 27th March Major Sible had some difficulty with the Macoes, and recently a party of Wichitas, having come in to Fort Belknap, were detained as prisoners. At night the chief, after murdering his own wife and child, rose upon the guard, and aided by nine of his warriors, succeeded in killing the sentinel on guard, and wounded another soldier. In the fray, the Chief was killed, but all his warriors escaped.

The Austin American of the 13th says, that people continue to leave for the gold diggings on the Upper Colorado, but that none have returned who have given anything like a satisfactory account of the gold prospects.

CHINA.

An affray happened in Macao a few years ago, in which a Chinese was killed by the Portuguese. A peremptory demand was made for one of the latter to expiate the death of the former. The government of this place, either unable or unwilling to fix on the delinquent, proposed terms of compromise, which were rejected, and force was threatened to be used. There happened to be a merchant from Manila residing at Macao, a man of excellent character, who had long carried on a commerce between the two ports. This unfortunate man was selected to be the innocent victim to appease the rigor of Chinese justice, and he was immediately strangled.

FREDERICTON MAIL.

We regret to announce that His Excellency the Lieutenant Governor was violently thrown from his horse on Saturday last, and badly fractured one of his ribs in the fall. The accident occurred a short distance below the City, and the removal of his Excellency to Government House, occasioned him great pain. He has since suffered severely from difficult respiration, but it is now progressing favourably, and will shortly, it is believed and hoped, be entirely recovered.

THREE STEAMERS.—The J. D. Pierce and John Waring, left Fredericton this morning for Woodstock, and the Reindeer for Tobique. Hurrah for the upper St. John, and its potatoes, oats, and lumber.—Head Quarters.

TERRIBLE ACCIDENT.—THIRTY SIX LIVES LOST.—Intelligence reached Toronto on Saturday, by telegraph, of the destruction by fire of the Steamer Ocean Wave, and with the loss of many lives. The steamer left Toronto on Friday last, on her trip to Ogdensburg, and about 1 o'clock on Saturday morning, when six miles west of the "Ducks," and twenty-five miles from Kingston, she was discovered to be on fire. Her whole main deck was devoted to freight, and the saloon for passengers was on the promenade deck. The fire appears to have broken out in one of the state rooms, and there being a short current of air fore and aft, and the cabin of the most combustible materials, the whole upper part of the boat was soon enveloped in flames. The steamer had brought from Ogdensburg, on her upward trip, a company of engineers and labourers, who had been working on the Ogdensburg road, but who were about to transfer their services to one of the Cincinnati railways. The officers of this company were accompanied by some of their friends from Ogdensburg and the neighbourhood anxious to see them as far as possible on the road to their homes. They little thought how fatal the journey was to be! They were returning to their homes when the vessel took fire, and several were lost. Twenty-three passengers in all were on board, and only five were saved, so far as known.—Toronto Globe.

NOTICE TO PERSONS

WHO HAVE APPLIED FOR CHILDREN FROM ENGLAND.

GOVERNMENT EMIGRATION OFFICE

St. John 21st April, 1853.

The copy of a Despatch to His Excellency the Lieutenant Governor, from His Grace the Duke of Newcastle, H. M. Principal Secretary of State for the Colonies, has this day been received, announcing that the proposed emigration of children from England to this Province, will not take place.

The following is the concluding paragraph of the Despatch, which is dated Downing Street, 29th March, 1853:—"Considering, therefore, the difficulties and dangers of executing the plan, and seeing that after all, there is no prospect that it could be carried to any such extent, as to be of importance to the interests of the Province, I do not think that it ought to be prosecuted further."

(Signed)

NE WCASTLE.

Persons in all parts of the Province who have made application for Children from England will please take notice, that such cannot now be furnished.
