THE RAILWAY.

elip the annexec paragraphs.

Messes, Jackson, Peto, Betts, and Brassey have addressed a letter to the Commercial Bank in this City, with reference to financial arrangements on a large scale, to prevent any derangement of the exchanges, or obstruction to the ordinary business of the Province, which might possibly flow from the large monetary operations that must necessarily take, place, during the extensive milway works of every description they propose carrying on in New Brunswick in the year 1853, and probably during many succeeding

years. We have seldom had the good fortune to lay before our readers more substantial and satisfactory information of an authentic cha-racter, than we have this day the gratification of submitting to them. We congratulate the whole Province on the favourable prospect new epening, and on the aimost absolute cer-tainty of a speedy developement of a long career ces, and the commencement of a long career which is of subsequent prosperity. EXECUTIVE COUNCIL.

It is currently reported in our exchange papers from the other side of the Province, J. Mackie, Foreman George Watt that the Hon. JOHN MONTGOMERY, one the representatives for the County of Resti-gouche, is to be called to the Executive Council, to fill the vacancy occasioned by the death of the Hon. Alexander Rankin. Judging from the spirit that is now awa-kened in Restigouche, we cannot think that Mr. M. consults the wishes of his constituents, or of his own popularity, by joining himself to the present administration.

CANADIAN LEGISLATURE.

THE Legislature of Canada resumed its sitting on the 15th inst. Several import-ant Despatches from the Colonial Office was laid before them. See Colonial head.

NOVASCOTIA LEGISLATURE.

THE Select Committee on the Railroad. it appears, have reported in favor of the scheme introduced by the Government. It was decided by the casting vice of the Chairman-Mr. Howe.

P. E. ISLAND. THE Legislature of this Island was opened for the despatch of business on the 10th instant. The most important questions noticed in His Excellency's Speech, are those of the Currency and Fishery. He also recommends to their notice the Electrie Telegraph Company, through whose exertions the Colony has been brought into connection with the main land, and will shortly be so with Newfoundland. The Revenue for the past year shows an in-crease of £8,500 over the preceding one, and in view of this circumstance his Excellency recommends a reduction of the duty on tea and some other articles.

MEETING OF THE LEGISLA. TURE.

OUR Legislature was opened on Thurs-day last. The Speech of his Excellency on the occasion, was received here by Tele-graph on Friday tight, and will be found under that head. It does not embrace any matter of special importance.

In speaking of subjects which should be brought under the notice of the Legislature, the Editor of the Morning News says :

There is the Fishery Question this winter How is that to be dealt with ? Will the Legislature defend us, not against the encroachthey tell him that although he may have the vish of Newcastle. e treaties 1 to make them for his own benefit at our exrense? The weather during the last fortnight has been very changeable. We have had se-vere frost, heavy falls of snow, rain, and bright sunshine. A Correspondent writing from New Carlisle under date of February "The three first days of last week was beautiful sunshine, clear and warm as in

April : since then we have had a continuation of rain which has so much reduced the previous deep snow that the fields in many parts are quite bare-to night we have sharp frost and sleet."

The same writer under date of February 19th, says: "We have had a succession of storms."

LEGERDEMAIN.

On Tuesday evening, Prof. Baldwin en-ertained a large audience at the Hall of the Institute with some exceedingly amusing and inexplicable tricks, which appeared to give much satisfaction, and to excite the interest of all present in a remarkable degree. Mr. Baldwin is one of the most clever magicians of the day, and all who go to wit-ness his experiments will come away per-fectly satisfied that he is a performer of no ordinary ability.—St John New Brunswicker.

In the Dispatches which will be laid before you, you will find certain remarks on the Bills themselves, to which I solicit your at-leution, it is possible too that some measures may betaken by you for the purpose of en-couraging and regulating Emigration in connection with this enterprise.

You may deem it expedient in your pre-sent Session, to consider the general manage-ment of the Roads throughout the Province. Mr Speaker and Gentlemen of the House of Assembly, I rengratulate you upon the prosperous state of our Provincial Revenue, there has been an improvement in almost every branch of secenpts, and the whole aspect of our finan-ces plumise well for the future progress of New Brunswick.

At the same time the liabilities which we are about to incur in promoting the execution of great Public Works will suggest great caution and economy in dealing with our ordinary expenditure.

M: Speaker and Gentlemen of the House of Assembly,

You are well aware of the means taken by Kou are well aware of the means inkent by Her Majesty's Government in the last season for the protection, of, our Fisheries. You have heard also, that her Majesty's Ministers are anxious to effect such arrangements with the Government of the United States as may conduce to greater freedom in Commer-cial intercource, with our neighbours. The Provincial Government has not been unmind ful of the importance of these questions or the interests of our people. The pending state, however, of any negotiations, would render it impossible to afford detailed information, or to legislate with advantage, at the present time, upon this subject.

Apprehensions have been expressed lest the interests of New Branswick should be over interests of New Brinswick should be over-looked in carrying out any such airangements. I am happy in being able to inform you can the best authority, that the prosperity of the North American Provinces is one of the main objects which Her Majesty the Queen has, in view, and that in any adjustment of the Fishery Question, the interests of New Remember Will be compiled provided Brunswick will be carefully considered,
