AGRICULTURE.

WHAT ARE TREES MADE OF ?

If we were to take up a handful of soil. and examine it under the microscope, we should probably find it contain a number of fragments of woods, small broken pieces of branches, or leaves, or other parts of the tree. If we could examine it chemically we should find it more strikingly that it may be nearly the same as wood in its composition. Perhaps, it may be said the young plant obtains its wood from the earth in which it grows. The following experiment will show whether the conjecture is likely to be correct or not. Two hundred pounds of earth were dried in an oven and afterwards put into a large earthen vessel; the earth was then moistened with rain water, and a willow tree, weighing five pounds was planted therein. During the space of five years the earth was carefully watered with rain water. The willow grew and flourished and to prevent the earth being mixed, with fresh earth being blown upon it by the wind, it was covered by a metal plate, full of very minute holes, which would exclude everything but air. After growing in the earth five years, the tree was found to have gained one hundred and sixty four pounds. And this estimate did not include the weight of the leaves or dead branches, which in five years tell from the tree.

Now came the application of the test. Was all this obtained from the earth. It had not sensibly diminished; but in order to make the experiment conclusive, it was again dried in an oven and put in the balance. Astonishing was the result—the earth weighed only two ounces less than it did when the willow was first planted in it! yet the tree had gained one hundred and sixty four pounds. Manifestly then the wood thus gained in the space of time was not obtained from the fearth; we are therefore obliged to repeat our queston, where does the wood come from?" We are left with only two alternatives; the water with which it was refreshed, or the air in which it lived. It can be clearly shown that it was not due to the water we are consequently unable to resist the perplexing and wonderful conclusion, it

was derived from the air.

Can it be? Where those great ocean spaces of wood, which are as old as man's introduction into Eden, and wave in their vast and solitary luxuriance over the ferwast and solitary luxuriance over the fertile hills and plains of South America-were all these obtained from the thin air? Where the particles which unite to form our battle ships old England's walls of wood, everyborne the world about, not only on wings of the air, but actually as air, themselves? Was the firm table on which I write, the chair on which I rest, the solid floor on which I dwell, once in a form id floor on which I dwell, once in a form which I could not as much as lay my finger on, and grasp in my hand? Wonderful truth—all this air.—English Paper.

SOURCE OF THE NUTRIOUS

PROPERTY OF VEGETABLES.

The nourishing property of corn, wheat, and other grains, is owing to the glutten contained in them. And this glutten consists, in great part of nitrogen It is of course an important object with the farmer, to increase the proportion of glutten, of growth. Nitrogen is the principal ele-ment constituting the nutritive quality. The atmosphere contains a large quantity of nitrogen. It is not supposed to be taken up by vegetables, however from the atmosphere in its simple form, but my combination with the hydrogen, in the form of ammonia. By the digestion of the ammonia, the nitrogen is afterward separated in the plant and used, to constitute the peculiar product, gluten, to which its nutration

and the rain or dew becomes impregnated with it, and it is thus administered to vegetables, in small quantities. This may be sufficient for their existence and ordinary growth. But a greater supply of ammonia is necessary to some plants on account of their peculiar economy. This is the case with all plants containing much gluten. And this substance may be greatly increased by a liberal supply of manures from which ammenia is more abundantly provided.—These plants can therefore enbe cultivated advantageously by a freapplication of manure or otherwise an equi valent provision of ammonia in another. form. Corn ordinarily, when raised in vegetable mould, contains nine and a half per cent. of glutten; but raised on land ma-nured with blood or urine, has been found chetoe and to contain thirty-five hundreths of gluten.

AGRICULTURAL ECONOMY.

The economical Farmer will be carefur to select such tools and impliments, as will require the least labour to perform the greatest amount of work. Two plows

N. B. Directions for the guidance Patients are affixed to each Box and Pot.

Sold at the establishment of Profes for example, of the same size, working the same depth, and turning the same width of furrow, may require very unequal forces to work them, the one requiring 300 lbs. traction the other 600lbs, and this would be equivalent to two horses for the large sizes. one, and three for the other. Most farmers understand this perfectly, and some attend to it in selecting their plows; but any one can easily see on looking at the plows generally used, that many neglect it altoge of all kinds for sale at this

Never Failing Remedy

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCH. ES AFTER TEN YEARS SUFFER-

Copy of a Letter from Mr. Thompson, Chemist, Liverpool, dated August 20th, 185.3
To Professor Hollowar,
Dear Sir—I am enabled to furnish you with Dear SII—I am enabled to fornish you with a most extraordinary cure effected by your invaluable Ointment and Pills, which so astonished every person acquainted with the sufferer. About ten years ago, Mr W. Cummins, of Saltney Street, in this town was thrown from his horse, whereby he received every serious injuries; he had the best medical drives the transfer of the street of t cal advice at the time, and was afterwards an inmate of different infirmaries, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move with-out crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strength-ened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health and vigour.

(Signed)

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr Hird, Draper, of Keady, near Gainsbro', dated March 1st, 1853.

To Professor Hollewar,
Sir—Some time since, one of my children children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered honeless. ed hopeless. At length I tried your Oint-ment and Pills, and without exaggeration the

and that is done by supplying additional ni-trogen in the aliment of the plant. Car-bonic acid and water are the chief sources

| Care of her legs and restored her constitution
| Care able to walk about with ease and comfort.
| Several other persons in this noighbourhood the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully,

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE.

Copy of a Letter from Messrs Walker and Co, Chemists Bath. To Professor Holloway,

Ammonia is produced by the decay of animal substances. In this way it is that the application of manures is so beneficial to plants;—by the supply of ammonia furnished, which being digested in the plantly results in a separation of introgen, which enters in the tissue of plants and produces their nutritive quality.

Ammonia is readily obsorbed by water and the rain or dew becomes impregnated and the rain or dew becomes impregnated by the assistance of her friends was enabled. by the assistance of her friends was enablea to persevere in their use, until she received a perfect cure. We have ourselves been greatly astonished at the effect upon so old a per-son she being about seventy years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful ease, either personally or by letter. We remain, dear Sir,

Yours faithfully, WALKER & Co.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG. DEBILITY AND GENERAL IILL HEALTH.

Copy of a letter from Mr J. M. Clennell, of Newcastle-on-Tyne, dated September 20th 1552.

To Professor Hollowy.

Dear Sir, —I am authorised by Mrs Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had been a sniferer from debility, and general ill health, accompanied with a disordered stomack, and great derangement of the system. In addition to this she was terribly afflicted with ulceratedwounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Fills and Ointment, and she states, that in a wonderful short time, they flee ted a perfect cure of her legs and restored her constitution to health and strength: and that she is now able to walk about with ease and comfort. Several other persons in this noighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfolly, (Signed) John Morrox Cennell, of South Horland, long Lawn and fine in the side of the second of the system. I remain the service of the persons in this noighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

JOHN BEGNALL. Newcastle, 22ndOctober, 1852.

Azor's Turkish Balm,

THE ONLY CERTAIN REMEDY FOR BALDNESS, AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Beautifying and keep ing the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualitites are as follows:

1st—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d—It causes the hair to curl beautifully when done up in it over night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is uneversally used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost uneversally known and used for the hair. Hence a case of baldness to thin head of hair is entirely unknown in that country. We wish but one trial to be made of it; that will do more to convince you of its virtues than all the advertisements that can be publish. country. We wish but one trual to be made of it; that will do more to convince you of its virtues than all the advertisements that can be published, and that all may be able to test its virtues, it is put up in Large Bottles at the low price of 50 cents per pottle,

Remember the *genuine* has the signature of Coustock & Brother on the splendid wrapper. TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof, Hoofbound Horses, and Contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c. on horses.

CARLTON'S RING BONE CURE.
For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES

CARLTON'S CONDITION POWDERS FOR HORSES

AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflamation and fever loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glan's, and therefore they have the same effect upon the Horse, the Cx, the Ass, and all Herbivorcus animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. CAUTION.—Remember and take no other.

CARLTON'S articles for Horses and cattle.

CARLTON'S articles for Horses and cattle

CARLTON'S articles for Horses and cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen stage preprictors and others with the most marked and decided succes.

CAUTON.—None can be genuine, unless you find the name of J. Calton Comstock on the Wrapprr of each article. Remember this, as their articles have been extensively counterfeided of late, look and find the proprietors name, J. Calton Comstock, &c., never buy without.

Cauton —All the labove named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Broady and Vesey sts., one door from Broady and Vesey sts., one door from Broady and New York, to whom all orders must be directed, also only by Wm. Forbes and Wm. Muirhead, Chatham. Wm. Masson & Co., George Watt, and M. Sargeant, Newcastle. Park & Alexander, Douglastown. And by Agents in eaery town in New Brunswick.

Old Rheumatic Affections

CAN BE CURED BY THE

CRAMP AND PAIN KILLER. Den. Henry Hunt was cured of Neuralogy or Sciatic Rheumatism, after having been under the care of a physician six months. The Cramp and Pain Killer was the first thing that afforded him any relief.

David Barker was onred of a Rheumatic Pain in the Knee, after three or four days and nights of intense suffering, by one bottle of the Cramp and Pais Killer.

and Pain Killer.

and Pain Killer.

T. H. Carman—sufiering from Cramp in the Limbs, the cords of his legs knotting up in large bunches, was cured by the Cromp and P in Killer, at another time a few applications entirely cured him of an exceedingly bad Rheumalic Affection in the Back.

A venue lady fitness years of age, daughter.
