

for the railway from the Marsh to Hammond River, which will avoid the long and expensive detour by Gondola Point.

To THE SUSPENSION BRIDGE.—It will be seen by a notice in another place that a Stage is in future to run regularly over the Suspension Bridge.

ADVERTISING.—The vast improvement in business during the past two years, has given a great impetus to advertising.

Yet this calculation is much within bounds and should we enlarge our paper as it is probable we will, the estimate would be much higher still.

Yearly Advertisement.—Four Pounds per annum, exclusive of the paper—the paper included £4 12s. 6d.

Each advertiser is entitled to 40 lines of space in any one paper (including advertisements) or rather the space which 40 lines of ordinary small type will give.

Beyond 40 and not exceeding 50 lines One Pound extra will be charged; and so on in proportion according to increased length, whether continued for a short or long period.

The prices charged to advertisers up to this date, will continue without alteration excepting so far as the length is concerned. Nor will an extra charge be made for advertisements already in the paper; the rule will only apply to advertisements handed in from this date—renewals or otherwise.

UNITED STATES.

LOSS OF SHIP AMULET, OF BOSTON, AND FIFTEEN LIVES.—Capt. Setzer of the ship Annawan, which arrived at Boston on the 3d inst., from New Orleans, reports having picked up on the 31st ult., at 4 o'clock, P. M., latitude 40 25, longitude 71, a boat containing Capt. Paul Howes, Thomas S. Howes, first mate, Robert B. Ford, second mate, and John Williams, third mate of the ship Amulet, from Cete, of and for Boston with Capt. Howes reports that the Amulet sprung a leak about 12 o'clock night of 27th ult., in a severe northwest gale, and finding that both pumps would not free her, ordered the boats over. He, with his officers took one boat, and the crew were to take the other two, but he supposed that they were stove in getting them over, and he led by to take them off, but found it impossible to do so in consequence of the very heavy sea.

CANADA.

RAILROAD TRAVELLING.—We understand that the trains of the Champlain and

St. Lawrence Railroad, notwithstanding the severity of the weather, have been running with the greatest regularity.

The starting and arrival of the trains, before our eyes, from the opposite shore, three times daily, taking our produce, and bringing supplies for our merchants, as well as affording safe and rapid transport for passengers, is enlightening and most encouraging to those who take any interest in the prosperity of our city and country.

SUNDAY'S MAIL.

The following slip from the office of the British North American, is the only information we obtained by this mail, in reference to the arrival of the Arabia at Halifax:

"Steamship Arabia, at Halifax, this day, Thursday, January 13th, at 4 o'clock. She has 48 passengers—among them Sir Allan McNab.

The New Minister, had been formed and was becoming settled in the saddle of power."

UNITED STATES.

Baltimore, Jan. 3.—There were twenty-two deaths by Cholera at Charleston last week—nine whites and thirteen negroes.

Washington, Jan. 3.—The steamer Engineer has arrived here from Norfolk, for the purpose of conveying Mr King to that place, whence he will take the steamer Fulton for Havana, the latter vessel having been expressly fitted up for his accommodation. He will leave on Wednesday if able.

Washington, Jan. 6.—Intelligence of the sad accident to General Pierce and family caused great excitement here this evening, and a universal feeling of regret and commiseration.

Louisville, Jan. 7.—The Steamer John Simons left this afternoon for New Orleans. When rounding out from Portland, three miles from this city, one of her flues collapsed and scalded 26 or 25 persons, 12 are already dead.

New Orleans, Jan. 7.—The steamer Daniel Webster arrived to-day, with San Francisco dates to Dec. 15th.

Heavy rains have flooded the interior. A large portion of the city of Shasta was destroyed previous to Nov. 28. Loss \$100,000. There is but little doing at the mines in consequence of the floods.

Dates from China are to Oct. 5th. Nothing important.

WEST INDIES.

Bermuda.—By the mail packet Ospray, at Halifax from Bermuda, we have received papers to the 30th December.

The Bermuda Herald understands, on the authority of letters received from England, that His Excellency Governor Elliot will shortly resume the government of these islands.

We are glad to learn that the fever was abating at Barbadoes, though there was still some deaths occurring.

The deaths from fever at Barbadoes amongst the Europeans and natives have been most alarming. Commissary General Neill and his family have been swept away by it.

Captain Henry J. Matson, of Her Majesty's screw steamer, Highflyer, has died at Trinidad of fever. His remains were consigned to the grave with the customary honors due to his rank.

From the Bahamas we learn that the Cholera has made fearful havoc. It is estimated that in July and August last one eighth of the inhabitants perished. Dr. Irwin was at Nassau and measures had been taken to combat the disease. A riot had taken place at Eleuthera, in consequence of a magistrate having endeavored to land there, whom they imagined would introduce the disease among them.

A letter from St. Jago de Cuba, Dec. 18, states that since the 15th of October last that city had lost, by cholera alone, at the least, one-tenth of its population. Business was dull, but little doing among the shipping, and the few cargoes recently arrived from the United States scarcely met with sale at any price.

NEW BRUNSWICK.

The Winter at Sea.—The New York Courier gives a list of the bad passages and disasters to steamers this winter, observing that "While the winter on shore has been one of the mildest ever known, at sea tremendous gales have swept the ocean, rendering the efforts of the most powerful steamships to make headway against them almost ineffectual. The steamers which left England during the month of December, suffered most severely."
