#### AGRICULTURE.

AGRICULTURAL ECONOMY.

Do our agriculturists study economy as attentively as they ought to do? .I do not mean economy in the ordinary sense-in expenditures, saving every cent they can, and stinting supplies. I mean the economy of management. True economy adapts means to ends, applying no more or less of the one than is necessary for the com-pletion of the other. For example ten acres of land well prepared and thoroughly illed, will produce five hundred bushels of corn. The economical farmer, there fore who intends to produce that amount of corn, will not use twenty acres of poorly prepared, and badly tilled land, to accomprepared, and badly tilled land, to accomplish it; because the same amount of crops will require more labor on twenty acres, in plowing and tilling however imperfectly performed, than it will on ten acres, however well it shall be tilled and prepared. Again if a farmer have an hundred loads of manure only, if he study economy, he will rather apply it all to a small piece of land and thus manure it well, than to a large piece, and thus manure it very imperfectly; because in the former case, it will require less labor to produce a given amount of crops, than in the latter. Again a farmer that has given amount of manure, will apply it in sufficient quantity to as much land only as it will supply with sufficient fertilization, and thus, by annually improving a small piece, at length render will apply it in sufficient quantity to as much land only as it will supply with sufficient fertilization, and thus, by annually improving a small piece, at length render the whole fertile. So, the owner of a large tract of land will attempt to cultivate only just so much of it as his forces can cultivate thoroughly. Two farmers each with the same number of acres and the same amount of labor, shall show very different balance sheets at the end of the year, the one footing up \$1,000 profits, and the other \$500, simply because the one studies economy in the application of means to ends, and the other takes no thought of the matter. One great fault of many farmers may be

found in a peculiar passion for large fields. How much wheat will you put in this fall? 250 acres, 500 acres, &c. The question should be, how much wheat will you produce this year, and the passion should be for the large yield, instead of the large surface seeded. The New-England farmer differ from our middle and northern state farmers in this. The former study economy in all things. They cultivate no more land than they can cultivate well. They do not weaken the result of their forces by diffusion, but strengthen them by concentration.

There is much want of economy also and much loss, in not closely attending to times and seasons. We continually hear farmers and seasons. We continually hear farmers complaining that they have not yet got their land prepared for fallseeding, and now the weather will not admit of its preparati-on; one has not finished planting his corn yet; another had not secured his harvest before the rain set in, and it is beginning to sprout. As a general rule there is a time and season for every thing to be done on a farm, and those who are late in any thing must expect to suffer the consequences. To study the economy of times and seasons is as much a part of the science of agriculture, as the proper adaptation of means to ends; and both are as necessary to success in farming, as a correct application of skill in mechanics is necessary to success in in mechanics is necessary to success in any mechanical employment. Many of our farmers seem to sleep all winter, wake up in the spring, late or early, as it happens, and go to work when the humor moves them, without system or forethought, go ahead as chance may lead through the summer, and in the fall grumble at the failure of crops from unfavorable seasons. If any one takes this to himself let him -I mean it for him.

#### SHELTER FOR FATTENING STOCK,

At a late discussion by the members of the Highland Agricultural Society, in reference to the winter management of stock designed for slaughter all the speakers agreed that it was most economical to shelter the animals—that this mode effected a saving of food, and at the same time there a saving of food, and at the same time there was a greater gain of meat. The extra gam is doubtless owing the food which would be consumed in keeping up the newould be consumed in keeping up the necessary warmth of the animal under expossions. by the assistance of her friends was enabled to persevere in their use, until she received a the animal is placed in a genial temperature. One of the speakers, who had fattened many cattle, said his rule was to keep them in such a degree of heat, that tened many cattle, said his rule was to keep them in such a degree of heat, that their skins when touched felt damp with perspiration, but not so warm as to make the perspiration run from them. A simi-liar rule has been adopted by successful feeders in this country.

## SOWING WHEAT THICK.

The Michigan farmer informs us that Gen. Williams of Lima, in that state, has been in the practice of sowing two bushels of wheat to the acre the effect of which is small straw, always bright rarely or never liable to rust, and increased product—and that others had observed a simi-

### ADVANTAGES OF DRAINING.

Edward Brooks of Boston, stated at one of the agriculture meetings, that after thoroughly under-drained a piece of wet ground

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr Hird, Draper, of Keady, near Gainsbro', dated March 1st, 1853.

To Professor Holleway,
Sir—Some time since, one of my children
children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physivice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration the effect was miraculous, for by persevering in use, all the eruptions quickly disappeared and the child was restored to perfect health.

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have

complaint and I firmly believe usual in accase adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

(Signed) J. Hird, Draper.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG. DEBILITY AND GENERAL ILL HEALTH. Copy of a letter from Mr J. M. Clennell, of

Newcastle-on-Tyne, dated September 20th 1852.

To Professor Hollowy. Dear Sir, -I am authorised by Mrs Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had been a sufferer from debility, and general ill health, accompanied with a disordered sto-mach, and greet derangement of the system. In addition to this she was terribly afflicted with ulcerated wounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this dis-tressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderful short time, they ffected a perfect cure of her legs and restored her constitution

JOHN BEGNALL. Newcostle, 22nd October, 1852.

Azor's Turkish Balm,

THE ONLY CERTAIN REMEDY FOR BALDNESS, AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Beautifying and keep ing the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualitites are as follows:

1st—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d—It causes the hair to curl beautifully when done up in it over night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is uneversally used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost uneversally known and used for the hair. Hence a case of baldness ro thin head of hair is entirely unknown in that country. We wish but one trial to be made of it; that will do more to convince you of its virtues than all the advertisements that can be published, and that all may be able to test its virtues, it is put up in Large Bottles at the low price of 50 cents per pottle,

Remember the genuine has the signature of Comstock & Brether on the splendid wrapper.

Remember the genuine has the signature of Comstock & Brether on the splendid wrapper.

TO OWNERS OF AND DEALERS IN HORS

For the cure of Founder, Split Hoof, Hoofbound Horses, and Contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks,

CARLTON'S RING-BONE CURE.

For the cure of Ring-Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES.

AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and simuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflamation and fever loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivoreus animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. CAURION.—Remember and ask for CARLTON'S CONDITION POWDERS, and take not other.

CARLTON'S articles for Horses and ca'tle.

ily cured by them. CAUTION.—Remember and ask for CARLTON'S CONDITION POWDERS, and take not other.

CARLTON'S articles for Horses and ca'tle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety.nine cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen stage p eprictors and others with the most marked and decided succes.

CAUTION.—None can be genuine, unless you find the name of J. Calton Comstock on the Wrapprr of each article. Remember this, as their articles have been extensively counterfeited of late, look and find the proprietors name, J. Calton Comstock, &c., never buy without.

Caution.—All the above named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door fom Birclay and one block from Broadway, New York, to whom all orders must be directed, also only by Wm. Forbes and Wm. Muirhead, Chatham. Wm. Masson & Co., George Watt, and M. Sargeaat, Newcastle. Park & Alexander, Douglastown. And by Agents in eaery town in New Brutswick.

## Old Rheumatic Affections CAN BE CURED BY THE

CRAMP AND PAIN KILLER.

Den. Henry Hunt was cured of Neuralogy or Sciatic Rheumatism, after having been under the care of a physician six months. The Cramp and Pain Killer was the first thing that afforced him any relief.

David Barker was enred of a Rheumatic Pain in the Kney, after three or four days and nights of intense suffering, by one bottle of the C. amp and Pain Killer.

The Subscriber gives potice that the CHATHAM AUCTION ROOM, will be opened every day for the reception of Goods and Articles, for Sale at Auction, or private Sale, on Comm ssion.

Limbs, the cords of mategs know mig up the arge bunches, was cured by the Cromp and P. in Killer, at another time a few applies itns entirely cured him of an exceedingly bad Rheumalic Affection, in the Back.

A young lady, fifteen years of age, daughter of John W. Sherwood, was long afflicted with Spinal Complaint, after being reduced to the verge of the grave, was cured by the Cramp and Pain Killer.

John Buckman, after having suffered everything but death from Rheumatism, which seemed to prevade almost every part of the body, was cured by the Cramp and Pain Killer.

Mrs Davis was cured by it of Bilious Cholic A man in Portland was cured by it of Bilious Cholic when his wife was well nigh despaired of. Hund eds have been relieved by it of tooth ache, ague in the face, &c.

### MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her SOOTHING SYRUP.

FOR CHILDREN TEETHING.

For the Nervous Affections, Convulsions, Fever, Inflamation of the Bowels, &c., that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother, and Relief and Health to the mfant. A child on Congress Street was cured by the Soothing Syrup, of Infantile Dysentery or Diarrahea, after being given over by the attending Physician.

Physician

Mr Blackman, of Eddington says, it has never failed to Cure the Dysentery or Diarrhoca in children whenever used in the village.—

Lots of it is sold.

One parent informs me his child had suffered to an alarming extent with Flatulence or Wind Cholic. Lately they have used the Soothing Syrup, and it always effects a speedy cure. Hundreds of like instances might be enumerated. In every town when the standard of the control of the standard in every town when the standard in the standa ated. In every tewn where it has been sold Mothers try it.

#### ALSO FOR SALE, THOSE PURE Wild Cherry Bitters,
